The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

"BUY A BUDDY POPPY?" — Mrs. Norman Sisty, left, Mrs. Kennard Wise and Mrs. Walter Mueller prepare for the Buddy Poppy sale of the Veterans of Foreign Wars this weekend. Gaza Kish is chairman for the Hall-Slater Post with Mrs. Sisty, chairman for the Auxiliary. Since the money received from the sale is used for the rehabilitation of veterans and their families, these ladies and the other members gladly donate their time to ask area residents on the streets, "Won't you buy a Buddy Poppy and wear it proudly " Mayor Harold Easton has added his support by signing a proclamation urging citizens to support the project by contributing generously. "Honor the dead by helping the living."

School Millage Up; Officials Opposing Allocation Board

Tecumseh's School Board was expected to approve either nine or 10 mills for the June 10 ballot at a special session Wednesday night.

Although the amount of millage will be the largest in many years, most of it will, in effect, be a renewal of expiring millage.

An increase in taxes would range from about 1.5 mills to 2.5 mills, if approved by the electorate.

Expiring millage for operation and bonds exceeds nine mills. However, the new Sutton elementary school has necessitated the Board to bond the district for about 1.5 mills.

Wednesday night's decision was to be a tough one for the Board, due to the fact that the Tax Allocation Board has decided to give the county an additional .7 mill this year.

If the School Board felt Wednesday evening that the allocation board would rescind its action this Thursday morning at a public hearing, a probable nine mills for the local schools would be approved. Since May 15 was the deadline for approving millage, the Board here could not wait for the allocation board's final decision.

The .7 mill loss could cost Tecumseh schools approximately $35,000.

School officials, including Supt. James McDowell and Robert Duhan, met in Adrian Monday morning to plan opposition to the allocation board's decision to take .7 mill from the schools.

Another meeting was held here Tuesday afternoon with local supervisors, school administrators and School Board members. The protest at today's allocation board meeting promises to be the biggest ever made by school authorities.

It is scheduled in the courthouse at 9:30 Thursday morning.

Supt. McDowell says county schools will attempt to end the county's raiding of school millage this summer and eliminate the need of a Tax Allocation Board.

Officials are preparing petitions for having the county electorate freeze the 15 mills at 8.7 mills for the schools; one mill for the townships; .3 mill, Intermediate School District; and 5 mills, county.

In recent years, the Tax Allocation Board has gradually taken more and more millage for county operations, reducing the amount of monies given to the schools.

Often, schools will ask voters for a certain amount of millage necessary for operation, have it approved at the polls, and then have the Tax Allocation Board reduce its millage for the schools.

Since the Board of Supervisors control the Tax Allocation Board, the county is asured of plentiful funds without going to the people at an election.

With one exception, Supervisor John Keller of Jasper, all members of the allocation board are from Adrian. Adrian schools, largest school district in the county, are allowed one representative.

Usually, the Adrian school official and Milton Porter, county superintendent, are the only two of the six-member allocation board favoring the area schools.

Tecumseh, second largest school district, has not been represented on the allocation board for over 20 years. Judge Maurice Spear of Adrian appoints two members each year, and he apparently favors Adrian residents.

DEDICATED LIBRARY — Allan Seager, author and professor, served on the Library Board when it was dedicated here in 1962. He later served in an advisory capacity in selection of books. At the time, he was a trustee of the Community Fund Foundation which spearheaded a drive for a new Tecumseh library.

City Dump To Be Closed

Health authorities have notified officials here that the city dump must be closed by Oct. 1.

What step Council will take, if any, will probably be learned next Tuesday night. Regular session has been set back from Monday evening since several councilmen will be attending activities in Riverview.

Tecumseh Township voted Monday night to cancel its agreement for use of the dump, effective June 1. The township had been paying the city at the rate of $1,200 a year for its residents.

These residents now will have to depend on services of M. H. Weaver, trash and garbage collector from Onsted.

Youths Fail To Register Complaints

Police Chief Murell Clark reported to Council Monday night that no sworn complaints had been received against two Tecumseh police officers.

Last week, several complaints were voiced at a Council session, accusing Patrolmen Roy Hella and William Meni of verbal and physical abuse. Most of the complaints were registered by youths.

Council advised the youths to report and make sworn statements with the city attorney, James Beardsley. One such statement was made, but reportedly not signed.

City officials said conduct unbecoming of police officers would not be tolerated, but wanted sworn statements before taking any action.

Statements made at last week's Council meeting by the youths, conflict with police reports of incidents, mostly involving disorderly and drinking cases.

$800 Base Increase OK'd by Teachers

Weeks of negotiations ended Monday night when the Tecumseh Education Association approved a one-year salary contract with the Board of Education.

The new contract calls for an $800 increase in the base salary for teachers with degrees and hikes in fringe benefits.

Next fall, teachers' base pay will be $6,500, instead of $5,700, and new benefits will include:

- $25 per day instead of $20, for substitute teachers.
- $20 per month, instead of $15, for medical insurance.
- $1,200 per school year, instead of $1,000 for an extra class.
- Allowance of six years instead of five years for outside teaching.
- Accumulation of one day per year for personal business, instead of just one day per year.
- Payment of $12.50 per day, instead of $10, for all accumulated leave days for teachers leaving the system after three years.

Supt. James McDowell and Robert Duhan, assistant superintendent, estimated the package to cost about $210,000.

The TEA is known to have asked for considerably more, and the Board considerably less. Agreement was approximately half way in what each wanted, but the new salary schedule is comparable to many reached this spring by teachers and boards in other districts.

Under the new schedule the salary ranges will be, with Bachelor of Arts degrees, $6,500 minimum, $9,750 maximum; Masters, $7,150 minimum, $10,400 maximum; Masters plus extra hours, $7,475 minimum, $10,725 maximum; and teachers with specialist degrees, $7,800 minimum, $11,050, maximum.

Teachers will reach maximum levels in 11 years, and then receive $250 increments every five years thereafter for 20 years.

Although the TEA ratified the contract Monday night at a special meeting at the high school—vote was 75 for, two against — the Board had approved the agreement last week.

Negotiations were kept secret throughout the meetings of the TEA and Board bargaining teams.

Agreement Is Approved

Tecumseh Township Board approved an agreement with the city for a right-of-way through township property to a proposed well field, north of the city limits.

City officials had sought the agreement for several months, but the township had refused to sign it. Township officials said their attorney had advised them not to sign, and also they were afraid that it would be used in a condemnation suit against George Underwood, Clinton car dealer.

Mr. Underwood owns the well field site but does not want to sell.

The trial date, postponed twice, is scheduled next month.

Club Sponsoring Public Forum For Ed. Center

The Kiwanis Club of Tecumseh is sponsoring an open forum for the discussion of the proposed Vocational - Technical Education Area Center for Lenawee County. The proposition goes on the ballot June 10 for the voters approval.

Dr. Sid Adams is the chairman of the Kiwanis committee which is making plans for the event to be held on June 4 at the Community Center.

William Ross, county vocational director and James Brown, also of the county office, will be on hand to answer questions that might arise concerning the proposed center.

Also planning to attend the meeting are members of the county committee which has been seeking community participation in the project.

Dwight Helms, Rev. Julian Gresham, Harold Easton and Rev. B. O. Bashore are members of the committee from Tecumseh who plan to be on hand to answer queries from interested citizens.

VISITING MAYOR — James L. Jones, mayor of Riverview, will be the visiting mayor in Tecumseh during Michigan Week. Mayor Jones has been mayor since 1961. He is a purchasing analyst for Detroit Edison. He is married and the father of four girls and one boy. He has been active in scouting, the YMCA and other organizations as well as being an officer in the Michigan National Guard.

3 Hurt, 5 Cited in Accidents

Only five accidents were investigated here by the Tecumseh police during the past week with two motorists and one passenger suffering minor injuries.

A resume is:

May 9 — Fred P. Kachur, 20, of 402 Outer Dr., operating the city's street sweeper, was arrested for failure to yield the right of way after running into Marie M. Creger, 43, 804 S. Union, at the intersection of S. Ottawa and E. Kilbuck. Mrs. Creger suffered bumps and bruises.

May 11 — Robert Lenheiser, 20, 1018 River Acres Dr., was cited for failure to control his car after hitting a parked car, owned by Joseph Schneider, 42, 1009 River Acres Dr.

May 11 — Kenneth D. Connair, 60, 304 Outer Dr., was arrested for failure to yield when he pulled off S. Pearl St. into the path of an auto driven by Lois C. Shaw, 34, 702 S. Union. Mrs. Shaw's two-year-old son, John, suffered minor injuries.

May 1 — Gary R. Janofski, 20, Manchester, was cited for violation of the basic speed law when he slid into a car operated by Alice G. Johnson, 51, 212 N. Union, at the intersection of N. Ottawa and E. Logan Sts. The Tecumseh woman, who was charged with failure to yield the right of way, was taken to Herrick Hospital by ambulance.

May 10 — Shirley Creger, of Adrian, reported her car damaged by unknown party while parked on Blood Rd. The investigation revealed, however, that she probably backed into a tree there.

Services Are Held for Allan Seager

Funeral services were held Monday afternoon at St. Peter's Episcopal Church for Allan Seager, 62, one of the community's most prominent and respected citizens.

He died last Thursday morning at Herrick Hospital, following several years of failing health. Death was attributed to lung cancer.

Mr. Seager was a man of culture—professor of English at the University of Michigan, a Rhodes Scholar, and one of Michigan's finest, most distinguished writers.

Just three years ago he was selected by the Guggenheim Foundation to prepare a biography of Pulitzer Prize poet, Theodore Roehke. The two had been close friends, and Mrs. Roehke requested the Tecumseh author to write her husband's biography.

Publication of Mr. Seager's biography of the late Mr. Roehke is due for release in October.

Several years ago he was a prolific writer with many of his articles appearing in the Saturday Evening Post, Esquire, New Yorker, Atlantic and other magazines.

His novels, often hinting of life of his hometown here, included "Equinox," "Amos Berry," "Hilda Manning," "The Inheritance" and others.

In 1964, "A Frieze of Girls" was published and included a collection of short stories he had written previously.

Mr. Seager was a former trustee of the Tecumseh Community Foundation, a position he resigned in April, 1965, to accept the Guggenheim Fellowship.

At one time he was a member of the Library Board and later served in an advisory capacity in regards to selection of books.

Mr. Seager was born in the Onsted area and reared in Adrian.

He graduated from the University of Michigan, then later at Oxford, England, where he earned a master of arts degree. He taught in the English department at Bennington College before accepting a position at the Ann Arbor university in 1945.

In his undergraduate days at U of M, he was an instructor and developed into a fine swimmer. In the 1920's, he was a member of the United States Olympic swimming team.

Mr. Seager's first wife died here December, 1966. In March he married a former student, Joan Ranbo, while a patient in St. Joseph Hospital, Ann Arbor.

Survivors also include two daughters, Mary, of New York City, and Laura, recently a student at London, England.

The Rev. Frank Hawthorne officiated at the service. Dunn Funeral Home was in charge of arrangements.

Budget Approved

Council approved a new 1968-69 budget Monday night at a special meeting.

The budget calls for an anticipated income of $935,117 and expenditures of $915,179.

Biggest Parade Here May 22

Tecumseh's biggest parade, with the possible exception of the annual Memorial Day parade, will be held here next Wednesday afternoon at five o'clock to kick-off the opening of the Rotary Club's Safety-Check Lane.

The Safety-Check Parade will highlight the observance of Michigan Week, which includes a visit next Wednesday by the mayor and officials from Riverview.

Tecumseh's Mayor Harold Easton and Councilmen Dr. Carlton Cook, George McCombs and Ray Puffer, and their wives, will be guests of Riverview on Monday.

Following the parade and opening of the safety-check lane, Tecumseh's Michigan Week banquet will be held at S. Elizabeth school. Reservations may be made with Karen Morgan, phone 423-2462, who is chairing the week's activities for the city.

Rotary officials are anticipating six bands marching in the giant parade. They will include two from Tecumseh, Britton, Boysville and Clinton.

The parade will feature auto dealers with their queen candidates, with the winner being selected at the reviewing stand at Easton's Friendly Service; marching units, cars, trucks and other vehicles.

Fred E. Davids, Michigan State Police Commissioner, will witness the parade and will be the principal speaker at the banquet. He will also participate with Mayor Harold Easton in opening the safety-check lane.

Youngsters have been writing essays for nominating the Safety King. The winner will be announced at the reviewing stand as will the winners of the Jaycee Auxiliary Baby Contest.

Practically all of the factories, schools and other organizations have joined in Rotary's effort for a major inspection of vehicles, with some of the industrial plants holding their own safety-check lanes.

C. O. Butler is general chairman for Rotary; Walt Daniels, in charge of the safety-check lane; and Hugh Walter, publicity.

Tecumseh High School students will open Michigan Week activities here on Monday with Government Day.

Students will assume government offices at city hall.

At a recent election at the high school, Gary Easton was chosen for mayor, and Debbie Goldsberry, Jim Mobley, Karen Brown, Debbie Miller, Doug Schwartz and Janet Williams for Council.

These officers, in turn, will select other students for city manager, clerk and other positions.

JOHN SALING

Fireman Retires After 25 Years

'Twas with pride and a degree of sadness that John Saling expressed thanks for the memories to 40 firemen and their wives attending his surprise retirement party Saturday evening at Harry's Cafe.

Mayor Harold Easton, also on the Fire Department, presented a plaque to Mr. Saling from the City in recognition of 25 years of service.

Fire Chief Wallace MacGeorge presented the retiree with an axe, a badge signifying 25 years of service with the department, a gift certificate and some cashmere ear muffs to "help him sleep through the fire siren for the first few days."

Saling's retirement is not effective until May 31.

Vandals Strike Tecumseh Acres

Vandals broke into Tecumseh Elementary School over the weekend and sprayed contents of two fire extinguishers over a hallway floor.

A window was broken for the vandals to get in. Discovery of the vandalism was made early Monday morning.

You Told Us

By DOROTHY GRIGG

Herald Society Editor

Sometimes the nicest things happen without the slightest provocation. We were invited Tuesday to the interesting home of Mrs. Nicolas Dewit on Green Hwy. for a cup of coffee and before leaving, a tour of the stately old manor, previously owned by the Albert Jahns.

The Dewits, with their seven children, will be moving soon to Mendham, N. J., 40 miles west of New York City, where Mr. Dewit has accepted a senior position in Esso Research, Development and Designing for the Sun Oil Co. They have sold their home to the John Costello family of Britton.

"It's nice to know that you have sold to a family that will enjoy it as much as you have," Mrs. D. remarked as we left the living room, furnished with a multitude of treasures brought with the family when they came from The Netherlands.

One massive oak closet with two hand-carved heads of dogs, has been in the family from 250 to 300 years. The many high ceiling rooms predominantly decorated in cool greens and white are filled with antiques we seldom see the like of since they are so much older than those in this country.

It was a fascinating visit and we are sure the Dewit family will make their Mendam home as exciting as the one they are leaving here. Neighbors and friends are easily found by those who are interesting and are interested in people.

At least eight couples were among those attending the Jaycee Convention in Grand Rapids over last weekend when Robert Padgent of Detroit was named the president of the Michigan Jaycees. Those attending were the Doug Osworths, Dave Schoonovers, Ron Alberts, Larry Gerards, Dyke Helms, Walt Wonderlys, Ken Beevers and Tom Morgans and Mrs. Ric Creswell.

Mrs. Neil Pearson and son, Curtis Dolan, and Alice Johnson were Sunday guests at the new home of another son and wife, Mr. and Mrs. Gordon Pearson, and family in South Lyon. Gordon Pearson has recently been made territory manager for IBM.

His 12-year-old daughter, Kimberlee, recently placed first for the sixth grade in two divisions of the Sayre creative writing contest. Her long narrative poem, "Twas On a Winter's Eve" won a camera award for her and a short poem, "Silver", brought $5 for her efforts. She was also chosen to attend a writers' conference at Oakland University. A phone call to Mrs. Pearson from son, Richard, brought the news that he has been made a full professor at Boston University and will teach a course in the Harvard Law School this summer.

Mrs. Bert Creger spent Mother's Day with her daughter and husband, Mr. and Mrs. Ernest Clemons, and sons. In the afternoon the group visited another daughter and family, Mr. and Mrs. Howard Zimmerman and son, Mark, at Iron Creek. Mr. and Mrs. Claude Creger, Mr. and Mrs. Thomas Adams and son, Scotty, of Clinton, were also guests in the Zimmerman home.

Mrs. Helen Hayes of Batavia, O., and Mr. and Mrs. Neal Webber and children of Amelia, O., spent the weekend at the home of their cousin, Mr. and Mrs. William Schooley and family.

Mr. and Mrs. Ben Merry and family of Vassar and Mrs. William Grigg were Mother's Day guests of Mr. and Mrs. Lyle Grigg and Norman. Son, Marvin, and Coralynn Merry came from Ypsilanti.

Newlyweds Home On Shady Lane

Mrs. Louise Matheny and Worth McClure were united in marriage May 3 by the Rev. LeClare Reed and Judge Maurice Spear at the home of Mr. and Mrs. Paul Wolf, in the presence of the immediate families and a few friends.

Mr. and Mrs. Douglas Kraner of Adrian were the couples attendants.

Both Mr. and Mrs. McClure are employed at the Tecumseh Products Co. After a one week trip to Washington, D.C. and the Shenandoah Valley and the Skyline Drive, they are living at 1009 Shady Lane.

The Board of Education has received the required number of petitions to place the school building proposal on the June 10 ballot.

Barb Speerstra Initiated at IU

Barbara Tuttle Speerstra, former Tecumseh High School counselor, was among 51 Indiana University women initiated recently into Pi Lamba Theta, a national professional association for women in education.

Mrs. Speerstra will receive her doctorate degree in counseling and education in June.

Robert A. Meadows, a senior, received recognition for excellence in scholarship at the 19th Annual College of Business Honors Banquet held at Eastern Michigan University on May 7. This banquet, which honors those students having earned cumulative grade point averages of "B" or above during their college careers, is sponsored by businesses and industries in the area. He will receive a bachelor's degree in Business Administration in June.

NEWCOMERS

Mr. and Mrs. Joseph Shackett, 5808 E. Monroe Rd., daughter, **Juanita,** and granddaughter, **Cecile Marie,** 5, moved to Tecumseh from Ridgeway Jan. 1. The family came from Milan originally so that Mr. Shackett would be closer to his work at the Tecumseh Products Co. He likes spectator sports especially watching the Detroit Tigers. Mrs. Shackett likes to sew for her nine grandchildren while **Juanita** enjoys country and western music. **Juanita** started working in the cafeteria of the Fisher Body plant April 29 on her 20th birthday anniversary.

VOICE of THE HERALD

Pretty Deplorable

For once, school officials throughout the county have organized to oppose the Tax Allocation Board. Better late than never, but opposition to the allocation board is way past due.

For years we have bemoaned the fact that the county builds surpluses of funds, stashing away monies in time certificates, and all the while gradually taking more and more of the taxpayers' monies from the schools.

We hope that school officials are successful in their efforts this Thursday morning when they will oppose the allocation board's decision to take another slice of the monies intended for education.

Probably more important is the planned circulation of petitions this summer to freeze millage, assuring the schools of a fair share of the county's 15 mills.

If and when the petitions are circulated, we urge all eligible voters to sign and have the issue placed before the electorate, probably next fall.

Under the present setup of the Tax Allocation Board, it is nearly impossible for the schools to get a fair shake.

This tax board and our governing body —Board of Supervisors—should be eliminated. Even many supervisors will tell you that our system of managing county affairs is pretty deplorable.

'Safety' Is the Word

Tecumseh's annual Safety-Check Parade has become quite a show here, and many folks simply look at it that way.

The real purpose, however, is focusing our attention on safety and reducing our highway traffic fatalities. More folks are killed annually in cars than most wars claim, including Vietnam.

We realize that it is impossible to have all vehicles pass through the city's safety-check lane on S. Pearl St., but it would be reassuring if they did.

Rotary Club, which sponsors the event, cannot force you to have your automobile inspected. Folks can simply be asked and urged to do so, but compliance is up to the driver.

Your car may be safe and free of defects; however, there could be a defect which you're not aware of, and which could prove fatal on the highway.

You owe it to yourself and your family to have the family car inspected. It's free, and it's for your own benefit.

Make sure your automobile boasts the "Safety-Check" sticker!

College Student Tells Of Japan

The second and third grade Blue Birds from Tipton School had their Second Annual Mother-Daughter Tea at the home of Mrs. Leonard Gamber.

The theme for the tea was Japan and the guest of honor was Motoko Takabayash, from Tokyo, a student at Adrian College. She presented a most interesting talk on Japan, displaying her kimono, a Japanese doll, and pictures.

Hostesses were Mrs. Raymond Smith, second grade leader; Mrs. Bob Thompson, third grade leader; and their assistants, Mrs. Gerald Miller and Mrs. LeRoy Heistand.

Mrs. Hugh Gooding helped with arrangements, and Mrs. Larry McVay, sponsor, led the group in making corsages.

Table decorations made by the girls, were in the form of Japanese dolls made from clothespins.

Each girl presented her mother or guest with a clutch purse she had made.

Singing was led by the Blue Birds: Becky Buell, Cheryl Bater, Lori Gamber, Sharon Jones, Mary Manley, Shelley Thompson, Darlene Whelan, Linda Smith, Jodi Thompson, Cindy Cox, Sally Duckworth, Sandy Smith, and Theresa Miller.

HAIL TO THE VICTORS — A smiling Tecumseh Indian track team show off the trophy which they won in Saturday's relays. The team beat out five other Class B teams for the honors. Coach Tom Fagan, holding the trophy, and assistant Coach Jim Curth, in the lower right-hand corner, can look forward with optimism to the Huron League Meet to be held in Tecumseh on May 22.

'Skins Avoid Ambush

The Clinton Redskins baseball team escaped ambush again Friday when it took them eight innings to down a stubborn Brooklyn team.

After a scoreless first frame the Redskins picked up two runs in the bottom of the second. Butch Hoelzer led off with a single, Al Roberts walked. Hoelzer scored when Bill Driscoll drove a single into left field. After two out Bob Ehnis walked and Jake Schwab singled to score Roberts from third base.

In the top half of the third the high flying Eagles got one back on two walks and a single by Brian Lee. Going into their half of the inning Clinton led 2-1.

In the bottom of the third Hoelzer again singled for the 'Skins, it was a hard line drive to center field, but the Brooklyn fielder couldn't find the handle and Hoelzer rounded the bases to score.

In the top of the fifth frame the upset minded visitors tied the game up at 3-3 on two Clinton errors, followed by a single and a walk.

The pitchers then held their opponents scoreless through the next three innings until the bottom of the eighth. With two down Driscoll worked Brooklyn pitcher Scott Thatcher for a walk, Ehnis followed with a single. Sophomore Jim Claus who has supplied punch for the 'Skins this year, promptly doubled into centerfield scoring Driscoll and keeping Clinton's record at 8-1 for the season.

Hoelzer picked up the win for Clinton, striking out 11 men, Thatcher took the loss.

Clinton's record in league play is 7-0.

Redskins Go Ugh! In Tecumseh Mud

Clinton braved the weather Saturday and traveled to Tecumseh for the Tecumseh Relays. The 'Skins finished fifth among the nine Class C schools which participated in the JC-sponsored meet.

Morenci won the meet with 64 points, Madison, Ann Arbor St. Thomas and Addison finished above Clinton in the events.

Mike Jurasek picked up a second place finish in the pole vault, Anderson tied for fourth. Dave Bristol finished fifth to the wire in the 120 high hurdles. In the Tecumseh Medley, Clinton took a second place finish.

Jim Schuler placed third in the mile and sprinter Mel Pardee came in second in the 100-yd. dash. In the other relays, the 880 and the mile, the Redskins finished back in fifth and fourth respectively.

Clinton's total points for the meet were 27½.

Fore!! Ace!!

Dennis Paruch, 711 Wenonah, scored a hole in one May 5 at the Macon Golf course on the ninth hole.

He used a seven iron on the 165-yard hole and had a 40 for the round.

Golfers Suffer 1st League Loss

Tecumseh High School golf team split a pair of league matches last week, bowing to Monroe Catholic Central and defeating Airport.

The team suffered its first league loss Wednesday as Monroe CC squeaked by the Indians, 169-172, at the country club here. Roy Schlegel led Tecumseh with a 40 as John Bryan had a 43, Ralph Miller a 44, and Bill Holmes, 45.

Friday at Carleton Glen Country Club, the squad triumphed over Airport, 169-192. Schlegel was medalist with a 39, Bryan carded a 41, Holmes shot 44, and Miller, 45.

Tecumseh's over - all record stands at 10-2. The team is tied for the Huron League lead with Monroe CC with a 6-1 league record.

The Indians warmed up for Friday's Class B regional Monday as they played a practice round at Brighton's Burroughs Farms course.

GAA Bowlers Win Tournament

Wendy Cunningham was the captain of the winning bowling team in the Tecumseh Girls Athletic Association tournament.

Members of the team are Wendy Cunningham, Connie Cook, Mary Spillman and Michele Filber.

Wendy won high series of 363 and also bowled the highest games.

In the field of gymnastics many GAA members participated in the gymnastics show, "Never to be Forgotten," last Wednesday.

Wendy Luce and Nancy Hamilton were in the routine, "A Taste of Honey," Barbara Hamilton and Pat Mannino were in "Carousel," and Jan Appel was in "Love is Blue."

A complicated Charleston provided the finale.

The seventh graders, Darlene Osburn, Linda Knight, Beth Curtiss, Randa Jennings, Kim Montague, Darlene Smith, Dawn Sisson and Susan Baaske did a routine to "Love Me Forever."

GAA Tryouts

Senior Girls Softball tryouts will be held Friday at the softball diamond at 3 .m., with Mrs. Richard Wells. There is no age limit.

Bishop Will Preside At Council

In an unusual out-state meeting, the Executive Council of the Diocese of Michigan will meet Wed., May 22, at St. Peter's Episcopal Church.

Headed by Bishop Richard S. Emrich and assisted by Bishop Archie H. Crowley, the Council will meet in committees in the morning and as a total body in the afternoon.

Chairman of the Committee for Administration of the Council is Canon Allen L. Ramsay, former rector of St. Peter's Church. Assisting Canon Ramsay is the Rev. Richard Shinn, formerly a member of All Saints Church, Brooklyn, now a priest and an administrative assistant to the Bishop.

Reports of the Committee on program and the finance committee will be presented at the meeting.

A luncheon will be served the members present by the Episcopal Churchwomen of St. Peter's.

Tribe Cops JC Relays

The Tecumseh Indians did not go into the 10th annual Tecumseh Relays as favorites on their home cinders. However, when the games were over shortly after nine in the evening, Tecumseh moved its way into the winner's circle to pick up the trophy of the victors.

The relays were the strong points in the meet for the Indians. The Indians picked up victories in the Tecumseh Medley, two-mile, one-mile and the shuttle hurdles. To go along with victories in those events, pole vaulter Jim Collins, showing some of his best form, cleared the bar at 11'3" for a first in the field event. Lee Cheever finished second to Collins.

Richard Graf, running in the mud, clocked 4:57.8 to win the mile as the other first place finisher for the Tribe. Lamar Rufner placed second to Graf in the mile.

Due to the inclement weather, times in the meet were held below those set in previous meets. By the time of the finals it was wet and chilly, hampering the athletes. The weather did not keep any event from being held on schedule.

In grabbing the Class B trophy, Tecumseh outdistanced Riverview, Willow Run, Milan, Grosse Ile and Blissfield in that order.

Events and times were:

Pole vault—Collins, first, 11'3" Lee Cheever, second, 11'.

Tecumseh medley relay: Tecumseh, first; Terrel Ives, Terry Boldon, Tim Stratton, Gary Fairbanks.

2-mile relay — Tecumseh, first; John Boldon, Dave Johnson, Dave Laidlaw, John Kennedy.

Mile — Richard Graf, first, 4:55.8; Lamar Rufner, second.

Shuttle hurdle relay — Tecumseh, first, 63.3, Gus Bishop, Terry Boldon, Steven Dalton, Randy Robinson.

Mile relay — Tecumseh, first, 3:40.4, John Boldon, Dave Laidlaw, Terrel Ives, Gary Fairbanks.

Shot put — Jim Parros, second, Ken Humphries, fourth.

Long jump — Terry Boldon, fourth.

High jump — Steve Dalton, third, Terry Boldon, fourth.

Medley relay — Tecumseh second.

120 high hurdles—Randy Robinson, second; Gus Bishop, fourth.

880 relay — Tecumseh fourth.

After their impressive won on Saturday, Coach Tom Fagan can look ahead to the Huron League Meet to be held on the home cinders May 22, with added enthusiasm.

Girl Athletes To Dine With Moms

The Junior High Girls Athletic Association will have a Mother-Daughter banquet, Thursday at 6:15 p.m. in the Tecumseh High School cafeteria. A Japanese theme will be used for decorations.

Awards will be given to the outstanding girls and the new president will be introduced.

Recently the girls entertained their fathers at an activity night.

The Dads and their daughters played volleyball, had relays, worked on gymnastics apparatus, and had a basketball shooting contest.

David Dick, Junior High principal, William Luce, Dr. Richard Dustin, Mrs. Robert Kiebler, Nancy Dustin and Wendy Luce started the evening off with "back-breaking" exercises.

The theme for the Dad's banquet was Italian, with a dinner of spaghetti and meat sauce, garlic sticks, relishes and fruit.

Some of the girls entertained with skits, gymnastics and singing.

The evening was climaxed by the presentation of a bouquet of yellow roses to Mrs. Kiebler, the GAA advisor.

During regular meetings, the Junior High GAA had a basketball tournament. Hamilton's Hamburgers won the championship.

Coming events planned include swimming at Adrian, mother-daughter picnic, an activity day, and softball games.

Son Sets WMU Shot Put Record

Bill Gould, son of Dan Gould, and senior at Western Michigan University, set a school record recently when he heaved the shot put, 54'3½", against Loyola of Chicago.

The Broncos whitewashed Loyola, 135-0, in what must be one of the most lopsided track meets in NCAA records.

Bill, a 1964 graduate from Adrian High School, bested 55 feet with the 12-pound shot in his prep days.

500 Enjoy Gymnastics

More than 65 Tecumseh High and Junior High School girls participated in the gymnastics and dance show last Wednesday.

An enthusiastic audience of more than 500 watched the modern dance and intricate gymnastic routines, directed by Mrs. Robert Kiebler and Mrs. Richard Wells.

Wood Violets Given Patients At Nursing Home

Wild violets from the woods were dug and potted by members of the Flower and Vegetable Garden Club of the N. Franklin Hustlers 4-H, Saturday, at the home of Don Richardson.

The violets were dropped in foil and ribbon for the 25 patients at Herrick Nursing Home for Mother's Day.

The members who worked on the project and helped deliver them, were Greg Williams, Carl Aebersold, Joyce, Sharon, Susan Richardson, Barbara, John and Ruth Vincent. Parent advisor, Mrs. Don Richardson, and leaders, Mrs. Thomas Adams and Mrs. Claude Creger, assisted.

Kathy Munger, who had flowers for the project, was unable to attend as she is a patient in Herick Memorial Hospital, where she had surgery last week. All members are sending her get-well cards.

Our Readers Write

TO THE EDITOR:

Seeing Miss Beevers' letter in last week's Herald, we now feel brave enough to finally express our feelings. For the longest time we have sat idly by and watched Clinton and Britton get tremendous coverage of all their activities. Meanwhile, Tecumseh has gotten very little, if any. We now commend Miss Beevers for being so outspoken, and wish to add a few comments of our own.

This winter, the senior class presented "The Skin of Our Teeth," by Thornton Wilder. Although a two and a half page article was submitted to you by our assistant director and pictures were taken for publicity, we neither saw the article nor publicity. Oh, sure, there were two very minute articles, but you couldn't even get the names right. I resent being alluded to as a boy (Joe Holden).

But enough of the past. What about the present, or even better, the future? Whatever happened to the column that was formerly written by a THS student? THS has an excellent journalism department, and if it is of any significance, our school paper was chosen as one of the best in the United States. Surely one of these students would be qualified, and happy, to write such a column.

At any rate, we hope this encourages you to give more coverage of your own town's high school activities. As high school seniors, we know we will never see it, but we hope that the seniors of the future will know that the town takes pride in its school by being able to read about it in the paper.

Sincerely,
Joyce and Jill Holden.

News of Boysville

By GREG KOVACS

Wednesday, May 1, Brother Donald Kuchenmeister and Greg Kovacs traveled to Southfield for a seminar which was held at the Control Data Institute on Northwestern Hwy.

The seminar was held for editors from across the state of Michigan and the topic that was discussed was the age of computation. During the intermission, a buffet-style luncheon was served.

Gordon Cepnick, directions administrator, told of the importance of the growing need for men in the computer industry. He asked the various editors to write on this topic in their respective school newspapers to create an interest among their student body, and also that he wished to have each school that participated send him a copy of their school paper every time that it is published in order to give him an idea of the kind of program and students in each school.

After the seminar terminated, Mr. Cepnick gave each school that participated a copy of the "Mona Lisa" that was created by a computer. He also stated that he wished to have a seminar of this sort every year and if any of the schools were interested, they had a large film library that any one of them could use for the asking.

✓

Last week the annual Science Fair was held at Thomas More High School. Brother James Reisz stated that there were many good projects and the judging would be tough.

The annual Boysville of Michigan open house is scheduled for May 19.

✓

The senior class of Thomas their treasury last week from More High School divided up the money that was raised through the senior canteen and each member received $40.00.

Since the seniors had decided not to take a senior trip as was planned, it was agreed that the money that was raised for the trip would be divided among each member.

Mr. Dixon, from Dixon Studios in Tecumseh, came out to Boysville to take the pictures of the seniors for the use in the school composite. The pictures were taken on May 6 and the proofs were received on May 9.

✓

Report cards for the fifth marking period were issued last Wednesday and the students were all overjoyed to see that they only had one more marking period to go before spring vacation. This year the seniors will graduate on May 30, and the remaining students will be let out for summer vacation June 7.

An Award Winning Essay

Editor's note—Bonnie Hoover, a junior at Clinton High School, has earned a Detroit News Writing Award, for her American Literature composition, "Flexibility in a Newspaper," which is about The Tecumseh Herald and how it has changed with the times. Bonnie's parents are Mr. and Mrs. Guy Hoover, 1574 W. Michigan. Ave.

There are approximately 8,000 weekly newspapers in the United States with a combined circulation of over 28 million. The weekly newspaper plays an important role in the life of rural America, appealing to a more restricted group than does the daily newspaper. The "best" weekly paper is that which emphasizes the local news. This news, though probably not important to anyone else, is most interesting to the farmers, laborers, and suburbanites who subscribe to the weekly publication.

The Tecumseh Herald, a typical weekly newspaper, has served Tecumseh, Michigan, and several other smaller towns since 1850. The following study of this newspaper suggests the changes which other successful weekly newspapers have had to undergo.

Today we obtain our excitement and entertainment from other sources, but in past generations newspapers attempted to attract readers by providing these elements. Sensationalism, subject matter and treatment which excite the emotions of the reader or stories which stimulate unwholesome emotional responses in the average reader, was approached by The Tecumseh Herald, whenever possible. This was intended to shock the readers, and often did, though many people today are hardened to such news as was extraordinary 60 years ago. According to Julius Chambers, New York World Editor, "In every case, the successful American journal has been built upon sensationalism; but it has been found that, once established, absolute accuracy and truth are the only basis for enduring success."

A typical 1900 Tecumseh Herald example of sensationalism might read:

"Lee Rogers shot himself . . . he got up and walked to a window, and called to . . . . (two men) . . . to come upstairs at once . . .

"The sight . . . was not an inviting one. He had walked all around the room and left a trail of blood, and when found was standing over a washdish so the blood would run into it."

Descritions were given, no matter how gruesome they might have been, with editorializations adding to the sensationalism. Though there may now be competition between radio, television and some newspapers to see which broadcast outlet can produce the most chilling and nerve-shattering coverage. The Herald of today doesn't enter this competition. In former years, however, The Tecumseh Herald might have won such competition except for the fact that other newspapers were probably using sensationalism also.

The following 1889 write-up was completely illustrated, with hand-drawn sketches showing the dead bodies scattered around the room.

". . . An awful sight was before them. In a chair sat Mrs. Silvers, stone dead, having been shot through the brain . . . on the bed . . . were the dead bodies of the two Silvers girls . . .

"At the foot of the bed, but still alive, the horror-stricken neighbors found (Mr.) Silvers . . . He, too, had been shot through the head . . . It was at once apparent that (his) was the hand that had committed the crime . . . "

Newspapers could mold the public opinion more easily prior to the invention of radio and television than they can today. Readers of just one paper were limited to the set of ideas which represented the opinion of the owner of that newspaper. Today we can read a multitude of books and magazines and listen to radio, television, and movies as counter-action for any newspaper monopoly.

The press is a chief agent in forming public opinion by letting everyone know what everybody else is saying or supposedly thinking. The puritanical thinkers of the early 1900's had certain standards of social behavior which would, from time to time, be bolstered in the newspaper.

". . . Boys with hats on the backs of their heads and long hair hanging down over their foreheads and cigarettes and smutty words in their mouths are cheaper than an old worn-out shoe; Nobody wants them at any price. Men will not employ them and girls will not marry them. They are not worth their keeping to anyone, and they will never be able to keep themselves. If any boy happens to read this description, let him take a look at himself and then do what his conscience tells him to do."

Notice how similar the thoughts of many people 50 or 60 years ago, as shown in the above quotation from The Tecumseh Herald, were to the sentiments of the majority today. The Tecumseh Herald has changed physically, but its purpose, honest and staid, remains the same — bringing the local news to the people. This was the paper's main purpose even in the 1890's when local news was seated on the front page, with national news pulling "second place". Only national news and state news of aid and interest to the readers of The Tecumseh Herald was included.

The local news included in The Tecumseh Herald, as in most small-town weekly newspapers, is the continued story of a community — its births and deaths, parties, preachers and teachers, the trips people take, houses and property bought and sold, reports on crops, prices of grain and butterfat, visitors to the city, and letters from the soldier boys.

From the "good old days" to the rushed modern day, The Tecumseh Herald has adapted to the changes in peoples' interests and needs. It is a good, popular weekly newspaper; it caters to the people, not its advertisers; it places major emphasis on the local news: it does not try to compete with the daily newspaper and the newer radio and television. The Tecumseh Herald should have a bright and prosperous future as a weekly newspaper as America becomes more proud of building simple, friendly community life. The Herald must continue to fulfill the news requirements for the majority of its audience by making local news "front page", Tecumseh, Michigan, style.

Stewards of the Soil

"A Time for Initiative" is the theme for this year's Soil Stewardship Week, May 19-26, announced Maynard Minier, 9987 Monroe Rd., chairman of the Lenawee Soil Conservation District, today.

The annual national observance, sponsored by the National Association of Soil and Water Conservation Districts (NACD), focuses attention on man's obligations to God for the care and wise use of the natural resources He has entrusted to man.

"Today, clean water and air, along with trees and soil, are taking on a new meaning," said Mr. Minier. People are discovering these resources are not only limited and vital but vulnerable to fouling, waste and ruin. They are awakening to the needs for better stewardship. On all sides there is a new climate for conservation.

This is the ideal behind the theme drawn up by the interdenominational Soil Stewardship Advisory Committee and NACD, explained Mr. Minier. The advisory committee works with the NACD in developing the annual theme and materials that are made available to churches, laymen, or any group interested in initiating some form of Stewardship activity.

The theme emphasizes that now is the time for initiation — for action, innovation, trial runs, and exploration. It is a time for ideas, a time to assess problems and prospects, and a time to identify alternatives.

The Lenawee SCD is promoting this event by furnishing literature to the ministers regarding the Conservation of our natural resources.

Through My Window

BUSY, BUSY, BUSY

It is that time of year again — and how marvelously exciting! Mother Nature springs things on us at such a fast and furious pace that who can even begin to keep up to date. I become all involved and wrapped up in one thing and then something else happens. Spring must be my favorite season.

Is it my imagination or is Tecumseh prettier than ever these days? The forsythia has gone, the magnolia trees have dropped but the town is still blooming — dogwood trees are lovely, the apple and cherry blossoms lasted so well and the brilliant flowering crab trees have never been so full nor so luscious a color.

In our wildflower garden, the snowy white trillium blossoms are taking on a lavender hue and this may well turn out to be the year that the Duncans were overwhelmed by their ferns—in their fiddlehead stage they are huge, what size will they be by midsummer — wow!

★

BUT FLOWERS, blossoms and leaves are not the only things which are happening. The bird business is tremendous. Six blue jays are flashing about these days. The showing off for girl friends, fighting to establish territorial rights and eating creates all sorts of good looking; screaming at cats, telling off rivals, and tender love-talk to prospective mates creates all sorts of good listening.

The cardinal picture is a bit quieter. The whistling is loud and clear but it is nicer than the bluejay's ruckus. And how we do enjoy Papa Cardinal's courting tactics.

Two handsome males have selected their ladies and are bringing them to our sunflower seeds and corn. Only the best are suitable and often three or four seeds will be tested before Papa finds one good enough for his mate.

The yellow - bellied sapsucker flew by last week and yes, he is as ragged and unkempt looking as ever.

His dark red cap was pushed forward and rested on the base of his long bill, his front was a dirty washed-out yellow and his back a peculiar mixture of whitish spots and stripes scattered on a dull black background.

The bouncy little goldfinches, all gussied up in their bright new springtime suits of yellow, hustle through the yards once in a while. There are the just popping out elm leaves to investigate as well as all of the butter-yellow dandelions.

As for the returning travelers, they are doing their part in keeping us busy, too. A flash of white this morning, a quick call for Gertie T. to come look and it was true, Mr. Red-headed Woodpecker was back.

Shortly after this, we noticed a newcomer mingling with the usual flock of sparrows. Ho ho — a white-crowned sparrow. Several weeks ago a small flock of white-throated sparrows paid us a short visit.

The white throat patch and just the faintest of yellow on either side of the bill mark them. Oh, of course, the black and white striped heads are most obvious but the white-crowned sparrows have quite similar markings.

They lack the bib and yellow facial spots, though. The white-throats were not with us long this year, there were not as many of them as usual, either.

The irksome cowbirds are unwelcome visitors and the hordes of grackles and starlings just keep growing.

I think the ones who wintered with us must be entertaining all their relatives way back to 17th cousins five times removed.

On the happier side, are the wrens and, although we have not seen any yet, the General and his Lady report Baltimore orioles and scarlet tanagers in their woods.

So it is that the world outside our windows is at its very, very best these days and merely trying to keep track of things keeps us busy, busy, busy.

Birthday Theme

CLINTON — Birthday months and birthday cakes set the theme for the annual Mother - Daughter banquet at the Clinton United Methodist Church, Friday evening.

The potluck dinner was served at 12 tables denoting each month, and an appropriately decorated cake, and spring flowers centered each table.

Guests went to the table denoting their birthday month for their dessert, and the cakes were cut and served with ice cream.

As each month was noted by the mistress of ceremonies, Mrs. Wayne Powell, those persons had to sing a song assigned to them, with favors awarded to the winners, determined by the applause.

Special recognition was given to: the oldest mother, Mrs. Edith Gale, of Ypsilanti; the four generations, Mrs. Gale, Mrs. James Meeks, Mrs. Duane Semark, and daughter, of Saline.

Others honored were the mother with the most daughters present, Mrs. Richard Dixon and four daughters, and the littlest newcomer was also the youngest daughter present. Mrs. Mary Anderson had the most granddaughters, four, and two great-granddaughters; and the youngest mother was Mrs. Richard Knight.

The twin birthdays of Mrs. Wesley Proctor and granddaughter, Virginia, were noted.

The program was climaxed with the showing of slides of western travels by Mrs. Casper Powell. Of special interest to the youngsters were the pictures of Disneyland and Santa Claus land.

Five Sophomores Initiated May 9th

CLINTON — At a candlelight initiation ceremony Thursday evening, five sophomores were received as new members of the National Honor Society Chapter at Clinton High School.

The new members are: Sylvia Gray, Patricia Smith, James Woodward, Debbie Gibbard and Sandra Mohr.

The ceremony followed a banquet for the 28 members of the Honor Society and their parents.

Dinner arrangements were made by the sponsor, Mrs. Paul McKenna, and several mothers.

Addresses were given by the newly-elected officers:

President — Cindy Mohr.

Vice-president — Thomas Hathaway.

Secretary — Kathy Brelish.

Treasurer — Clarence Schwab.

Mrs. McKenna spoke briefly to the students, noting how the number of new members seems to be dwindling each year. However, membership in the Honor Society is an achievement of which to be proud, she told them.

Certificates of membership were presented by Jack E. Miller, principal, and each member will receive a pin.

The members then attended the opening performance of "Any Wednesday", by the Tecumseh Players at the Tecumseh Community Center.

Ladies Concoct Favorite Dishes

CLINTON — Retiring president, Mrs. Hans Schmidt, hosted the closing meeting of the season for the Clinton Woman's Club, Wednesday, at her home.

The 14 members attending concocted their favorite recipes for the cooperative luncheon, which was served at tables enhanced by bouquets of spring lilacs and tulips.

Mrs. Dan Reilly read an appropriate quotation from Thomas Carlyle in memory of the deceased members this year — Mrs. Hazel Barnard, Mrs. O. B. Feldkamp, and Mrs. Frank Furgason.

Another former member, Mrs. Guy Van Doren, is now at Bethesda Silver Springs Nursing Home, 8700 Jones Mill Rd., Chevy Chase, Md. 20015.

The president climaxed the reading of annual reports with a clever review of all the meetings of the year, written in verse.

The installation of officers was deferred until fall because the incoming president, Mrs. Ralph Reed, is a patient at Oakwood Hospital, Dearborn, recovering from a successful operation.

The treasurer's report reflected a successful financial year so that in addition to the Club's other commitments, the senior award of $100 and a suitable plaque will be given again given to a worthy high school senior.

The club will resume meetings on Oct. 9, when new officers will be installed.

Little Grandson For Ken Martins

CLINTON — A son, Peter Daniel, was born May 6 to Mr. and Mrs. Daniel Schumacher of Saline, at St. Joseph Hospital, Ann Arbor. The little fellow, born several weeks prematurely, weighed in at 4 lbs., 4 oz., and it is expected he will have to remain in the hospital until he gains a bit.

Mrs. Schumacher, nee Cynthia Martin, is the daughter of Mr. and Mrs. Kenneth Martin, Kehoe Rd.

Jimmy Launce MC's Banquet

CLINTON — Jimmy Launce, WJR radio disc jockey, will be the featured speaker at the annual banquet of Clinton High School Alumni Association, June 15.

The dinner will be served at 6:30 p.m. by the women of the Macon Methodist Church.

Reservations may be made with co-secretaries, Mrs. David Heimerdinger or Mrs. Thomas Adams.

WSCS Elects New Officers

CLINTON — Mrs. Charles Knight was re-elected president of the WSCS of Clinton United Methodist Church at a meeting last Monday.

Others elected are:

Vice-president — Mrs. John Adrion.

Secretary — Mrs. Oren Woods.

Treasurer — Mrs. Wilbur Reiser.

The new officers and the committees named will take office Sept. 1.

The WSCS will host a recognition coffee hour for the spring graduates, May 26, following the morning worship service.

EDITOR — MAXINE CALHOUN

A Piece of Magic Is A Woman's Hat

CLINTON — A hat can be a "piece of magic," toastmistress Paula McKenna said, as she introduced Mrs. Warren Van Orden of Adrian, at the annual Mother and Daughter banquet in the United Church of Christ, Saturday evening.

Weaving her magic, Mrs. Van Orden soon had her audience of 90 women and girls chuckling at her collection of more than 100 ladies' hats — ample evidence of women's ever-changing taste in millinery.

Mrs. Van Orden spiced her presentation with amusing dialogue called, "Nancy's Crowning Glory". She soon had the ladies trying on the fanciful hats, evoking nostalgic memories of well-remembered fashion eras.

Mrs. Paul McKenna gave the invocation.

Toast to the daughters was given by Mrs. William Kaiser.

Her twin daughters, Monica and Lisa, responded with toast to mothers, using comic versions of appropriate Mother Goose rhymes.

Receiving recognition were: the mother with the oldest daughter present, Mrs. Clarence Follis and daughter, Mrs. Harold Calhoun; mother with the youngest daughter, Mrs. S. A. Colah and 14-month-old daughter, Kathy; and the oldest mother, Mrs. Katherine Kaiser, 81.

Mrs. Donald Geiger and daughter, Cindy, entertained with songs. Cindy sang, "A Boy Is A Curious Thing," and, together they sang, "Scarlet Ribbons," and "Spin, Spin, My Little Daughter."

The men and boys of the church served the Swiss steak dinner. The tables were decorated with colorful flower-bedecked simulated picture hats, and the hat-shaped programs carried out the theme.

LIFE HEALTH

"Whiplash" Neck Injuries

"Whiplash" neck injuries are rapidly building into one of America's greatest health problems.

Ever increasing number of vehicles on the highways, increased speed and increased power of the vehicles, and the constantly-growing system of freeways throughout the country, continually expand the opportunity for the type of accident which can result in "whiplash" injuries and agonizing pain.

While such injuries remain little - understood in many branches of the healing arts, the chiropractor, because of his constant training and study of spine and its alignment, is well aware of the significance of even minute changes in the alignment. He realizes that "whiplash" victims really are in need of help.

The chiropractor, through scientific examination, can locate tiny spinal displacements which may result from "whiplash-type" accidents. With competent, gentle adjustments he restores proper alignment to release dangerous nerve pressure and allow nature to restore the body to its normal, healthy condition. Players Earn Merits

By BILL SANFORD

The teen age recording world has the singing Mama's and the Papas. Britton has the singing Grandmothers and last week the Tecumseh Players brought the "flinging" Grandfather to the footlights at the Glass Room in the Community Center.

The play, "Any Wednesday," is one of those comedies which are a predominant part of our modern day culture. Wednesday was written by a woman playwright, Muriel Resnik. Miss Resnik is a resident of New York who must have spent her 40-odd years living in the YWCA, little recognizing that human beings exist inside of the 7,000,000 tenants of flesh and bones that tred the streets of that unique island.

The play itself is only funny in parts and what attempts there were at a human aspect of the characters was supplied through the talents of the actors.

The entire action takes place in a garden apartment. The apartment dweller is Ellen. John, a business tycoon, pays the rent on Ellen's apartment and calls it the executive suite so he can tax deduct it. A young man comes to New York to see John and winds up staying in the executive suite.

Now John has a wife, Dorothy, and she comes to town early one Thursday after John and Ellen's Wednesday, close your eyes and a stereotyped situation with little original dialogue takes place.

Don't get me wrong, there was humor in this play, provided by the actions and reactions of a talented quadrumriate. Barbara J. Shremp portrayed Ellen and Guil Rothfuss acted the part of John.

Miss Shremp, playing the tax-exempt girl friend, was slow in bringing the character out. Due to her training she has a resonant and well-controlled voice, the unfamiliarity with an arena stage presented some problems to her in this range. Her movements were done with assuredness and believability.

As the play progressed, she developed more of a character, this due more likely to the lack of rehearsal rather than any other reason. The Siena Heights College senior has talent and dramatic ability, however, roles like Ellen are more suitable for monosyllabic ingenues than trained actresses.

Guil Rothfuss, in the role of John, was also a bit slow in bringing out the full range of the tycoon. Again in the early stages a nervousness appeared to hinder his movements and dialogue. These minor flaws in his performance were caused by reasons other than his ability to act. In the later stages he did bring out the humanness which was needed to bring creditability to the role.

Craig Collicott of Jackson, performed the role of Cass, the visitor to the executive suite. He was completely at ease within the confines of his role. This could have been in part due to the fact that last summer he was able to do the role at Clark Lake and the familiarity with the role undoubtedly helped a great deal. Collicott is a talented and able performer.

In scenes between Collicott and Miss Schremp, one could sense the rapport which is a necessary quality in a play such as Wednesday.

Dorothy was excellently done by Charlotte Parker. The part of the suffering wife was the most difficult in the play and she handled it with skill. A complete reversal was needed in the character. This was called for without a great bit of todo from the playwright. Mrs. Parker changed from a picayunish grand dame of society to a colorful and vivacious woman with a mind of her own, and made it humorous and believable.

Her Mae West type of exit from the play produced an outburst of response from the audience.

Thelma Hollenbeck, who directed AW, has also appeared in the play at Clark Lake. This was an asset to directorial skills which she applied. Too often community theatres work with a play where knowledge of the play is lacking, such was not the case with the last offering of the season by the Players.

Under her direction the actors moved on the stage unrestricted from movements awkward or unfamiliar. Timing and execution by the actors was exceptional. The overall acting and directing was noteworthy and deserve credos for their work.

John Raymond designed the set, served as technical director, and supervised costuming; he performed well under the three hats. His experience before the footlights was evident in the set which he provided. It was a good working set where the actors could move without limitations. The garden apartment was realistic and at times aided the actors in evoking humor which is by no means a small task.

Lighting director for the play was Joe Cherry. Properties were handled by Jody Sherwood who has worked in that capacity all season for the Players and done an exceptional pob.

It is often amazing how much the players have been able to do with the space and devices left to them and Any Wednesday was no exception. The Players are a fortunate group to have the talent which was evidenced in A W. And Tecumseh is fortunate to have the players in their midst.

There is an old saying, if you get stuck with a lemon, don't cry, make lemonade. The Players did just that in Any Wednesday and the audience drank it, laughing all the time, and Muriel Resnik can sit in the YWCA and count her money.

Christine Fairbanks'

OFF the TOP

It wouldn't be surprising if Greg Dunbar got discouraged and gave up. We have an idea he won't.

Greg is working to become an Eagle Scout, the highest honor to be achieved in Scouting.

One of the requirements for the rank of Eagle Scout is a Community Service Project. This is defined as one which will better the community in which you live.

This boy elected to construct two planter boxes in downtown Britton, to be filled with flowers as soon as the danger of frost is gone, hoping to brighten the otherwise plain and bare downtown street of this little village. (The only addition to the main street in the past few years have been a couple of litter barrels, which haven't always been used as planned.)

He went to work last week to build the two planters and fill them with dirt.

The first thing that happened was a small truck backed into one of them, knocking it askew. Greg and his dad nailed it back together.

Then footprints were found inside the boxes in the dirt, and they were pretty good-sized ones, too. And one morning, the top edges of the boxes were torn off, as if they had been kicked or pried up.

Saturday, Greg and his dad nailed them back together.

But Sunday morning, churchgoers saw this shameful sight:

They were knocked apart again.

Someone, who has no respect for others' property, or who can't appreciate any effort to beautify this little village; someone who likes to tear down a good work, in the darkness of night, had struck once again.

It might have been some wild kid, looking for some mischief to get into Saturday night.

It might have been some drunk, staggering out of a nearby tavern, showing off to his pals.

We don't know.

But we do know it's a shame, when a youngster is trying to do something worthwhile to improve his community, and striving for the worthwhile ideals of Scouting, to have his efforts dashed repeatedly.

Somehow, we hope that Greg doesn't give up.

School Board Meets

BRITTON — Teacher negotiations were discussed at the meeting of the Board of Education last Thursday evening, but no definite conclusions have been reached to date.

Also discussed was the school policy on the use of school-owned band instruments during the summer. The board members decided it would be permissible to use the instrument if it were for school purposes or for some school-connected activity.

Art Van Wormer, head custodian for the school, presented estimates on painting the exterior of the 1951 and 1955 additions plus the gymnasium, and the board voted to have the painting done this summer.

A 60-passenger bus is to be purchased to replace Bus No. 2. At the same time, it was decided to sell the old bus to the Boy Scouts, with the stipulation that the school would be allowed to use the bus until the new one arrives.

Vivian Seeks Election To House Seat

Weston E. Vivian, who represented the Second Congressional District in the U.S. House of Representatives in Washington, D.C. from 1965 to 1967, announced today that he will be a candidate for that office in the coming election.

Vivian, 43, is currently a technical consultant to a number of firms and agencies. From its founding in March, 1967, until earlier this year, he was a vice president of KMS Industries of Ann Arbor.

Last month Vivian completed duties as chairman of the national Committee on Administration of Training Programs, established in 1967 by the Secretary of Health, Education and Welfare at the request of Congress, and is presently serving as a member of the Public Evaluation Committee on the State Technical Services Act under the auspices of the U.S. Department of Commerce. In recent months he has been a consultant to the Great Lakes Basin Commission and to the President's Council on Marine Resources and Ocean Engineering.

From 1960 until his election to Congress in 1964, Vivian was a vice president and member of the board of directors of the Conductron Corporation in Ann Arbor, and from 1951 to 1960 was a research engineer and lecturer in electrical engineering at the University of Michigan. He holds a B.S. degree from Union College, an M.S. degree from the Massachusetts Institute of Technology, and a Ph.D degree in electrical engineering from the University of Michigan.

Vivian served as chairman of the Ann Arbor Democratic Party in 1959 and 1960. In 1967 he was elected chairman of the Second District Democratic Committee, a post he held until last month. He has been a member of the Ann Arbor and Michigan United Fund Boards and the Ann Arbor Symphony Board. He is a navy veteran of World War II. The former Congressman lives with his wife, Anne, and their four children at 2717 Kenilworth Drive in Ann Arbor.

In announcing his candidacy, Vivian made the following statement:

"The 89th Congress, in which I served, was commended repeatedly for its diligent and constructive action on many and long-delayed issues. During the past two years, the 90th Congress, dominated by negative attitudes, has failed to provide leadership or set sensible priorities for solving our nation's problems. The divisiveness, defiance, and violence today distress all of us. But we cannot expect law and order to prevail unless justice and hope prevail. Most of us are confident that this nation's talents and resources are great enough to resolve our present difficulties. What, then, shall we do?

"The frustration, lack of opportunity and poverty afflicting millions, white and black, in cities and in rural areas, can be and must be eradicated. A most important first step is to guarantee now that any and every man or woman, who is ready and willing, will be able to obtain a job at wages clearly adequate to support a family. Each recent effort in Congress to provide such a guarantee has failed.

"Second, intensive and meaningful job training must be guaranteed to all low income wage earners so that everyone can gain the opportunity to advance in our competitive society. Yet our current training programs are starved for funds.

"Third, inhabitants of the ghetto need both means and incentive to help in the rebuilding of deteriorating housing and opportunity to build or purchase new housing. Funds for these programs have been cut. Finally, the public schools in the inner cities must be rescued from financial disaster. The present Congress has been slow to act. It is essential that business and industry participate in these efforts. However, only our federal and state governments possess the comprehensive resources to mobilize our society. They must act.

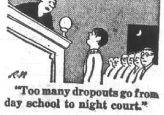
"Deterioration in the quality of our environment which all Americans are experiencing must be halted. Air and water pollution are increasing; traffic jams our highways; fear of crime has intensified; recreation areas are inadequate; family farms are rapidly disappearing; the cost of being sick has risen steeply; inflation threatens the living standard of retired citizens. I do not accept this deterioration as inevitable, and I have faith that informed Americans, working together, can reverse the trend. Our government must accept its obligation to lead.

"I share with all the hope for the successful completion of the negotiations on Vietnam currently underway in Paris. Now that our involvement in Vietnam has reached a turning point and leaders of both parties have recognize dthat our previously stated goals are unreachable, the United States must engage in a thoughtful re-examination of its goals and formal commitments.

"Conflicts similar to that in Vietnam already threaten elsewhere in the world, especially in Asia. eW as a nation must determine more carefully that we have in the past what effective role we should play in the social and political evolution of developing nations."

WES VIVIAN

Pfc. Stanley R. Wise, son of Mr. and Mrs. Kennard L. Wise, 515 W. Brown St., is serving in Vietnam with the 114th Asault Helicopter Co. following a 30-day leave. A 1965 graduate of Tecumseh High School, he attended Tri-State College, Angola, Ind., and entered service Sept., 1967. Following basic training at Fort Knox, Ky., he received further training in clerical advanced individual training and flight operations at Fort Rucker, Ala.



"Too many dropouts go from day school to night court."

ART EXHIBIT — Awareness of art in today's world can be seen through such exhibits as the drawing displayed here by Linda Getz. Miss Getz was one of the students whose work appeared at the annual open house of the Art Department.

High School Open House Draws Crowd

Much interest was shown in the annual open house for the art, home economics and industrial arts departments of Tecumseh High School.

The art exhibit displayed work done this year in water colors, pastels, crayons, pencils, ink, charcoal, plus scratchboard, litho-sketch, silk screen and work in clay, can-elok and cake-metal. Three-dimensional stretchies were created to show interest in space and form.

Home economics I, II, III and IV and Home Management were represented in the exhibit by displays and projects in home furnishings, interior design, table setting, nutrition and clothing construction.

Architectural models displayed were a part of the requirement for drafting students in the Industrial Education Department.

Teachers in the three departments are Mrs. Dorothy Westdyke, art — Mrs. Charles Brown and Mrs. J. T. Calihan, home economics — Kenneth Feldman and Harold Glanz, shop and Charles Gross, shop and industrial arts.

HOME ECONOMICS — Diane Powers, on the left, and Joyce Thomson, on the right, display their projects in home furnishings as a part of the open house of the Home Economics department. Students in all four classes of the department participated in the event.

Dump Remaining Open Despite Health Ruling

Although notified by the Lenawee County Health Department to comply with laws governing dumps or landfills, city officials let it be known Tuesday night that Tecumseh has no intentions to close the dump.

Health authorities had written, asking the city to submit its plans by July 15 and then to comply by Oct. 1.

City Attorney James Beardsley told Council to let the authorities take Tecumseh to court, if necessary, but that the city should continue to operate the dump. He inferred that it would take many years for a court decision which would force the city to comply with regulations.

He urged officials to request the Municipal League in Lansing to lobby for a relaxation of the rules. Many cities and townships have been confronted with problems in handling refuse since the state adopted rigid controls over landfills.

Cal Zorn, city manager, estimated costs for running the dump for the first months of this year at $7,140. This included labor, use of city equipment and rent of other equipment.

"As long as the health department doesn't enforce the law, there's no problem," stated Mr. Zorn in reply to questions from Councilmen as to what to do.

He said for the city to comply with health regulations and cover refuse daily, costs would two to three times greater. At the present, refuse is covered once, sometimes twice a week. No garbage is allowed.

Several suggestions were made for maintaining better control over those using the dump. Several cases were cited where truck loads of refuse have been brought in from non-participating residents and townships.

At the present, residents of Tecumseh, Macon and Franklin Townships are the only ones supposed to be using the local dump.

Township Pact Cancelled Now

Fear of a deluge of refuse from Tecumseh Township apparently caused Council Tuesday night to cancel immediately its agreement with the township for its residents to use the city dump or landfill.

Last week, township officials voted to end its agreement with the city, effective June 1. Cost to the township has been $1,200 a year.

Tuesday night's decision by city officials prohibits township residents from entering the dump now; otherwise, they would have nearly 10 days to discard refuse there.

Cal Zorn, city manager, said that the township would be billed only up to May 1, with the rest of the time of 21 days and costs being waived.

Township residents will now have to employ an Onsted collector to handle their trash and garbage.

Auto Wash Plans Gasoline Pumps

A request by Sudzy-Duz'it Auto Wash to install gasoline pumps at its business on W. Chicago Blvd. was tabled to the regular June meeting by the Planning Commission last week.

The Commission delayed a decision to give the city attorney ample time to clarify property ownership and other technical aspects.

The request for the pumps was made by Lowell Selders.

Police Check 3 Accidents

Three accidents were investigated by the Tecumseh police during the past week, and only one was of a serious nature.

Sunday, John R. Hawkins, 58, Clinton, ran the red light at S. Ottawa St. and E. Chicago Blvd. and collided with an auto driven by Alfredo Sanchez, 29, 415 W. Chicago.

Passenger Deborah Sanchez, 4, suffered minor injuries but was not taken to Herrick Hospital.

Hawkins was cited for a traffic light violation.

Last Thursday Sammy D. McCarley, rural Adrian, reported his car damaged while parked in the Tecumseh Products parking lot. Other driver is unknown.

Also Thursday, Leslie M. Gillin, 50, 111 W. Kilbuck, was arrested for improper backing after she hit a passing car driven by Isabel M. Aiuto, 41, 805 Murray Dr. Accident occurred on Adrian St.

Safety Check Urged for All Motorists

Tecumseh's Safety-Check lane was to open Wednesday evening after the parade, and officials are hoping to inspect the largest number of vehicles since Rotary started sponsoring the event.

Top state officials here for the parade and opening of the lane were to be Col. Frederick Davids, head of Michigan State Police, and Stanley Johnson.

Mr. Davids was to be principal speaker after the ceremonies at St. Elizabeth School, where the visiting mayor from Riverview will also be welcomed.

The lane on S. Pearl St. will be open Thursday through Saturday, 10 a.m. to 6 p.m. Checkers will include Jim Records, Bill Hanna, Steve Illeck, Perry Satterthwaite, Robert French, Frank Becker, Andrew Woodward, Jim Danforth, Clarence Beach, Clyde Spivey, Russell Scott, Elmer Eberhardt and others.

Wednesday afternoon at the reviewing stand and after the parade, officials crowned the Safety King and Queen.

William MacBeth, Tecumseh Products executive, is the new Safety King, winning the honor after his daughter, Paula, won first prize for her essay nominating him.

Safety Queen honors were to go to one of the candidates — Karen Brown, Donna Purkey, Jane Beasley, Lynda Steadley, Susan Ford or Jane Osburn.

In the Safety King contest, 75 youngsters from grades five and six wrote essays, nominating fathers, grandfathers, friends and bus drivers.

Valerie Schmidt, Ridgeway pupil and daughter of the Carl Schmidts, Mills-Macon Rd., won second prize. Cathleen Jacobs, Herrick Park, won third place. She is the daughter of Mr. and Mrs. Edward Jacobs.

Honorable mention went to Diana Torres, Deborah Wisner, Susan Dull, Kim VanSickle, Tom Conklin, Cindy Oliver, Jim Brown, Debbie Williams and Marsha Bale.

Winners of the Jaycees Auxiliary baby contest were Stanley R. Sweet, 10-month-old son of Mrs. Raymond Sweet, and Sherrie Kanous, 10-month-old daughter of Mr. and Mrs. Larry Kanous.

They will reign as king and queen of the baby contest and each will receive a $10 gift certificate from Osborne Dept. Store and Van-Mer's.

Runners-up were Mark Weimer, son of the Daniel Weimers, and Mikeal Ann Maynard, daughter of Mr. and Mrs. Randy Maynard. They will receive $5 gift certificates from Proctor Shoes and Watkins Shop.

During the past week, students have painted many windows of downtown stores in regards to Safety-Check.

Window painting winners are Frazo Fritz, 1st, Lawson TV; Donald Porteous, 2nd, Baldwin Hardware; and Beverly Raymond, 3rd, Sluyter's Gifts.

Poster winners are Art Brazee, first; Spencer Curtis, second, and Bob Lembrick, third.

Adequate Facilities at Schools Lacking for Closed Campus

A closed campus — one which would keep junior and senior high students on school property throughout the school day — is still in the future for Tecumseh.

The local School Board discussed the possibilities for nearly two hours Monday night, including reports from Principals David Dick of the Junior High and Neville Hart of the High School.

Lack of adequate facilities, according to Supt. James McDowell, prevents the schools from enacting a closed campus now or for the 1968-69 term.

With Tecumseh High School boasting an enrollment of over 1,000 students and a Junior High of about 500 pupils, the main cafeteria at the high school simply cannot handle such an enormous lunch program, one which would be an absolute necessity for a closed campus.

Dr. Harold Ocamb, board member and one of the leading proponents for a closed campus, cited other cases where closed campuses have been advantageous and indicated his favoring one here.

The issue has been discussed often during the past 10 years, but always the lack of facilities have prevented it from being enacted.

If a closed campus were enforced now, the high school would have to run four to six lunch periods, probably stretching over at least a two-hour period, to handle the senior and junior high students.

The Junior High does not have cafeteria facilities, and is in generally poor condition.

Although some merchants do business with students during the noon hour, others do not and many have complained about the students wandering through their stores, littering streets, and sometimes causing problems in the downtown area.

The School Board is known to be considering either a new high school building or a new middle school building, and it is likely that when such facilities are approved by the voters and built, Tecumseh will probably have a closed campus for older students.

Schools Getting 4-Day Weekend

Tecumseh Schools will close Memorial Day next week, plus Friday, giving the schools a four-day weekend.

Most Tecumseh businesses will be closed for Memorial Day but will re-open Friday.

Tom Morgan OK'd For Commission

THE BOLDON FLOP — Track fans have heard of the Fosbury Flop, a technique for high jumping over the bar backwards. It was developed by a U. of Oregon jumper. Terry Boldon, Tecumseh junior, has a modified version of the Fosbury — and it works. Unable to crack the 5'8" mark in the Class B Regionals at Chelsea Saturday, Terry and teammate, Steve Dalton, started working on the "flop" at practice Monday afternoon. Starting at the 4'6" level, they gradually worked up, going over the bar backwards. An elated Coach Tom Fagan was summoned by other THS tracksters when Terry flipped over the bar at 6'3" — nearly six inches over the school record. Steve's now hitting 5'10", so the Indians could have easily walked off with the top place in the Huron League track meet Wednesday.

Schools Protest

By BILL SANFORD

The usual calm of the second floor of the court house in Adrian was broken when one of the largest protests in recent years was staged by the county school administrators against the county allocation board.

Also being criticized in the four-day foray that brought many new wounds to bear and opened old ones were the Board of Supervisors and the appointments of the probate judge to the allocation board.

The protests were lodged against the Board of Supervisors' requests for .7 of a mill, which was taken from the school allocation.

Two weeks ago, the allocation board had given the request to the county. A breakdown of the maximum 15-mill levy in the county stood at 7.7 for schools, 6.0 for the county, .3 for the intermediate school district, .25 for the roads, .75 for the townships.

In the previous year the schools had received 8.5 mills. One-tenth of a mill was given to the intermediate school district with approval of the educators.

Members of the committee who came under fire from the school people were John Herring, a real estate agent from Adrian; Morris Rosenthaul, Adrian businessman from Manitou Beach; Supervisor John Keller and County Treasurer Willis Moore.

Rosenthaul and Herring were the appointments of Judge Maurice Spear. Judge Spear entered the arguments when some superintendents accused him of always appointing people sympathetic to the board of supervisors.

A mill was given the schools in 1963, taken from the county budget, it was the contention of the school administrators that appointments to that board at that time were made by Judge LaVon Kuney. The present probate judge defeated Kuney in November of 1960 and the appointments were made by Judge Spear.

Both sides in the pleadings offered figures to justify their actions. It was the belief of the schools that the county would benefit best through the recent state equalized value of the county, which was raised $26 million this year. They added certain other expected revenues, such as stamps on deeds and the county share of the new income tax.

Figures produced by the administrators showed that the county would receive some $615,708 through increases and the state tax.

John Brattin, equalization director for the county, reiterated with figures on how the schools would benefit from the equalization as well as the county.

Brattin's figures showed that the schools would receive a total of $359,525 more this year than last. He based his figures on the Blissfield school districts survey of the county which states that the average tax levy in the county for 1967 was 22.66 mills. Deducting the 8.5 mills provided each school from the county allocations left a 14.16 mill average.

Brattin stated that the figure could differ if the levies were not to remain constant.

Figures of both sides for the

10 Mills On Ballot

Ten mills, amounting to a 2.2-mill increase, will be on the June 10 ballot for voters in the Tecumseh School District.

Officials approved asking the electorate for 10 mills at a special meeting of the Board Wednesday of last week.

Part of the 10 mills includes four mills, approved by voters previously, which is expiring. The June 10 millage proposal is for one year.

If the millage is approved, total millage for operating and indebtedness will amount to 24.82 mills. In 1967 it was 22.62 mills, and 23.82 mills in 1966. New millage could be just one mill more than 1966.

Operating millage for the 1968-69 term would amount to 23.2 mills, compared to 17.5 mills for the preceding two years. Bond indebtedness, however, has dropped from 6.32 mills in 1966 and 5.12 mills in 1967 to just 1.62 mills.

Last month the schools were completely out of bonded indebtedness, but the Board bonded the district for 1.62 mills to build a new elementary school on Sutton Rd.

Other issues on the June ballot will include 1.5 mills for a new vocational-educational center and election of two members to the School Board.

Candidates for two four-year terms on the Board are Aden Mead and Dr. Harold Ocamb, incumbents, and John Wanzack.

Others elected to office were: Vice-President — Al Thomas
Secretary — Guy Cox
Treasurer — James Chapman
Co-ordinators — Andrew Fisher, Don Schultz
Second Shift Directors — Howard Rathke, Jim Green
Third Shift — William Fowle
Guy Cox and Andrew Fisher are the only two incumbents returned to office.

We have been told that **Herald** classified ads bring results. **H. B. Would that we could do something about the weather besides talk about it, Clayt.

SCHOOLS PROTEST

(Continued from page one)

loss of revenues also varied and it was the contention of each that the other did not present a true picture.

Brattin's figure for losses to the schools in actual revenue was $17,480. The figure announced by the schools was about $196,000.

Also under scrutiny by the school officials was the budget and how it was kept. Attorney William Walker, of Adrian, who appeared on behalf of the administrators, stated that schools had to prepare and present itemized budgets showing where monies are being spent. He also stated that the county did not provide a budget of this sort.

Stacy Zilke of Deerfield and a member of the Board of Supervisors finance committee, rose to his feet and said, "Every October the county publishes its budget, it is then held in the County Clerk's office for anyone to question or examine. Last year no one showed up to even look at it."

Over 250 people were on hand for the plea by the administrators.

After the board had adjourned until 2:00 p.m., to make their final decision, more charges and threats were heard among the groups that gathered in the lobby outside the court room. Some administrators felt that a compromise of 3.5 mills would be offered and if so they would then appeal to the state.

By the time the board met for final arguments on their decision, only a few remained of the morning assembly.

A compromise was offered first by Keller of reducing the county request 3 mills. It was defeated, 3-2. Morris Rosenthaul questioned two items concerning the new Medical Care facility which he did not believe belonged in the budget. He and Herring oppised the 3-mill proposal.

A second attempt at a solution came from Rosenthaul as he gave the county 5.55 mills and the schools 8.3. Jim Mitchell, Raisin Township Supervisor, rose to his feet and protested the action, as being against the townships.

This brought a pause in the proceedings while discussion was held and finally an allotment was prepared again by Rosenthaul, giving the schools 8.2 mills, county 5.5, 3 intermediate school district, and 1 mill for townships.

Charles Gross, of Adrian and representing the school board, fought against the proposal and after some discussion, a vote was taken, passing, 4-1, Gross dissenting.

Milton Porter, who is superintendent of the Intermediate School District, did not cast a vote in either instance.

You Told Us

By DOROTHY GRIGG

Herald Society Editor

'Twas indeed a happy day at the home of Mrs. C. Eugene Fisher Sunday. She held an open house for her son, Robert, who will receive his degree in June from Michigan State University. The occasion also provided an opportunity for nearly 125 friends and relatives to meet his bride.

The couple will go to Milwaukee after commencement exercises where he has accepted a position as metallurgist for the Harley-Davidson Co.

Maude was especially delighted to have son, Paul, home from Vietnam on a 30-day leave, even though he volunteered for another six months over there after he goes back. Another son, Bill, was able to get home briefly from Fort Bragg, N. C., making it the first time in three years that the family has been together.

Guests attended the Sunday affair from Sunfield, Jackson, Rockford, Ill., and Tecumseh and the surrounding area. "Only two cups of coffee left to pour down the drain," Maude mused happily after all had left.

Another open house successfully held at the home of Mrs. E. J. Aebersold was in honor of her sister, Mary Gregg, of Ann Arbor. Nieces and nephews of Miss Gregg hosted the event for their aunt on her birthday anniversary. Hosts were Mr. and Mrs. Elwyn Lewis and Mr. and Mrs. Lyle Lewis of Adrian, Mr. and Mrs. William Aebersold of Pontiac and Mr. and Mrs. H. K. Smith. Guests came from Canada, Detroit, Ann Arbor, Manchester, Tecumseh and the surrounding area.

Mrs. Marvin Hurlburt, recently moved here from Detroit, and Mrs. Robert Gregg of Milan, presided at the tea and coffee service. Mrs. Elwyn Lewis and Mrs. William Aebersold poured punch. Preceding the open house, the immediate family had dinner at the Country House.

Mrs. John Teufel is recovering from an infection at her home here. She was discharged from Bixby Hospital May 16 after undergoing eye surgery.

Mr. and Mrs. Donald Young and family spent the weekend in Muskegon where they attended the wedding of her nephew, David Zok, to Gayle Cutler Saturday morning. Roger Young was a groomsman in the wedding party. The groom is a hospitalman in the Navy and will report to Portsmouth, Va., following a brief honeymoon. While in Muskegon, the Youngs stayed at the home of the groom's father, Alfred Zok. They were accompanied home by Mrs. Young's uncle, Louis, Suess, who will spend a few days before going on to his home in Illinois.

Mr. and Mrs. Don Hunt returned Tuesday from Zephyrhills, Fla., where they spent the winter. Grandson, Jim Miller, flew down and drove his grandparents back. It was 92 degrees when they left Sunday.

Mrs. Eddie Hunt entertained members of the Duplicate Bridge Club of Clinton at her home Tuesay evening. Mrs. Luther Kemp and Mrs. Lester McComb, Clinton were the north and south winners while Mrs. William Moeller and Mrs. William Reyner, Clinton, were the east and west winners. Mrs. Clyde Miller will be the hostess for the next party.

Harry Munger of Decatur, a resident of Tecumseh 43 years ago, was visiting here Saturday. Mr. and Mrs. Lawrence Avery and daughter, Rhonda, of Hartford, accompanied grandfather Munger, including a trip to the cemetery.

Ronald H. Mastie, 21, was promoted to 1st lieutenant May 18 at Hunter Army Airfield, Savannah, Ga. Lt. Mastie graduated March 15 from the Army Primary Helicopter School, Fort Wolters, Tex. He is now undergoing advanced training at Hunter. During this course, he is learning to fly helicopters by instruments and to use them in difficult tactical maneuvers. With him in Georgia is his wife, Kay, and infant daughter, Michelle Denise. Lt. Mastie is the son of Mr. and Mrs. Henry F. Mastie of Britton.

FLOWERS OF REMEMBRANCE

By
Mrs. William Eberhardt
(Wisconsin)

In Flanders' Fields, red poppies still grow
Between the crosses with names we know.
Legion's memorial flower, chosen so,
Poppies acknowledge the debt we owe.

The veteran in the hospital bed
Fashions a poppy of paper red
With a deep sigh, he shakes his head,
Thinking of all the many war dead.

One petal, comrade of World War One;
Second petal, World War Two . . . his son;
A Third, Korea; 'Tis nearly done;
Last petal, Vietnam . . . his grandson.

"Blood is the price for freedom so rare,"
He thinks, "and many have done their share.
Will they remember . . . people out there?
I wonder, sometimes, if they still care?"

Surely we will keep faith . . . you and me,
Over our hearts a poppy will be
To honor the men who kept us free . . .
Our "Yanks" who served to eternity.

Gay Paree Theme Of French Club At Buffet Dinner

By DIANNA L. JOACHIM

The members of the Tecumseh High School French Club, advised by Mrs. John Wakeford, entertained their parents and special guests at a French Style buffet dinner May 14, at St. Peter's Episcopal Church. The theme was "Printemps en France" or "Springtime in France".

The Rev. Hawthorne and Mrs. Hawthorne said grace and M. Andre Dervieux, a native Frenchman, offered a toast in French.

The entertainment was skillfully provided by the French Club members who put on skits, sang songs, and one even danced a French ballet.

The decorations gave a truly French atmosphere to the occasion complimented by the French cuisine. Drawings and paintings of French scenes and people, and other projects on French subjects, done by Club members, gave an authentic setting to the banquet.

Teachers Resign

Resignation of two Tecumseh High School teachers were accepted by the School Board Monday night.

Mrs. Christine Steger, English teacher, and Gary Meyers, instructor for Type A students, had submitted their resignations to Supt. James McDowell.

THEY SING IN FRENCH — Members of the Tecumseh High School French Club entertained parents and guests May 14 at dinner and a program presented in the French Language. Pictured singing "Dominique" are Paul Hamilton, left, Claudia D'Angelo, Kristin Lundahl, Jan Davis and Charles Coffey.

Pack 32 Meets

Pack 32 of Birdsall held their May meeting Tuesday evening at the Conservation Clubhouse. Boys from Den 1 presented the flags and everyone pledged their allegiance.

May's theme was "Davy Jones' Locker".

Steve James was narrator as the boys of Den 2 told the story of "Kon-Tiki". The voyage of 5 Norwegians and a Swede who crossed the Pacific Ocean in 1947 on a Balsa wood raft. The boys turned a plain platform into a replica of the "Kon Tiki" complete with costumes, ropes, flags and other items carried by the crew.

Den 3 amused the audience with a skit involving a Pirate who ordered his crew to walk the plank. After each gaily-dressed pirate was forced into the ocean, the captain, himself, joined his hapless crew in the fake ocean the boys had created!

Chuck Eberline and Mike Scheuerman were inducted into the Webelos by Cubmaster Skinner and Den Chief Dennis James. Each boy received the arrow of light and Scout handbook.

Webelos Activity badges were earned in the following fields:

Engineer — David Cook.

Forester — Karl Schamberger.

Athlete — Scott Griewahn and Kerry Skinner.

Cubby was won by Mr. Skinner's Webelo Den.

Announcement was made that June 19 Pack Night is to be a polnck dinner at the Island Park at 6:30 p.m.

Red, White and Blue Sans White

Red, white and blue without the white may have a significant meaning to a group of Tecumseh female young people.

Leaving their quarters, furnished as lush as a bathtub filled with whipped cream, they decided to go to Adrian to "see and do the town" in a diminutive sort of way, their activities being confined to driving around casually with no particular destination in mind.

They were in a particular model and year of vehicle, owned cooperatively by one the young ladies' parents and the finance company.

It seems Messrs Germond and Company received a report of a missing daughter driving a car the same color, same vintage and model as theirs.

Turning a corner, they were requested (by flashing lights of a county cruiser) to pull over.

With trembling fingers and a slightly sinking feeling in the vicinity of her stupor, she produced the vehicle's registration, and other necessary papers to convince the officer they were "not wanted".

If you see a group of red faces when "the colors" are mentioned you might have an inkling as to who they were.

Girls To Represent County At State Show Style Revue

Peggy Ford and Beth Frownfelder of the Tecumseh Top Notchers 4-H Club were selected to represent Lenawee County in August at the State Style Revue.

Peggy, in the Junior Division, and Beth, in the Senior Miss Division.

The girls were chosen from the top clothing project members in the County at a revue held May 4 at Siena Heights.

They received corsages and pins in addition to gifts from the Singer Sewing Center.

Terrie Fortunato, also of the Top Notchers, is a junior alternate and Connie Gautz, of the Holloway Homemakers, and Darlene Daniels, of the Tipton Jets, in the Senior Division.

Those in the honor group were Tammie Tucker, Sally Vreeland and Karen Brown of the Britton-Macon 4-H Club and Marcia Gilbert of the Tecumseh Top-Notchers, all in the senior division.

Over 100 girls participated in the Senior event as well as 40 girls chosen as top participants in the four District Junior Style Revues.

Martha Osburn of Tipton, was the narrator, along with three other 4-H'ers.

Musical entertainment was provided by the Bush family, Margene Frownfelder, Rosalia and Billy Spycher, Tipton, and the She 'N' He group of Adrian.

Music Makers Install Officers

Mike Bush was installed as president of the Tecumseh Music Makers by Mrs. Owen Merrill, president of the Tecumseh Music Club, Sunday afternoon.

The installation took place in the Friends Church after a performance by members of the club, on the piano, organ, instruments and vocal.

Other officers who were installed are:

First vice-president — Diane Mannino

Second vice-president — Marianne Bush

Secretary — Patti Mannino

Treasurer — Jim Bush

Historian — Carol Ann Christman

Counselor — Mrs. Truman Rentschler

Those who performed for Sunday's program included: Diane and Patti Mannino, Jim and Marianne Bush, Sam Brantingham, Carol Ann Christman, Jamie Danforth, Marcia Gilbert, Chris Totten, Claudia and Wendy Vollmer. Candace Christman had charge of the program.

The purpose of the Junior Music Clubs is to study, appreciate, and perform music. The local group is a member of the State and National Federation of Junior Music Clubs and has a membership of 20 students of high school age. An average of 15 attends monthly meetings.

Most of the members participate in their school and county bands, school choruses and choirs, attend the school festivals and audition for the scholarships. Several have been awarded scholarships through their schools. One offers her musical services to the Girls Training School.

Not only was Jamie Danforth introduced as the recipient of the scholarship provided jointly by the Junior Music Makers and the Tecumseh Music Club, for the cost of a summer music camp of her choice, but also as the new vice-president-secretary of the Junior Music Clubs of Michigan.

The members of the Tecumseh Music Club were hostesses for the afternoon.

The Music Makers will close the season with a May Basket-Hayride at the Elwood Bush Farm on Friday from 5 to 9 p.m.

Re-apportionment Study

With the thunder of debate between county educators and the allocation board still ringing in the stately old court house in Adrian, the first meeting of the County Re-apportionment Commission was held.

The Commission was called for by a Supreme Court decision calling for Boards of Supervisors to be re-apportioned on the one-man, one-vote concept, which has applied in the past to state legislatures and Congress.

During last week many protests arose against the present supervisor set-up in the county. According to Harvey Koselka, chairman of the commission, Lenawee can set a board at five to 21 members. Under a five-man board, it is felt, this would call for a change in county government from a supervisor-type of government to a county-manager sysem.

Under the hazy guidelines which the Commission Must work, this could be accomplished. It would, however, call for a vote of the people, it was believed by the Commission.

The districts must be evenly proportioned. A five percent variation in population, either over or under, would be acceptable by the attorney general.

Other tentative guidelines submitted were: precincts in a township or city were not to be divided if at all possible; townships would not be divided, if at all possible; and city and townships were not to be included together in a district if at all possible.

The Commission in the brief time, which they had for such a study of the county, felt that these would be difficult to use in dividing the county because of the population distribution.

Three areas were reached with consent of all members at the initial meeting: an odd number of supervisors would be best, a larger number would be most suitable, no attempts would be made by the commission for a county-manager system.

The first plan which the Commission heard at the Thursday meeting was for an eight-member board. In the proposal Adrian city would have two members and Tecumseh would be joined with Tecumseh township and Clinton Township for one supervisor.

The proposal was tabled in favor of other plans which the Commission hopes to formulate.

Unlike the morning and afternoon sessions at the court house with the allocation board, a bit of humor was injected into the commission's meeting.

A plan was submitted for a nine-member board with the chairman having a vote only in the case of a tie.

Attorney Robert Baker objected, stating, "I don't agree with that, you could elect eight Republicans and one Democrat, make the Democrat chairman, and he couldn't vote."

He received a certificate of outstanding achievement from the National Aeronautics Space Administration.

David Cook and Vicki Earling, Junior High School students, were both in the honorable mention group at the Ann Arbor event. They won top girl and boy prizes at the local fair.

David, son of Mr. and Mrs. Stanley Cook, 401 Seneca, entered a potentiometer, an instrument for measuring or comparing electromotive force. He won a United States Savings Bond at the local Science Fair.

Vicki entered a chicken embryology experiment. She is the daughter of Mr. and Mrs. L. E. Earling, 6250 Rogers Hwy.

Her experiment included building an incubator and removing the eggs at three-day intervals. From this data, Miss Earling drew the chicken in different stages on six posters for display.

She won a $25 United States Savings Bond and subscription to the Science Digest at the local Science Fair.

Both young people attended the awards luncheon in Ann Arbor.

Karen McCrate and Barry Lamkin were top girl and boy winners in the local Science Fair at the Tecumseh High School. Each were given $25 United States Savings Bonds.

Karen's project on water pollution in Tecumseh won second prize in biology of a subscription to "Scientific America".

She collected samples from four different locations along the River Raisin and recorded the lack of harmful substances to both human and animal life in the water.

She is the daughter of Mr. and Mrs. Robert McCrate, 513 Seminole Dr., and a junior at THS.

Robert Osburn won second place in the physics division and a special award in earth science in the local fair. Prizes were a subscription to "Scientific America" and a math text book.

He is working on a rainfall project for 4-H, collecting data and acting as coordinator for other 4-H'ers, sometimes using back issues of The Tecumseh Herald.

The Herald would appreciate any further information concerning other possible entries.

First Year's Success For Co-op

By DAVID S. BUSH

The first annual Lenawee County Employer-Employee Co-op banquet was held Wednesday, May 8. It was a nice climax to the first county-wide co-op program. The banquet was held in the Ritchie dining hall on the Adrian College campus. A total of 333 attended the roast beef dinner. This included 168 co-op students and 107 employers.

Michael Allen, a co-op student from Tecumseh who worked at Green's, acted as master of ceremonies. The invocation was given by Gordon Barta, who is a co-op student in Adrian at Ace Hardware. The guests were introduced by Jerry Smith of Adrian.

Lenawee County Superintendent of Schools, Milton C. Porter, welcomed the employers and thanked them for the important part that they are doing in the way of improving our educational system.

William J. Ross, who is the Lenawee County vocational educational director, introduced the speaker and said a few words about the Lenawee Vocational Technical Education Center which will be voted upon June 10.

He explained that 50 percent of the building cost will be paid for with Federal Funds and that 20 percent of the operating expenses will come from the same source. The Lenawee County voters will be asked to approve a 1.5-mill tax in order to start this technical center.

Robert Pangman was the guest speaker. He is a consultant for the Michigan Department of Education and he spoke on the the subject "Area Vocational School".

In addressing the students, Mr. Pangman stressed some of the qualities that an employer looks for.

He told the students that they had to show that they were responsible and reliable, they also had to show initiative, integrity and the ability to change.

He encouraged everyone to continue to support the county vocational program and to keep up the good work.

Following the main speaker's address, Mr. Ross and his associates, Mr. Brown, Mr. Deck, and Mr. Wyse read off the names of the Co-op students and the names of the employers where the students were employed.

The employers received a "Certificat of Appreciation" from the co-op student and in return the student received a "Certificate of Achievement" to show that they had completed nine months of co-op training.

When the program was over everyone looked at the projects that each of the co-op students had made and had exhibited in a room adjoining the dining hall.

As a co-op student myself, I thoroughly enjoyed the banquet and being a co-op student and working for The Tecumseh Herald, has given me some very useful experiences. I hope that all the other students on co-ops have found it as rewarding as I have.

Our Readers Write

TO THE EDITOR:

We have just read the article on the Tecumseh patrolmen accused of abusing disorderly youths and from it one might get the opinion that some of our residents of your town have declared their own "open season" on police officers.

It seems that the prevalent attitude is that if you find a chance to smear an officer then by all means do so, the innocence of the man involved is of no importance nor are the consequences to his family.

How often in the past has a patrolman been placed "on the carpet" for a completely false charge and had his job put in jeopardy?

For years these dedicated men have protected you and your families from numerous crimes and received nothing in gratitude but criticism and abuse.

I wonder how many of us could function with the long hours and ridiculous pay scale that they do and still get their job done and done very well.

We might all the "Voice of The Herald" says "It's Not Funny" and they couldn't possibly be more correct.

For Heavens sakes, Tecumsehites, stand up and fight for your patrolmen and show them that you're behind them — how many times have they done the same for you?

Gerald and Phyllis Chase,
Hillsdale, Mich.

TO THE EDITOR:

I regret that due credit was not given by high school English teacher, Miss Carole Varner, when The Herald printed my Detroit News award-winning theme, "Flexibility in a Newspaper" on May 16, 1968. Miss Varner deserves thanks for her encouragement and constructive criticism.

I would also like to thank Mrs. Murray Day for her patience in lugging out of storage unwieldly files of old newspapers in the Tecumseh Public Library.

Sincerely,
Bonnie Hoover.

TO THE EDITOR:

My heart has been bleeding all week for the poor young "men" whose tender feelings were so hurt by the name **punk**. They objected so strongly that it is plain they would do most anything to avoid such a title. So, if they are able to read, I hope they will read this free suggestion, which, if followed, might even lead to their being called **gentlemen** instead, and never suffering from such names again:

Rise up early tomorrow morning, bathe, put on clean clothes, and go out to WORK. Just look around you—there is plenty of work to be done—more than the rest of us are able to cope with —and lots of us would be glad of some honest, dependable help. A day of this will tire you enough to send you to bed for a good night's sleep, ready to rise and go at it again. Try this through Saturday.

Then Sunday morning get up again, go to some church where God's Word is preached and find out what plan God has for your life. He has one, you know—don't miss out on it. And you might never be called by a naughty name again

It's up to you, boys: Punks? . . . or Gentlemen?

—A Supporter of our Policemen.

TO THE EDITOR:

I don't know if you have any write-up on the play, "Any Wednesday" this week, but if you do, two of your shops deserve some credit. Both of my outfits, which I wore as Dorothy in the play were from Cal's Tog Shop; and Jean Smith, Jean's Shop, styled and set my hair for all performances — at no charge.

Sincerely,
Charlotte Parker.

Mrs. C. Beach Speak of Wild Flowers To Club

Mrs. Clarence Beach gave a talk on wild flowers for 5 members attending the Garden Club meeting Friday afternoon at the home of Mrs. Neil Pearson.

Mrs. Beach said that at least 100 varieties of our wild flowers came from abroad, Queen Anne's lace, thistle and lily of the valley from England, catnip from Europe and the day lilly from China, and that "miserable" wild morning glory from South America.

"Wild geranium is thought to be a native of America," she said.

Anne Carson presided as the report of members attending the annual tulip tea in Adrian. Members found the antique collections of Mrs. C. A. Shierson of much interest as were the floral arrangements. Ebony snuff boxes, carved ivory and persian rugs highlight the Sheirson home where the tea was held.

Conclusion of the members who discussed the Vocational-Educational Center to come to a vote June 10 was that it is muchneeded.

Mrs. Douglas Sisson and Mrs. Pearson served rhubarb torte with ice cream, mints, nuts and tea.

Picnic Saturday

Tecumseh Education Association will hold its annual spring picnic Saturday at a golf course in Adrian.

Indians Outpoint Foes

Last week the Tecumseh Indian track team pushed their league record to 3-0 for dual meets. The Blissfield Royals were the ones to trail the Tribe over the finish line.

Tecumseh captured firsts in all 14 events. Five seconds and two third-place finishes were the best that the Royals could muster.

Tecumseh has proven to be the powerhouse of the Huron League this season, however, their biggest test will come May 22 when the league meet will be held on the cinders here.

Winners in the events were: shot put, Parros, T.; Villagas, B.; Fairbanks, T.; 43'8¼".

Broad jump: Terry Boldon, T.; Burgermeister, B.; Fairbanks, T.; 19'11½".

High jump: Steve Dalton, T.; Burgermeister, B.; Klenk, B.; and Boldon, T.; (tied for third) 5'9".

Pole vault: Collins, T.; Cheever, T.; Scott Dalton, T.; 11'.

Two-mile run: John Kennedy, T.; Graf, T.; Taylor, B.; 10:35.1.

880 relay: Tecumseh, 1:36.5.

Mile run: Edwards, T.; Rufner, T.; Lisenbee, T.

120 high hurdle: Robinson, T.; Bishop, T.; Steve Dalton, T.; 15.6.

880 run: John Boldon, T.; Dickson, T.; Laidlaw, T.; 2:05.1.

440 dash: Fairbanks, T.; Lewis, B.; Ives, T.; 52.8.

100 dash: Girbach, T.; Stratton, T.; Stutsman, B.; 10.7.

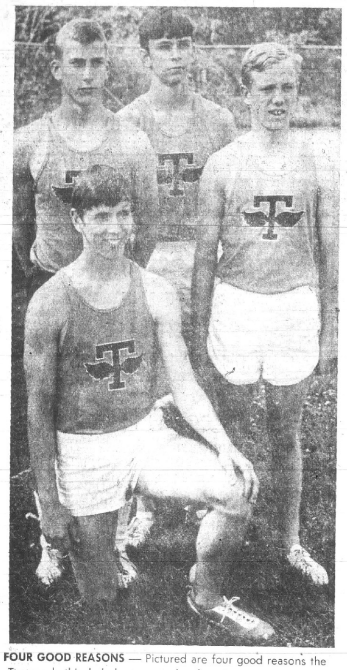
120 low hurdles: Robinson, T.; Burgermeister, B.; Boldon, T.; and Bishop, T.; (tied for third) 21.8.

220 dash: Girbach, T.; Stratton, T.; Stutsman, B.; 24.2.

Mile relay: Tecumseh, 3:44.1.

Final points: Tecumseh, 99½, Blissfield, 19½.

Tecumseh now stands at 8-1-1 in dual meets over for the season.



FOUR GOOD REASONS — Pictured are four good reasons the Tecumseh thinclads have posted a fine 8-1-1 season record. They are, left to right, Randy Robinson, Lamar Rufner, Richard Graf. Gary Fairbanks is kneeling.

'Skins Win "Laffer"

Monday afternoon the Clinton Redskins went on the warpath and drove the Novi Wildcats back into their dens, but not before wearing out the base paths in a "laffer", 19-1.

For a second time in less than a week the tomahawks of the 'Skins blasted out 16 hits.

Butch Hoelzer took the mound for the victors and gave up one run and two hits in the 4½-inning game shortened by the 10-run rule.

Hoelzer also had a double and a home run to aid his own cause. For the season the strong right-hander is batting a torrid .525. Bob Ehnis drove in four runs with three hits, Jake Schwab tripled twice, Mel Pardee also picked up a pair of base hits in the Clinton onslaught.

Mike Jurasek, after pitching a no-hitter last Thursday and placing first in the regional track meet, added to his week's laurels by collecting a walk, single, triple and a long home run. He also showed fine form at shortstop in the easy win.

Joe Snow took the loss for Novi. Bover and McMillan came on in relief but the cause had been lost.

The win pushed the Redskins' mark in league play to 9-0, Novi trails in second place. The 'Skins have the league title wrapped up for 1968 to go with their basketball and football triumphs.

THS Golfers Finish 9th In Regionals

The Tecumseh High School golf team finished ninth in the Class B regionals at Brighton's Burroughs Farms Course Friday.

Twenty-one teams participated in the event which saw Jackson St. John capture first place with a 324 total. Tecumseh was 20 strokes back at 344.

Roy Schlegel led the Indians with a 38-45—83, John Bryan carded 40-44—84, Bill Holmes shot 42-44—86, and Ralph Miller had 47-44—91.

The team had only one match last week, and in it they defeated Flat Rock, 165-182, at Carleton Glen Country Club.

Schlegel was medalist with a 40, as Bryan and Bill Gibson had 41's and Frank Geisenhaver added a 43.

Tecumseh's season record stands at 11-2 with a 7-1 count in league play.

Clinton Senior Wins Free Watch

Pam Thomas of Clinton was the lucky winner at Eggleston's Jewelry Saturday when her name was picked for a free watch.

The local jeweler invited Tecumseh, Clinton and Britton seniors to register for the watch, and over 100 participated in the free drawing.

YMCA To Hold Special Meeting

William J. McCartney, YMCA executive director of the Lenawee County facility, announced this week that a meeting of members interested in a detailed explanation of the new fee charges for instructional program services will be held May 27 at 7:30 p.m., at the Y building.

The Board of Directors decided not to raise the annual membership dues but rather to place nominal fees on all program services that involve instruction.

"The Board has taken steps to trim expenses and produce new income, designed to place the YMCA in an economically sound position, to properly maintain and even upgrade the service," Mr. McCartney stated in his communication.

Jacobs Stars In Mid-Ohio Track Meet

Last weekend Moe Jacobs, the former Boysville athletic star, lived up to expectations by finishing as the outstanding individual athlete in the Mid-Ohio Conference track meet.

Jacobs led his Findlay College team to a first place in the six-college conference meet.

Jacobs set three individual records for the conference and was anchor man of two relay teams, which also set records.

The 6'2", 187-pound former Fighting Knight won the 440-yd. dash in :49.5, the 220-yd. dash in :22.2; and the long jump, 21'5½".

Though the three events were in record time and distance, Jacobs has run in better times in both running events.

The native Detroiter also ran the anchor leg of the mile relay in a record-setting time of 3:26.5. He ran the same position on the 440-yd. relay in another record of :43.3.

Findlay track coach, Bob Montgomery had high praise for his outstanding harrier.

Jacobs was a star in baseball, basketball, football and track while at Boysville. He was graduated from there in 1966. With two more years of competition ahead of him, other records might be toppled by the powerful young athlete.

Thinclads Lose By One

The Tecumseh High School thinclads traveled to Chelsea Saturday with high hopes of conquering the Class B Regional track meet. The Indians came away second best to East Jackson High. One point separated Jackson and Tecumseh, 42-41.

The field events didn't offer Tecumseh much in the way of points. Terry Boldon picked up second place in the long jump as the best position. He traveled 20'2" in the pit for his best jump so far in the season.

First place finishers were Randy Robison in the 120-yard high hurdles in a time of 15.35. Gus Bishop took third in both high and low hurdles.

Gary Fairbanks set a new school record in the 440-yard dash with the winning time of 51.8. The time of the old record, 52.2, was held by Roger Young.

John Boldon copped the 880-yard run in a good time of 2:13.7.

The relay teams for the tribe picked up respectable wins as the mile team won second honors in 3:36.8. The 880 harriers managed a third in their event, traveling the distance in 1:36.4.

Members of the mile team were Gerald Girvach, Terrel Ives John Boldon and Gary Fairbanks. The 880 team was composed of Girbach, Tim Stratton, Randy Robison and Gus Bishop.

In the two-mile run another school record was set by a fourth place finisher, Richard Graf, covering the distance in 10:30.7. Coming to the wire behind Graf, in fifth place, was John Kennedy.

Lamar Rufner placed fourth in the mile, coming in at 4:46.4.

There were a total of 18 different schools in the Class B meet. The outlook is good for the Tecumseh team in the league meet to be held Wednesday at the high school athletic field.

Jurasek Hurls A No-Hitter

The Clinton Redskins corraled the Rough Riders from Ypsilanti Roosevelt May 16 behind the brilliant pitching of Mike Jurasek. The fine Clinton hurler fired a no-hitter at the home Riders in chalking up his fifth win of the season. The score was a lopsided 13-0.

Jurasek allowed only two men to reach base in posting the triumph, back-to-back walks in the fifth inning.

The 'Skins scored in every inning but the second in mounting a lusty 16-hit attack against the Rough Riders.

Jurasek helped himself out with the bat as he pounded out two singles and a double in five trips. Butch Hoelzer went three for four and drove in four runs. Jake Schwab, Mel Pardee and Bill Driscoll collected two hits each to join in the parade. Bob Ehnis doubled and tripled in the hit column for Clinton.

Jurasek and Hoelzer form one of the finest pitching corps on area high school teams and the 'Skins' 8-0 league mark are ample proof of their abilities.

Jeff Washington of Ypsi Roosevelt took the loss.

Perhaps overshadowed by the brilliant pitching of Jurasek and the hitting attack was the fine fielding of the Redskins, who backed the moundsman up with errorless ball.

Visiting Mayor Is Honored

BRITTON — Mayor and Mrs. George Norton and Police Chief and Mrs. Ward Hillman of Deckerville were guests of the village Monday for Mayor Exchange Day, which is part of Michigan Week activities.

The visitors were greeted with a parade in their honor upon arriving in the village around 10 a.m. The high school band led the parade, and school children were excused to see the festivities.

Mayor Norton and his party were presented with the keys to the city in a brief ceremony in front of the Post Office building.

After touring the local police station, the group went to the Country House in Tecumseh for lunch, then toured the Fisher Body Plant and Tecumseh Products.

Returning to Britton, the visitors inspected local churches, and after supper at Stella's Restaurant, returned to Deckerville.

They were escorted on their visit by village trustees Curtis Banks and James Lister and their wives.

Britton's mayor, Warren Lewis and Mrs. Lewis, and trustee Dale Monagin and wife, were in Deckerville for the day.

Lady Birds 'Fly Up'

MACON — Eleven members of the Ridgeway Blue Birds took part in the "Fly Up Ceremony" at the Britton Grand Council Fire Tuesday, May 21 thus becoming Camp Fire Girls.

After repeating the Blue Bird Wish for the last time, each girl removed her Blue Bird vest and cap, then the traditional Camp Fire scarf was placed on each girl by her mother. The new Camp Fire Girls are: Judy Comstock, Vicki Cooke, Kathy Conway, Patti Purple, Loretta Pickford, Sherry Hover, Margaret Moore, Denise Mueller, Linda and Elizabeth Spencer, and Judy Thomas. These girls also received Fly Up Certificates and Blue Bird "patches," which will be used to decorate their ceremonial vests next year.

At the ceremonial the girls received certificates of recognition for completing the Blue Bird requirements for the Annual Project for 1967-1968. Martha F. Allen membership charms were awarded to Denise Mueller,, Maureen Galindo and Sherry Hover.

Mrs. Fred Schwede received a miniature watch charm of the Camp Fire Insigne of the crossed logs and flame. It was a gift from the girls in gratitude for her work with the group during the last two years.

The 14 second grade Blue Birds from Ridgeway were presented First Year Certificates by their leader Mrs. Jorge Galindo. Their mothers were guests at the ceremonial. Other guests included Mrs. Dean Hamilton and a group of eight mothers and twelve girls from the first grade, who are planning to start a new Blue Bird group in September.

The Camp Fire Program was introduced into Ridgeway in September 1966, with 10 members. This year there are two groups with a total of 26 members. It is with great anticipation that the leaders and girls look forward to an even larger registration and more wide-spread involvement for the forthcoming school year.

Linda and Elizabeth Spencer, Sherri Hover and Margaret (Meg) Moore were presented Official Camp Fire Membership Pins, for outstanding attendance. Mrs. Paul Hover, their leader, presented the pins. Meg Moore missed only one meeting the past two years.

Tecumseh Firm Opens Tekonsha Branch May 25

Marty Wallich, owner of Tecumseh Plywood, will open a second retail outlet, Tecumseh Plywood No. 2, at Tekonsha, Saturday.

The new facility is located in a 15,000-square-foot building at the junction of US-27 and M-60, between Coldwater and Marshall.

Specializing in plywood and allied building materials, the new business will be managed by Robert Decker, formerly of Tecumseh-Clinton Rd., Tecumseh.

Mr. Decker moved to Tekonsha with his wife and two children recently.

Mr. Wallich said the branch store was planned "because the response to this type of outlet has been so rewarding in Tecumseh. It will permit increased buying capacity and lower prices on a volume basis."

Ground Breaking May 28 For New Medical Facility

Ground-breaking ceremonies will be held for the Lenawee County Medical Care Facility May 28 at 10 a.m. The new building is to be located on Sand Creek Hwy., just south of Adrian.

Financing of the new 156-bed hospital will be in part by the county's recent sale of bonds. The bonds were purchased by The First of Michigan Corporation with interest rates all below five percent.

Part of the financing will be through federal assistance. The money is provided through the Hill-Burton Act and is being built to specifications which would be acceptable to all Medicare and Medicaid programs.

The new structure will replace Maple Lane Manor in the future.

The troop won a presidential ribbon, which is the highest award given at this event. They also won a free weekend at Camp Kanasatake for compiling the second highest number of points for the weekend.

The points were based on patrol activity, camp cleanliness, demonstrations and many other factors. Each boy received a patch which represents the three groups which attended: Cub Scouts, Boy Scouts and Explorers.

The following boys took part from Britton: Brad Cowen, Tom Dick, Bob Downing, Greg Dunbar, Richard Frazier, Rick Furgason, Jeff and Gary Geigler, Tom Gubbe, Brad and Greg Hamilton, Terry Hintz, Chuck Irwin, Gary Judkins, Mark Maschino, Jim and Richard Rayburn, Randy Reitz, Richard Smetka, Bruce Sommers, Jim and Ben Studnick, Jim Thomas, Sam Skelton, Steve Hawkins, Ron Tuberville, Terry Hale, John Lorenz, Mark Smetka, Jim Bennett, Chris Bates, Mike Dusseau, Mike Bearinger, Jim Furgason, Ray McElroy, and Scoutmaster Neal Judkins.

Hobos Galore

By LU ANN RHORA

BRITTON — Saturday may well go down in church history as one of the most unusual and unique parties ever given by the Bethel Baptist Church young people.

Hoboism was practiced in both dress and food.

Byron Gall and Bruce Preston took the prizes for the best hobo costume.

For a flair of the unusual, games were played such as Red Rover and Pom Pom Pull Away. Football and softball always rate high at any outdoor party also.

Tired and hungry, everyone sat around an open fire cooking stew in a brand new garbage can.

Pastor Duane McNeil led the group in singing while all eyes were fixed on the can.

Helen Monk gave the devotions and told that even hoboes or others who may have little to their name, are still loved by God.

The Hobo stew, to which each one had contributed was now ready to be served. Ladled into tin cans, each one ate heartily.

Darkness descended and 32 assorted hoboes headed for home.

This marked the end of another young people's fellowship.

Big Week Climaxes High School Careers

BRITTON — Activities of the next week will bring to a climax thirteen years of school attendance for 34 seniors at Britton-Macon High School.

Wednesday night, May 29, at 8 p.m., the annual Class Night will be presented by the seniors. Following Class Night fun, the Awards program will be held, when various athletic and academic awards are given out.

Commencement Exercises will be Friday, May 31, at 8 p.m. to conclude the week's events, and the graduates will receive those treasured diplomas.

Many of the parents of graduates will be holding open house to honor the students following graduation ceremonies.

Tiedes Notified Of Sister's Death Sunday Morning

BRITTON — Mr. and Mrs. Gustav Tiede received word Sunday morning of the death of Mr. Tiede's sister, Mrs. Delbert (Arna Tiede) Blackett of Los Angeles, California.

She is also survived by her father, Herman Tiede, and another brother, Walter, also of Britton. A sister, Mrs. Frieda Wegner of Blissfield, also survives.

Baptist Association Quarterly Meeting

BRITTON — The Southern Michigan Association of Regular Baptist Churches met May 14 at the Bethel Baptist Church for their quarterly meeting.

Representatives of the 14 churches in the association heard Mrs. Ruth Stanton from Baptist Mid-Missions tell of her work in metropolitan Cleveland. She told of the restless city children and how the missionaries try to reach them with Christian teaching.

"They are taught to decide good from evil and that there is a purpose for life," she said.

"One of the most serious aspects is that people do not want to get involved," she stated, in speaking of some of the more undesirable occurrences in our big cities.

The women then held a brief missionary meeting and decided that the dime bank project for the coming year would be used to help in the installation of a walk-in freezer for the camp at Lake Ann, near Traverse City.

The men held a forum and discussed "Public Education vs. Christian Education." All believed in separation of church and state and did not favor government support of Christian schools. They also agreed that the final determination of how a child ends up, comes back to the home.

A time of fellowship to meet one another was held with the ladies of the host church serving coffee and cookies.

Dr. James T. Jeremiah of Cedarville College, Cedarville, O., was the principal speaker in the afternoon and evening.

He spoke on Christian Education and presented five planks, sound doctrine, godly living, balanced curriculum, sound mind and American patriotism.

He said Jesus himself taught sound doctrine.

"We are to practice Godliness, and that a balanced curriculum is necessary for an orderly life so home, church and state are recognized in their proper position which results in a sound mind," he said.

A return to old-fashioned American patriotism was stressed and a strong plea for recognition of authority.

"There is a lack of this to our school personnel, police and government," he stated, and felt this is a result of not being taught proper authority of the parents in the home. He placed a strong emphasis on getting people to come to a personal relationship with God through Jesus Christ.

The members of the host church served a ham supper to the 150 representatives present.

"What Makes A Christian College Christian," was the subject of Dr. Jeremiah's speech in the evening. He took the four common academic studies, Social Studies, History, Science and Philosophy applying the Christian approach to teaching.

"With biblical knowledge applied to all four, one is able to understand more completely God's working in history and able to recognize the hand of God as creator and sustainer of all things," he said.

In Philosophy one has two choices, human speculation or Divine revelation. "In dealing with the past or future, it is very apparent which is more reliable," he said.

Crutchfield-Mann Vows Solemnized

BRITTON — Linda Mann, daughter of Mr. and Mrs. Lavaun Mann, of Britton, and Kirk La-Von Crutchfield, son of Mr. and Mrs. Andrew Crutchfield, also of Britton, were united in marriage Saturday afternoon at the Grace United Methodist Church in Ridgeway by the Rev. John Lover.

Bells with pastel colors were used to decorate the church for the ceremony. Mrs. Fred Schober accompanied the soloist, Diane Lake.

Given in marriage by her parents, the bride wore an A-line fitted satin sheath beneath a lace cage extending into a chapel train.

Sequins enhanced the neckline and the satin bow attached to the train.

Her fingertip veil was secured to an eight-petal crown outlined with sequins.

She carried a crescent bouquet centered with a white orchid accented with ivy stephanotis and white roses.

Mrs. Richard Skelton was maid of honor in a pink satin sheath beneath a flowered cage, fastened at the back with a bow. A satin bow secured her face veil and she carried pink carnations and daisies.

Sharen Mann was her sister's bridesmaid along with Judy Hildebrand, while Shelley Mann, also a sister of the bride, was junior bridesmaid and Julie Cunkle served as flower girl.

The bridesmaids' dresses were fashioned the same as that of the maid of honor, only in blue and yellow. The junior bridesmaid wore lilac. All carried daisies and gypsophelia. Miss Cunkle carried a white basket of yellow daisies.

Keith Crutchfield, brother of the groom, was best man and the guests were seated by Richard Skelton, Thomas Korican, and Mike Bruce. Terry Gibbs was the ring bearer.

A reception was held in the church parlors for 250 guests featuring the bride's cake, made by her grandmother, Mrs. Dale Esterline of Hillsdale.

Both young people are graduates of Britton - Macon High School. He is employed at the General Motors Hydramatic plant in Ypsilanti.

Following a trip to Holland, the couple are living at 212 Marlboro Apartments.

The rehearsal dinner was given Friday evening at the Coffee Cup in Dundee, by the groom's parents.

Poppies Honor Dead

"Will you wear a Poppy in remembrance?" asks Mrs. Robert Koffron and the members of the American Legion Auxiliary Poppy Committee. Poppy days are May 23, 24 and 25 and a time for remembering.

"Remember fathers, husbands and sons. We have lost so much in terms of National wealth when we lost one good mind or body to war, and we have lost so many," she stated. "Remember the heartache parents, wives and families have suffered and are still suffering. Don't let these beloved men be forgotten. Remember to make your contribution for them on Poppy Days," Mrs. Koffron suggested.

"Even though the conflicts may not be fully understandable to us, nor do we have to agree with them, we do have to remember. Remember our wonderful young men in each conflict, who fought so valiantly that we and this great country might live. Let us remember their efforts and show our gratitude on Poppy Days," the auxiliary president pleaded.

"Remember also the many who are still paying the price with wasted minds and bodies in some VA Hospital. What a loss to our country and families. For them the paying goes on and on. Many of them know they can never rejoin the main stream of life."

"This is why the American Legion Auxiliary, Underwood - Orr Unit 34 always purchases many more Poppies than they will use, 7,500 this year. Our efforts and yours help to keep crippled hands and bodies useful and purposeful and gives them means to earn some money that leads to human dignity," she explained.

"Our 'Miss Poppy Winner' will ride along with all participating members in the Memorial Day Parade. There will also be a Poppy window and Poppy posters to help you remember our brave and wonderful men of all conflicts," Mrs. Koffron concluded.

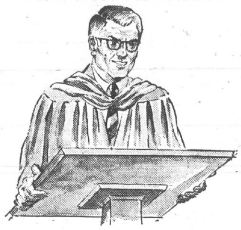
New Tomorrow

If I had time tonight, I might be a bit frightened. But just now, there's time to feel only excited and happy. It's funny . . . when you're a little kid, it seems as if you go to school forever. Then all of a sudden, it's graduation night, and you know that this is an end and a beginning all at once.

Mom and Dad will be out in the audience, and so will Dan. He sent me these roses. Our minister will be out there too, and I hope he'll notice that the smile I send in his direction will be a particularly grateful one. How often I've gone to him with my childish troubles, only to have him treat them as seriously as if they were of world-shaking consequence. It was he who *really* taught me how to pray.

He taught me so many of God's lessons. And I am sure that throughout my lifetime I'll be learning them anew and repeating them over and over again. How wonderful to realize that this commencement, this end of an era, is really the beginning of a new tomorrow.



THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Mother Earns 4 Point

Mrs. Fred Seal, 905 Shady Lane, was among those honored at the annual dean's dinner of the Detroit College of Business May 15 at the Continental Congress Inn in Dearborn.

Mrs. Seal, her husband and son, Bob, moved here from Detroit in September of 1967. She is taking an executive secretarial course and has excelled academically by earning a 4.00 grade average for the past year.

She is a graduate of Roosevelt High School in Wyandotte and is employed at the Ford Motor Co. Central Office Bldg. in Dearborn.

The Seals decided that they did not care to live in Detroit with the hustle and bustle any longer, though the big city had been their home more than 25 years. They selected Tecumseh.

Mr. Seal stated that the quiet and peacefulness of Tecumseh has Detroit "beat a mile".

The couple had set some goals for themselves and decided that the easiest way to reach them was for one of them to continue education. Since Dorothy had carried excellent marks all through high school, it was decided that she would be the one and her husband would help with the dishes, laundry, etc.

"Maybe I don't do it as well as my wife would, but at least it helps," Mr. Seal said.

He gets up at 4:30 a.m. and leaves an hour later for his truck driving job with the East Texas Motor Freight Lines out of Detroit. He sets the alarm for his wife, who gets up at six to reach her job in Dearborn. Tuesday and Thursday evenings she attends classes and arrives home about 11 p.m.

The two put 110 miles each on a pick-up and a wagon every day, besides Mr. Seal drives about that much on his job.

Their son is 13 and an eighth grade student. He likes model cars and trains. He is building a model home with furniture. He likes games of all kinds and is a member of the Junior High Chess Club.

Mrs. Seal likes flower gardening and her husband especially likes fishing and swimming.

The couple plan to help their son through college, pay for their home and do some traveling, among other things with the money they hope to earn through additional education for Mrs. Seal.

THS Art Club Tours Detroit Institute of Art

The Art Club members and other students of art in Tecumseh High School made a trip to Detroit to the Art Institute there May 15.

The Art Club honored the senior members, Donna Rinehart, president; Linda Steadley, student council representative; and Martha Hawthorne, Robert Prettyman and Linda Hollar at the final meeting of the year, May 14.

A band played and refreshments were served.

Those accompanying the students on the Detroit trip were Mrs. John Westwyke, high school art teacher; Glen Van Vleet, bus driver; and two members of the Brush and Pallet Club, Mrs. Richard Steadley and Mrs. George Rinehart.

Don Schmidt Loses Control, Skins 3 Trees

Donald L. Schmidt, 25, of 126 S. Ottawa St., was ticketed for careless driving at 2:40 a.m., Saturday.

Schmidt was eastbound on M-50, just west of Matthews Hwy., when he came up behind other vehicles, then discovered he couldn't pass because of an approaching west-bound car driven by Terry Lee Alcock, 19, 9565 Wisner Hwy., Tipton.

Schmidt lost control of his car when it went onto the shoulder and skinned three trees, throwing stones into the windshield of the Alcock car.

Neither driver was injured.

Time Is Taken To Steal Clocks From IOOF Hall

Party supplies, including eight pies and 1½ cases of pop were among the items stolen from the I.O.O.F. hall, Saturday.

Members of the Independent Order of Odd Fellow, who arrived about 8 p.m., to prepare for the bi-monthly dance, discovered the loss, and called Clinton State Police.

Other things stolen included three fire-extinguishers, an electric clock with the Odd Fellow emblem on it, an antique grandfather clock, and a punch bowl set.

The exact time of the breaking and entering is not known.

Weekend Guests

Dean and Susan Kirkland were home over the weekend from Michigan State University. Probably their parents, Mr. and Mrs. Eddie Kirkland, didn't see too much of Susie, though, since she has again started working at Stagecoach Stop. This year she is riding shotgun on the train.

Auxiliary Elects Officers

Mrs. Albert Caesar was elected president of the Herrick Memorial Hospital Auxiliary at the annual meeting held May 14 in the Community Center.

Other new officers are:

First vice-president — Mrs. Stella Hubbard.

Second vice-president — Mrs. Charles Gross.

Recording secretary — Mrs. Robert Vaillancourt.

Corresponding secretary—Mrs. Franklin Bock.

Treasurer — Mrs. W. N. Winfield.

Assistant treasurer — Mrs. James Gillespie.

Membership — Mrs. Charles Mensing.

Legislative — Mrs. Robert Brown.

Publicity — Mrs. Richard Meyers.

William Groover, hospital administrator, and Mrs. William Higham, past president, will serve on the Board of Directors.

William Ross, Dyke Helms and Harold Easton presented the program on the proposed Lenawee Vocational-Educational Center.

Mrs. William Higham, retiring president for the past two years, summed up the activities of the Auxiliary in her report.

She stated that the Auxiliary membership now totals 375, including 33 associate, seven honorary and 17 new members taken in during year.

She said that a tea and bridge for members, prospective members and guests was held at the Tecumseh Country Club in October.

Several of the Auxiliary projects topped last year's profits, according to Mrs. Higham, including the Heart Fund Tag Day.

The Holiday Ball held in December, the bridge and euchre tournaments, and the sale of fruit cakes were also financial successes, according to Mrs. Higham.

She reported that changes were made in the Auxiliary scholarship awards to include one, two, three and four-year courses in health career programs.

They were formerly awarded only to those seeking nurses degrees. A greater response has been received and many more recruits in health care have applied for the scholarships as now set up. Three are being awarded this year.

Five special beds and other electronic equipment for the cardiac intensive care unit at the hospital were purchased.

Two nurses, with expenses paid by the Auxiliary, were sent to a special course in coronary care at Butterworth Hospital in Grand Rapids, Mrs. Higham reported.

She also said that new television sets were installed in the hospital rooms with the latest wall installations being used.

A new radio, plus speakers, was installed in the nursing home. Women's Circle No. 3 of the First Presbyterian Church, made a donation towards this project.

Mrs. Higham's greatest pride is the gift shop which was completed in the hospital lobby. She said that it has only been in operation for two months but is doing well, and that this is an extra service to the hospital and patients.

The Auxiliary has, for several years, operated a patient's service cart carrying cosmetics, stationery, candies, etc., directly to the patients.

Landscaping around the hospital was completed this year, but the Auxiliary is now planning to plant a row of trees in the rear of the hospital to hide the city dump from view.

"This will be done by means of the landscaping fund as it continues to grow," said Mrs. Higham.

National Hospital week was observed May 12 to 18. Coffee and cookies were served in the lobby by the Auxiliary; prizes were awarded to sixth grade students for best posters, and the first baby born that week was presented a silver spoon, the retiring president reported.

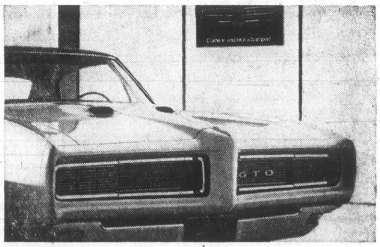
What makes a Pontiac a Pontiac?

(And what makes ordinary cars ordinary?)

Only Pontiacs have Wide-Track. Drive a Pontiac and you'll wonder who took all the bumps and curves out of the road.

Even our lowest priced Pontiac has a unique 175-hp Overhead Cam Six. Unless you count cylinders, you'll swear it's a V-8.

Pontiac interiors make you glad you left home—soft Morrokide and simulated wood trim so real only a termite can tell it isn't.



Innovations like GTO's Bumper-of-the-Year make Pontiacs look expensive. But record sales prove we know how to price them, too.

HAZE RATES HIGHEST SCORES IN U. S. AND ONTARIO IN 1967

Perfect Rating Cinches Trophy

CLINTON — Third-time winner Jade Hope's Gray Haze, silver poodle, owned by Mr. and Mrs. Ted Kiebler of Clinton, now can keep the 39" eagle-topped challenge trophy he earned at the Western Lakes Training Club, Buffalo, N.Y., Sunday.

Haze placed highest dog in trial with a perfect 200 score in Utility B Class.

Only the second time that Judge Raymond Peat has awarded a perfect score in a long history of judging kennel club trials, he pronounced it the "finest exhibition he had seen in a long time. Neither dog nor handler, Ted Kiebler, made an error."

Haze had earned a 200-score in his first trial for the challenge trophy, in 1966, and last year scored 199½.

Haze's award also included a silver tea service.

The champ's 15-month-old daughter, Gaye Haze went along for added insurance that the challenge trophy would stay in the Kiebler kennel.

The little gal placed second highest scoring dog in the show, earning 199½ points in the Novice B Class, and would have cinched the trophy, even if her Daddy Haze hadn't done it.

Ontario's "Utility Dog of the Year" trophy for 1967 will be presented to Haze at Burlington, Ont., May 26.

Nearing the end of his phenominal career in competition, nearly eight years old, Haze was selected by the Canadian Kennel Club, on the basis of his 199½ point average in Ontario competition last year.

'Up, Up and Away' Hit

By MAXINE CALHOUN

CLINTON — Many talented instrumentalists, vocalists and dancers enabled Clinton's high school band to stage another outstanding variety show three evenings last week.

Sparked by glow-lighting effects and a stepped-up pace, marked by less comedy and more music, the performance never dragged.

When the 17-member dance band, directed by Richard Perkins, played up-beat arrangements of their parents' favorite hit tunes including, "The Way You Look Tonight," "Blue Moon," "Day In, Day Out," and when trumpeter Jerry Porter played "Stardust," and trumpeter Dave Hawkins belted out "Trumpeter's Lullaby," they had the audience with them all the way.

Sunflower Teddybears, "Joe Shouse, Warren Merritt, Dave Herndon, Barry Campbell and Rick Warner, gave an electronically-amplified rendition of "now" music that bounced off the walls.

Breathtakingly effective was the fire-lighted baton twirling routine 'Pink Panther" by twirlers Kris Humble, Cindy Mohr, Penny Rogers and Joanne Sharpe.

Glow-lighting and clever costuming added emphasis to the precision high-stepping routines by the 10-member dance chorus, with great choreography by Kris Humble.

Capably handling the vocal solos were Mark Williams, Debbie Gibbard, Larry Sebring and Chuck Wilder.

This was a farewell appearance for Chuck Wilder, a junior, who has sung for three years in operetta and band shows, and is moving from the community this summer.

A touch of levity was provided by the take-off of the Rowan and Martin Laugh-in party sketch, which earned some laughter from the audience.

MC's Mitch Geiger and Iva Brooks were both articulate and poised as they introduced the show's 23 numbers.

Climaxing the finale with the cast on-stage, as the band played the title song, dozens of balloons were released from a tricky trap-doored basket, which hung on a large weather balloon above the audience.

This space-aged show was a real star-maker for Clinton High youth.

Park Dedication Set

Plans to formally dedicate the new facilities at the Tecumseh Park Saturday, July 6, are moving into full swing under the guidance of the Advancement Committee, a group of local citizens working under the United Fund Foundation.

The completion of the multi-purpose building on the 22-acre site on the western edge of the city is the first tangible result of a broad program to provide adequate recreational facilities for all of the local people. This new building offers a spacious lobby, a snack area, rest rooms, and change court facilities — all of which will greatly improve the offerings of the swimming area known for so many years as "The Pit".

A portion of the $55,000 construction cost was provided by state and federal funds and $12,500 donated by the Tecumseh United Fund Foundation. It is hoped that future development will include picnic area, handball courts, tennis and shuffleboard courts and a band shell.

The present swimming area is closely supervised by the staff of the city Parks and Recreation Department under the direction of Donald Moffatt. This year weekend supervision at the Park is expected to begin the weekend of May 18 with full time coverage beginning after the close of the school year.

Highlights for the dedication day will include a parade with Ray Aylesworth as marshal. Included in the parade will be several marching bands, local dignitaries, out-of-town guests, and numerous marching units composed of all areas of Tecumseh recreation facilities and sports. Suggestions have been received that the playgrounds decorate floats along with the service clubs with the theme emphasizing parks and recreation.

A ribbon-cutting ceremony will be held at the new building following a short dedication speech by a special dignitary. Cutting the ribbon will be the members of a local family who will be selected from those purchasing season tickets at a cost of $25 before June 21. The family ticket not only allows seasonal use of the Park but a one session per day use at the city pool.

Following the ceremony, the new building will be open for tours of inspection with a special feature in the afternoon of expert skydivers attempting to pass tests by parachuting into the water at the Park.

Additional improvements to the Park will be done in the area of ground care with the gift of an additional $2,500 from the Foundation and the work expected to be encouraged by the J.C.'s who have recently made possible the acquisition of the land at the entrance.

Orville Treat Honored By Past Chiefs

TIPTON — The Addie Kemp Past Chiefs Club held their Family Night dinner at the K of P Hall Wednesday evening. Sixty people attended.

One of the Past Chief's husband, Orville Treat, has been a member of the K of P's for 50 years and he was honored at the dinner to which the Knights and wives were invited.

Mr. Treat's three brothers attended, with their wives, Mr. and Mrs. Harold Treat of Roscommon; Mr. and Mrs. Elbridge Treat of North Adrian and Llewellyn Treat of Adrian.

Dinner was served at 7 o'clock. The tables were attractively decorated with bouquets of lilacs and tulips and gold nut cups.

The program opened with community singing, led by Mrs. Vera Driffill with Mrs. Clifford Hardy at the piano. Mrs. Hardy then gave a reading of past years of Treat, called "Memories". Mr. and Mrs. William Vollmer and three daughters, Debbie, Wendy and Claudia played several selections.

Dale Cook, Chancelor Commander of Tipton, presented Mr. Treat with his 50-year pin and life certificate. He responded by reminiscing and thanking those responsible for the evening. His brothers gave short talks and congratulated him.

Robert Wood of Tecumseh, District Deputy and wife and Mrs. Lyle Whelan, District Deputy and husband, of Tipton, gave short talks.

Mrs. Dale Cook, president of the Past Chiefs Club, introduced the program.

Cards were played later with Mrs. Lyle Whelan and Mrs. Howard Kronberg in charge. High prizes were won by Mrs. Lillian Benedict and Howard Kronberg. Low prizes were won by Mrs. John Warner and Verle Miller.

The kitchen committee was Mrs. Rollo Thielan and Eileen Miller and the dining room committee was Mrs. Vera Driffill and Mrs. Richard Platt. Mrs. Dale Cook was chairman of the event.

Carillon Choir Is Banquet Feature

The Carillon Choir of the Collingwood Presbyterian Church of Toledo presented the program for the Mother-Daughter banquet of the Presbyterian Church Friday evening in the Fellowship Center.

The Carillon Choir was formed in 1963 when the Toledo church acquired a set of 25 handbells as a memorial. Since then 12 bells have been added to give the choir a chromatic range of three octaves.

The choir is composed of Junior and Senior High young people of the church. The choir frequently plays in the regular worship service of the church and also plays for other churches and civic organizations. Their repertoire includes sacred, secular, classical and contempary selections. Young and old enjoyed this group and the lovely bells.

Mrs. James Barton served as toastmistress. Mrs. Margaret Kidman gave the invocation. Mrs. John Hopson and daughter, Natalie, gave the toast. Mrs. Hopson in honoring dolls from many countries, also introduced Claudia D'Angelo, who is an exchange student from Brazil, living with the Hopsons and attending Tecumseh High School.

Recognition was given to Mrs. Al Helzerman and Mrs. Margaret Kidman as the oldest mothers present, Mrs. Orville Rose as the youngest mother, and Mrs. Carlton Cook with the most daughters present.

The tables were decorated with spring flowers and bells. The men and boys of the church served the dinner.

Ag Referendum to Begin

A state-wide referendum to establish a new $1.6 million Michigan Dairymen's Market Program will commence May 22, according to B. Dale Ball, director of the state Department of Agriculture.

Decision to hold the referendum was made following two public hearings on the proposal held recently in Lansing and Marquette.

At the hearings, several suggestions were made to modify the program. These were first reviewed by a temporary Market Committee who then forwarded its recommendations to Mr. Ball's office. At a later meeting between Mr. Ball and the Agricultural Commision, a decision was made to conduct a referendum of all Grade "A" dairy farmers in the state.

At the Lansing hearing, George Austin, president of the American Dairy Association of Michigan, testified that the program was the result of a two-year study by the A.D.A.M. board. He also stated that the program was explained to Grade "A" dairy farmers at the local meetings during the winter months and 84% of those dairy farmers attending the meetings indicated they favored the principles of the proposed program.

"Ballots will go out to Grade "A" dairy farmers in Michigan not later than May 22 and must be returned by June 7," Mr. Austin said.

"Since individual production is a consideration in the vote, each Grade "A" producer must indicate his "Base" on the ballot (or April 1968 production), sign and return it in order to have his vote counted," he continued.

If approved, the new advertising and marketing program would be administered by a 15 man dairy farmer committee, appointed by the Governor from nominations submitted by Michigan dairy farmers' cooperatives throughout the state and the Michigan Dairy Herd Improvement Association.

LIFE HEALTH

Accidents

The spine is a mighty shock absorber within the body, and it is the structure which protects the spinal cord, the lifeline of the body's nervous system.

Sudden impacts of falls, collisions or "whiplash" which are too heavy for the spine to withstand, can result in painful and often crippling — injuries.

The spine is composed of 24 vertebrae separated by discs. The spinal column contains the spinal cord, consisting of millions of nerves which carry vital nerve energy to the organs, causing malfunction and distress to that particular part of the body.

A "slipped disc" or a displaced vertebra in any part of the spine can cause nerve impingement, or pinched nerves. This obstruction can slow down the powerful nerve energy to the organs, causing malfunction and distress to that particular part of the body.

Scientific adjustment of the hands of a competent, skillful chiropractor can correct the slipped disc or the displacement, bring prompt relief and eliminate the possibility of future distressing effects. After any fall or accident, the best thing to do is see a chiropractor for a scientific spinal examination. Another Health and Life Article from the Office of:

Through My Window

WHICH WAY TO LOOK

Gertie T. rushed in from lunch and, before I could bat an eye, my bed was swished around so that instead of facing south I was pointing north. Two unbelievably bright scarlet tanagers were in the neighborhood! Imagine two of them! After much prompting I finally spotted one—he was in a tree across the creek. Even though the day was dull, he was a flaming red and oh, those jet black wings. What a splash of sunshine would have done. There is something special about the red of a tanager, nothing quite matches it.

Later in the afternoon, the air was suddenly alive with bird talk. Bouncy little goldfinches were everywhere and how they were gossiping. Their squeaky little chatterings were downright noisy.

Actionwise the birds, of course, were constantly on the move and our window-watching was just a flash and blur of yellow and black streaks.

We think of the just-popped-out leaves as being green but there is much yellow there, too—a bright little goldfinch touches down in a small clump of new foliage and completely disappears.

Early the next morning, after I was rolled up in bed and had managed to prop open both eyes, a pair of mallards appeared. They dabbled in the creek, seemed in no particular hurry about anything, and finally swam up towards Gertie S.'s. A quick call alerted her as to who was coming for breakfast. What a ducky way to start the morning.

★

TWO SECONDS of quiet and then a flurry of activity in the mulberry tree-bush by the back porch. Our Baltimore oriole activity was starting. The distance is no more than 20 feet and to see orioles that close—wow! Several days before, he had selected one of these branches as a drying off spot.

In bright sunshine, he ruffled out, shook off and slicked down his lovely orange and black feathers. What a sight! This morning his pretty mate was busy finding nesting materials.

Stripping fairly long threads of bark from the bush involved much pulling and tugging. As she twisted and turned, Gertie T. and I oohed and aahed at her pretty coloring.

Please do not call Lady Baltimore dull—her head may not be as shiny black as his and her back, instead of being orange, is a rather dark greenish yellow but the combination is nice and, when she slid around a branch, we were surprised at what a bright orange tummy she has.

Like Mama Cardinal, this bird must be seen close up to the fully appreciated.

AND HAVE you ever spied on a squirrel picking maple leaves?

The Norway maple tree has huge leaves and these were the ones the squirrel was gathering and stuffing into her mouth.

Those little hand-like front paws were lightning fast and we had to laugh as she poked the leaves in, cramming her mouth full to overflowing.

When the was absolutely no more room, down the tree came Mrs. Squirrel with a big bushy mustache of green leaves. We wondered about her destination and sure enough, straight for the tree across the creek which has the hole we have so wanted to be a squirrel's nest.

But she went in and came right back out—what now? For the next 20 minutes she carted leaves into the nest, they were dark, shriveled up last-year's leaves, though, and not the pretty green ones.

Instead of taking her family a fresh green salad, she was apparently making them a nice soft bed. This tree will bear closer watching, there should be some baby squirrel fun soon.

So it is that during this gorgeous and gay May, the outside world is grand and glorious, our one and only problem is which way to look.

3.65 Inches of Rain Swamps City, Area

Rain, commencing early Sunday morning, saturated Tecumseh and the area Sunday and Monday, with total rainfall exceeding three and a half inches.

Many persons reported water in basements, and several rural roads were closed due to high water. Local dealers in sump pumps report increases in sales, and one sold completely out.

Roads closed due to flooded conditions were Murphy, Billmeyer, Taylor and Carson.

Mike Anderson, school bus supervisor for the Tecumseh Schools, reported practically all buses ran late Monday morning but it was not entirely the fault of flooded roads.

The heavy rains and fog Monday caused difficulty in starting 10 buses, and they were late in leaving to pick up students for school.

Mr. Anderson said drivers had the most difficulty in starting buses since he became supervisor, about four years ago. Usually, when trouble is expected in starting buses, additional help is employed, but none was expected Monday.

Only city street troubled by the heavy rains was S. Union St., north 250 feet from Kilbuck. The city recently installed a storm sewer there and water softened the filled-in trench.

City Manager Cal Zorn said trouble developed there late Sunday afternoon and additional stone was hauled in to fill the sunken trench.

Tecumseh's water gauge at the sewage plant recorded a total rainfall of 3.65 inches for Saturday, Sunday and Monday. Officials recorded only .1 for Saturday, a whopping 2.7 inches for Sunday and .885 for Monday. Showers Tuesday added to the total.

Mrs. Haselwood reported to police that she had just went shopping Saturday and had added to the stock. She also told officers that she was suspicious of missing food in the past.

Mr. Haselwood is chairman of the board at Tecumseh Products.

OPEN SAFETY-CHECK LANE — Officials and Safety Queen Donna Purkey and queen candidates gathered after the parade last Wednesday to open the safety lane. Col. MURPHY LAKE — Sunday's and Monday's heavy rain flooded this small valley on Murphy Road, just north of town, closing the rural road just south of Allen Rd. Several other rural roads were in similar condition, which could become worse as the rain continued to fall Tuesday. Unless there's an end to the rain soon, some of these roads will be closed 'til this weekend.

New Plan Allows City 2 County Supervisors

By BILL SANFORD

An undefinable something is to be done, in a way nobody knows how, at a time nobody knows when, that will accomplish nobody knows what.

The undefinable something which has to be done was vaguely outlined recently in a directive from the attorney general's office that county boards of supervisors in the state must be reapportioned on the one-man one-vote theory.

The Lenawee County reapportionment commission has been wrestling with the problem for the past two weeks in an attempt to reach an amiable solution in the county by the first of June. Petitions for prospective candidates for the new office must be filed by a June 17 deadline.

An apportionment plan was adopted at a Monday session of the commission calling for a 21-member board.

The city of Adrian will have five members with a sixth being shared by the second precinct in Madison Township.

Tecumseh City will have two supervisors. The districts will be divided by W. Chicago Blvd. to Evans St. one block north on Evans to Logan and east on Logan to the city limits. The districts will be numbered six and seven.

While the state requirements were for a variation of 5% in population either over or under, the county figures vary as much as 11.9%.

Much of Monday's session involved discussion on whether or not an appeal of the reapportionment plan could be made to the state court of appeals and what effect it would have upon it. It was conceded that the plan could be appealed, forcing reconsideration.

Other changes in the district were a merging of Clinton and Macon townships to form a district. Raisin and Tecumseh townships are joined, Ridgeway and Deerfield combine for a district, Franklin and Cambridge.

Due to the smaller number of districts than at present, a great many of the faces on the present board will no longer be there. With the exception of Adrian township, present township supervisors must face other supervisors for the seats. A few of the members have indicated that they did not wish to seek the newly formed office.

Members of the commission are Harvey Koselka, county prosecutor, Patricia Johnson, county clerk, Willis Moore, county treasurer, supervisors Melvin Rodesiler and Lewis Ruesink, Mills Swick, county Republican chairman, and Hugh Flippo, county Democratic chairman.

Much of the debate concerning the issue revolved around a future assessment of the reapportionment picture. In the state law it is asserted that every decade, following the federal census, a review of the apportionment must be made.

Also contained in the law was that boards could consist of from five to 21 members for counties of the size of Lenawee.

Election of the officials will take on an added aspect in that none of the present county lawmakers from Tecumseh City and the city of Adrian can serve unless they were to relinquish their present roles in city government.

Mayors of both cities are automatic members due to the virtue of their offices as are the city managers and assessors. In the new law it is stated that two roles in government are in conflict of interest and therefore cannot serve in both capacities.

Another of the riders to the apportionment directive is that township supervisors cannot serve on the board. The offices are to be independent of one another.

The joining of Tecumseh and Raisin townships being accomplished by figures of the 1960 census, and in view of the growth in both areas, this new district can be considered in a tentative state.

Raisin and Tecumseh being near industrial complexes are ahead of other townships in the county insofar as population growth is concerned. Considering this, it is quite likely that the

Top Youth Award for Bill Whiting

Tecumseh's Outstanding Youth of the Year is Bill Whiting, son of Mr and Mrs. Wallace Whiting, 106 W. Pottawatamie.

The recognition and plaque were presented at the Michigan Week banquet Wednesday at St. Elizabeth School.

The award is based on scholastic achievement, church, community and family relationships.

Recipient of three nominations, the carrot-topped dynamo has a phenomenal record of activities to his credit.

His extra-curricular activities are: annual staff, Junior Class play, National Honor Society, debate team, staff Smoke Signals, and student council, treasurer Spanish Club, 2 years; Madrigals chorus, Speech Club and Teen Club Legislature Committee.

Community service includes photography work for The Tecumseh Herald. He is a member of the Tecumseh Players, and a member of the Lodge 332, Order of Arrow, Boy Scouts.

For his church, St. Elizabeth Catholic, he sings in the choir, attends religion classes, is altar boy, and a member of the Worship Committee of Archdiocese Speak-up Synod.

With his family, he participates in boating, hunting, fishing, singing and photography.

Mrs. Thomas Morgan stated as the reasons for Bill's selection, "We feel that Bill is very deserving of this honor since he serves his school, community and church with the best of his ability. Many of his deeds go unnoticed and we feel that Bill deserves some recognition as the Outstanding Youth of Tecumseh.

Sue Smith, daughter of Mr. and Mrs. Thomas Smith, and Judy Snook, daughter of Mr. and Mrs. William Snook, tied for second place of the 14 students nominated by their peers.

"We found no cold shoulders in Tecumseh, the refrigeration capital of the world. People here are warm and friendly," visiting Mayor James L. Jones remarked as he spoke to nearly 125 at the banquet.

Inspection Scheduled For Tavern

City officials report they will make a health inspection here of the building occupied by the Rocket Tavern and with the hopes of condemning the three-story structure.

Although Council approved a liquor permit for the tavern last month, officials report the building in a run-down condition. Rain is reported to drip through the top two stories and then into the tavern itself.

Police Chief Murell Clark, Wallace MacGeorge, fire chief, and an inspector from the health department are expected to inspect the property within a week.

The building, according to city records, is owned by Vincent Muzillo of rural Adrian.

Community To Honor War Dead

Tecumseh's finest parade of the year will be held here Thursday morning when officials and participants will march in honor of the war dead.

Parade is scheduled to begin at city hall where firing squads from the American Legion and VFW will salute the dead. A wreath will be placed at the city hall monument and Almond Curtis, Legion commander of the Underwood-Orr Post, and Everett Fielder will read a memorial.

Shortly after, the annual Memorial Day parade will commence, starting at the east end of town, passing through the downtown section and then out N. Union St. to Brookside Cemetery.

Throngs of Tecumseh and area folks are expected to watch the parade, which will include officials, veteran organizations, bands and other marchers — including the tikes who bring up the rear on their bicycles.

The Rev. Donald Porteous of the United Methodist Church, will be the speaker at the cemetery's Memorial service. His subject is titled, "Their Names Live Forever." The Rev. Fr. Robert Handley of St. Elizabeth Catholic Church will give the invocation.

Mayor Harold Easton will preside, making announcements and presenting the speaker.

A bugle call by John Bryan will herald the placing of the wreaths in memory of the war dead at the Civil War monument; Evans Creek, for the Navy; and the Spanish-American War Shaft and at the boulder for the dead of World War I and II, Korean and Vietnam veterans.

Don Woods is again parade marshal. He will be assisted by Dorman Vescelius. Public address system is being donated by Forest Abner.

Youth Fined, Sentenced

Young Mike Sackett, 19, of Holloway Rd., and recent complainant to Council over treatment by a couple of police officers, was sent to the county jail here Monday after appearing on a drunk driving charge before Justice Ernest Oliver.

The youth pleaded guilty to the charge after being arrested Sunday evening by Officers Roy Hella and William Meni, the same two officers whom he accused of mistreating him after a previous arrest.

Sackett was followed west by the police on W. Chicago Blvd. after they noticed him driving without headlights on. He pulled into Rusty's Drive-In where he was arrested.

Appearing before Justice Oliver, Sackett was fined $100 plus $15 costs, sentenced to 30 days in the county jail and placed on probation for one year. Another 30 days in the jail will be added if he fails to pay the fine.

After his release, he is due to appear again at a jury trial before Justice Oliver on a drunk and disorderly charge and failure to have his car under control.

Sackett pleaded not guilty to these charges and was scheduled to have his trial Wednesday. It was this arrest that led him to charge Officers Hella and Meni with verbal and physical abuse before city Council.

10 Picnic Tables To Be Installed At Tecumseh Park

Tecumseh Park — or Pit — came under discussion by Councilmen last week when plans were discussed for landscaping the area and providing picnic facilities.

Cal Zorn, city manager, said at least a portion of the park should be fenced, trees and grass planted and other improvements made.

Council authorized him to have 10 picnic tables installed and to obtain costs on buying and installing a cyclone fence.

Estimated cost of the tables is $250. They will be anchored at various sites to avoid theft.

The Spring Concert by the **Eastern Michigan Univrsity Choir** will be given at 4 p.m. Sunday, June 2, in Pease Auditorium, under the direction of **Blaine Ballard**, associate professor of music. The concert is free and open to the public.

Daylight Savings Time caused considerable complications for Clinton's band director, **Richard Perkins**, last week. He had to come up with a scheme to cover the huge gable windows in the high school gym to shut out the sunshine at curtain time of the band show, so that the glow-lighting could be effective. It wasn't easy. First an acre of black silo film was tacked outside, but the wind wasn't cooperative, and the whole thing had to be done again inside with boards, ladders and exasperation. This is time saving?

God bless **America** and the **Kroger Co.** Effective May 29, the popular food stores will fly the **American flag** in the front windows each day of the week. **R. Feldkamp**, advertising manager and sales promotion manager, sent the releases announcing the new policy stating, "because we want to express our pride in our Country, our servicemen and our flag . . . because we believe our flag should fly from every building in this great land of ours . . . because we believe that "Old Glory" should be unfurled every day, not just on holidays. We, at **Kroger**, hope that seeing our flag flying will make folks a little more proud to be an **American**."

Wilfred Waldron dropped by the office Tuesday to comment on the Safety Check. He worked on the check for four or five hours and said he was impressed with the attitude of the public. "99% of the persons found with faulty equipment were grateful to learn of it," he said.

ed the visitors and guests and presented Mayor Jones and his wife with gifts.

Mayor Jones challenged the Tecumseh Fire Department to a water fight in Riverview over the July 4 weekend.

Dr. Robert Murray was master of ceremonies and led the pledge of allegiance to the flag preceding the dinner prepared by members of the St. Elizabeth Altar Society.

Mrs. William Flanders played dinner music at the organ.

Clara Waldron was introduced as the official city historian and said that she hoped that her book on the History of Tecumseh would be published this summer.

Colonel Fred E. Davids, Michigan State Police Commissioner, of Midland was the speaker and used Safety and Law Enforcement as his subject.

He said that there has been an increase of 75 in traffic fatalities to date this year. The cause of the increase is individual driver failure and road design.

The commissioner stated that no two motor vehicle checks are identical. In Michigan the driver is checked as well as the car. State Police have also insected 6500 school buses since the vehicle check began last year.

"You would be surprised at the number of state-required safety features not included on many buses," he remarked.

The speaker said that law enforcement is a frustrating job now.

"Never since its founding has our country faced an internal danger such as it does today. No grievance is so great that one should take the law into his own hands, to loot, riot, etc. Public demonstrations have not been a concern for the police before and certainly there are no victors in a riot," Colonel Davids commented.

"Today the guilty go unpunished and ignore the laws under the guise of protest. The doctrine of civil disobedience is the doctrine of self-destruction and there is a delicate balance of the rights of the individual against the rights as a whole," he concluded.

Members of the Little Garden Club, under the direction of Mrs. Jerry Eggleston, arranged the floral centerpieces for the tables.

The Rev. Fr. Robert Handley gave the invocation and the Rev. Laszlo Gero, the benediction.

new district will be out of line in proportion to the rest of the county by the time of the 1970 census and a review of the districts.

Many members of the commission seemed to favor a smaller number than the 21 chosen. However, to lower the body to five or seven members, it was felt, would call for a complete revamping of the county's governmental operation. The smaller board would call for changing to a county-manager type of government.

Several members spoke out against this proposition as being a question that did not lie with them, although they were empowered to do so. A county voice on the subject seemed a better platform for a reformed court house.

As counties were allowed the 5% variation, the situation in Raisin and Tecumseh townships could alter considerably the new adopted formula. This could, in view of the next two years, bring about the adoption of a five, seven or nine man board.

MRS. GARY RITTER

Sandra Krzyzaniak Weds Gary Ritter Saturday

Sandra Ann Krzyzaniak, daughter of Mr. and Mrs. Eugene F. Krzyzaniak of Manchester, and Gary Michael Ritter, son of Mr. and Mrs. Floyd Ritter of Livonia were united in marriage in a double-ring ceremony Sautrday at Saint Dominic's Catholic Church in Clinton by the Reverand Father Joseph B. Noelke.

Given in marriage by her father, the bride wore an A-line floor length satin gown with an overlay of sheer silk and Chantilly lace. The bodice featured a round scalloped neckline and elbow length sleeves of embossed lace fashioned with tiny pearls.

A lace panel fell into the lace panel around the bottom of the gown and tapered into a small oval train. A large white satin bow and panel accented the back.

Her cathedral veil with double blusher of bridal illusion cascaded from a silhouette headpiece fashioned with pear shaped pearls.

She carried an arrangement of miniature carnations, mums and roses accented with afalia and long white satin streamers.

Jo Anne Krzyzaniak of Manchester, sister of the bride, was maid of honor in a floor length pale yellow gown of chiffon over acetate with short sleeves and a round neckline trimmed with yellow ribbon laced on lace with small applique roses. A yellow satin panel attached by two bows accented the back. Her short veil was attached to a yellow satin circular headpiece and she carried a colonial styled arrangement of yellow tipped carnations and afalia with matching streamers.

Barbara and Patricia Krzyzaniak of Tecumseh, cousins of the bride, were her bridesmaids along with Cathy Rea of Birmingham, a friend of the bride and groom.

Their gowns, fashioned like that of the maid of honor, only in pale pink. All carried arrangements of pink tipped carnations and afalia with matching streamers.

Richard Ritter of Livonia, brother of the groom, was best man and the guests were seated by David and Michael Krzyzaniak, brothers of the bride and Robert Oakley of Birmingham, friend of the bride and groom.

The reception, held at the United Products Workers Union Hall, featured a Polish-American Smorgasbord. Music was furnished by Eddie Jacobs and his Slovenians and by the Vic Casey Orchestra.

After spending a week's honeymoon trip to the Smokie Mountains the couple will be living in Ysilanti.

Street Surfacing OKed By Council

A special assessment for installation of curb and gutter on Occidental Rd. was approved by Council last week at a public hearing.

Harry Beland, property owner adjoining the street, questioned whether residents there should pay the entire cost. He pointed out that the improvement should be made, but that it was being done primarily for traffic to industrial plants south of town.

Occidental is scheduled for bituminous concrete this year. The city has delayed improving the surface until all utilities and the curb and gutter were constructed.

Linda Curtis and Larry Wilson Speak Vows

Linda Louise Curtis, daughter of Mrs. James Curtis, Sr., 307 Russell Rd., and the late Mr. Curtis, and Larry Allen Wilson, son of Mr. and Mrs. Roscoe Wilson of Clayton, were united in marriage in a double ring ceremony Saturday afternoon at St. Elizabeth Catholic Church by the Rev. Robert J. Handley.

Vases of white gladioli and majestic daisies were used to decorate the altar. Bouquets of lily of the valley and white roses marked the pews. Mrs. Don Johnson was the organist and soloist.

Given in marriage by her uncle, John J. Delaney, the bride approached the altar wearing a floor length lace bouffant gown with a natural waist and Sabrina neckline. A panel of tiered lace enhanced the front of the skirt.

Her fingertip veil of illusion was secured to a lace crown of pearls and rhinestones.

She carried a cascade design of glamelias and white carnations with a detachable corsage.

Mrs. Robert Hawkins, sister of the bride, was maid of honor in a mint green empire styled A-line gown of chiffon over taffeta. Her waistline was accented with floral trim. Her veil of mint green was arranged with flowers and she carried a yellow cascade arrangement of miniature carnations centered with clusters of white glamellias.

Mrs. Carl Waynick and Mrs. Gene Williams, sisters of the bride, were her bridesmaids along with Mrs. James Akers and Linda Waters, both friends of the bride. Tina Marie Waynick was the flower girl.

The bridesmaids' dresses were fashioned the same as that of the maid of honor, only in yellow. All carried carnations and glamelias. Miss Waynick carried a woven basket of carnations of glamellias.

Merton Wilson, brother of the groom, was best man and the guests were seated by Raymond Wilson, brother of the groom; James Curtis, Jr., brother of the bride; Charlie Van Sickle and Richard Davies, both friends of the groom. Raymond Williams served as ring bearer.

A reception was held at the VFW Hall in Tecumseh for 200 guests, featuring the bride's table, enhanced with a white nylon skirt over taffeta banded with mint green. Elizabeth Schofield poured beverages.

The new Mrs. Wilson is employed with Hoover Ball and Bearing Co. in Manchester. Her husband is employed with Selders Excavating Co. They will live at 3944 Monroe Rd., Tipton.

The rehearsal dinner was given Friday evening at the home of the groom's parents.

MRS. LARRY WILSON

Miller-Hand Wedding

Lucinda J. Miller and Norman S. Hand were married in a simple ceremony May 10 by the Rev. B. O. Bashore.

The bride wore a white street length suit with gold trim and her brief veil was secured to a floral crown.

Mrs. Beatrice Hand, mother of the groom, was the bride's only attendant.

Stanley Miller, father of the bride, was best man.

Following the ceremony, the couple left for a short trip to Northern Michigan. They are living on Logan St.

Mr. and Mrs. Miller held a reception for the newly-married couple at the Miller residence May 18.

VOICE of THE HERALD

Council Was Wrong

Often, a mistake or two will make folks overlook all that has been good. Such is the case with our Council.

Generally speaking, our city government has been good and the future is promising. This doesn't mean that there's not room for improvement, however.

We question Council's judgment in closing Tecumseh's dump immediately to folks of Tecumseh Township. We also question the thinking which prevailed about flouting the law in maintaining the dump to standards also set by law.

There was little to gain and much to lose in Council's decision to advance the closing date of the dump for township residents. Public relations-wise, it was a slap in the face.

Aren't township residents our friends? Are they not a part of our community, taking part in many of our functions, working in or operating businesses here, attending our schools and churches? Are they not Tecumsehites?

We like to think so and hope that nothing develops to deter this thinking. It would be better if Council thought along the same lines.

During the past year, Tecumseh has provoked situations with the township board, and ones which could have been avoided by more careful planning and consideration.

If we continue to act without regard to others — and this could well apply to other occurrences which have been reported — our community will lose its attractiveness and reputation.

An apology is due the Tecumseh Township Board and its residents, and another look in abiding by the law also is in order.

Safety-Check Big With 2,800 Cars

Over 2,800 vehicles were inspected here last week when the Rotary Club held its annual Safety-Check project during Michigan Week.

Hugh Walter, publicity chairman for Rotary, reports 1,456 vehicles were inspected at the Tecumseh Products alone. Fisher Body held its own check lane, too, and inspected 385.

Purpose of the Safety-Check is to make people conscious of traffic and highway fatalities. The local Rotary Club has won state and national recognition in the past for sponsoring the event.

Tecumseh's largest parade of the year kicked-off the Safety-Check lane opening Wednesday afternoon with over 100 units, including industrial and agricultural vehicles, participating.

Bands included Tecumseh and Britton and the drum and bugle corps from Boyssville.

Donna Purkey, candidate representing Les Dallas, Inc., was selected Safety Queen. William MacBeth, Tecumseh Products executive, was picked for Safety King after his daughter's essay nominated him for the award.

Col. Frederick Davids, head of the Michigan State Police, was top dignitary at the parade's reviewing stand, located in Easton's service station.

He was later principal speaker at the Michigan Week banquet at St. Elizabeth Catholic School.

Whether Rotary sponsors the Safety-Check event here next year is debatable. Several Rotarians have voiced opinions that it should be dropped.

Boldon Breaks Jumping Record

Terry Boldon, a Tecumseh junion, who just last week started high jumping with the Fosbury Flop technique, broke the school record Monday at the county invitational track meet in Adrian.

He skimmed over the bar at the 5'10" mark, one-quarter of an inch over the Tecumseh record.

Rain postponed most of the meet with only the high jump and shot put events being completed.

New Proposal For GM Fire Protection

Although Tecumseh is still providing fire protection to Fisher Body Plant, an agreement over the cost is still pending.

City Manager Cal Zorn and Gregg Forsthoefel, attorney, met with GM officials Monday noon to discuss costs and a counterproposal from the company.

The new proposal will be presented to Council Monday night.

City officials offered fire protection at a cost based on the plant's valuation and what property owners pay here in town. GM's suggested annual payment was $4,000 a year.

Stauffer Chemical also sought city fire protection but then turned it down when the cost of the service was based on the plant's evaluation and was deemed too high.

School officials, planning a new elementary building on Sutton Rd., approached city officials about fire protection but then declined when told the cost would be $1,000 per year.

Fisher Body, Stauffer and the new school site are all located in Raisin Township, which cancelled its fire protection agreement with Tecumseh last year.

The adults who were confirmed in the 9:30 a.m. service were: Mrs. Elsie Kennedy, Mr. and Mrs. Charles Kirkie, Sharon Meyers, Joel Rutherford and Bill E. Stroud.

The 16 young people who spoke their vows in the 10:45 a.m. service were: Vernon J. Bennett, Kathleen S. Berry, Pamela J. Felton, Deborah S. Filter, Denise L. Filter, Victor E. Humble, Barbara L. Hunter, Gail S. Kennedy, Sara Ann Kennedy, Linda K. Korth, Michael G. Moon, Vicki L. Natterstad, Daniel W. Olson, Janice L. Robert, Sue Ann Upell and Lynne A. Winzeler.

At the close of the service, Merrill Gray, president of the congregation, welcomed the confirmands into the congregation and presented each one with a cross from the Aid Association of Lutherans.

Poppy Sale Big Success

Over 54 volunteers worked on the Poppy Sale of the American Legion Auxiliary over the weekend with over $750 realized for the rehabilitation work.

Mrs. Robert Koffron, president, expressed appreciation to the several radio stations, The Tecumseh Herald and Flanders Music Store for publicity and Paul's Trailer Sales for the use of their trailer.

She also stated that Mrs. Charles Howe and Mrs. Louis S. Schneider spent the entire day Friday at the trailer and John Zarnoch, most of Saturday. Eggleston's Jewelry, Gaston's and Flanders provided window space for poppy displays and posters.

Mrs. Koffron also said that she was grateful for the help of Commander Almond Curtis of the Underwood-Orr Post and the fine cooperation of the individuals and industrial plants in the area.

Say You Saw It in The Herald

Off The Top

By Christine Fairbanks

We are fortunate to be living in a community which still takes time out to honor the dead on Memorial Day.

Too many towns and cities across the land have abandoned the practice of holding parades and memorial services, of proudly flying the flag, and decorating the cemeteries.

In the small towns of America, however, many people still show a reverence for those who have passed before us in life's parade.

We will pause for awhile in our busy lives Thursday to remember those who, in times past, sacrificed for us today.

Memorial Day was planned 100 years ago as a tribute to the fallen soldiers of the Civil War, and undoubtedly helped heal the wounds left in a country where brother fought against brother.

Then, new wars brought more dead, and over the years the fallen from the Spanish-American War, the First World War, the Second World War, the Korean conflict, and now, from Vietnam, have been added.

It is only fitting that one day be set aside for national remembrance, lest we forget how much we owe these brave men and women. The freedoms we enjoy today have been built on the sacrifices, and if they had not been so brave and so steadfast, where would modern America be today?

Even now, we are in danger of losing the very freedoms they died to insure for us. We have been careless with the trust they handed on to us. Apathy and complacency threaten to rule our hearts, instead of a firm determination to preserve our American ideals.

In recent years, the concept of Memorial Day has been expanded to include honoring and remembering all those who have gone before us.

Grandparents and great-grandparents of many of us came from far-off shores to build a better life for themselves and their children, and we owe a great debt to their struggles, as they worked hard to build the heritage we enjoy today.

And back many years into the dim past, back unto the very beginnings of our great country, there are those men and women of vision who planned for a brighter future.

And what of us today? Are we continuing to build a strong America to pass on to our children, or are we leaving them only a country torn by dissent and disorder as a heritage?

We owe it to those who have gone before us, and to those who come after us, to renew in the hearts of all people the concepts of truth, equality, loyalty, service, patriotism and love of God upon which our great land was built, so that the American way of life as we know it will not fade from sight.

Fly Old Glory proudly on Memorial Day, and decorate the cemeteries, and forget not our ancestors.

"Take up our quarrel with the foe:
To you from failing hands we throw
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields."

By John McCrae

Mark Twain This Summer

BRITTON — Children of the area who are going into the third grade up to the eighth grade are invited to join the Mark Twain Reading Club now being formed, announced Mrs. Pat Preston, librarian of the Britton Branch Library.

The club is formed to encourage and recognize summer reading accomplishments.

It is an unusual club, states Mrs. Preston, as there are no dues, no meetings, and no committees. Sounds unbelievable!

Members must read books they have never read before and keep a record of their summer reading in a booklet provided by the library.

Honor certificates will be awarded from the Lenawee County Library to members who read at least 10 books and write about them before August 21.

The Britton Branch Library has over 5,000 books available for juvenile and adult readers, plus many magazines and periodicals.

A summer Story Hour for small children will be announced later.

BRITTON — Oven 100 Blue Birds, Camp Fire Girls and Junior High Camp Fire Girls took part in the Britton-Macon Grand Council Fire held in the village park Tuesday afternoon.

After a flag-raising ceremony, the girls, dressed in their colorful uniforms of red, white and blue, formed circles around a campfire for the ceremonial.

Second grade Blue Birds received awards from their leaders. Third grade Blue Birds "flew up" to Camp Fire rank.

The fourth, fifth and sixth grade Camp Fire Girls received awards and honor beads which they have been working for all year. The sixth graders advance to Junior High Camp Fire rank.

Membership awards were presented by Mrs. Mary Hanson, Executive Director of the Tuckabatchee Council, to which the Britton-Macon group belongs.

Also present were Donald Bleam, president of the council, and the Rev. Vernon DeVantier, 1st vice-president. They addressed the group briefly, stressing the appreciation the council directors have for the group leaders and for their efforts to bring the joys of Camp Fire to the girls of this area.

Mr. Bleam asked the leaders to stand for applause.

After the lowering of the colors and "Taps", which concluded the afternoon ceremony, cookies and Kool-aid was served to all.

Miss Ginger Frazier, daughter of Mr. and Mrs. Paul Frazier, of Britton, graduated May 21 from Bronson Methodist Hospital School of Nursing in Kalamazoo. Those attending the graduation exercises were her parents, Mr. and Mrs. Paul Frazier; her brother, Richard; and her grandfather, Bernard Frazier, of Nitro, W.Va. Miss Frazier will be employed at Herrick Memorial Hospital after June 1.

Herald Women's Editor

"We ran out of boys," Mrs. Arthur Holdridge remarked Monday as she told us of the activities of her servicemen sons. Marine Cpl. Jerry Holdridge will leave Thursday for Guantonamo Bay where he will serve as a radio operator until August. His wife will remain with his parents while he is down on the Cuba coast.

Mr. and Mrs. Holdridge will attend graduation ceremonies Friday at Ft. Leonard Wood, Mo., when another son, Lonnie, will receive recognition for completion of basic training. He will have 15 days' leave home before going to Fort Lee, Va., to study mechanics and heavy equipment.

A third Holdridge son, Charles, is a supply sergeant with the 180th Tactical Fighter Group of the Air National Guard based at the Toledo Express Airport. He and his wife and three children live on Pixley Hwy., near Blissfield. Sgt. Holdridge was named outstanding NCO of the month of April.

"If we had one more boy, we could represent the navy, too, but I'm glad I only have one more tour in Vietnam to sweat out," remarked the mother of three serving our country without a protest.

√

"Mother is here and she's lost without the hometown news," writes Mrs. Ronald Wells of Beaumont, Tex. "Please renew our subscription and send any copies missed this month," concluded the former Mary Jane Hayden. Her mom, Mrs. Perry Hayden, is there expressly for the purpose of attending her granddaughter's wedding. She will return home in June with Mr. and Mrs. Joe Hayden, who will also attend the wedding.

√

Mr. and Mrs. Wilfred Waldron returned last Tuesday from Worthington, O., where they visited their daughter, Mrs. John Hamilton, and her husband and family. (Wilfred said a nice thing about his son-in-law, "I like John better every time I'm with him.") Nice, nice, nice.

An Explanation Of New Millage

Although the Tecumseh schools will be seeking 10 mills at the June 10 election, the amount is not nearly as large as the figure indicates, school officials point out.

Of the 10 mills, taxpayers already are paying 7.8 mills, leaving only 2.2 mills as new millage.

According to average assessments in Tecumseh, most property owners would pay about $20 more than last year and approximately $10 more than in 1966.

Reason that only 2.2 mills would be new is the expiration of current millage, most of which is used for operation. In April the schools finished payments on the $1,900,000 bond issue passed in the mid-1950's and at that time the schools were completely out of debt.

A breakdown of past, current and future millage is reported in an ad in this issue of The Herald.

Two Injured In Accidents

Only three accidents were investigated by Tecumseh police during the past week, but two of the mishaps involved personal injury.

Last Thursday, Karen E. Durrant, 26, Britton, was cited for running a stop sign at the intersection of S. Pearl and W. Pottawatamie Sts.

Her two-year-old son, Brian, suffered minor injuries when the Durrant car was struck broadside by Paul Pinter, 24, 5282 Raisin Center Hwy.

Helen V. House, 54, 5701 Macan Rd., suffered minor injuries when she was struck by Gelbert S. Villanueva, 50, 4959 DeLeon Dr., at the intersection of N. Evans and Brown Sts. Tuesday of last week.

Villanueva was arrested for failure to yield the right of way.

Alma Brooks, 4563 Labardee Rd., reported her car damaged while parked at Herrick Hospital. When police located the other driver, she did not want to press charges.

10 Meters Hit By Vandals Here

Vandals picked on the city's parking meters over the weekend with Police Chief Murell Clark reporting 10 meters damaged, one of which yielded coins.

In most instances, drills were used in an apparent attempt to open the meters. A coin box in one meter was rifled. Meters, struck Friday and Saturday nights, were located behind Adrian Federal and the fire station.

Chief Clark listed the damage at $75.

EGGLESTON'S JEWELRY
Downtown Tecumseh
CLOSED THURSDAY AFTERNOONS

Former Tecumseh High standout Don Baird won one of the starting guard positions in Michigan State's spring football practice. Three men were rated even going into the spring drills, but Baird soon rose to the top and climaxed his rise with the starting assignment for the Green team in the final scrimmage. A pre-med major, he captained his Tecumseh team to high ranking in the state his senior year, earning All-State honors for himself. He is the son of Mr. and Mrs. Robert Baird, 114 W. Patterson.

River Raisin All-League Selections

Summerfield, Sand Creek and Boysville dominated the all-league baseball team from the River Raisin League. Summerfield placed three on the first team 11; Boysville, two and Sand Creek two. Britton, Ida, Deerfield and Whitefordt each placed one member on the starters.

Junior Tim Skelton from Britton, was the representative of the Tories in the selections. Rick Maska and Rick Brown, two sophomores, represented the team on the second squad.

Frank Klos and Henry Bell were the fighting Knights selected by the league coaches. Freshman Manfred Jones and senior Greg Vogt were league choices for the second team.

Girl Tracksters Lose Two Meets

The girls' track team lost to Columbia Central May 21, 65-41.

Winners for Tecumseh were Linda Wheeler in the 50-yd. dash. Beth Moore defeated Erie Kelley by one-tenth of a second in the 220. Debbie VanSickle won in the 440 and Lisa Pence in the 50-yd. hurdles.

The Tecumseh girls won all three places in the 440. The losses in all three relay events were the deciding factor in their defeat.

In a new event for girls at Tecumseh, the shot put, Polly Fielder had a toss of 28', the winning distance was 28'4".

Thursday of last week they met the Jr. Hi. girls. track team and were defeated.

CHS Golfers Finish 9th In Regionals

The Clinton High School golf team, playing in its second year of competition, finished ninth in the Class C Regionals held at the Burroughs Farms Course on May 17.

Jim Gates was medalist for Clinton with a 47 on the front nine and a finishing round of 46 for an overall 93. One stroke back of Gates was Herb Ayres who fired a 50 on the first nine and came back with a 44 for an 18-hole round of 94.

Tom Hathaway also carded a 94 and two strokes back was Dave Slusher with a 96.

Mike Snyder was pleased with the way his golfers played throughout the season. Gates and Ayres are both sophomores and show promise for a seasoned and improved team next year.

THS Golfers Are Huron Champs

The Tecumseh High School golf team won the Huron League championship as they combined a 9-win, 1-loss dual match record with a victory in a league golf meet with Monroe CC and Grosse Ile.

At Carleton Glen County Club Friday, the Indians 346 total was five strokes better than that of Monroe Catholic Central. Grosse Ile was third, six shots behind Tecumseh.

Monroe CC finished second and Grosse Ile third in the final league standings.

High winds and unusually slow greens plagued the golfers as scores rose. Roy Schlegel led Tecumseh with a 43-41-84, as Frank Geisenhaver shot a 43-52—85, Ralph Miller had 47-41—88, and Bill Holmes 44-45—89.

This was the first year that golf was a league sport in the Huron League and the Indians took the honors of being the first golf champions of the league.

In other action last week, Tecumseh clobbered Blissfield, 159-179, at a windy Woodlawn course Monday. Holmes was medalist with a 39, as Miller, Geisenhaver and Bill Gibson all had 40's.

Wednesday at the Country Club, the team ripped Grosse Ile, 158-179. Schlegel fired a 38 as Holmes and Geisenhaver shot 39's and Gibson a 42. This final league win gave the Indians undisputed possession of first place in the league with a 9-1 record and Friday's league meet victory meant the title for Tecumseh.

The team's overall record stands at 13-2 with one match remaining.

Deerfield Bombs Britton

The Britton Tories were outmatched by a Deerfield team last Thursday, 14-2.

The boys from Britton had men on base in every inning but couldn't push the runs across.

Errors on the part of the Tories also contributed to their league loss.

Doue Duvall of Deerfield led the hitters with 3 for 5 at the plate. Three other hitters collected two hits.

Dave Filter collected a pair of singles for two of Britton's five hits. Jim Skelton picked up a double as the only extra base hit for the Tories. Rick Maska and Dick Schroeder picked up the other two hits off winning pitcher Tom Porche.

Jim Brown took the loss for Britton, giving up 13 hits. Brown sealed his fate, along with the errors of his teammates in the first inning, as nine Deerfield runs crossed the plate.

Bobby S. Terry Receives Master of Divinity Degree

Bobby S. Terry was among the 141 graduates receiving diplomas from The Southern Baptist Theological Seminary in Louisville, Ky., May 31.

The son of Mr. and Mrs. Leldon Terry, 9361 Tecumseh-Clinton Rd. Terry will receive the master of divinity degree, a three-year post baccalaureate degree. He holds the bachelor of arts degree from Mississippi College, Clinton, Miss.

Addressing the graduates was Dr. Franklin Paschall, president of the Southern Baptist Convention and pastor of the First Baptist Church of Nashville, Tenn.

This year Southern Seminary provided theological training for 1,323 students. It has the largest theological faculty of any seminary in the world.

Stingy Mike Mows 'em Down

Mike Jurasek of the Clinton Redskins' baseball team is fast becoming known as the stingiest pitcher in the league. After throwing a no-hitter last week and running a string of facing 26 hitters without giving up a base hit, he faced Grass Lake last Thursday and ran his number to 44 before giving up two hits in the top of the seventh. The final score was 6-1.

The 'Skins scored four times in the second inning to give Jurasek the cushion he needed in posting the win. Single runs in the fifth and sixth innings gave Clinton the six runs.

The lone run scored by Grass Lake in the top of the seventh, was on two hits and a Clinton error.

Butch Hoelzer led the hitting parade for Clinton, going two for three and raising his average to a lusty .536. Sophomore Al Roberts also collected a pair of hits and drove in two. Paul Papsdorf collected a single and drove in two runs. Mel Pardee doubled and drove in a run.

The victory makes Clinton 10-0 in league play with two games remaining. The Redskins have the league championship locked up. Their overall record is 11-1.

Jurasek struck out 12 in the route-going performance of last Thursday.

Welcome Families Into Membership

Three new families were welcomed into the membership of the Tecumseh United Methodist Church Sunday morning during the worship service. Mr. and Mrs. Robert Rollins, Mr. and Mrs. Donald Painter, Mr. and Mrs. James Purcell were greeted by the pastor, Rev. Donald Porteous.

Following the service the new members accompanied by their fellowship friends, Mr. and Mrs. James Utley, Mr. and Mrs. Marshall Boike and Mr. and Mrs. Norbert Sedelbauer, enjoyed the fellowship hour given for them by the Commission of Membership and Evangelism. The youth members of the confirmation class were in attendance also.

THS Best in League

The Tecumseh High School track team showed what depth and performance can do when they outdistanced all rivals in the Huron League last Wednesday. The meet, held here at the high school, saw the Indians outpoint Monroe CC in second by 42 points.

The Tribe displayed power in the field as they scored a total of 31 points in the events.

Jim Parros got things off for the winners with a toss of 45'4" in the shot put to edge out his competitors. Terry Boldon, on the other side of the field, was winning the long jump.

Steve Dalton tied teammate Boldon in the high jump as they showed their version of the "Fosbury Flop" to their opponents. Earlier in the week the teammates had started working on the new technique of jumping and cleared the bar at over 6'. In the Huron meet the 5'8" was good enough for the win.

A duel also took place in the pole vault where Scott Dalton, freshman vaulter for the Tribe, battled David Jarzynka for the pole vault lead. 11' had been the best jump of the year for Dalton but he easily cleared the bar at 11'6" in his first attempt. It took Jarzynka three vaults to clear. He went on to clear 12'3" to top the determined freshman.

Randy Robinson won the 120-yard high hurdles, John Boldon won the 880-yard run, Gary Fairbanks, 440-yard dash and Gus Bishop took the 180-yard high hurdles on the cinders for Tecumseh firsts.

A summary of the meet:

Local Fashions Go Abroad

By MAXINE CALHOUN

When recently appointed Ambassador to the Philippines G. Mennen Williams and his wife, Nancy, leave June 9 for his new assignment, they'll be taking along an American collection of evening gowns designed by EvelDean Exclusives, custom couturiers of Tecumseh.

Just as most wives, when their husbands announce they have been appointed to a new post, Mrs. Williams was immediately concerned with, "What will I wear?"

With a constant temperature around 80 degrees, the Philippine capital, Manila, is known as a very cosmopolitan city. Most social occasions there will require "very dressy" evening gowns or cocktail dresses, Mrs. Williams said.

This is very different from our life in Grosse Pointe now," she explained, "where formal evening gowns are worn less and less frequently. Even at the opera in Detroit, formal dress is worn only on opening night."

One of the first gowns completed for Mrs. Williams was of blue cotton ribbon lace, which she wore May 7, when she and Ambassador Williams were introduced to Imelda Marcos, wife of the Philippines President Ferdinand Marcos, at an informal reception at the White House.

Mrs. Williams said she was really impressed with how much work was involved with that dress, and she recalled dropping into the EvelDean salon unexpectedly a few days prior to her departure for Washington, D. C.

She found a crew of five extra seamstresses busily engaged in hand-sewing thousands of tiny transparent discs onto the gown, making it truly unique.

The wife of Michigan's six-time governor, Mrs. Williams says she "must be getting more clothes-conscious now," since it pleased her to be wearing a gown which even caught the attention of designer Adele Simpson, as well as other guests of President and Mrs. Lyndon Johnson.

She modeled some of the other gowns she'll be taking along halfway around the world, as an example of elegant American fashion.

She plans to wear, for her first reception there, a lovely white silk organza, all-over embroidered with varied pastel tulips. With it will be worn a full-length white organza wrap, enhanced at hem and on the loose sleeves, with hundreds of shimmering organza petals.

A wide band of bright-hued embroidery also is featured on bodice, hem, and sleeves of a gown and double-breasted jacket ensemble, of Swiss cotton.

Heir to soap company millions, Michigan's Democratic governor for 12 years, is best remembered by his sobriquet, "Soapy". He became noted for his jovial, green and white polka-dot bow ties, vigorous hand-shaking, square-dancing political campaigns.

In his last political attempt, in Nov., 1966, Williams was defeated in a race for an U. S. Senate seat by Republican Senator Robert Griffin.

When asked what he has been doing since his absence from the political arena, Mrs. Williams said she and her husband have been very busy taking care of their African art collection, which they accumulated while he was Assistant Secretary of State for African Affairs from 1961 to 1966. He was an appointee of the late President John F. Kennedy.

About 130 pieces of the African art objects have been given to the Detroit Institute of Arts, another 200 were presented to Oakland University, and "we've given over one whole room in our home" for displaying the remaining 150 pieces, Mrs. Williams said.

Besides that, Governor Williams has been actively engaged as chairman of the Wayne County OEO, economic opportunity program, and is senior warden of St. Paul's Episcopal Cathedral.

Mrs. Williams said she was "really relieved" not to be involved in politics now. However, she confided, her husband felt he had been "just marking time," until this latest appointment as Ambassador to the Philippines.

Son, Gary Williams, has just announced he will be working with Vice-President Hubert Humphrey's campaign.

Nancy Williams doesn't think her husband will ever want to become active in politics again, at least, "I hope not," she concluded.

Plane Trip Home Proves Interesting

CLINTON — Mrs. Ralph Halladay and daughter, Mrs. Richard Williams, returned home Saturday after spending two weeks in Corvalis, Ore. They visited Mrs. Halladay's granddaughter and and husband, Mr. and Mrs. David Hanes and baby daughter, Laura. Mrs. Hanes is the former Linda Hoover.

When Mrs. Halladay and Mrs. Williams returned to Chicago, Saturday, their Northwest Orient plane was stacked up in air traffic for 35 minutes at O'Hare Airport, so they were given a fine air view of Chicago while they waited to land.

Projects to Get Boost

CLINTON — Numerous projects of the Clinton Rotary Club will get a financial boost, if all goes well with their fifth annual Chicken Barbecue, Sunday.

Rotarians have had a complete sell-out for each of their last three barbecues.

Wayne Hulett is in charge of the event, which will be staged in Monument Park on W. Michigan Ave.

Charcoal fires will be started on long grills at dawn, and for the next several hours, the broiling crew, composed of Don Freeburn, Max Steffens, John Jansen and Allen Brooks, will be basting the 800 chicken halves.

It takes about two and one-half hours for the chicken to get that tender, brown look.

The salad detail, Ed Wight and Dan Schindler, get busy grinding cabbage the day before.

It takes all 25 Rotarians to engineer the project, and again this year, Band Boosters and band members have volunteered to lend a hand.

Proceeds from the barbecues make it possible for the Rotary Club to sponsor the Boy Scouts, and provide uniforms for the scoutmaster, cubmaster and den mothers.

The Club also sponsors the annual athletic banquet and provides a partial scholarship to Interlochen Music Camp. Each year the Safety Patrol Boys and the members of the National Honor Society are given recognition at Rotary dinner meetings. Two senior boys are invited to dinner each week.

LIFE HEALTH

Who's Boss?

Ever open one eye very carefully in the morning, stare woefully around the room and wonder what's the use of trying to do anything?

Ever have the feeling that you can't make it thru another day?

Do body aches and pains and just plain tiredness tell you it is useless to try to accomplish anything.

Feel that old "out of snuff feeling" taking charge of your body and mind?

Someone should pass the word about chiropractic and the healthy, happy feeling that results when the brain and the body's nervous system are properly in tune and all the glands, organs, and muscles of the body are operating properly and efficiently.

All bodily actions are controlled by impulses from the brain. If these messages cannot reach their proper destination because of pressures or impingements in the spinal column, the worn-out old body just doesn't want to respond to the order to get up and move.

That healthy, happy feeling returns fast, however, when a competent chiropractor gently adjusts the spinal column to allow free flow of nerve energy through the body. Nature imparts the glow of health and the MAN again becomes the master of the body, and life is a pleasant, new experience every day. Another Health and Life Article from the Office of:

Through My Window

A VERY, VERY FAIR EXCHANGE

I seem to be calling all of our spring birds handsome these days but really, they all are. One of the most handsome fellows, who should have dropped in for a short visit, is the rose-breasted grosbeak. He is a dandy one. The rose-breasteds are back from their winter gadding in Central and South America—for weeks now we have been receiving telephone reports about them.

The male rose-breasted grosbeak is unmistakable. He is actually gaudy. The rose part of his name is an understatement because the splash of color high on his breast is a beautifully bright red. The grosbeak is quite appropriate though, his light colored bill is thick, broad, heavy —in other words, big.

The brilliant red cravat is the perfect compliment to his formal black and white suit and to see the rose - breasted grosbeak against a background of new green leaves is one of the great joys of spring. Always before, at least one of them has paid us a visit each spring but, so far this year, none have stopped.

We have hardly had time to miss them, though — doesn't that sound dreadful. Miss them as much as we should, that is. But, honestly, it has just been a busy, busy spring.

★

SEVERAL Thursdays ago we had what should have been a good grosbeak day. The weather was gorgeous, the sun shone oh, brightly and the sky was that clear blue which only happens on those extra special spring mornings.

Suddenly Gertie T. was almost gasping with excitement and asking what could it be? My bed flew down to a "better looking spot" in front of the window — indeed it was and it certainly could be! I could hardly believe my eyes but there, all big and beautiful, was a bluebird! A real, live bluebird!

And, wonder of all wonders, he was doing exactly what he should have been doing, he was looking in the bluebird house. The house faces east and, since it was early morning, the sunlight hitting his back could not have been more perfectly aimed. There is simply not a word to describe how bright and lovely a blue he was.

We hardly dared breath and our "oohings and aahings" were merely whispers — such enchanting moments are to be treasured and not broken by such things as blinking an eye or faking a full-sized breath.

He looked at the inside of the house but apparently did not find the decor interesting enough to hop in for a close-up inspection. After pulling his head back out of the little round doorway, he made motions to fly away and our heart sank. It had been a wonderful bluebird thrill but must it end so soon?

★

NO, IT DID not end right then. After leaving the house, he flew up to a limb of the walnut tree, looked the neighborhood over and then decided to take just one more look at the bluebird house.

He perched on the roof of the covered bird feeder — Gertie T. and I were absolutely speechless. As he turned our way, we gasped in pleased amazement.

The sunshine on his blue back had been gorgeous but now, with it on his front side, he was just as pretty. The rich russet on his throat and upper breast did not extend down as far below midtummy as the books show it and the soft pearly-grey on his stomach was much more attractive than they show.

In other words, no matter how good the picture is, it simply cannot compare to the bird, himself.

So it is that Mother Nature has not favored us with a look at an evening grosbeak so far this year but she has blessed us with a visit of a bluebird and I call that a very, very fair exchange.

"No Blue, But Lots of Orange."

Buffet Dinner Closes Out Year

With a dinner at Don's Beef Buffet May 14, followed by a program, the Tecumseh Music Club closed its 1967-68 year.

Eighteen members and guests met for the meal and then traveled to the Gloria Dei Lutheran Church to hear the Junior Choir under the direction of Mrs. Earl Mason. Candace Christman accompanied on the organ.

The choir, composed of elementary school-age children, presented music which ranged from their delightful "warm-up song" to anthems used in Sunday worship services. Members from the church's other choirs sang descants for some of the numbers.

Afterwards, Music Club members and those of the choir's Mothers' Club enjoyed refreshments in the church social rooms.

The next meeting of the Tecumseh Music Club will be held on the second Tuesday in September.

King R. Stanley Sweet seems blissfully unaware of of his royalty as he rides with his mother, Mrs. Raymond Sweet, in the Michigan Week parade Wednesday. The little queen, Sherrie Kanous, and her mother, Mrs. Larry Kanous, were looking the other way from Photographer Bill Whiting but she is pictured above.

Porridge Is Hot
Porridge Is Cold
Porridge Is Not

Goldilocks was a little girl who had trouble with the temperature of porridge. Last Thursday the Tecumseh firemen were in complete sympathy with the fairy tale girl-friend of bears.

Mrs. James Vanzo, 402 W. Chicago Blvd., started things off with her porridge, which got so hot that she needed the firemen. The call came at 5:30 p.m. when the wives of the firemen had just prepared their porridge just right.

When Mrs. Vanzo's hot porridge had cooled off, so had the firemen's wives. The fire did little damage, with the exception of a few households in Tecumseh where wives of firemen understand the Goldilocks' problem.

Church Encourages Young

"The Lutheran Church in America is attempting to provide the younger generation with a new challenge, to encourage them to be more involved in the Christian souls' edification. This challenge will bring them closer to nature," said the Rev. Laszlo Gero.

"Gloria Dei Vacation Church School will accept this challenge and through the new scientific material and the leadership of devoted women of the church try to widen the gates of knowledge and faith to every youngster who wants to attend," he said.

This year the young people will meet for five days at the American Lutheran Camp, Tecumseh Woods, 10 miles west of Clinton on US-12. Fellowship begins at 9:15 a.m. and concludes at 3:30 p.m. from Monday to Friday.

Students, teachers and parents will meet at the church-lot on W. Brown at 9:15 a.m. Non-Lutheran children are also welcome and registrations may be sent to Mrs. James Colson, superintendent, or Mrs. Gero, assistant superintendent.

The theme of the VCS is "God and His World." It is a deeply religious and scientific exploration of nature.

Teachers are Mrs. Dean Hamilton, Mrs. Arthur Baaske, Mrs. Joseph Platt, Mrs. Dean Sheldon, Mrs. Gero, Mrs. George Eidson and Mrs. Earl Mason.

Requirements are 50c for the week for each child using the camp facilities, a sack lunch daily, free offering and good conduct and obedience to the rules of the camp and love toward the teachers, especially toward the church," said Mrs. Gero. 203 Slated for Diplomas in Exercises

Weather permitting, 203 members of the Class of 1968 will receive their diplomas in the first outdoor commencement program held by the Tecumseh schools.

Officials this year have planned the exercises for the athletic field with parents and friends of the graduates being seated in the football stadium.

In recent years, classes have grown in numbers and restrictions have been necessary to limit the number attending the exercises in the gym. If clear weather prevails, attendance could top 2,000 for commencement.

Inclement weather, however, will force the program back into the gym, and ticket holders are warned to retain their tickets. These tickets for the gym will be necessary in case of rain.

Addressing the class will be the Rev. Frank Hawthorne, pastor at St. Peter's Episcopal Church. Title of his speech is "Sounds of Graduation."

The valedictory will be given by Barry Lamkin, and the salutatory by Cathy Beevers.

Preceding the presentation of diplomas by Supt. James McDowell, High School Principal Neville Hart will present scholarships and awards.

Last year, the value of scholarships awarded to students amounted to $37,000.

The Rev. Robert Handley of St. Elizabeth Catholic Church will give the invocation and the benediction.

YOUNG LADY LUCKY — Linda L. Conally, 26, of East Lansing, luckily escaped death late Saturday night when her plane clipped a small tree shortly after she took off in a heavy fog from Meyers Airport. Mishap occurred just south of Allen Rd., a little over a quarter-mile from the runway. Mrs. Conally was pinned in the wreckage for approximately four hours, and could have been there longer except that the crash was heard by some camping parachute jumpers. She suffered a broken neck and other injuries and was transferred to Ann Arbor after treatment in Herrick Hospital.

Millage Expected To Attract Voters

A bigger vote than normal is expected here next Monday when the local school district electorate will decide four issues, including two millage proposals.

The poll at the Tecumseh High School cafeteria will open at 7 a.m. and close at 8 p.m.

Issues on the ballot include:

► 10 mills for operation for the Tecumseh schools.

► Election of two candidates to the School Board.

► 1.5 mills for establishing and operating a Lenawee Area Vocational-Technical Education Center.

► Approval to bond for erecting, furnishing and equipping the Center.

Although the local schools are seeking 10 mills for one year, it is not all new millage. Termination of bonding and operating millage, which has been in effect and currently being paid by taxpayers, amounts to nearly eight mills.

The balance, or a total of 2.2 mills, will be new for the tax rolls.

The increase is due to salary increases granted school personnel and increased operating expenses. Current expenses are barely being met by present operating millag and an increase in millage would have been necessary without the salary raises, school officials say.

Candidates running for the School Board include Dr. Harold Ocamb, Aden Mead, incumbents, and John Wanzeck, a newcomer. Two will be elected for four-year terms.

Two issues are on the ballot for financing and establishing a vocational-technical center for students and adults in Lenawee County.

One is to finance construction and operate the Center, and the other authorizes Intermediate School District to bond for construction.

Property owners only can vote on the issue to bond. Voting for and against the Center will be county-wide.

Supervisors in Quandary

By BILL SANFORD

With the ogre of reapportionment still breathing fire on the apportionment commission, indecision reigns among township supervisors who find themselves no longer members of the county board.

An attorney general's opinion handed down this week has allowed the present boards to be valid until their successors are elected and sworn in.

Due to the peculiarities involved in the situation that struck Michigan recently concerning reapportionment, the boards according to law were to have been realigned by July of 1967. The first law was considered unconstitutional. Later it was revived and the revision made to comply with the state constitution and given immediate effect.

Many of the present supervisors are in a quandry as to whether or not to seek the new office.

Only M. M. Halley of Clinton has thus far indicated that he will file petitions for county supervisor from Clinton and Macon townships which make up district one.

James Mitchell and Art Eaton of Raisin and Tecumseh townships representing 9 new districts, have both failed to reach a decision as of yet. The supervisors may remain a township supervisor, but cannot serve on the county board if they do.

If both Mitchell and Eaton were to seek the office they would face one another in the August primary.

Raisin's population growth, over 250 new homes and well in excess of 100 new trailers, have pushed that township over the figures which the commission was instructed to use. This may be one of the determining factors in a future apportionment plan for the county.

Many veterans of the county political scene will be, as a result of the state verdict, forced to either face one another or retire.

Many people in and around local government question the capabilities of the new board if enough seasoned supervisors are not elected. Another problem facing the supervisors are the prospects of a partisan board. The present board is elected by-party preference, however little is mentioned or debated that could be considered of a party nature.

Gustav Tiede of Ridgeway, still undecided, would be pitted against Stacy Zilke of Deerfield,

City, Underwood Suit Is Scheduled for Tuesday

Tecumseh's condemnation suit to acquire 7.2 acres of land from George Underwood will go to trial next Tuesday morning in Circuit Court before Judge Rex Martin.

Unless there's another hitch, the often-postponed trial will be held as now scheduled.

Mr. Underwood, Clinton auto dealer, first objected to the city's intentions to take the property last year when Tecumseh wanted about 25 acres for a new well field.

About two months ago, McNamee, Seeley and Porter, engineering firm from Ann Arbor, re-investigated the site and reportedly found the volume of water there less than the original drilling tests showed. The city then reduced the size of property sought.

Mr. Underwood owns a sizable strip of property along River Raisin and between Tecumseh and Clinton, and has repeatedly said that he does not want to sell.

The area sought by Tecumseh will split part of his property.

At one time, Tecumseh Township officials opposed the condemnation and objected to the city's intentions because they had not been informed nor consulted about a right-of-way from the city limits through township property to the well site.

About two weeks ago, the township board signed an agreement to permit a right-of-way, but gained considerable concessions for property owners in the Kaiser and Loveless Rd. area.

At next Tuesday's trial, James Beardsley, attorney, will represent the city while Robert Baker, Adrian lawyer, will represent the defendant, Mr. Underwood.

New Ed Center Sought at Polls

Lenawee County voters go to the polls on Monday to decide whether the county shall have a Vocational-Technical Education Center for the use of both high school students and adults.

Polls will be open from 7 a.m. to 8 p.m., and residents of all school districts in Lenawee County are eligible to vote. This includes residents of Hillsdale and Washtenaw Counties who reside within the boundaries of Lenawee school districts.

The Center would be designed to teach vocationally-oriented skills to the majority of high school graduates who do not plan to go on to college, both male and female. High school students would attend the center on a half-day basis, attending their home school for basic academic courses, extra-curricular activities and graduation.

The Center would also be open to adults who wish either specific job training, or retraining in case of unemployment. It would be open twelve months per year, day and night to accommodate those who wish to use it. Teachers would be required to have certain legal minimums of experience in the field they are teaching.

The present plans call for some 25 to 30 occupational areas to be included. Classes would probably begin in about two years of the center were approved. Courses would include automotive mechanics; agri-business, such as farm equipment maintenance and repairs; business office skills for the secretarial-minded; graphic arts; business distribution, including retailing, sales, etc.; wage earning home economics occupations, such as restaurant and institutional aides; industrial skills, including machining, electrical repair, electronics, and other areas; para-medical, including medical and dental office assistants; and service areas such as air conditioning, heating, plumbing, refrigeration and small engine repair.

Courses to be taught will be based on local needs. By terms of the Vocational Act under which federal funds are provided, administrative and occupational advisory committees must be established to assist in the administration of the center and the proper teaching and equipping of the various classes.

The 1.5 mills is county-wide, and since it operates on a tax base of about $290,000,000, will be able to offer more than any one individual district. However, the 1.5 mills must be passed for the county to be eligible for the federal funds involved. This means that Lenawee County can have a $2,275,000 center, constructed and equipped, with a

Golf Pro's Son Vietnam Casualty

Russell Michalke, 19, son of Mr. and Mrs. Art Michalke, Saline, was killed in Vietnam on May 24, 1968.

Funeral services are tentative but are expected to be held this week at the Bahnmiller Funeral Home in Saline.

Mr. Michalke is golf professional at the Tecumseh Country Club.

Auto Accidents Reported Minor

Auto mishaps here during the past week were minor, and no citations were issued by the Tecumseh police.

Michael B. Sisson, 9103 N. Union St., reported his car damaged last Thursday while parked outside his trailer in Paul's Trailer Court.

Barbara Johnson, 14, 6867 Ridge Rd., ran into a side of a patrol car, shortly after the Memorial Day parade ended on N. Union St. She was not injured. Officer Gary Greene was driving the cruiser.

Harold T. Andrews, 21, Adrian, backed into Dale T. Smith, 27, Onsted, Tuesday of last week in the Tecumseh Products parking lot.

Thieves Rob Market Here

Thieves broke into Jerry's Market early Saturday morning, taking approximately 15 cases of beer and an undetermined amount of liquor, cigarettes and soda pop.

Owner Jerry Coffey discovered the break-in when he opened Saturday morning.

Entry was gained through the north end of the building. An outside panel, used to cover a window, was ripped off and then an interior panel was pushed in. Apparently, the thieves attempted to enter earlier through a rear door but were thwarted.

Mr. Coffey estimates the loss at about $300.

Only 5 Teachers Still Needed For 1968-69 Term

Although 19 teachers have either resigned or announced retirement plans, only five teaching vacancies exist for the 1968-69 term.

Supt. James McDowell reports that prospects have been interviewed for three elementary positions but none for two in the high school.

Recent resignations include Judy Sherwood, first grade, Tecumseh Acres; Cherie Riordan, sixth grade, Tecumseh Acres; and Joyce Dumont, elementary art teacher.

GM Proposes Lesser Cost

If Tecumseh continues to provide fire protection service to Fisher Body Plant, the cost will probably be substantially less than the city's proposal of about $4,000 a year.

Last week, City Manager Cal Zorn and Gregg Forsthoefel, attorney, met with GM officials who suggested payments of $1,000 a year, plus $500 per call.

GM's proposal was to have been presented to Council Wednesday night, a session postponed from Monday evening when Council lacked a quorum to officially conduct business.

At the present, Fisher Body Plant is the only piece of property in Raisin Township that has standby protection from the local fire department.

New Garage Is Proposed

Proposal for a new city garage was scheduled to go before Council Wednesday night.

Cal Zorn, city manager, says current plans call for a new building of approximately 8,000 square feet to replace the present garage of 6,800 square feet.

Estimated cost for a new structure is under $40,000. If council approves the plan and the building is authorized, it will be located just east of the present garage near the city dump.

Mr. Zorn says the costs are already in the new budget and hopes that construction could start and be completed yet this year.

Council Session Is Rescheduled

For the first time in over 10 years, perhaps since Tecumseh became a city, a quorum was lacking for a Council meeting.

After waiting approximately 15 minutes, Mayor Easton re-scheduled the meeting for Wednesday evening.

Park Dedication, Parade Planned Here for July 8th

Floats of all kinds, using the theme of "Recreation", are being sought for the parade to be held Saturday, July 6, as a part of the dedication ceremonies at the Tecumseh Park.

Special guest and dedicatory speaker will be Harry A. Doehne, Land and Water Fund Administrator of the Recreation Resource Planning Division of the State of Michigan. He and his family will lead off the parade which the Tecumseh United Foundation Advancement Committee hopes will be an old-fashioned float-filled event.

Letters have been sent to many service clubs and youth organizations in the community asking them to enter a float using some form of recreation as its center. It is hoped that youth participation will be encouraged so that the youngsters of Tecumseh will all have a chance to create something special for the day. The playgrounds at the local schools are being invited as well as Scout Troops, 4-H'ers, baseball teams, etc.

Any group which has not received a letter and is interested in entering the parade should contact Ray Aylesworth, parade marshal, 423-4160; Frank Beck, committee chairman, 423-4780, or Mrs. William Steele, Jr., 423-2695, immediately.

Prizes will be awarded by a panel of five judges for the floats showing the most originality and ingenuity.

Walking units may also enter the parade.

Governor and Mrs. George Romney have been extended an invitation to visit Tecumseh and enjoy this part of the state's recreational facilities.

BILLINGTON CORNERS AGAIN — Intersection of M-50 and M-52 has developed into the most dangerous intersection in this area for motorists. Monday noon, this westbound van on M-50 crashed broadside into a northbound car on M-52, sending five persons to the hospital, one in very serious condition. As this photo showing a teddy bear indicates, an innocent youngster was involved. Unless the State Highway Department remedies the intersection, other folks seem certain to meet tragedy here.

New Ed. Center

(Continued from page one)

$385,000 annual operating budget, if the voters approve the 1.5 mills.

Currently, some 895 vocational-technical centers are in operation and another 1,800 are being planned. Jackson County has one, Penta-County near Toledo is another, and voters in the Four-County area near Archbold in Ohio have also established one.

The ballot has two parts. The first asks for the 1.5 mills, the second for permission to issue bonds for the use of the 1.5 mills. Despite the two parts, only 1.5 mills total is being asked for. Only property owners can vote on the permission to bond section.

A county-wide survey conducted two years ago established the need for the program, and the election Tuesday is a direct outgrowth of that survey.

Decisions on specifically who attends the school would be made by the local school district, with their decisions based on needs of the individual. A guidance counselor will be hired for the center to give necessary individual guidance and course counseling. The high school juniors and seniors are the most likely to attend, but the Center is not restricted only to them. This is a local school decision.

Most supervisors at present are waiting for township caucuses to hear the opinions of the people in their home units before reaching a decision.

She was also awarded second place in forensics in the serious interpretation category in the district including Hudson and Tecumseh High Schools and St. Joseph.

Township Board Hears Complaint

CLINTON — At the June meeting of the Clinton Township Board, Monday night, Robert Rupert was given a demolition permit to clean up his property which is in disrepair in the township.

William Mende was present, representing residents along Matthews Hwy., who are complaining about drag racing by certain individuals along that highway. They were assured by the board that an investigation will be made and appropriate action taken.

$385,000 annual operating budget, if the voters approve the 1.5 mills.

Currently, some 895 vocational-technical centers are in operation and another 1,800 are being planned. Jackson County has one, Penta-County near Toledo is another, and voters in the Four-County area near Archbold in Ohio have also established one.

The ballot has two parts. The first asks for the 1.5 mills, the second for permission to issue bonds for the use of the 1.5 mills. Despite the two parts, only 1.5 mills total is being asked for. Only property owners can vote on the permission to bond section.

A county-wide survey conducted two years ago established the need for the program, and the election Tuesday is a direct outgrowth of that survey.

Decisions on specifically who attends the school would be made by the local school district, with their decisions based on needs of the individual. A guidance counselor will be hired for the center to give necessary individual guidance and course counseling. The high school juniors and seniors are the most likely to attend, but the Center is not restricted only to them. This is a local school decision.

MRS. JERRY MacGEORGE

Rentschler-MacGeorge Wedding Saturday

Jacqueline Rae Rentschler, daughter of Mr. and Mrs. Stanley Rentschler, 506 Occidental Hwy., and Jerry Wayne MacGeorge, son of Mr. and Mrs. Rogert MacGeorge, 5487 Centennial Rd., were united in marriage Saturday evening at the Gloria Dei Lutheran Church by the Rev. Laszlo Gero.

Single tall hurricane candelabra faced with palm foliage and yellow daisies centered the altar and four three-branch candelabra decorated alike, outlined the kneeler and chancel entrance. Bouquets of daisies marked the family few along the aisle. Nancy Ehlert accompanied the soloist, Mrs. Earl Mason.

The bride approached the altar on the arm of her father, Stanley Rentschler, wearing an A-Line gown of angelskin peau and peau d'angel lace. The bodice was fashioned with a scoop neckline and long sleeves. Lace bands around the skirt accented to a full lace chapel train.

Her elbow length veil of imported illusion was fashioned in a forward style headpiece of pearls and lace. Her only jewelry were cultured pearl earrings, a gift from the groom.

She carried a cascade arrangement of white daisies.

Mrs. Thomas Vance, sister of the bride, was maid of honor in a mint green A-line semi-fitted floor length gown with an overlay of white lace. A matching chapel train enhanced the back. A matching headpieece secured a veil and she carried a cascade of daisies.

Doreen Kuhl, and Suzanne Illeck, both friends of the bride, were her bridesmaids, along with Mrs. Gary Blatchford, sister of the groom. Sharlene Rentschler served as flower girl.

The bridesmaids and flower girl gowns were fashioned the same as the maid of honor. All carried cascades of daisies.

The guests were seated by Michael Kossey, friend, Gary Blatchford of Britton brother-in-law of groom and Thomas Vance, brother-in-law of bride.

A reception for 300 guests was held at the IOOF Hall on Green Hwy. Gail Kuhl, Elise Buku and Cindy Durkee poured refreshments. Debbie Black was in charge of the guest book and Mrs. Robert Rentschler and Mrs. Kenneth Kaeseher served the bride's cake while Mrs. William Smith served the groom's cake.

The bride is a graduate of Tecumseh High School and is employed at Herrick Memorial Hospital in the medical records department. The groom, a graduate of Tecumseh High School, is presently employed at the Tecumseh Fisher Body plant.

Her elbow-length veil of French illusion was attached to a crown tiara.

She carried an arrangement of Phalaenopsis orchids and ivy.

Melva Strang of Ann Arbor, sister of the bride, was maid of honor in a floor length gown of pink chiffon with an empire waist featuring a back floating panel attached to the shoulders. Her short veil was attached to a headpiece of flowers. She carried a cascade of carnations centered by a Rubrum lily.

Sharon MacLeod, of Manchester, friend of the bride, was her bridesmaid, along with Mrs. Jerry Hebb and Peggy Martinus, both sisters of the groom. Pam Ganum, cousin of the groom, was the flower girl.

The bridesmaids' gowns were fashioned identical to that of the maid of honor. The flower girl's dress was similar to the other attendants.

A reception for about 350 guests was held in the church hall immediately following the ceremony which featured a wedding cake served by Sherry Bowles of Ann Arbor and Mrs. John Knapp of Chelsea. Off The Top *By Christine Fairbanks'*

Some random thoughts . . . .

Our faithful old dryer finally gave up the ghost last week, after 17 years of dependable service. Dad has fixed it up and coaxed it into running order the past couple of years, but I guess it is just too tired to go anymore.

Old Faithful was purchased when our eldest son was about two-and-a-half, and we were expecting the arrival of our second child. Since then, a little sister has also "made the scene," and you can bet there's been hundreds of loads dried in that reliable old servant since then. It's like losing an old friend, to see it go!

* * *

The only thing wrong with these modern conveniences is that we get so dependent upon them, we can hardly function without them. But I would never yearn for the "good old days," if it meant cooking on a wood-burning stove, washing clothes by hand all day while heating the wash water in a big copper boiler, or ironing with a heavy flat iron, heated on the stove. And who would ever honestly want to go back to outdoor plumbing?

* * *

We really felt that we should run the flag out again today, in celebration of two consecutive days of sunshine. Just now, when the dryer is on the fritz, especially, is no time for days and days of rain, Mr. Weatherman! We were wondering if we should be studying plans for an ark.

* * *

"We got 11 cats now," excitedly reported the little neighbor boys; "Nine kitties and two mommies. Do you wanna have one?"

No, thanks, kids; I want to keep my happy home.

* * *

The kids are out of school for the summer now, and I waste a lot of time checking to see what the commotion is in the yard every now and then. It takes a mother about half the summer to get used to the new routine of having them around underfoot all the time, then before you know it, September rolls around again and you have to get used to being alone once more.

* * *

You just don't know what to expect from the Michigan weatherman. A couple of weeks ago, our long-haired daughter complained long and loudly about her lengthy locks — they were just too hot, and too much bother, she stated. So, we let her get her hair cut. So then the weather was cold and wet for two straight weeks, making her wonder if maybe she'd been a bit hasty?

* * *

"Did I pass?" queried daughter when the mailed report card arrived. "Certainly," I replied. But later, as I idly looked over the card, I wondered who the teacher had in mind when she wrote down our chubby daughter's measurements: Height—61; weight — 48.8 Come now, teacher, even Twiggy wouldn't measure up to those figures! Could the numbers be transposed.

* * *

Our appliances must be suffering from some catching disease as they are all getting ill at once. "What's the matter with the TV?" wondered our son last night, disappointed because he couldn't hear the ball game. And today, the iron wouldn't heat over lukewarm. Probably some kind of silent protest.

Somebody Goofed

The fee for a week's camp facilities for the Vacation Church School of Gloria Dei Lutheran Church is $2.50 per week, not 50c as published in last week's issue.

The children will meet for five days beginning June 10, at the American Lutheran Camp, Tecumseh Woods, 10 miles west of Clinton on US-12.

The closing program June 14 will include a family potluck dinner at 6 p.m.

Registrations may be sent to Mrs. James Colson, superintendent, or Mrs. Laszlo Gero, assistant superintendent.

Memoriam

In loving memory of Charles McCarbery who passed away five years ago, June 5, 1963.
When we got together
On special events,
To the head of the table
You always went.
When that place is filled
By someone else
We sadly think of you—who else?
When we're alone we think of you,
We think of the things we used to do.
All the joys and memories
And the love you gave us
Will remain in our hearts, forever and ever.
Sadly missed by his wife, Wanda, children and grandchildren. 6-6p

REV. MODIE SCHOONOVER

Evangelist Holds Evening Services

The Rev. Modie Schoonover is currently in revival at the Tecumseh Church of the Nazarene, 807 Sunset Dr.

Services are held each evening at 7:30 p.m. and the Rev. Schoonover will also be present for the Sunday morning service at 11 a.m. and again in the evening.

The evangelist, now living in Adrian, is an elder in the Church of the Nazarene, devoting full time to the work of evangelism.

Mr. Schoonover has been actively engaged in pastoral work in Missouri since his graduation from the Nazarene Theological Seminary in 1953.

A native of Ohio, Mr. Schoonover received his college education at Olivet Nazaraene College, Kankakee, Ill.

"His direct and sincere holiness messages make Mr. Schoonover's preaching in demand at camp meetings and churches throughout the country. He has a great love for the souls of men and his passionate zeal for Christ is inspirational and challenging," The Rev. Herbert Nation, pastor of the local church stated.

"The church members and the pastor extend a hearty welcome to you and your friends. Each service will be filled with good things: spiritual songs, special music, a dynamic gospel message, and the presence of God. Be sure to be with us in our Sunday service," he suggested.

Mr. and Mrs. Leon Morton will be the song evangelists for the services. They have traveled over 20,000 mile a year in the song evangelistic field. Working with young people, they have formed and directed many youth choirs.

Shooters Make Bullseyes!!

Fred Bell took the sharp-shooters trophy with Bob Green getting the second place medal.

In the marksman class, Bob Lowe won the trophy with Fred F. Dickinson and Beaumont Diver picking up second and third place medals.

The Town Tunes, under the direction of Bill Price, will furnish a Barbershop Chorus program for the June 10 meeting of the Exchange Club at the Odd Fellow Hall on Green Hwy. President Ray Dollison announced that election of 1968-69 officers will also be held that evening.

The Dawn Patrol to be held at Meyers Airport June 30 will feature the Second Annual Fly-In of the Meyers OTW Airplane. About 20 of these planes are expected along with 130 other planes. The usual bacon and egg breakfast for 700 early risers is being planned under the direction of Mac Gonser.

Couple Attend Symposium

New techniques, designed to lower Health Cost by enabling people to regain and maintain their health through the Science of Chiropractic, were discussed.

This program is being projected through the United States in cooperation with President Johnson's urgent request for a Preventative Health Care program to reduce the need for increased hospital care.

Mr. Dermyer was said to have been awakened by a daughter about 5 a.m. He then went outside and reportedly found Goodacre stalled in his car, unable to move because he had not released the emergency brake.

Jim Hunt Goes For 19 Innings

The Tecumseh Indian baseball team picked up a win with a 19-inning pitching stint by junior Jim Hunt. Hunt went the distance to pick up the 2-1 win over the Airport Jets.

The sharp right-hander struck out 20, walked three and allowed 10 hits to earn the victory. While Hunt labored on the mound for Tecumseh, his rival in the county's pitching duel of the year, Gary Conant, was also toiling for the 19 innings.

Tecumseh picked up 12 hits and committed three miscues on the field, Airport had one error.

The lone Airport run came in the bottom of the 17th inning after Tecumseh broke the scoreless deadlock in the top of the inning.

The Tribe scored on a single and two fielders' choices. The Jets' Swick lashed a home run for the lone Airport tally.

Airport	000 000 000 000 000	000 0—1 10 1

In the top of the 19th Jim Mobley led off with a single, advanced on a fielder's choice and scored on a single by Hunt.

The game was an exciting one for the fans on hand and both young pitchers showed form and poise in the extra-inning contest.

The week before, Hunt also was the hero of a 5-1 contest with Milan. He gave up one hit and walked three in picking up the win.

Also important in the win were three hits by the Indians, one a three-run homer by Denny Lewis in the top of the third, giving the Tribe the lead. A single, a couple of walks and an error accounted for the final two runs in the fifth inning as Hunt continued on to win the game, 5-1.

Give Back the Giant's Home

By BILL SANFORD

She was about to die, it was over for her. Her destiny was fate and the cold irony of a wrecker's ball. Broken timbers, plaster and a hole in the ground were all that would have been left of her past. Her future was a parking lot and nice neat rows of parking meters.

This old dame stood on East Maumee in Adrian for a long time, over a hundred years. She was as much a part of the city as any building, place or thing. When you needed a place to run and hide from the stark realities of a changing world, her doors were always open.

Her name was the Croswell Theatre.

Her dark parlor could transform the everyday troubles and hopes and fears with music, laughter and a glorious type of romance that never really existed at all.

Last fall they closed her doors. It might have been the end, had she not had so many friends.

A nucleus of people banded together and decided to keep her for the city. It wasn't easy, but they decided to try. They would not accept her fate.

Attorney Gaylord Baker, president of the Croswell Opera House and Fine Arts Association, along with Mike Watts, another attorney, were leaders in a "Save the Croswell" move.

Thelma Hollenback, who has served as director of the Tecumseh Players when needed, Glenn Harbaugh of Adrian College and Mrs. Robert Henry were just a few of the people who have been working to bring the Croswell into a new era.

They all have various reasons for mounting a campaign to raise funds and promote various programs at the theatre. They want to restore her to her former self, to the grand old lady who has, through the years, played such a big part in the social and cultural life of the city and county.

Edwin Forrest and Edwin Booth, two of America's foremost actors performed on her stage. Booth played Hamlet, a role which has been reported that he despised.

Vaudeville also played at the Croswell, then came the silent movie and the organ that could always hail the triumph of virtue.

Guy Post Bates, a road-show Latin lover, played "Omar, the Tent Maker," and swooned the distaff population of the city and county.

"A Spare Rib from the Butcher Shop of Life," was sung with wistful bravado in a musical revue called "September Morn." Can anyone hum two bars of that ditty?

With the advent of the talkies, the Maumee Street Belle went along with the crowd. Vaudeville died and W. C. Fields, Maoria Shearer, and Marie Dressler as Tugboat Annie, took over. They brought laughter and gaiety to those who hid from the trials of depressions and wars.

Marilyn Miller? Ah, yes, who could sing quite as well as that angel of the celluloid. She sang her way into the hearts of every young man who ever dreamed of a fair-haired princess.

She stood on the day people reveled in the streets on Nov. 7, 1918, and the False Armistice. She roared in the '20's, grew sad and weary in the '30's. She gave the audiences bright gay musicals to help them forget the dreariness of reality.

The '40's brought her another war and another generation to calm and sooth. The scenes of the anguished eternal partings were too vivid, too real to those who watched, they cried. Children went there on Saturday afternoons to escape an adult world they did not understand.

The '50's brought still another generation, movies started to change, and so did she. A thing called television taxed her affair with the city and her people. She entered the depths of humiliation, she had to vie for the affection of the people with a little glass tube — and the installment plan.

By the time the '60's began she had started to decline and it became apparent her future was dim. The complexion of all those years she had lived through were rosy, and at times grey, but she survived and that day last fall when they closed the doors for what seemed the last time, her complexion faded like a clown's face in the rain.

However, what seemed to be the end, was not.

Oscar Hammerstein once penned for a soliloquy in a musical back in the '50's, the words, "A big black giant that sits and listens with thousands of eyes and ears, a big black mass of love and pity and troubles and hopes and fears." He was writing of the audience.

The Croswell Opera House has given back the giant's home now.

A NEW ERA — With the beginning of a season of summer stock at the Croswell, a new era begins for the old opera house. The season opens on July 4 with "Barefoot in the Park".

Reading Council Elects Teachers

The final meeting of the Lenawee Reading Council was held at the Tecumseh Community Center. Teachers from the Lenawee schools elected Mrs. Nellie Swenk, director of the Adrian Reading Improvement Program as president-elect; Mrs. Kathleen Feight, corresponding secretary; Mrs. Mary Griffin, recording secretary; and Mert Galbraith, treasurer.

Wayne Berridge, a graduate student at Siena Heights College, has received an assistantship at Indiana University to study for a Doctoral Degree in reading.

He will become an assistant to the Director of Research for the Educational Resources Information Center of the U. S. Office of Education in September.

The Lenawee Council was organized one year ago by Mrs. John Becker, director of the Tecumseh Reading Program, and Mrs. Swenk. Membership in the Council is open to all persons interested in the teaching of reading. Current study of reading problems has emphasized the fact that often vision, hearing, or other physical handicaps prevent children from learning to read.

Parents, doctors, counselrs, and teachers of elementary and secondary schools have the opportunity to discuss and seek the solution to these problems together in the three meetings held by the Council.

TRIUMPHANT TRIANGLE

HOME . . . SCHOOL . . . CHURCH! The predominant influences in the life of a child.

The Home provides love, security, example—to shape the growing personality.

The School develops the mind, stimulates initiative, nurtures social responsibility.

The Church cultivates faith and character, building the spiritual foundations of a noble life.

Wise parents understand the vital importance of each of these influences in the growth of their child. They work faithfully to strengthen *all three.*

THE CHURCH FOR ALL ...
... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

VOICE of THE HERALD

Vote "Yes"

Ten mills or nothing is one way to look at the school proposal on the ballot Monday.

Passage of the millage will give the schools the operating capital needed for the 1968-69 term. Failure to pass it will riddle the school system, probably from grade one right up through the 12th.

Officials have not discussed what could happen if the millage is turned down. Another attempt to pass it in August undoubtedly would be made.

Actually, the schools are not asking the voters for a large increase in taxes. The new millage amounts to just 2.2 mills. Nearly eight of the 10 mills sought is expiring, and in essence, the schools are seeking a renewal of that millage plus an additional 2.2 mills.

Schools, good schools, are an asset to any community. They encourage outsiders to move into the community or district. They reflect the type of community and its citizens.

However, more important, good schools provide good education. Some folks feel that the Tecumseh schools are superior to practically all others.

Unfortunately, we have good schools but they're not exactly superior. One only has to review curriculums of other schools and tour other school facilities. In some ways Tecumseh, through no fault of the School Board or administration, has slipped.

Our school tax load is heavy, and we complain. But are we justified in complaining? Take time some day and see what other districts are paying!

Ten mills — 2.2 new mills — is not asking much for one year. It represents approximately one-fourth of the total school budget.

Some folks, especially those retired and living on pensions or social security, have sound reasons for voting no. Inflation has hurt them to a great degree. An increase in taxes certainly would not be welcomed.

However, our youngsters need an education. Do we deprive them, or help them? Tell our sons and daughters we can not afford to educate them?

Every father and mother in particular, who have children in the Tecumseh schools should make it a point Monday to vote — and vote for the millage.

Vote "Yes"

For many years, local School Boards have discussed a need to broaden vocational education here in the schools. Almost always finances and lack of facilities prevented it.

Next Monday, voters throughout Lenawee County will have a chance to promote vocational education, one consisting of a new center for all county students.

The center also will be available for adults to begin or continue their specific vocational interests. Industries and many organizations have approved the plans, undoubtedly the cheapest way of providing such education for everyone.

Total cost is only 1.5 mills. Voters will be asked to approve both issues — one for construction of a building and the other for operation.

Since there's little doubt that the area needs such a vocational-technical center — over 1,000 students now would benefit from it plus many adults — you are urged to support and to vote yes next Monday on both proposals.

Republican Club To Seek Funds

The first of a series of fund-raising events planned by the Shawnee Republican Women's Club took place last Tuesday evening at the home of Mrs. Faye Whelan.

Members and a few guests were served a bountiful dinner, prepared and served entirely by Mrs. Whelan. Generous donations were received for the delightful meal.

Card parties and various other events are being planned by the membership, announcements concerning them will be made later.

Letters To the Editor

TO THE EDITOR:

It is a shame that the news media today in general and The Herald in this instance has to use such lead articles or headlines as those of your May 9, 1968, issue, "2 policemen accused with abusing youths". Personally, I felt that there were many items in your paper that week which were much more worthy of front page headlines, but this is beside the point. The point is, the article should never have appeared in the paper as it is.

First, I would call attention to the word "accused" in your headline. Apparently, from reading this article and subsequent related ones, the officers never were arrested and thus no formal charges could be placed against them. Since an individual is supposed to be innocent until proven guilty, I feel that these two officers and the police force in general deserve more consideration than they received from the press. It is unfortunate in some instances that the old adage is often true, "the pen is mightier than the sword". How many times do people merely scan the headlines and read just a paragraph or two to form their idea of how the story goes? Anyone doing so in this case would have a rather unsavory picture presented to them of their police force in general and patrolmen Hella and Meni in particular. I am not arguing their inocence or guilt here even in light of the fact that one of the patrolmen had to be treated medically as a result of one of these "accuser's" actions. Again, this is beside the point. If indeed they were guilty, they should have been given the courtesy of the press until proven so. Even then, this type of article is not my idea of good front page headlines in a community newspaper.

I also noticed that among the acusers were listed two of the community's businessmen. It is unfortunate that such individuals would be willing to lend their names to such an article as this unless willing to sign the necessary statements which apparently they weren't. Or is it posible that they, too, were victims of "the freedom of the press"?

Secondly, I feel it is articles such as this in The Herald that give these "disorderly" men and others like them a cause to maintain "contempt" and "disrespect" for the law officers serving us. Granted that there are no doubt some officers of the law who shouldn't be or whose exploits of wrong should be made known, but they are entitled to first be proven wrong before being exposed to public discredit and criticism.

Finally, what has been written cannot be changed I know. However, The Herald can and should put forth a public apology these individuals for any undue criticism and seek to be more careful in the future regarding such items.

Respectfully,
Glenn F. Williams.

TO THE EDITOR:

It has been more than 20 years since I have been in Tecumseh. For many years there was a Tecumseh Herald, a weekly paper that came out each Thursday. I trust that today there is still a Tecumseh Herald.

In going through numerous papers relative to the history of the Mason and Daniels families, I came across two articles that I found to be rather interesting. I am enclosing one that is complete and the other condensed.

I wonder if you can tell me if the "Old Grub School" is still in existence and being used. My father, his brothers and sister as well as his parents attended there. I am just as anxious to know about the Tipton Soldiers Monument. My Grandfather took me to see it when I was a very little girl. Is it still proudly standing as it did years ago? The names of two of my Grandmother's brothers are among the 31 soldiers listed on the tablet. Is the monument decorated each "Decoration Day" as my Grandfather said it was years ago?

I hope that you can give me some information about the above or tell me where I might get the information I desire.

Thank you.

Very truly yours,

For Dupont

TO THE EDITOR:

Jerome Dupont, the first-announced candidate for the Democratic nomination for Congress from the second district, has won the allegiance of many of those who worked for ex-Congressman Weston Vivion — and with good reason.

Two years ago many of Mr. Vivion's constituents, believing that Vietnam was the overriding issue of our time and finding the congressman's position uncertain or complacent, pressed him for clarification. He gradually revealed himself a Johnsonian. Essentially he said, "Don't escalate any farther," but when the Administration upped the ante he never said anything against it.

Announcing his congressional candidacy recently Mr. Vivian chose to place his remarks on Vietnam at the end. Again he is basically unengaged with the issue, simply hoping for "the successful completion of the negotiations," and observing that we have "reached a turning-point" — through, we may add, no effort of his.

Our goals in Vietnam, he finds, are now "unreachable". ("Leaders of both parties have recognized" it, so it's safe to say it.) "The United States must engage in thoughtful re-examination," and so on.

Mr. Vivian closes with a nod to the dangers inherent in a Pax Americana without, however, clearly saying that he repudiates the Administration's decisions which would bring it about.

Mr. Vivian, it would seem, is no more able to speak directly and meaningfully on the war than he was when he lost the race in 1966. Jerome Dupont, on the other hand, gives this issue the high priority it deserves, realizing that our Vietnam misadventure undercuts the very serious domestic problems with which we ought to be desperately concerned.

Mr. Vivian tries to distinguish merely between the 89th and 90th congresses. Mr. Dupont's analysis goes deeper — to the Johnson administration's bullheaded Asian policy and its flight from the problems of urban America.

J. Theodore Hefley,
Ypsilanti.

Mother Supports Schools

TO THE EDITOR:

Only a few days remain before we vote upon the millage issue for our children and for our schools. Although the subject has been brought to the public's attention in Herald articles, I have heard little discussion about it and am concerned that this vital issue may be eluding the voters. As a mother, a former teacher and an interested citizen, I sincerely hope the voters will favor the proposed millage on June 10.

With our high cost of living today, it is natural that every citizen is more anxious to save money than to spend it. Why, then, should we vote "YES" for additional expenditures?

First of all, our children deserve the best education we can offer them. They need a school program that will provide a basis for success in our technical and competitive way of life. All parents want their children to rise above the "hippy" or "revolting" elements in our society. A good education, a well-trained mind, an awareness for responsibility provide a strong assurance for success and adjustment.

Secondly, our children need teachers who are well-qualified and experienced. These professional people cannot live on dedication alone. They will seek and find school systems which offer them reasonable remuneration for their services. Tecumseh schools must be financially able to entice and to hold these instructors. Our schools have fine teachers, teachers who respect their profession, respect the students, and cooperate extremely well with our School Board. Let's keep them!

Thirdly, we parents and citizens must support our schools so they can grow as needs dictate. Few of us are satisfied with outdated cars, homes or appliances. Surely we will not be satisfied with outdated schools and/or curriculum. We must help our children by planning for and supporting future growth.

This investment in the future will not only benefit our children, but it will also strengthen our community. People are drawn to good schools, and good schools produce responsible, active citizens.

In Tecumseh, our children are important. I will vote "YES" for the proposed millage on June 10. May I ask you to do the same?

June M. MacBeth.

Asks Support For Millage

TO THE EDITOR:

On June 10 our school board is asking us to approve a 2.2 mill increase over our 1967 assessment. As a property owner, parent, and local citizen, I am concerned over this increase.

I am concerned NOT because it will mean more money out of our pockets BUT because it will mean continuing the fine scholastic program presently being offered to the children of our community.

I am concerned NOT because of my single vote — for I will vote "yes" — BUT because some of our eligible voters will let someone else cast the votes while they stay away only to wonder in the coming school year why our children no longer have all the scholastic opportunities offered to them in the past.

As this millage issue has been proposed, our school board has made no threats, has offered no ultimatums, has proposed no scholastic cutbacks. What it has done is to assume that the voting members of our community are wise enough to know — in spite of soaring costs — that our schools must continue to hire qualified teachers, must continue to provide adequate facilities, and must continue to offer superior academic programs. For whom? — For our children, our grandchildren, the children next door, the children of Tecumseh who depend on us, the citizens of Tecumseh, to support our schools so that they can receive the very opportunities which we send them to school to use.

On June 10 I hope the voters of this community consider what we expect, even demand, from our schools, consider the cost of our expectations, and consider the distance our dollars will go when used for educating our children. This 2.2 mill increase is small but it can do great things when properly handled.

Can you think of a better way to help our children than to provide the best possible educational foundation available — NOW! How? Vote "YES" on this vital issue. Don't let someone else do it for you!

Mrs. William M. Steele, Jr.

TO THE EDITOR:

I am writing this letter to inform you personally, of the fantastic turnout and support shown by the people of San Diego, Calif., for Bob Hope's USO show Saturday night, May 25. Official attendance was stated to be 52,000, but it seemed like more.

As an American citizen, I was awed and proud, when the National Anthem was played. Not only did the people listen, but in the area I was sitting in, every person seemed to sing along with all his or her heart. This was true throughout the stadium. Never before have I seen more respect for our GREAT NATION. As Bob Hope stated, "I've been entertaining our fighting men throughout the nation's universities, now it seems great to see the real stuff."

The show started around 2030 and lasted until around midnight. Every big name in show business seemed to be appearing. Andy Williams, Rachael Welch, Kaye Stevens and Martha Raye were only a few of the entertainers present. Even an ex-Michigan group came, and I might say, were just great. I'm speaking of Honey Limited, 4 ex-Wayne State co-eds.

At this time I am on TAD orders from MCB-3 to Coronado, Calif. I'm in a 6-week Vietnamese language school at the Navy Amphib-Base. I've been lucky so far, and have had no real difficulty learning the language. However, being that Vietnamese is a tonal language, I've been uttering sounds I never before thought possible.

When I complete this school around June 21, I will rejoin MCB-3 at Port Hueneme, when we shall begin moving out to the "Country". The scoop now is that we shall be going to Da Nang East to a place called "Monkey Mountain".

As a corpsman, I'll be going in MEDCAPS, or Medical Civilian Aid Programs, where we'll treat the sick and injured. The CB's with us, will be responsible for building schools, etc.

I enjoy receiving The Herald, and though I've had trouble with address changes, etc., I look forfard to each copy.

Sincerely yours,
Russell G. Slick, HM2.

TO THE EDITOR:

I would like to have the person who killed my little girls' pet kitten tell me what do I tell them?

How can it ease a little girl's heart to know you went on the opposite side of the road to kill her pet.

What did that kitten do to you?

You know I wish I could stop you tomorrow and have you explain why?

It's bad enough that I saw you do it, but I don't know how I'm going to ease a 9-year, a 5-year and a 3-year-old girl's heartache.

Our kitten wasn't a run-of-the mill cat. She was a beautiful tri-color angora kitten and I bet she loved our girls as much as they loved her.

Five Will Vie for School Board

BRITTON — June 10 is an important date to circle on your calendar — it's the date of the annual School Election.

Three other candidates are running for the two regular four-year terms on the board. They are Lee Taylor, Donald Bush and James Shiels. Two of these will be elected to fill the vacancies created by the expired terms of Elizabeth Cheever and Albert Wielfaert.

Also on the agenda is the important subject of the county Vocational Educational Center; whether the voters desire to build such a center, and whether they will vote a tax increase to pay for it.

Mary-Martha Class Meets

CLINTON — Members of the Mary-Martha Class of the United Church of Christ held their final meeting of the season, Monday evening, with a Penny Potluck supper at the home of Mrs. John Fox.

There were fifteen members present, and a guest, Mrs. Ozro Priest, wife of a former pastor. Mr. and Mrs. Priest will be observing their 50th wedding anniversary June 16, and Mrs. Priest was presented with a remembrance for that occasion. She was presented with a copy of poet-artist Gwen Frostic's book, "This Is Ours".

Mrs. Paul McKenna, whose husband, the Rev. Paul McKenna, has resigned as pastor of the church, was presented with a collection of dessert plates of varied patterns.

Mrs. Howard Hintz, retiring president, presided at the meeting, at which it was voted to have a Christmas party with husbands invited, in lieu of the annual Christmas tea, which was sponsored by the group for many years.

Proceeds from the penny potluck supper were placed in the choir robe fund. Mrs. Donald Corwin will host a plastic housewares demonstration party, June 20, at 1 p.m., with proceeds for the choir robe fund.

The group was invited to take charge of the McKenna-Bowman wedding reception Aug. 17.

Meetings will resume Sept. 9.

Opera Hopeful will Sing in 'Frisco

Since their arrival in Portland, Ore., last August, the David Borgesons (nee Barbara Jo Damon) have been living a full and exciting life.

Barbara has been teaching English at Roosevelt High School in North Portland while Dave worked on his master's degree at Reed College.

In commencement ceremonies there May 19, David received a Master of Arts in Liberal Science degree with an emphasis in Middle Eastern History.

A week later Mr. Borgeson received still another honor. He was accepted by the San Francisco Opera for their Merola Workshop, an eight-week training program for operatic singers.

As well as vocal training, he will receive extensive work in the theatrical aspects of opera; staging, make-up, history of opera, fencing and ensemble work.

Since October, Mr. Borgeson has been in the opera chorus for Portland's three operas, "Carmen," "Rigoletta," and La Traviata.

In LaTraviata, Dave played the part of Gastone, a secondary role. The Borgesons consider this summer an important step in the advancement of Dave's career as an opera singer.

Barbara has been working toward her master's degree in Humanities as well as holding seminars to prepare Roosevelt High School students for the student performances of the operas.

Both have been discovering the Northwest on spare weekends. Their favorite "hide-away" is Pacific City, a small fishing town where they have spent several weekends with friends.

The Borgesons will arrive in Michigan June 13 to spend a brief time with Barbara's parents, Mr. and Mrs. Clarence Damon, 5383 Macon Rd., before they leave June 22 for San Francisco.

Eric Baldwin, son of Mr. and Mrs. Earl Baldwin, and a cadet at the Hall of the Divine Child Military School in Monroe, received the best private award for Company C.

Mrs. M. Dibble Entertains Group

TIPTON — Mrs. Merrick Dible entertained the Women's Fellowship of the Tipton Community Church Tuesday evening at her home on Whelan Road.

Plans were discussed concerning the remodeling of the parsonage. It was decided that the fellowship would purchase new drapery rods and light fixtures. The paint committee, Mrs. Richard Platt and Mrs. Don Daniels, would appreciate volunteers to help finish the interior painting.

It was announced that Mrs. Joseph Rockwell and Mrs. Glenn Fisher are on the committee for selecting the carpeting. The remodeling of the parsonage is nearly completed and the Rev. and Mrs. Max Bailey and family will soon be moving in.

A money making project has been undertaken for the month of June. Those wishing to participate may contact Mrs. Wallace Wilkin.

Mrs. Dibble served a molded salad, crackers and cookies to her guests.

Tipton Camp Fire Girls Awarded

TIPTON — The Ma nu Ka Campfire Girls of Tipton held a candlelight ceremonial and Mothers Tea at the Tipton Community Church recently.

Mrs. Delbert Jacobs and Mrs. Donald Barron, guardians, presented honor beads, rank beads and Wood Gatherers Certificates to the following girls: Rebecca Barron, Carolyn Duckworth, Marlene Dull, Evelyn Kempf, Kay Jacobs, Karen Jacobs and Carol Sellers.

Honor beads, rank beads, and Firemaker Certificates were presented to Roxanna Cook, Barbara Outman and Robin Teasdale.

Guest speaker was Else Vestergaurd from Denmark, who is staying with the Bill Ferrow family of Tecumseh. Refreshments were served.

"How To Do It" With Flowers

A "how to do it" class in flower arranging was offered last week by and for members of the Little Garden Club.

Members are preparing for a mock flower show to be held during the regular meeting June 18. The more experienced members gave tips on everything from conditioning the flowers so they would remain fresh to fastening them so the container could literally be turned upside-down without disturbing the arrangement.

Mrs. Charles Gross devised the program, relating it to the June show.

Mrs. Carson House, Jr., pointed out the importance of the relationships of materials in the arrangement. She used pale pink daisies. The greens she used were pruned of many of their leaves to retain the light, airy effect.

Mrs. Carlton Cook contrasted the free form arrangement, where materials are used in a natural — if unusual — manner, and the abstract arrangement, where materials are used unnaturally. She showed how natural materials, such as ti leaves, could be trimmed to an unusual shape to fit into the abstract category.

A vertical arrangement was demonstrated by Mrs. Donald Moffatt. Using several stalks of bright gladioli, she snapped off the lower, well-oened blooms from two stalks and fit them into the bottom of another stalk, giving the impression of one very full, luxurious stalk tapering upward. She pointed out that the top two or three buds of glads always should be clipped off since they will not open in an arrangement and look awkward.

Mrs. Earl Baldwin devised a parabolic curve, using two branches of hickory just beginning to unfold their leaves. Such branches can be curved with gentle pressure of the hands. At the base was a single tulip bloom, demonstrating that effective, graceful floral arrangements do not need masses of flowers. This is particularly gratifying during the winter, when blooms must be purchased and tend to be expensive.

Mrs. Judson Miles showed how a Hogarth curve — the "lazy-S" which is a favorite among modern arrangers — can be made in a tall, narrow vase. She fastened a block of one of the new, water-retaining foams to the top of the container with wire mesh. The foam extended several inches above the vase, allowing greens and flowers to be inserted with stem-end upward, forming the lower half of the S-shape.

This is a useful trick also for vertical arrangements, or any other form used with a tall container. The foam, which may be purchased from florists under several brand names, carries water to the cut end of the flowers and greens by capillary action. Wrapping it with wire keeps it from crumbling in this exposed position. The block then is concealed with greens and blooms.

Low, multi-sided arrangements suitable for dinner tables were shown by example from Mrs. William Holmes. He low bowl of white daisies and greens was attractive when viewed from either side or the ends, and was low enough not to interfere with table conversation.

Later, while the newest club members made individual arrangements under the guidance of the more experienced, the remaining club members made arrangements for the Michigan Week banquet the following night.

The meeting was at the home of Mrs. Howard Furry, who was assisted with refreshments by Mrs. Richard Hammel and Mrs. House.

The June show, open to members and their guests only, will be in the home of Mrs. Carlton Cook. Chairmen are Mrs. J. J. Walper, Mrs. David Woods and Mrs. Gross.

Members also gathered informally this week to bid farewell to Mrs. Richard Hammel, who has served the club and its membership in many capacities, including president.

Through My Window

NO BLUE BUT LOTS OF ORANGE

Nothing further to report on the bluebird but, to be very truthful, we really did not expect a return visit. Hoped for one, yes; expected it, no. That early morning visit was one of those thrilling extras which frequently come our way and make bird watching the fascinating thing it is. You know, just thinking about that beautiful bluebird still gives a shiver of excitement. So pretty.

But bluebirds are fussy characters and, even though the house was originally intended for them, we long ago gave up all hope and have lately positioned it for wrens.

Actually it is positioned more for our benefit now that I think about it. The house is on top of a high metal pole and reasonably close to the window — perfect for us to check on all the comings and goings.

There are plenty of these to keep track of, too. We finally won the Duncan-Sparrow War of Wills but that is a story for another time.

Had we tried to keep the house for bluebirds, it would have been mounted on a low post, four feet or so above the ground, and much much farther away from our window. Something to keep in mind and ponder next year. If they could be enticed to nest perhaps across the creek or maybe even along the back yard fence, wouldn't it be marvelous!

★

ALTHOUGH THE bird who drapes a little piece of the sky over his head and back has not returned, we certainly have not lacked for colorful bird company. The pair of Baltimore Orioles is most faithful.

They are daily visitors.

We see them often and we hear them almost continually. Lord Baltimore is an accomplished whistler whose song is loud, clear and of a liquid quality. Her serenade is not as musical.

Orioles are not "feeding station" birds, but, several years ago one did touch down at our near-the-window tray for a brief inspection. Nothing looked very tasty apparently, so he took off — he did not, however, take off before I managed to hit the camera switch.

Unfortunately, he was not an accomplished model, he perched too near the edge of the tray and cocked his head to the left instead of the right. Would anyone be interested in a picture of a headless Baltimore Oriole?

While scratch feed, corn and sunflower seeds are not on the Orioles' preferred list, we have found something that definitely is: oranges. We try to keep half an orange on the top of the fence post which is nearest the creek bank and it is most exciting how much orange Lord Baltimore eats.

He found the first one so fast, too — it had not been out more than an hour when we saw a flash of orange, heard a happy whistle and there he was. Lord B. drinking orange juice would make an interesting picture, wouldn't it?

★

WHEN THE bird is busy eating the orange, we have a good chance to use the binoculars. Wow! He is handsome anyplace but an extreme close-up look is unbelievable.

He has many subtle markings that are unnoticed at a distance. For example, his jet black head has several little streaks of orange and his tail looks long and slender probably because of its black and lemonish-orange color.

Lady Baltimore showed no interest in the orange for several weeks. Was it that he did not tell her where the "goodies" were, was she too busy weaving a nest or what? Anyway, it was not until our Sunday of The Big Rain that we saw her nipping at the orange.

According to "Audubon Bird Guide" there is a great variance in the coloring of the female orioles, some being much duller and more yellowish than others. We are fortunate in that our Lady has a bright orange-yellow breast, her head and back are a soft buffy tan and the white markings on her wing quite distinctive. Lord B. is handsome, his Lady is lovely.

So it is that our window watching lately shows us no blue, but lots of orange.

Jehovah's Witnesses To Strengthen Faith

Jehovah's Witnesses from 16 congregations in southeastern Michigan will be traveling to Hillsdale the weekend of June 14-16 for their semi-annual circuit assembly. All of the estimated 1,200 delegates are expected to attend.

It has been several years since Hillsdale has been the host city for one of their assemblies. The Hillsdale High School, 30 S. Norwood, has been selected as the meeting place.

All of the assemblies of Jehovah's Witnesses are guided by a theme. This time the theme will be, "Strengthening One Another to Remain in the Faith" (Acts 14:22). "The information which will be received at this assembly will certainly aid us in doing this," stated Richard Krebs, presiding minister of the Tecumseh congregation.

Carton Cecil, circuit minister of the Witnesses in the area, is in charge of the plans and details for this three-day Christian reunion. He mentioned that the keynote of the assembly would be the public discourse entitled, "Why Does God Permit Wickedness?" to be delivered by Marvin L. Holien, of Brooklyn, N. Y. Scheduled time for this main talk will be 3 p.m. Sunday, June 16.

Couple Wed 30 Years

Mr. and Mrs. John A. Kotts, 10615 N. Adrian Hwy., will observe their 30th wedding anniversary June 11. The couple celebrated last fall by taking a trip to DeLand, Fla., to visit Mrs. Kotts' mother and family.

Mr. and Mrs. John Kotts have lived all of their married life at the present address. They are the parents of three children, James of Adrian, Mrs. John (Shirley) Sussex, 6393 Monroe Rd., and John N. Kotts at home. There are four grandchildren.

Herbert Gorzkiewicz was discharged from the U. S. Army February 2 and has since been visiting in Mexico and California. He is living with his parents until August when he will attend Jackson Business University.

QUESTION:
"Why are so many funeral homes getting out of ambulance operation?"
ANSWER:
Hundreds of funeral directors are eliminating their ambulance service because of the new minimum wage law and federal restrictions. One Ohio city recently found that the cost of maintaining ambulance service exceeded fifty dollars for each ambulance trip.

Monday Decides Issue

CLINTON — Monday, voters in Clinton School District will be asked to approve a school bond proposal which will cost an estimated $5 to $5.50 per thousand dollars of state equalized valuation.

Superintendent Richard Wegner says that the new building will be built east of the village on a 45-acre site presently under option from Mr. and Mrs. Hans Schmidt, and from Mr. and Mrs. E. J. Kehoe.

The board of education has evaluated the minimum school building needs and are comprised in the building plans, which were presented at public meetings prior to the previous school bond election. No changes are contemplated at this time, Mr. Wegner said.

Only property owners will be permitted to vote on the bonding proposal for the Clinton Community School, as well as the bonding proposal for the Area Vocational-Technical Building, which also appears on the ballot.

It is not necessary to be a property owner to vote to authorize the establishment of the vocational-technical school, or to elect members to the school board.

The proposals as they will appear on the ballot are as follows:

"Shall Clinton Community School, Lenawee and Washtenaw Counties, Michigan, borrow the sum of not to exceed Two Million, Two Hundred Eighty Thousand Dollars ($2,280,000) and issue its bonds therefor, for the purpose of erecting, furnishing and equipping a new high school building; remodeling the existing high school for elementary school purposes; acquiring additional land for site purposes; and developing and improving sites?" Yes or no?

★

Proposition to Establish Area Vocational-Technical Education Programs:

"Shall the Intermediate School District of the County of Lenawee, State of Michigan, come under the provisions of Sections 307a to 324a of the School Code of 1955, which are designed to encourage the establishment and contracting for the operation of area vocational-technical education programs if any annual property tax levied for this purpose is limited to 1.5 mills?" Yes or no?

★

Bonding Proposition for Area Vocational-Technical Building:

"Shall the Intermediate School District of the County of Lenawee, State of Michigan, borrow the sum of not to exceed One Million Two Hundred Fifty Thousand Dollars ($1,250,000) and issue its bonds therefor, for the purpose of erecting, furnishing and equipping an area vocational-technical building and acquiring, preparing and developing a site therefor?" Yes or no?

The polls are open from 7 a.m. to 8 p.m. in the Clinton Township Library, Monday, June 10.

Members of the Nursing Home Committee responsible for the event were Mrs. Richard Platt, Mrs. William Murphy, Mrs. Neville Hart, Mrs. Kenneth Munger, Mrs. William MacBeth, Mrs. William Moeller and Mrs. Grover Schwartz.

LIFE HEALTH

Heart Conditions

The heart is the great muscular pump which supplies blood to all parts of the body. When the heart fails, no matter what the cause, life flows from the body.

The action of the heart muscle is controlled by vital nerve energy which flows from the brain through the spinal column to the heart. When anything happens to impair the flow of the vital nerve energy to the heart, both the heart and its ability to function properly are affected.

The chiropractor is a mechanic of the spinal column and of the body's nerve system. He understands the pressures and impingements which can cause malfunction of the nervous system. Through gentle chiropractic adjustments performed by trained, competent chiropractors, brain power and nerve energy can be restored to the heart so it can render efficient circulation to all parts of the body.

Whatever the 'heart condition', the capable, competent hands of the chiropractor can make the necessary adjustments to assure proper flow of nerve energy to the heart to assure its vigorous health. Another Health and Life Article from the Office of:

What's Going on at BOYSVILLE

By GREG KOVACS

The campus of Boysville of Michigan held its annual Open House May 19. The rain didn't stop the people as about 1,000 persons roamed the campus.

Among the festivities was the serving of barbecued chicken in the dining hall.

The highlight of the afternoon was the drawing of the winners for the RCA color television and an African tea table.

The afternoon closed with the Boysville Drum and Bugle Corps marching visitors who wanted to attend benediction to the Holy Rosary Chapel.

The Wayne State Theatrical Performers came to the campus of Thomas More High School May 21 to present two one-act plays, entitled, "The Hairy Ape" and "The Man Who Married a Dumb Wife".

After the performance, the players in the company were given a dinner in the dining hall.

Also in attendance at the performance were 75 students from neighboring Clinton High School.

★

THE SENIORS of Thomas More High School received their senior pictures May 23.

The seniors had been hopefully waiting that the pictures would arrive before graduation, since they were taken so late in the year. The seniors wish to thank R. W. Dixon for the fine job and speed in getting them ready.

Brother Edward Overstreet, C.S.C., principal of Thomas More High School, has announced that William Kostka will be valedictorian and Donald Lowe will be salutatorian of the graduating class of 1968.

The seniors graduating are:

Kenneth Atkins, William Arnost, Thomas Berlicz, Dwayne Brooks, Charles Bromirski, Timothy Collins, Michael Connors, David Fassone, Donald Goff, Richard Greathouse, Laurence Heibel, Christopher Jordon, Thomas Klavon, William Kostka, Gregory Kovacs, Richard LaPalm, Donald Lowe, Patrick McGovern, Phillip Micun, Michael O'Dea, Nicholas Orlando, Allen Rockwell, Raymond Tyle and Gregory Voet.

The 24 members of the Senior Class will terminate their high school years May 30, at 3 p.m.

★

THE DRAMATICS Class of Thomas More High School presented Reginald Rose's "Twelve Angry Men" sunday evening.

The performance was attended by all of the student body and 100 persons of the public.

The Dramatics class had been working on the play for six weeks. They did a fine job for the amount of work that it involved. The boys used class time to memorize lines and rehearsals took place from 8 to 10 every evening.

We wish to congratulate the Drama Class on their fine performance and hope that in the future more plays can be produced by the students at Thomas More High.

The play was dedicated to Gerald Schaden, who was a member of the Drama Class and had a part in the play, but was stricken with a serious illness and was unable to take part. With only two weeks to go before the performance, Brother Donald Kuchenmeister was worried about who to get to memorize the lines in such short time . . . Then he announced that he himself would take the part.

After the performance, the Drama Class extended their gratitudes to Brother Donald for helping them in the production of three plays during this past semester.

By HARRISON C. DANIELS

(Editor's Note — The following is the condensed version of an article which appeared in The Tecumseh Herald in 1917. The version was sent to The Herald by the granddaughter of Mr. Daniels, Mrs. Olive D. Baxter, of Seal Beach, Calif., along with other memorabalia of Franklin Township where she lived as a young girl. The history of the Franklin Monument and what is written upon it is a sentiment shared by all people who have suffered the heartbreak and tragedy of war. The monument is located in Franklin Cemetery. The words carved on the monument are: "By the citizens of Franklin as a memorial of the brave men who represented them in battle and gave their lives in the defense of Unity of our common country." It was dedicated on July 4, 1866.) ....

"By the passage of time many things become dearer and we have more interest in them, more particularly when they carry with them the memory of our friends and comrades who gave their lives that the nation might live. This is true of the monument that stands as a silent sentinel to guard the last resting place of those who gave their lives to save the Union during the Civil War.

"This monument, the first to be erected in the United States to the memory of those who died during the war, was dedicated July 4, 1866.

"The monument is not only in memory of the 31 soldiers who died and wore the Blue, but it is a lasting evidence of the patriotism that stirred the people of Franklin Township.

"After the war, these same dear people put their toils and their tears into that beautiful shaft that stands 33 feet high in the Tipton Cemetery. The money for the monument, which cost $1,750.00, was raised by public subscription."

Hammels to Move

Dr. Richard T. Hammel and his family are moving to Rockford, Ill., June 14 where he will be on the staff of the Swedish American Hospital, operated by a group of practicing psychiatrists in private practice.

"We will miss Tecumseh," Mrs. Hammel stated recently and it is a certainty that the City and area residents will miss the Hammel family.

Active in many civic affairs, Mrs. Hammel will be especially missed by the Little Garden Club members and those who enjoyed her arrangements at the flower shows.

The doctor has given many hours of pleasure to those in the community attending the Tecumseh Players' productions. He appeared in the first one, "Charlie's Aunt," which was the beginning of a long line of superb acting in "Pajama Game", "Girl Crazy", "Finian's Rainbow" and probably his crowning success as Professor Harold Hill in the "Music Man".

Dr. Hammel began general practice here in 1952 after University of Michigan Medical School and internship at Hurley Hospital, Flint.

He followed in his father's footsteps. Dr. H. H. Hammel practiced in Tecumseh for 39 years before his death in 1953, much loved and respected by the populace.

His son, Dick, opened his office on E. Chicago Blvd. and later moved to the office building built and used by his father for years on S. Pearl St.

After 12 years' general practice, he felt the need for psychiatric training and left his practice to enter the residency program at Ypsilanti State Hospital.

After Dad and the two older children, Barbara, 12, Jack, 10, get "out of school", they will take 14-month-old Steven, and Mom and move to Rockford.

CONTINUING PROGRESS

Every time you see an open manhole, you can make a good guess. Consumers Power underground agents are at work. Agents of progress. Working on their cables and conduits, they are making more electricity available to homes, businesses, industries.

In small and big ways, underground and aboveground, Consumers Power people are constantly at work to provide abundant electricity for our increasing population and expanding economy. Right now, builders are at work on our 100-million dollar Palisades nuclear generating plant near South Haven; men are breaking ground for the new 250-million dollar pumped storage hydroelectric plant near Ludington; and engineers are drawing plans for a dual-purpose nuclear-steam plant to be built near Midland.

By using advanced technology and large-scale economies, Consumers Power planners are assuring plenty of low-cost electricity to meet power needs in the years to come.

Continuing progress. It's more than just a slogan at Consumers Power.

OUTDOOR EXERCISES — Tecumseh High School held its first commencement outdoors as evidenced here. The class was seated in front of the stadium, facing a portable stage located on the edge of the athletic field. The Rev. Frank Hawthorne is shown here addressing the class.

10 Mills Passed; 4-Year Terms for Ocamb, Mead

With less than 25 percent of the registered voters in the district going to the polls, 10 mills for operating the Tecumseh schools were approved Monday.

Other issues approved here — and also countywide — were establishment of a new county vocational - technical school and bonding for construction of the school.

Dr. Harold Ocamb, polling 867 votes, and Aden Mead, 775 votes, were re-elected to the School Board. Each received four-year terms. John Wanzeck, third candidate for the two posts, collected 275 votes.

Passage of the 10 mills, 602 to 488, will enable the local schools to continue the present education program. It comprises about one-fourth of the total school budget, and without it, the schools would have had to eliminate portions of the curriculum and probably drop teachers from the staff.

Balloting here for the vocational center gave approval for establishment of the center, 623 to 401, and for bonding to finance construction, 533 to 494. Both proposals had to pass for approval.

Unofficial tabulation for the county showed 4,715 in favor of establishment to 3,814 against. For bonding, the total read 4,173 for and 3,934 against.

Voting here was lighter than expected but the highest in several years. With 35 absentee ballots, the total number of voters was 1,152.

Tecumseh School District has approximately 5,200 registered voters. Only about 22 percent showed up.

Last year two candidates, unopposed, were re-elected to the School Board. Just 55 voted then. In 1966, approximately 1,100 went to the polls.

4 Mishaps, One Injury

Three motorists were cited, and one injured in four accidents checked by the Tecumseh police during the past week.

Last Friday, Richard W. Gartee, 19, 1209 Shady Lane, ran into the rear of a car driven by Susan L. Hammang, 18, 305 W. Chicago Blvd., as she was turning into a driveway.

Gartee suffered a possible broken nose and was taken to Herrick Hospital. He was arrested for failure to have his car under control.

A resume of the other mishaps is:

June 4 — Carrol F. Leeman, 38, Wixom, was charged with reckless driving after his car went through the intersection of S. Maumee and E. Russell Rd. He was traveling south and eventually stopped 65 feet south of Russell.

June 5 — Harold G. Davidson, 65, 227 Herrick Park Dr., reported to the police that he bumped another car while pulling into a stall in the lot behind Adrian Federal.

June 5 — Sharon K. Hudson, 24, Adrian, was cited for failure to yield the right of way after she pulled into the path of George A. Ruhl, 33, 1408 Southwick, on W. Chicago Blvd. at Adrian St.

Three Injured In Auto Wreck

Saturday at 1:45 p.m. there was a collision at the corner of Occidental Hwy. and Russell Rd. David Weinberg of Lee Villa Mobile Court, Adrian, ran into a car driven by Steven W. Filagi, of Adrian.

Mr. Filagi had a passenger with him from Jackson.

All three people were injured and taken to the hospital for treatment.

Mr. Weinberg was issued a summons for failure to have his car under control.

City Withdraws Suit Against Underwood

The trial of the city versus George Underwood to condemn property north of Tecumseh for a well field came to an abrupt end Wednesday afternoon.

The city withdrew its case.

In the morning session the defense brought two witnesses to the stand. Both were Adrian realtors, Paul Linehan and Raynor Snyder.

Both men were appraisers and had placed a value on the property. They both indicated that the amount of water which is available at the site added considerably to the total value of the land.

Both figures were in excess of $500,000.

At the conclusion of their testimony, City Attorney James Beardsley moved to have their testimony struck from the record. After a recess for lunch, the attorneys and the judge met in chambers to discuss the law.

When it was known that Judge Martin would allow the testimony to stand, Beardsley moved the city's withdrawal from the trial.

Beardsley argued earlier that Underwood had paid $427 per acre less than two years ago for the property and that the tests for water should not be involved in the price the city should have to pay.

After the trial, Beardsley said that he did not want to risk the case going to the jury. If the jury were to award the over half-million dollar, recourse would be open to the city for an appeal; however, while the case would be in litigation, it would not be possible for the city to seek water elsewhere.

By BILL SANFORD

Tecumseh's condemnation suit to acquire 7.2 acres from George Underwood, local resident and Clinton auto dealer, started Tuesday morning in Circuit Court at Adrian.

Judge Rex Martin is presiding at the trial, one which was originally scheduled for last January but was postponed twice.

The property is being sought for a new well field.

The opening trial remarks by James Beardsley, representing the city, cited the desperate need for water by the city at present and for the future. He also remarked that certain other wells had been tested but to no avail, and that the Underwood property offered the city its best solution.

He offered that Underwood would be "justly compensated," but however the city would not be "held up" in the transaction.

Cal Zorn, city manager, was the first witness for the plaintiff. He outlined the city's present water situation, saying that four wells were currently being used. Ten years ago, according to testimony, seven wells were in operation.

He explained the drilling of an additional four wells in the present well field which took over the supply of seven wells. They were closed due to contamination, silting on a high content of iron and hardness.

Two of the wells produce 700 gallons per minute while the other two operate with 500. Zorn continued in his resume of the city water by saying only three wells operate at a time, two of the wells are tied together, one backing up the other.

In cross examination by Robert Baker, attorney for Underwood, the wells were given a complete run-down. The survey, which Tecumseh used in determining whether the city purchase the Underwood property, was used by Baker in asserting that the present wells could be improved insofar as efficiency was concerned and by treatment of two existing wells.

Baker also questioned Zorn on the original resolution drawn up by the city commission which authorized the action of condemnation. He was asked if a second resolution were drawn up and adopted to amend the first one, which asked for 26 acres. Zorn replied that he could not answer without checking the records.

Also called to testify in the first day of the trial was John Seeley, the Ann Arbor engineer who headed the survey. Using a number of graphs and charts he explained existing sites and the maximum potential of those wells.

He also explained that Tecumseh has made attempts to secure other well sites within the city limits. Zorn had been given a question by Baker as to whether or not there were several hundred vacant acres in the city. He agreed that there were.

In his cross examination of Seeley, Baker asked if any efforts had been made to make test wells on this ground. They had, but Seeley said certain areas were not tested because the engineers did not feel that they presented desirable conditions for test wells.

Called to testify for Tecumseh in the proceedings was Lincoln Vercoe of Grand Rapids, a professional appraiser.

He appraised the land at $600 per acre for a total of $5,220. A right-of-way of 1.5 acres was included in the appraisal. 1.5 acres will also be needed for an access to the city from the proposed field.

Under cross-examination by Baker, a question was pointed at Vercoe's appraisal of the land. He was asked if he did not feel that the capacity of the test wells in pumping 3 to 4 million gallons of water a day would not affect the value of the property. Vercoe contended it did not.

He said he did not make his appraisal on any basis except the market value of the land and did not use any other factor.

52 Grads Picked for Scholarships

Hill Places 2nd in '500'

Hundreds of Tecumseh and area golfers waited anxiously Sunday afternoon for the results of the annual Indianapolis 500 golf tourney.

Reason was that Mike Hill, Tecumseh Country Club pro during the summers of 1966-67, was leading the country's top pros going into the final round.

Unfortunately, a three-foot putt on the 18th hole curled the hole and stayed out, dropping the youthful pro into a second place tie behind winner Billy Casper.

It was worth $9,750 for the former Tecumseh pro.

Three Elected At Britton

Britton-Macon Area School District voters elected three members to the Board of Education:

Four-year terms went to Donald Bush, 168, and Lee Taylor, 165. James Shiels received 114, and there were nine write-in votes.

Two-year term was won by Ned Brown, 163. Marvin Rayburn received 69 votes and there were 10 write-in votes.

Voters rejected both proposals for the county Vocational-Technical Center: proposal to establish Intermediate District, 131 no, 116 yes; proposal for bonding for the center, 113 no, 93 yes.

Winds Whip Through City, Toppling Trees on Motorists

Strong winds whipped Tecumseh and the area late Tuesday afternoon, toppling trees and littering city streets with limbs and branches.

Three Tecumseh residents luckily escaped serious injury or death when their cars were struck by falling trees.

Mr. and Mrs. James Nichols, 214 S. Ottawa St., were in their small foreign car at the intersection of S. Evans and Kilbuck Sts., when a tree practically crushed the vehicle.

John Saling, II, 18, 210 S. Oneida, was driving east in the 200 block of W. Chicago Blvd., when a large tree splintered and toppled on his car. He was trapped in the car until firemen freed him by cutting away the limbs.

His car sustained damages to the front-end, hood, fenders, plus a cracked windshield.

Limbs and trees also ripped down power and telephone lines in several sections of the city. One of the hardest hit areas was N. Division St.

One falling tree brushed a home on S. Evans St., and another hit a corner of the post office building. Damages there were reported minor.

The storm is reported to have ripped off a roof at the Jack Allen bee farm, near Tipton, and blew in windows at the Kuhlman Concrete office.

Some sections of Tecumseh were hit hard, and others very little by the winds and rain.

City Manager Cal Zorn says city trucks will be used to clean up the debris, most of which still cluttered streets and yards Wednesday afternoon.

Residents were warned in advance of the storm as a tornado watch was posted. Firemen were stationed west of town to watch for the formation of any tornadoes.

MIS Ticket Orders Taken

Tickets for the first race to be held at the new Michigan International Speedway may now be ordered at Flanders Music.

Prices range from $5 to $25. The minimum charge is for the infield of the track and the maximum for deluxe terrace in the paddock grandstand.

Other grandstand seats are selling from $8 to $20.

If orders are taken by June 22, MIS officials will be able to devote a block or section for Tecumseh race fans.

Construction is progressing at the track with footings poured for the grandstand and erection of restraining wall in front of the grandstand.

First MIS race is scheduled in October.

Clinton OK's $2,280,000 for School

With a majority of only 18 votes, residents of the Clinton Community School District approved a $2,280,000 bonding proposal for the building of a new high school and remodeling of present buildings for elementary use.

The vote was 287 yes, and 269 no, with a total of 612 voting.

In the Board of Education race, incumbent Thomas Carlton with 346 votes and Harlon Ruhl with 334 votes won four-year terms. William Carothers received 93 and Gilbert Hill 285 votes, respectively.

Carl Woodward won the one-year term with 231 votes. David Pratt received 224, and Rex Winchell, 112.

Clinton district voters also approved the proposals for the Vocational-Technical Center: to establish the Intermediate School District for the Center, 286 yes, 172 no; and bonding proposal for the center was approved 283 to 224.

More heartfelt gratitude was expressed Tuesday by **Mrs. Paul Rudd** as she reported the improvement of her husband at Herrick Memorial Hospital after he has spent a week in the new intensive care unit following a coronary arrest on May 30. "I think that heart unit is just wonderful and anyone so inclined to send flowers . . . we would be happy if they use the money to help pay for the unit the Auxiliary has made possible," she commented.

She remarked about the expert care of **Mrs. Gene Tuckey** and **Mrs. Curtis Crunkleton** and other nurses as well as that of **Drs. Dustin, Cook and Phelan.**

"I'm going down and tell that baker just what I think of him," said ~~Mrs. Lillian Hoagland~~ Monday, June 3. She was speaking of **Leverett DeJonghe** at **Van's Bakery,** who did such a beautiful job with the sheet cake honoring the seniors of the **First Baptist Church** and on last minute notice, too. Cleverly incorporating class colors of both Tecumseh and Clinton High Schools, the artist with the icing completed the masterpiece that so pleased the lady with miniature boy and girl graduate figures.

Candidate for **Paul Harvey's** "Oh — no!" Club, **Ashley Chase,** 1405 W. Russell Rd., outstanding citizen, International Harvester bookkeeper, treasurer of Friends Church Association, and assistant ambulance driver, early Sunday morning, backed into his own house with his automobile. Damage to the house was estimated at nearly $250. That's when **Ashley** said . . . .

Floating on **"The Pit"** water seems more appropriate just now than any other kind of floating but it's floats with wheels that are encouraged by the committee making arrangements for the **Tecumseh Park** dedication cermonies July 6, we repeat, July 6. Five floats are scheduled and five more in the planning. Let's have a float filled parade for the celebration.

Ray is at it again. **Ken-Ray Distributors** are having a grand opening of another store at Greenville this week.

The children of the Rev. and Mrs. Harold Speer are honoring them with an open house June 15 at the Pythian Hall from 3 to 6 p.m. Opal E. Berger and the Rev. Harold Speer were married June 10, 1943, in Toledo. Mrs. Speer had been ministering in the Assembly of God here for nearly two years before their marriage and her husband began his pastoring here soon after the wedding. The story of their marriage was printed in the June 17 issue of that year. The couple held pastorates in Atlanta, Alpena, Coleman and Detroit before returning to Tecumseh. They have two children, Paul D. Speer, a student at General Motors Institute in Flint and Mrs. David (Mary) Klanke, 507 S. Maumee St.

THE REV. Frank W. Hawthorne, pastor of St. Peter's Episcopal Church, was the principal speaker at the commencement and addressed the class on the subject of "Sounds of Graduation."

He urged the graduates to "be yourself in the world and love the world and know that your feelings disciplined and ordered are precious gifts of life and love."

He had reminded the class of going into a world not at peace . . . with "men fighting, children crying, brothers and sisters dying . . . Ethel Kennedy weeping with her children for her dead husband."

"You will be sharing in the creation and recreation of the world in which, I pray, communication between persons will be established on high, human levels."

The valedictory was given by Barry Lamkin, who reminded his classmates of the many worldly problems that "now concern us and we must seek solutions for them."

He said, "We must learn to be forgiving, to be thoughtful, to be compassionate in a world where this will not be easy."

Cathy Beevers gave the salutatory and explained to her class, "in order to face up to the problems that have been established by past generations, the youth of the present must rely on their individual capacity to endure and prevail."

"Among the weapons he has at his instant command are love, respect, imagination, courage and hope."

The Rev. Fr. Robert Handley of St. Elizabeth Catholic Church gave the invocation and benediction at the exercises.

School Days End With Field Day

Between five and six hundred youngsters turned out for the elementary schools' field day at the high school athletic field last Friday. Each school prepared a sign to identify their group, however the sign wasn't needed when the winners were announced.

It was a noisy and enthusiastic crowd of youngsters that cheered on the winners in 11 different events for each grade four, five and six.

Tecumseh Acres was the overall winner. Patterson was the second place school and Ridgeway took the honors for sportsmanship at the meet.

Jerry Fox, physical education instructor for the elementary schools and JV baseball coach, said after the final event that "I've run a hundred miles and lost 10 pounds this morning." There were occasional mixups in the event, but Mr. Fox held the proceedings at quite a pace.

Winners in the events are listed from fourth thru sixth:

50-yd. dash, girls—Janice Miller, Ridgeway; Beck Stormes, Tecumseh Acres; Michelle Tate, Patterson.

50-yd. dash, boys — Rick Kildow, Patterson: Mike Duhan, Tecumseh Acres; Dick Sterling, Patterson.

75-yd. dash — Doug Bunch, Patterson; Mike Corley, Ridgeway; David Purkey, Patterson.

Long jump—Dennis Schill, Tecumseh Acres; John Getz, Patterson; Mike Feight, Patterson.

Softball throw — Manel Torres, Tecumseh Acres; Jim Karle, Tipton; Fred Cattell, Ridgeway.

Shot put — G. Hartley, Tecumseh Acres; Kent Jacoby, Patterson; D. Black, Ridgeway.

Shuttle relay — Tipton-Sutton, Ridgeway, Patterson.

Mighty Mouse — Ridgeway, Tecumseh Acres, Tecumseh Acres.

880 relay — Tecumseh Acres, Patterson, Ridgeway.

Girls' obstacle relay — Herrick Park, Patterson, Tipton.

Girls' rescue relay — Herrick Park, Ridgeway, Tecumseh Acres.

From the mighty mouse on the children had a noisy happy final day of school. It was one of those track meets where some young boy or girl might have came in last, but no one lost.

Mrs. Fay Whelan will be the hostess for the Abi-Evans Chapter DAR picnic at her home on North Union St. at noon, June 14.

Allen-Andrews Nuptials Spoken

"I do and goodbye," was about the situation at the wedding of Brenda Kay Allen and E-2 Ronald Lloyd Andrews Saturday afternoon at the Tipton Community Church.

The groom's leave from Ft. Bliss, Tex., was canceled Friday about noon and several people slashed red tape to get 48 hours for him to speak his nuptial vows.

Parents of the couple are Mr. and Mrs. Jack Allen, 1820 Taylor Rd., and Mr. and Mrs. Robert Sinclair, Blissfield.

The Rev. Paul C. Frederick of Rice Memorial Church, Detroit, performed the ceremony before an altar enhanced with white rose trees and palms.

Mrs. Harold Every accompanied the soloist, Diane Dull, of Britton.

The bride wore a floor length gown of Chantilly lace and silk taffeta fashioned with long lace sleeves tapered at the wrists and Sabrina neckline trimmed with tiny seed pearls and sequins. The detachable train flowed from the shoulders on two tiny bows. A crown of seed pearls and sequins held her veil in place.

She carried white roses accented with ivy.

Shirley Allen, sister of the bride, served as the maid of honor in an apricot taffeta and lace gown with bell skirt.

An orange bow secured her brief veil and she carried apricot clamellias with ivy.

Elizabeth Schofield and Mrs. Robert Wilbar were the bridesmaids attired as the maid of honor.

Pam Stockinger was the flower girl, also in apricot taffeta and lace. Dale Allen, brother of the bride, was the ring bearer, carrying the ring on a heart-shaped white satin pillow.

Mike Andrews, brother of the groom, was the best man and the guests were seated by Lee Hannibal and Gary Betz.

Mr. and Mrs. Robert Phenicie of Blissfield were hosts for the buffet luncheon served in the church basement for nearly 250 guests.

The linen-covered bride's table was centered with a decorated cake, baked by Mrs. Lawrence Nichols.

Minota Fox and Mrs. Raynor Hardy cut the cake and Mrs. Grover Swartz, Mrs. Jack Dull, Mrs. Dale Sinclair, Mrs. John Fox, Mrs. Wallace Wilkin and Cathy Peters assisted with the serving.

Mrs. Phila Allen, great-grandmother of the bride, of Seneca, was among the guests.

The bride and groom are both 1967 graduates of Tecumseh High School. She also was graduated from the Lois School of Cosmetology.

The groom returned Sunday evening to Fort Bliss, where he is stationed with the U. S. Army.

The rehearsal dinner was given Friday evening at the Country House by the groom's parents.

A Long Hard Pull But She Made It

On May 26 Hillsdale College graduated the largest class in its history. Among the students to receive degrees with honors was Mrs. Larry Hart. Mrs. Hart is the former Nita Spangler and was a graduate of Tecumseh High School.

MRS. LARRY HART

Mrs. Hart graduated Magna Cum Laude from the college, she maintained a 3.63 average.

It has taken the new graduate 15 years to receive the degree. She started her college days at Cottey College in Missouri. When graduated from high school she received a Herrick Scholarship. She also received a PEO sisterhood scholarship, which operates Cottey College.

After two years at the Missouri school she was convinced by Mr. Hart that she should become his wife. In the interim period she became a mother four times, Susan, 13; Laurie, 11; Scott, 10; and Greg, 8.

When her last baby was two she began taking correspondence courses, maintaining high grades which she had always achieved in school. She had been the valedictorian of her Tecumseh class.

Besides being a mother and wife, she has also been active with the Sweet Adelines, taken piano lessons, attends PTA meetings to occupy her "spare" time. She has worked hard with the Adelines serving on the board of directors and being in or chairing shows which that group presented.

Mrs. Hart remarked about how much help her husband and children had been to her while she sought her degree. They banded together to do the housework and allow her time to devote to her pursuit of an education.

The Harts prove true an old adage, "where there's a will, there's a way."

You Told Us

By DOROTHY GRIGG
Herald Society Editor

Happiness reigns among the THS graduates this week. They finally made it after 13 long years of effort. "Just a beginning," you say. Well, maybe so, but an ending, too. Years prove that many associations, many interests, habits and hobbies end with commencement.

Students in the local high school are fortunate in opportunities to earn scholarships of various amounts to aid them in the search for further learning, however.

Wilfred Waldron remarked Monday that he wondered if the Tecumseh area residents realized how the scholarship program stands out here. The Waldrons and Mr. and Mrs. Thomas Hamilton were in Columbus, O., June 4 for the commencement of their mutual grandchildren, Carol and John Hamilton, children of Mr. and Mrs. John Hamilton, former residents here.

Mr. Waldron said that only two small scholarships were presented in the class of some 400 seniors. "I hope we don't take the annual stipends presented here for granted," he said.

Carol and John are graduates of Worthington High School and the ceremony took place in the Ohio State University Auditorium.

LANSING REPORT

By GIL BURSLEY

One of the 1968 Legislature's major acomplishments was passage of the "basic property insurance pool" bill (House Substitute Bill 3345).

Need for the legislation was pinpointed as a result of studies conducted after last summer's costly riots in downtown Detroit. As a member of the State Senate's Commerce Committee I attended hearings in Detroit and Lansing where evidence was presented on the practical difficulties faced in obtaining property insurance in less desirable neighborhoods such as Detroit's 12th St. Efforts to rebuild and revitalize these areas would be stymied without property insurance continuously available for qualified property.

The concept of this legislation is a "pool" whereby all insurance companies doing business in Michigan share risks that might be prohibitive and unsound actuarily for any one company to undertake.

Federal legislation on the subject follows the principle of "reinsurance" and supplements rather than conflicts with our state legislation.

The objective of the bill (HB 3466) is to provide a market for basic property insurance for qualified property so that people who have maintained their property in good condition can obtain property insurance, regardless of where they live. Basic property insurance is defined as standard fire and extended coverage and would be available on state-wide basis for both residential and commercial properties. Extended coverage includes riots, explosions, etc., in its definition.

The key term in the bill is "qualified property," which is defined as all real and tangible property at fixed locations, not used for farm purposes and complying with applicable state and local building codes. The bill proposes to make the state building code the minimum standard throughout the state, for purposes of testing conformity with a uniform standard.

Each insurer transacting property insurance in Michigan would participate in the Pool in the proportion that its property insurance premium bears to the entire state's property insurance premium. If there is a deficit produced in the Pool, it is distributed among these insurers on the basis of the premium proportion ratio. However, there is a ceiling on the liability of each insurer of 1% of its surplus for any given year. This would provide both the necessary amount of financial solidarity in the Pool and would protect the insurers against inordinate losses.

If an individual owning commercial or residential property is unable to place this property through normal insurance market channels, the owner would be entitled to an inspection of his property by the Insnection Bureau. The Inspection Bureau would inspect the property and place a rate on it: If no insurer was willing to insure the property at this rate, then the property would be insured by the Pool. By one of these mechanisms all qualified property should be able to obtain basic property insurance.

The placing of insurance would continue to be through agents and they would receive commissions as determined by the plan of operation of the Pool which will be at all times subject to the regulation and supervision of the Commissioner of Insurance.

Special recognition should be accorded State Insurance Commissioner David Dykhouse, his staff, and the many representatives of the insurance industry who worked long and assiduously with the legislative committees in perfecting this legislation.

POPPY QUEEN — Donna Osburn, right, was selected poppy queen and Barbara Linger, first runner-up. They rode in the Memorial Day parade following the presentation of a $25 bond and a bouquet of red poppies from Mayor Easton to the queen. She was also given a flag to be flown outside at the high school by Commander Almond Curtis of the Underwood-Orr Post of the American Legion. Mrs. Larry Kanous of the Auxiliary said, "We want to emphasize the meaning of the poppy project to the young people." OUR READERS WRITE

TO THE EDITOR:

We were driving into Tecumseh on May 30, at 9 a.m., on Route 50 by the water plant, when we had to stop our car to let two small deer, approximately six months old, cross the road into the field near the Community Center, River Raisin.

They were frolicking frantically in the roadway trying to get across. It would be nice, I think, if your town would post signs warning that deer are in that area before they would be killed or cause an accident.

We were thrilled to see them, for in the 20 years we have driven through your town, or anywhere else in Michigan, these are the first deer we ever saw.

We thought you would be interested to know of this little incident.

Sincerely,
Mr. and Mrs. Ray Patterson,
810 Waverly Ave.,
Toledo, O. 43607.

Deborah Earling Guest of Honor

Carolyn House entertained Thursday night at a miscellaneous bridal shower honoring Deborah Earling whose marriage to Carson House, III, will be an event of June 26 at the Presbyterian Church.

Twenty-eight friends, classmates and relatives played games and presented the prizes to the bride-elect.

Colors and flowers, pink roses and lily of the valley, were used to enhance the residence.

Cake, ice cream and punch were served.

Miss House is a cousin of the groom-elect.

Hot Water Gets Hotter

The Tecumseh Fire Department answered a call at 3:15 a.m. Sunday at the Robert Handy residence, 7540 North Adrian Hwy., Franklin Twp.

The fire was caused by a short in the water softener. The water softener was ruined and there was smoke damage throughout the house. The damage was estimated at $500.

Petoskey Stones Once Ate Plankton, Says WSU Geologist

DETROIT — Did your jewelry ever reach out for something to eat? Maybe before it became earrings or cuff links?

If you have Petoskey Stone jewelry there was a time when it did exactly that. It sifted nourishment called plankton from the bottom of the sea through tentacles equipped with stinging cells.

The Petoskey Stone, Michigan's State Stone, is the common name for a variety of colony corals that lived in seas covering Michigan's Lower Peninsula about 350 million years ago during the Silurian and Devonian ages.

Once composed of soft, living tissue called "polyp," the individual coral (still visible in the hardened stone) consisted of a food intake opening surrounded by tentacles which waved on the sea bottom in search of food.

The fine detail of the corals has been preserved to this day because the original material was replaced through a process called petrifaction. Calcite, silicon and other minerals replaced the original material in a cell-by-cell process.

Prof. Egbert G. Driscoll, a Wayne State University geologist, explains that glacial formations millions of years later picked up the hardened corals and deposited them over a great portion of the Lower Peninsula, especially in Charlevoix, Emmet, Cheboygan, Presque Isle and Alpena Counties. The common name Petoskey Stone was coined because this fossil was distributed generously in the Petoskey area.

The creatures from which the Petoskey Stone (inset) evolved were among the inhabitants of the ocean which covered the Lower Peninsula in past ages. This is an artist's conception of the Devonian Age sea bottom in which the Petoskey Stones existed as living colonies of coral.

The unique stones, exhibiting grey, brown or beige coloring, are found on beaches, road cuts, ditches, gravel pits, or anywhere stones or rocks are exposed.

They may be polished by hand to a high gloss finish. For best results in polishing, use in succession, 220, 320, and 600 grit sandpaper or emery cloth. To bring out the final luster, burnish the specimen with a piece of old wool blanket.

Michigan, the first state to select a fossil for its state stone, gave the Petoskey that title by law in 1965.

St. Elizabeth's Has Breakfast for Grads

Mass at St. Elizabeth Catholic Church was offered by Rev. Fr. Robert Handley Sunday morning honoring the 1968 high school graduates.

After mass, breakfast was served by members of the St. Elizabeth Rosary Altar Society to Herbert Bagby, Mary Burns, Judy Buku, Joseph Conklin, Christine Cole, Douglas Dick, Ann Drouillard, Sue Ford, Donna Forsythe, Beverly Fitzpatrick, Mary Helen Greene, Joyce [illegible], James Knickerbocker, Bernard [illegible], Janet McVay, Robert Murray, Anne Sage, Pat Schneider and Linda Steadley. Fr. Handley and Dr. William William McBraniety were also guests at the breakfast.

Ladies serving were Mrs. Robert McCrate, Mrs. Lawrence Bu[illegible]kie, Mrs. Theodore Golat, Mrs. Gerald Harris, Mrs. Elmer Dick, Mrs. Louis Caterina, Mrs. James Vanzo and Mrs. T. M. Broderick.

Memoriam

IN LOVING memory of our beloved wife and mother, Mrs. William Munson, who passed away June 8, 1967.
Broken is the family circle,
Our dear one is passed away.
Passed from earth and earthly darkness
Into bright and perfect day.
But we all must cease to languish
O'er the grave of her we love,
Strive to be prepared to meet Him,
In the better world above.
Sadly missed by the William Munson family. 6-13c

STORM-RIDDEN TOWN — Pictured here is a tree on South Evans which was blown down onto a house. Limbs and broken wires were a common sight all over town after the wind storm last night.

Estimates $5,000 Damages

The great wind came again, striking the little town of Tipton with extreme force, but not as bad as three years ago on Palm Sunday.

Jack Allen's honey business received the brunt of the storm there when the wind sucked up the roof from his new warehouse, lifted it over another two-story building and dropped it in the front yard of a neighbor, William Murphy.

He estimates damage in excess of $5,000 to the building and contents, including 400 bags or about 20 tons of sugar.

The wall was also taken out of the new building making it a complete loss, Mr. Allen said.

This happened at the business located on M-50 behind the home of his mother, Mrs. Lloyd Allen. Windows were broken at the back of her house. At his own home, on Tipton Hwy., about one-quarter of a mile south of the intersection, the front door was bent in and the footing of the TV tower was uprooted.

Trees were taken down all over the area in the storm which occurred about 5 p.m., Tuesday.

Harold Radant, about two miles south of Tipton on Shepherd Rd., had his porch torn from his residence and several corn cribs blown down.

The new camping trailer of the Harry Travises, who lost their recently-completed home in the Palm Sunday incident, was blown over on its side.

Mrs. Grover Swartz had a tree on her porch and roof but it did only a small amount of damage. The Lonnie McMichales, who sustained considerable damage to their home before, lost their picture window this time around. Lots of trees were down at the Raymond Platts'. The electrical and telephone service was out for a time.

Jack is a 1949 graduate of Tecumseh High School and received his BA at Eastern Michigan University. He has been employed in the business department of the Tecumseh Public Schools, and will teach economics here next fall.

Shirley Whelan is a graduate of Perry Hall, Lake Forest, Ill., in 1951, and received her BA at Western Michigan University. She has been teaching as a substitute this year, and is presently expecting a fourth child next fall.

Parents of the couple are Mr. and Mrs. Fay Whelan, Outer Dr., and Mr. and Mrs. C. M. Brown, Hendershot Hwy.

'Gypsy' Is Coming

Clark Lake Players' 15th summer season opens Thursday, June 20, with the musical "Gypsy" which will be shown June 20, 21, 22; June 27, 28, 29; and July 4, 5, 6. Live parakeets, a lamb, a dog and a dancing cow will highlight the production.

"Gypsy" swings to the tunes of a by-gone era — the fun vaudeville days. Based on the memoirs of the lady-like stripper Gypsy Rose Lee, "Gypsy" was the most successful vehicle of Ethel Merman with a lengthy run on Broadway. With Peg Geiger as Rose, the Clark Lake Players' production will be directed by Richard J. Hossalla.

Rose is the brash stagemother who pushes and shoves her two daughters, June Havoc and Gypsy Rose Lee, until one is a star. The climb takes the mother and her brood from one hotel and seamy vaudeville theatre to another in search of stardom.

Arthur Laurents wrote the libretto, Jule Styne the music and Stephen Sondheim the lyrics of the successful musical.

Others in the cast are Marsha Waldron as Baby Jane, Debbie Gwinn as Baby Louise, Charon Wilkinson as Louise, Shirley Harrison as June, and Jim Chisman as Herbie.

Jon Brittain is technical director; Russel Ford, choreographer. Rosemary Sutton will serve as assistant director.

The Clark Lake Players present their productions at the Clark Lake Playhouse on Eagle Point of Clark Lake. Reservations may be made by calling 529-9141 every day except Sunday from 4 to 8 p.m.

George Surratt Tops In Tennis

George Surratt earned honors in the Regional Tennis Tournaments May 24 at Albion.

He beat two Battle Creek players and was then defeated by Chelsea.

Ted Todd, High School athletic coach, remarked that probably George was the second best player there and had conditions been just right, he might have done considerably better.

Thompson of Chelsea went on to win the Regional Tournament and played in state competition May 25.

George played Meredith from Springfield High School at Battle Creek, winning, 6-0 and 6-1. He beat Gay of Pennfield at Battle Creek, 6-2 and 6-4.

The winner must beat in two of three sets.

Had Mike Allen been eligible to play in the tournament, he would have fared well, Mr. Todd said.

Allen and Surratt spent a good bit of time on the courts and also play in Toledo. Both are graduating seniors this year.

Auto, Van Crash Injures Five at Intersection

Five persons were injured shortly after noon Monday of last week when a van crashed broadside into an auto at Billington Corners, the intersection of M-50 and M-52, about three miles west of Tecumseh.

Injured and taken to Herrick Hospital and then transferred to University Hospital in Ann Arbor was Richard Debarr, Sr., 24, of Lansing. He suffered compound fractures of both legs plus lacerations and bruises. His condition is reported serious.

Also taken to the local hospital was his wife, who was treated for severe head lacerations; their year-old son, Richard, Jr., a broken leg and multiple lacerations; and Martin J. Ruoff, 18, and Mrs. Ronald Ruoff, 49, both of Addison, bruises and lacerations.

The Debarrs were headed west and had just left Harvey's Grill. The Ruoffs were traveling north on M-52, and young Ruoff reportedly stopped at the flasher light, and then proceeded out and into the path of Debarr.

Rear-End Collision

A collision occurred at 4:05 p.m., Saturday, when Edward C. Allman, 33, of Lambertville, failed to stop for a stop sign on Billmeyer Hwy. He struck another vehicle being driven by Kenneth Van Valkenburg, 37, 115 S. Maumee, which was crossing the intersection on Tecumseh-Macon Rd.

Allman was treated for injuries at Herrick Memorial Hospital. He received a summons for disregarding a stop sign. Van Valkenburg was cited for driving without an operator's license.

LIFE HEALTH

Five Phases of Recovery

Location and Correction of Body Disorders

Chiropractors know that disorder and disease in the body is caused by obstructions or interferences with the normal flow of nerve energy through the body.

As the first step in eliminating disease and disorder, the chiropractor is primarily interested in locating the cause of the disorder. Once the cause is located, he takes steps to correct the cause so nature may undertake the task of healing.

The chiropractor uses scientifically developed analytical instruments to determine the exact location of spinal misalignments which interfere with nerve function.

In the course of his examination, the chiropractor accumulates data which enables him to determine the type of adjustment procedure required to correct misaligned vertebrae and remove the obstruction to the nervous system.

Once the cause is located and the procedure is determined, the chiropractor gives adjustments which correct the cause, and the recovery process begins. Another Health and Life Article from the Office of:

MISSIE'S NEW TORMENTORS

Would you believe, rabbits!

First it was the squirrels who took such great delight in tormenting our big dog, Missie. They would sidle down the trunk of the walnut tree near her run and then parade back and forth close to the fence. They knew she could not get at them and the knowledge made them bold. The louder she barked, the closer they went and the more she jumped, the faster they switched their tails. It was a great game but the enjoyment was rather one-sided.

Then the grackles took over the role of "Missie tormentor". They would swoop low over the run and land in the dogwood bush — the bush is close to her house and yes, of course, they always perched on the closest branches.

The ultimate taunt was when on the very top of Missie's fence. Actually she never let them sit there but the mere fact that they tried sent her almost into fits of frenzy. A black dog barking ferociously at black birds — oh my!

★

NOW, HOWEVER, both the squirrels and the grackles have been outclassed. In fact, they are not even in the ball game any more. A few months ago Missie started barking and even growling several times during the night.

We know that she does not take kindly to strangers prowling when and where they have no business being but certainly we would not have "uninvited guests" night after night. We might very well have rabbits running, though.

And once she discovered what fun there was to be had here where Logan Street meets Evans Creek, Mrs. Rabbit settled down and took up residence.

Her visits were not confined to nocturnal ramblings either, night and day exercises-in-teasing were very much in order.

There were many reasons for her to select this as her new home and bothering the dog was probably one of them.

The food supply is good. First there were the tender new shoots of grass and then hooray, the tulips came up.

There is apparently a difference in the taste of tulip leaves because some varieties were not touched at all while others were eaten completely. Day lilies were tasty, too. And when it comes to the dandelion dining, that is great fun to watch.

The rabbit nibbles grass until she comes to a yellow blossom, then with no change of pace at all, she nips off the stem and slurps up the blossom. It just disappears.

Missie takes a dim view of all this, she does not approve one little bit of that rabbit eating up her yard. She barks and growls — and a big German shepherd has quite a bark and growl.

It would intimidate me if I didn't know her but the rabbit pays absolutely no attention. If anything, the reverse is true. I think the rabbit actually enjoys teasing and taunting.

★

OCCASIONALLY, when Dad has Missie out for her evening exercise, she surprises the rabbit and the chase is on. I do not mean to be disloyal to our dog but the chase is a bit ridiculous.

One huge shepherd lumbering after a small agile rabbit does not stand much of a chance. She looks rather foolish in fact.

When the rabbit tires of the game, she darts over the creek bank and that's it. One of the good hiding places is a tangle of raspberry bushes. We had hoped that this, or some other nearby spot, would be a good place for family-raising and maybe we would have the fun of watching tiny rabbits playing.

We were half right; she did have a nest somewhere near but the kids were two-thirds grown before she brought them into our view

— or into Missie's view, too. One morning we heard a dreadful commotion, there was barking, yipping, whining, yelping and growling all mixed up together.

Mom rushed to see what was happening and oh, our poor pup. In the middle of the yard next door were the two teen-age rabbits.

As they nibbled grass and even stopped one in a while to wash their faces, they did not even hear Missie. That was almost the final insult—two young rabbits keeping their cool in the face of her very best German shepherd thundering.

As of this writing, they are coming into the yard every day and their nonchalance seems to increase in direct proportion to our big monster's irritation.

So it is that there are laughs aplenty as we watch the antics of the rabbits who are Missie's newest tormentors.

Keep It Beautiful

If America hired people for the job, it would take the largest sort of army to keep our country free of litter.

But there's no need to hire anyone. It's a job we can do for ourselves. All of us. Every family that spreads a picnic lunch. Every boatman who cruises the lakes and waterways. Every motorist who uses our roads and highways.

It is the pleasure of the U. S. Brewers Association each year to give its fullest support to the Keep America Beautiful Campaign. Remember: Every Litter Bit Hurts.

This is our land. Let's treat it right.

Auto Club Tours Mill

By DAVID S. BUSH

The Irish Hills Chapter of the Antique Automobile Club of America met Sunday, June 2, at "Mill Grove", owned and named by O. K. Eldredge of Macon. The old mill, built by Henry Ford, was an ideal setting for the club's picnic. Eleven cars took part in an 18-mile tour from Adrian ending up with a meeting and picnic which was enjoyed by about 60 people.

The club members were taken through the mill which is used now by Mr. Eldredge to restore antique cars. On exhibit was Mr. Eldredge's prize-winning 1909 Model T Ford touring car, the oldest car present at the picnic. The newest antique automobile was a 1941 Chevrolet.

To add to the setting, the water wheel was in operation spilling a fine spray on anyone passing by the wheel.

John Wagner, president of the Irish Hills Chapter, said there were about 30 members in the seven-year-old club. The club meets every month and has its annual dinner in December.

Several tours are taken throughout the year and the members participate in various parades. There are about 75 cars in the club with some members owning as many as four cars.

Flag Dedication

Since this week has been designated by the President as a time of renewing our allegiance to our country through the use of the symbol of the American flag, four new flags will be dedicated Sunday at St. Peter's Episcopal Church," the Rev. Frank Hawthorne announced Tuesday.

Two outdoor American flags, given by Mrs. H. H. Hammel and her family in memory of her son, Lt. Jack Hammel, will be dedicated at the 8 a.m. celebration of the Holy Communion. Lt. Hammel was killed in World War II.

Two other flags, an American flag and an Episcopal Church flag, will be dedicated as a part of a "Peace Shrine" in the church. These flags, given by the Episcopal Churchwomen of St. Peter's, stand at the side of the votive candle stand and the pulpit Cross where the book of prayers and intercessions is kept.

According to the Rev. Frank Hawthorne, visitors are invited to the church to offer prayers for peace in the world and for the men of the community in the armed services.

QUESTION:
"Have many funeral home employees been organized by Trade Unions?"

ANSWER:
The funeral home employees in a few major cities have been unionized. The funeral directors in St. Louis were forced to increase average funeral charges more than $400 after their employees were organized by the Teamsters' Union.

Congressman Esch Seeks Reelection

Congressman Marvin L. Esch (R-Michigan) announced today that he will seek eleeflon to a second term in the Congress from the 2nd District. Esch, 40, was first elected in November of 1966 and serves on the Education and Labor Committee in the position formerly held by U. S. Senator Robert P. Griffin (R-Michigan).

Prior to his election to Congres, Esch served one term in the Michigan House of Representatives where he was named by capital newsmen as the outstanding Republican freshman. Before entering public service, Esch was a professor at Wayne State University and the University of Michigan for 14 years and was employed as a consultant to labor and management groups. He holds three degrees from the University of Michigan, an A.B. in political science, and a Masters and Ph. D. in speech and education.

Esch is married and his wife, Olga, participates extensively in District activities. The Esches have three children — Emily 14, Leo 12, and Tommy 10.

In making his announcement, Esch viewed the 90th Congress with mixed reactions.

"I have been honored to serve the people of Michigan and hope I have lived up to the trust placed in me. We have worked to join those who stress the problem-solving outlook on national legislation and close attention to individual and community problems at home. Serving the people of our District is a challenge and I hope I may continue."

In July of last year, following private meetings with administration officials, Congressman Esch and eight other House Members made public their proposal for what they termed "Parallel Steps to Peace in Vietnam". The plan has been given widespread recognition and is credited by the national press as having formed the basis of the administration's March 31 peace proposal leading to the Paris talks.

On the Education and Labor Committee, Esch serves on subcommittees dealing with higher education, manpower and vocational training, and working conditions. Last year he was accorded the unusual honor for a freshman of serving on the Elementary and Secondary School Act conference committee. This year he successfully sponsored an extension and improvement of the Higher Education Assistance Act.

Other legislative proposals introduced by Esch include a home ownership plan for low income families, a manpower training program involving a tax incentive to private industry for the unemployed, improved management procedures for the federal government, a code of ethics for Congress, mandatory safety construction on all federal highways, an eight bill package to combat organized crime, and a fair marketing practices act for farmers.

A frequent critic of the inequity in the draft, Esch has introduced legislation to require uniformity and equity in the Selective Service System and endorsed a book entitled "How to End the Draft". Another book entitled "The Republican Papers" compiled by House GOP Conference Chairman Melvin Laird of Wisconsin carries a chapter by Congressman Esch calling for sweeping reforms in the organization of Congress. It will be published later this month.

Esch is also a member of the Western Alliances Task Force through which he has authored a series of proposals to revitalize our relationships with the free world.

Since taking office, Esch has made over 40 trips back to the Second Congressional District while maintaining one of the highest attendance records (91%) in Washington. His trips have taken him to all corners of the District where he has held office hours to learn the views of his constituents and help them with governmental problems.

The Second Congressional District includes Lenawee, Livingston, Monroe and Washtenaw Counties and the city of Plymouth, and Northville and Plymouth Townships in Wayne County.

Marvin L. Esch, Congressman from Michigan's 2nd Congressional District, resumes the campaigner's stance. First elected in November of 1966, Esch has served on the Education and Labor Committee and helped to form the proposal termed "Parallel Steps to Peace in Vietnam."

DIPLOMA FROM WHEELCHAIR — James McDowell, Superintendent of Tecumseh Schools, presented Alan Schoonover his diploma Sunday a t the University of Michigan Hospital. Alan has been hospitalized since February with muscular dystrophy.

Alan Receives Diploma

Although Alan Schoonover, 18, had planned to graduate with his classmates on Sunday, he was still confined to the hospital where he has been a patient since February. A special graduation was held for him on the University of Michigan Hospital lawn on Saturday afternoon.

While doctors, nurses, relatives and teachers watched, James McDowell, Superintendent of Tecumseh Schools presented Alan with his high school diploma.

Among the spectators were patients in wheel chairs and many of the hospital school students — some on stretchers, others reclining on the lawn. Since Alan could be out of the respirator for only a very short time, a doctor stood by his side with the respirator in case it was needed.

Before entering the hospital, Alan was a student at Tecumseh Senior High. Although confined to a wheelchair because of muscular dystrophy, he was able to attain the rank of 9th in a class of 205 seniors. He completed his high school requirements under the direction of Mrs. John Pobuda, orthopedic teacher at Tecumseh High School.

Among the Tecumseh High School personnel attending the ceremony were: Mr. McDowell, who presented Alan with his diploma, Gary Lovett, who presented him with a copy of the 1968 Annual which had been autographed by the Tecumseh seniors and the teaching staff, Mrs. Pobuda, who gave him his key for being among the top scholars, Mrs. Mervyn Boltz, Carol Cunningham and Mrs. James Rittenhouse, teachers at T.H.S.

After the ceremony, a reception was held in the Sun Room on the ninth floor of the hospital where a decorated cake and punch were served.

Alan, the son of Mrs. W. D. Raper, 564 S. Winter St., Adrian, has two younger brothers who also have Muscular Dystrophy and are also confined to wheel chairs. Douglas, 17, will be a senior and Dennis, 14, will be a sophomore next year at Tecumseh.

Alan has been in the hospital over 14 weeks and the Lenawee County Chapter of the Muscular Dystrophy Association is assisting the family in meeting Alan's hospital bill of about one thousand dollars a week.

America Mourns Again

By CHRISTINE FAIRBANKS

Britton Correspondent

America —
Must you weep once more?
The assassin's bullet finds its mark
And so, you cry again.

America —
Land of the free and the brave!
How many men must die?
How many times can the nation despair,
And bear the unbearable pain?

Your people sit at home
In quiet, darkened living rooms,
And watch the awful spectacle of history
March across the screen.

Their hearts can bear no more of sorrow,
And yet, more sorrow comes.

America —
Grieve for your fallen sons!
For though a nation weeps in anguish,
Brave men sleep now in Arlington.

There is a blight upon the land,
On the home of the free and the brave;
Its ugly poisoning erupts in Dallas, Atlanta, Los Angeles.
It strikes in Watts, Detroit, Newark and Harlem.
It threatens the heartbeat of the nation.

America — awake!
What of your destiny?
Are you thus to fade away and die,
Torn asunder from within?
Must men of hope and vision die,
While slayers walk the streets?

Oh God! Have we deserved this fate?

City Continues Search in Tecumseh Township

Council and city officials met after adjournment Monday evening with Ann Arbor engineering representatives about Tecumseh's search for water.

Since portions of the meeting were not for publication, according to Cal Zorn, city manager, only a few details of the session have been learned.

Purpose of the meeting was to continue the city's search for water. Last week, Tecumseh withdrew in its condemnation suit for 7.2 acres from George Underwood, local resident and Clinton auto dealer.

It is now learned that officials will investigate other sites, possibly three, and all located in Tecumseh Township. They will attempt to take out options on the property.

One possible site is just south of Staib Rd., and is owned by William Powell, local real estate businessman. His 11 acres were tested last year by the Ann Arbor engineers and considerable water was found there.

Shortly afterwards and before Council, John Seeley, engineer from Ann Arbor, told officials that water there was harder than desired. It was this meeting that Mr. Seeley recommended to Council that it acquire about 25 acres from Mr. Underwood.

This acreage was reduced last spring when further well drilling showed a lesser amount of water than the engineers originally predicted.

It is not known what steps will be taken and when. At Monday's late meeting, only a brief discussion was held about taking water from River Raisin. Such a method would require a treatment plant, estimated to cost about $1.5 million.

Such a plant would be capable of producing six million gallons of water a day. There's also a possibility that Federal funds would be available to help meet the expenses.

City expenditures to locate and acquire water have now risen to nearly $40,000 with little to show for the spending.

This cost is bound to increase when the city receives the final bills for appraisals, legal work and a share of Mr. Underwood's expenses.

In the meantime, officials approved unplugging the well on Burt St., near the Country Club, and re-checking the well in River Acres.

The Burt St. well has not been used for some time, although it is capable of producing a large volume of water. Officials have reported the water excessively hard.

The River Acres well has not been used since tests showed the water was contaminated.

Mr. Zorn says additional tests will be made, and if the water is still contaminated, an investigation will be made as to why and how, and if it can be corrected.

ERNEST H. OLIVER

Ernest Oliver in Primary for State Rep.

Ernest H. Oliver, Tecumseh Justice of Peace and businessman, has filed petitions for State Representative, 40th District, on the Democratic ticket in the Aug. 6 primary.

He is opposed by Gordon Bauschke of Adrian."

Mr. Oliver has been a justice here for approximately nine years. The JP office is being abolished by the state at the end of 1968.

He also is a real estate broker, insurance agent and is the Tecumseh agent for investments, stocks and bonds for a Jackson firm.

Although born in Denver, Colo., he has lived the past 41 years here and graduated from Tecumseh High School in 1941. He is the present secretary-treasurer of the fire department and a former president.

During World War II, Mr. Oliver was attached to the Seabees and spent 37 months in the South Pacific.

He and Mrs. Oliver and two sons reside at 201 Maple St. A third son, Tracy, is in the Navy.

Agreement Not Reached

Although Tecumseh will continue to provide fire protection to GM's Fisher Body Plant on Occidental Rd., an agreement between the two has yet to be reached.

Jerry Becker, plant executive, told Councilmen Monday night that GM had researched the city's proposal of $4,000 a year and had felt that it was high.

Tecumseh reached the $4,000 figure on a millage basis and comparable to what property owners in town pay.

Fisher Body's proposal is for $1,000 a year plus $500 per call. Both Mr. Becker and Dan Fitzpatrick, plant protection superintendent, explained to city officials that the company would also compensate the city for any excessive man-hours.

Company officials told Councilmen that it is unlikely that the local fire department would ever be called, as the plant has considerable equipment.

The building and equipment are considered fire-proof.

Council asked Mr. Becker if his company would forward their research report to city officials for their review.

Tecumseh was asked for fire protection by Stauffer Chemical, and when the city proposed $1,000 per year for protecting offices there, Stauffer rejected the proposal.

Local schools ran into fire protection difficulties, when schoolmen sought protection for a new elementary school on Sutton Rd. According to school officials, they were told the city was not particularly interested but if fire protection were granted, it would be at least $1,000 per year.

Fisher Body, Stauffer and the new school are in Raisin Township, which notified the city last year that it would not pay for any fire runs into its township.

Dawn Patrol Is Scheduled for June 30

Fanciers of flight will converge on Tecumseh Airport June 30 when the Exchange Club holds its annual Dawn Patrol. The event will start at 7 a.m. with what club members call a "husky breakfast."

The all day festivities will include a nostalgic trek by Meyers Aircraft's OTWs, making their second fly-in down memory's air lane.

This is the fifteenth year for the Dawn Patrol. Members are expecting 100 planes to make the trip to Tecumseh to congregate with other flyers and discuss planes and flight in general.

The men of the Exchange club have also added stage coach and wagon rides for the youngsters. Airplane rides are another feature of the club's to offer an interesting contrast in transportation modes.

Betty Flanders will be on hand to play the organ for musical interludes. Prize drawings have also been set for every fifteen minutes.

The Exchange Club hopes for good weather which will increase the number of participants in its event. Planes come to the area primarily from Ohio, Michigan and Indiana. Some have come before from Wisconsin and Pennsylvania.

Last year the men served over 875 people at the breakfast. Servings of eggs and ham, scrambled with a mixture of cream and butter, coffee and rolls are the early morning menu.

Taxi Service To Start Friday

Tecumseh, without taxi service for sometime, will have a taxicab servicing the community starting this Friday.

Harley Robison of Adrian has formed the Tecumseh Cab Company and expects to begin service Friday morning.

Parties calling the cab, will have to call the operator and ask for the mobile phone operator. Mr. Robison's number will be YJ2-3336.

Use of Surplus Is Considered

Tecumseh School Board learned Monday night that a balance of $12,000 remained in bond fund which was eliminated in April when the schools completed payments on the $1,900,000 construction program, approved in the mid-1950's.

Officials discussed using the monies for enlarging the library at Patterson Elementary School or installing a new gas furnace there.

Seager Library Given to Public

Some 1,400 to 1,500 books from the Allan Seager's personal library have been donated to the Tecumseh Public Library by his family, the widow, Mrs. Joan Rambo Seager, and his daughters, Mary and Laura.

The author's niche in the library has already been assured by a memorial fund, and a special foundation shelf for the books and articles he had written.

The memorial fund, started here by his friends, will assure a perpetual location in the library, a plaque commemorating the Tecumseh writer, and replacement of his books when necessary in the future.

Donations of any size are being accepted at the library for the memorial fund. Checks should be made out to the Allan Seager Memorial Fund, care of the Tecumseh Public Library.

Mr. Seager, who died May 9, had a personal collection of over 2,000 books. Some are being kept by the family and others were given to the library in Onsted.

Tecumseh Junior Chamber of Commerce hopes to move the books this Saturday morning, according to David Schoonover, Jaycee president.

Allows Testimony

Water, water everywhere, but not a drop, for the residents of Tecumseh, to drink, anywhere. This appeared to be the situation last Wednesday when the city abruptly withdrew from condemnation proceedings against George Underwood for 7.2 acres of land north of the city.

The withdrawal was caused by a situation which arose when two Adrian realtors took to the stand in behalf of Underwood.

The men were called to voice appraisals of the parcel of land which the city sought for a prospective well field. Both placed estimates on the property and damages to other property at over a half million dollars. The actual dollar value of the land was placed at $600 plus per acre.

Robert Goedert, a real estate broker, and Lincoln Vercoe of Grand Rapids, a professional appraiser had also placed an actual value of land at the $600 or slightly more per acre.

Attorney James Beardsley, who represented the city, called to testify before the jury, Willis Moore, county treasurer and Dr. Thomas Hamilton, county health director.

Moore's statements to the jury were based on the assessed valuation of the land. The parcel the city sued for was contained in a tract of 78 acres. The testimony heard was that the assessments are $6,700, with a factor the figure was raised to $7,086.

Hamilton's appearance was to inform the jury of the standpoint of the health department's appraisal of the land for residential or industrial use. He stated that three of the 7.2 acres was in a flood plain and thus unedsirable for building, residential or industrial.

At the conclusion of the city's case, Robert Baker made a short opening statement to the jury. His first witness was Raynor B. Snyder, Adrian realtor.

Answering questions from Baker, he stated that he had taken the value of the water into consideration. The property in his estimation was zoned commercially, industrially and residentially. He placed a value on all the land in a 655 acre tract stretching to Clinton from the disputed site.

OUR TOP HISTORIAN — Clara Waldron easily wins honors as being Tecumseh's historian — and now she's putting all of her facts into a book. Titled, "One Hundred Years A Country Town," it will be released here later this summer. Miss Waldron has dedicated her book to the late Edith Ingersoll, former librarian who had urged her to write Tecumseh's history before her death in 1966. A limited number of books will be printed.

Clara Waldron Writes History of Tecumseh

By CAROL HOWELL

Clara Waldron's "One Hundred Years a Country Town" will soon be going to press.

Publication of the book this summer is the culmination of more than a quarter-century's intensive work by the local historian.

Miss Waldron, herself a descendant of Tecumseh's earliest settlers, began her research in 1942, when she was preparing an account of the settlement's early history for a "Homecomers' Day" pageant.

Assisting her in this undertaking was the late Edith Ingersoll, then librarian of the Tecumseh Public Library.

"Clara, you ought to write a book about all of this," Miss Ingersoll suggested to her longtime friend. And thus the project was born. It is dedicated to the memory of Miss Ingersoll.

The 228-page volume traces development of "Old Tecumseh" from the first migration from Brownville, Jefferson County, N. Y., through observance of Tecumseh's centennial celebration in 1924.

Miss Waldron sheds light on many little-known historical items, tempering factual narration with a sympathetic wit.

The book is divided into 12 chapters, each devoted to significant periods of community history.

Additional dimension to the chronicle is provided by many pictures of Tecumseh — then and now. The material was gathered from private collections, back files of The Herald, family records, and is supplemented by the book publisher's photographs of the town as it is seen today.

"One Hundred Years a Country Town" is being printed in limited supply by Swenk-Tuttle Press of Adrian.

Information on how to order advance copies will be released soon.

Publisher of the book is Tom Riordan, former co-publisher of The Herald, and now a columnist for the Jackson Citizen-Patriot.

Tax Appeals Are Rejected

State Tax Commission has turned down appeals from Franklin and Raisin townships concerning the equalization of taxes. Supervisors Ray Jackson and Jim Mitchell filed the appeals on May 10.

Both men charged discrimination against their townships by the equalization committee of the board of supervisors in assigning multiple factors to their townships. The factors, they felt, were out of line with other property values in the county.

The commission in their report stated that no evidence of discrimination had been supplied by the supervisors. In Jackson's case it was felt, according to the commission, that the disagreement lies more with the methods used by the supervisors in tax equalization rather than discrimination.

Only One Files In County Races By Democrats

A rarity in county politics occurred Tuesday when Democrats filed for only one post in county government. Noel Osborne of Adrian filed for drain commissioner. This is the first year in the memory of many at the court house, that Democrats have failed to file petitions for a majority of the offices available.

Four Republican and two Democrats filed for 40th district representative. Dan Bruggeman of Adrian, L. Wayne Kiley of Sand Creek, Edgar Peavey of Adrian and incumbent Robert Stites of Manitou Beach are the Republicans who filed. Ernest Oliver of Tecumseh and Gordon Bauschka of Adrian have filed for the Democratic nomination.

The race is reminiscent of 1966 when Stites defeated then Rep. Rollo G. Conlin, formerly of Tipton, for the house seat in the August primary. There were five Republicans seeking the post at that time.

Council Delays Annex Request

A request to annex a 100x200-foot lot, owned by Harvey Wilson on W. Chicago Blvd., to the city was delayed by Council Monday night until after action is taken by the Tecumseh Township Board.

The lot is adjacent to the Sudsy-Duzit Car Wash.

Officials also agreed to request that the lot lines be straightened out.

School Board Meeting July 1

Organizational and regular monthly meeting of the School Board was set for July 1 by the Board Monday night.

The Board's regularly scheduled sessions are the third Mondays of each month.

BEHIND PAGE ONE

For anyone who wishes to walk down memory's lane for four days June 27 thru 30, the annual reunion of the **National Threshers Assn.** at the Fulton Co. Fairgrounds in Wauseon, Ohio, is just the place. Even if you are young, this bit of vanishing Americana is worth the time and trouble. Something in the world is different now than it was in the days of the huffing and puffing of steam. Memories are wonderful things and the sights of the past are wonderful things, too, once gone and never to return.

With all of the **June Brides**, it seems only fair, according to a bachelor at The Herald office, that the bridegroom be informed of a couple adages: a Polish proverb, the wife cries before the wedding, the man afterwards. Scraps from the wastepaper basket of **William Shakespeare:** marriage is like a great novel, the only trouble is the hero dies in the first chapter.

Trial

(Continued from page one)

The land is owned by Underwood, the appraisal was $1,233,000. He was asked what effect the sale of the 7.2 acres would have on the total value, were it to be sold. He stated that the value of the property would be reduced to $645,000.

He went on in his testimony that the market value of the land was about $5,500, however, the loss of the water and sale of the 7.2 acres from the larger tract amounted to a $588,000 loss in damages.

In his cross-examination of the witness, Beardsley asked what the primary usage of the land was at present, Snyder replied, farming. Beardsley then asked what the present rate for cash rent on the land is, the witness stated $10 to $20.

Beardsley asked what price Underwood paid for the property. Snyder balked at answering the question. After prompting by Beardsley, he stated that the purchase price for the tract of land was $250,000.

Beardsley then asked Snyder about the sale of land which lies adjacent to Underwood's property in Clinton and was owned by John Waltz. The Waltz sale involved Snyder when the purchase was made for Budd Wheel and an industrial park. The sale, made in 1965, was for $300 per acre.

Beardsley then asked Snyder if there was a buyer for the water, the realtor did not know of any such buyer. The attorney then asked if Underwood was in the water business. He replied "no he wasn't."

These questions later entered into the objection by Beardsley to have the testimony struck from the record.

Beardsley contended that the testimony was irrelevant to the case. He cited other instances where resources have no proven value unless they are marketed. In the case of the water in the land, there was no market. He also argued that no one owns water, that it is not a developed resource and therefore there was no precedent for the ownership of water.

Also called in to testify on behalf of Underwood was Paul Linehan, another realtor in Adrian. Linehan's testimony closely paralelled that of Snyder, both using the same scale to figure the amounts which they felt the land was worth, water value considered.

Also used by both men was a sliding scale in which the value of a dollar is figured over a period of years. Both used 10 year periods in figuring their appraisals. Earlier the city had stated that the wells on the proposed site would be good for a minimum of 10 years, pumping from 3 to 4 million gallons per day.

After the testimony of the two men, Beardsley voiced his objection. After lengthy deliberations, Judge Rex Martin, who presided, decided against the city's move and allowed the testimony to stand.

Beardsley's opposition arose from the fact there was no marketable resource on the land, no exact owner of the water. Beardsley based his objection on previous cases where he inserted that the market for a resource had to be established and that in its present form the actual water value was too speculative to form the basis of an appraisal.

On his move to withdraw he commented that it would be possible to appeal any verdict of the jury which might have been in the range of the half million dollars. However, he felt the risk of facing litigation for two or three years, which was possible, too great under the circumstances. The city would not be able to seek water elsewhere while the case was being disputed.

VOICE of the HERALD

Folks Should Know

After the city lost its condemnation suit last week to acquire property, its search for water must go on.

How or where, or even when, is not certain although Council met with representatives of an Ann Arbor engineering firm Monday evening after adjournment.

We can't imagine what was said or portrayed at the late session which could not have been stated at the regular meeting. We were simply told that portions of the meeting were not for publication.

Perhaps the setback in court has made our city officials a bit leery, but it's difficult to believe that a discussion and report on our water situation should not be reported to Tecumseh citizens, who already have seen some $40,000 go down the drain.

The exact expense total in our search for water and attempt to acquire some seven acres is almost certain to top 1.5 mills, and perhaps considerably more.

It will be interesting to watch what our officials do now and in the manner which they do it. If they go beyond or outside the city, they will probably pay dearly.

Not only will the price of property be expensive, but agreement or agreements will have to be obtained from property owners and the townships. In case we've forgotten, our city government has somewhat strained relations with both Tecumseh and Raisin Townships, both of which surround us.

Whether we like it or not, or whether we can afford it, someday Tecumseh will have to rely on the millions and millions of gallons of water which pass through our community daily.

It Should be Great!

Late this summer residents of Tecumseh will have the opportunity of acquiring a history of the community.

Thanks to Clara Waldron, the town's unofficial historian, a 228-page book of text and pictures has been compiled. It should save her hundreds and hundreds of inquiries about the city.

For years, this office and otners have received questions about Tecumseh. Who were the early settlers? Where did they come from? Were there any industries? What made the town grow? What's the background on Brownville?

Questions were endless, and we didn't have the answers — but we knew where interested parties could find the answers.

Miss Waldron has undoubtedly spent more time on this book than she cares to remember. She has put much down in black and white, giving us and future generations an authentic history of the community.

There are a few others in town who can cite historical information, but even these folks say, "if you really want to know about this, see Clara Waldron."

Since there will be a limited supply of her books, we urge folks to register early and be sure to have "One Hundred Years A Country Town."

The Herald will announce when folks can sign up for the book within the next few weeks.

Tecumseh can be thankful for a person like Clara Waldron, who has worked hard to give us something no other person could do.

Pvt. Sheldon L. Pease, who was inducted into the Army Feb. 6, 1968, and graduated from basic training at Ft. Knox, Ky., Easter weekend, which was also his 20th birthday anniversary. His parents, Mr. and Mrs. Marion Pease, 736 N. Union, greeted him Monday, with a family dinner, in observance of his birthday, as well as his mother's and sister's birthdays, and Father's Day. Pvt. Pease recently completed Advanced Individual Training at Ft. Polk, La. He will report July 11 in California for assignment to Vietnam.

Twelve floats and three bands have registered for the Tecumseh Park dedication day parade which will begin the day's festivities on Saturday, July 6, at 10 a.m.

Musical units are lined up from Tecumseh, Saline and Ida. Local organizations planning to enter floats with a recreational theme include: Herrick Hospital Auxiliary, the Junior Chamber of Commerce, the Pet Watchers, the Senior Citiens, the Hall-Slater Post VFW Auxiliary, the Tecumseh Exchange Club, the Girl Scouts, the Rotary Club, the Kiwanis Club, the Tecumseh Competitive Swim Club, Boy Scout Troop 73, and one or two floats from the area playgrounds being sponsored by the Chamber of Commerce. Several other organizations have hopes of entering.

Anyone in the area who wishes to enter and compete for the prizes may still register with Mrs. William Steele, Jr., 423-2695, or Ray Aylesworth, parade marshal, 423-4160. Cars from local dealers will carry specially invited guests and dignitaries.

Governor George Romney has expressed regret at being unable to attend because of the annual Midwestern Governors' Conference, but he wrote, "Please accept our best wishes for a most memorable dedication of your new park, and we hope it will bring much enjoyment to your fine community."

The sale of season ticket holders has exceeded last year's sale with those purchasing the $25 family pass before June 21 being eligible for the drawing to select the ribbon-cutting family who will receive special recognition at the dedication. The drawing will be made at The Herald.

The JC's will have a concession stand at the park to provide refreshments for those attending the day's events. All kinds of items will tempt the visitors.

Following the ceremonies of dedication, the new building will be open for tours. Those persons wishing to enjoy the swimming on this day will do so free of charge.

In the early afternoon the Skydivers, so familiar to Tecumsehites, will test their skills by diving into the water at the Park.

The committee responsible for the activities encourages all in the community to participate in the festivities which will be held rain or shine.

City Dump Still Problem

When it comes to garbage New York City and Tecumseh have something in common. New York couldn't get anyone to pick it up, Tecumseh has someone to pick it up but nowhere to go with it after it's picked up.

The Health Department has said that the city dump must close. Since that directive the city has been seeking solutions to the problem of refuse. Some light was thrown on the problem Tuesday at a meeting of the county planning commission.

Dr. Thomas Hamilton, county health director, submitted to the county planning commission Tuesday night a resolution to be drawn up and presented to the Board of Supervisors recommending that land fills be operated by private enterprise.

Dale Stucker of Lenawee Disposal has shown interest in operating in the northern part of the county. He was, however, reluctant to make any concrete plans where he might be in competition with the county.

The resolution calls for a removal of the road commission from the responsibility.

Feelers have been received from two other interested parties in the northern part of the county for the operation of land fills.

City Manager Cal Zorn was concerned over the fact that someone might be able to set up a monopoly and thus push the problem backward instead of forward. However, due to the interest shown by several persons, he feels the competition will be more healthy for the program.

The dump, if Lenawee Disposal or other private operators were to obtain the rights, would not, more than likely, be located in the city limits. Stucker is at present reviewing sites north of the city.

YOU TOLD US

By DOROTHY GRIGG
Herald Women's Editor

The ultimate of these short nights will be reached Friday, June 21, the first day of summer. Is it possible that one's metabolism will adjust itself to getting up an hour earlier after that? We have been patiently waiting to get up feeling more like a human than a bear.

Professor Hazel Losh of the University of Michigan astronomy department explains that Michigan's summer will begin officially at 4:18 Friday morning, the time of the summer solstice. At this time the sun will reach its most northerly point and its most direct position over the northern hemisphere. We will have 15 hours of daylight.

Dr. Losh adds that "since we have a longer day, we have a shorter night" and therein lies the problem of the short night. zzzzzzz--zzz.

Now when is that vote on the time — sometime in October?

NEW PLAQUES — Macon Golf Course has several new plaques similar to the one displayed by Dean Downing, second flight winner in the match play tournament last year.

Golf Tournament At Macon Course

Second Annual Macon Golf match play tournament will get underway July 6, and will continue through August 4. The entry fee of $3 will go into the tournament prize list.

Rules that will govern the play include a sudden death in the event of tie matches. USGA rules govern out of bounds and other rules. Certain special rules governing the Macon course will be used also.

The tournament committee is composed of Dale Garrison, Windy Reum, Lamont Hunt and Clyde Gunder.

Last year's winners of the tournament were, first flight — Bill Birkey; second, Dean Downing. Third flight — Denny Gollar.

Harold Gibson, owner of the course, has a hole in one plaque on which he has inscribed the names of the golfers who have thus far carded aces on the course.

Players who have achieved the feat are Pat Hallor, in 1961; Bill Cross, 1962; Chuck Brablec, 1966; Bill Green, 1966; Chuck Barrett, 1967 and Dennis Paruch in 1968.

The course has been open since 1961 on Tecumseh-Macon Rd.

The Tipton Jets have planned two skits. One is a dramatic novelty entitled "But I Can Play Canasta", by Susan Platt, Jill Feight, Jan Feight and Dawn Daniels. Their skit, "It's a Fashion Show" is to be narrated by Martha Osburn and Dawn Daniels. Those participating in it are: Mike Feight, David Whelan, Jim Oblman, Gordon Whelan, David Allen, Doug Feight, Randy Baron, Greg Smith, Bruce Smith, Bill Sovcher, Jim Linger and John Gebarowski.

The Tecumseh Top Notchers are sponsoring a baton routine by Margene Frownfelder, and a Charleston dance by Laura Perkey and Susan Mull.

The Britton-Macon 4-H Club has four acts. Lauri Bishop and Nancy Rundell will give piano solos and Tom Schroeder a vocal solo. The Elwood Bush family has planned a family group act.

Fishermen Return

Ralph Westgate, Robert Lowe and L. B. Milheim have returned from a fishing trip to Elk Lake, Ontario, Can. They accompanied Jim Clements and Dick Rodesiler who piloted his twin Apache plane for the trip. The Blissfield Advance reports that the group brought back 40 pounds of frozen fish besides feasting on plenty in camp.

LIFE HEALTH

Five Phases of Recovery

Recovery and Repair of Nerves

Locating the cause of bodily disorders through scientific examinations and elimination of the cause by gentle chiropractic adjustment are the first two phases on the road to recovery.

"Use a function or lose a function," is one of the laws of nature. Prolonged pressure or impingement on the spinal cord or a spinal nerve will tend to shrink and retard nerve development, further decreasing the functional ability of the nerve and its nerve energy - carrying capacity. At the pressure point, nerves sometimes become hardened or calloused, much as a hand may become calloused by hard work.

Such hardening, or callousing, of the nerve may "dull" the signs of recovery at first; but the nerve must have time to respond to the restoration of the flow of energy. This restored energy will slowly heal the hardened nerves and restore them to their full energy-carrying capacity.

"It takes time," and patience may wear thin when results are not noted immediately; but nature's healing power is great, and results come in an incredibly short time. Another Health and Life Article from the Office of:

LAUGHING AT THE KIDS

It was at least six weeks ago that we noticed the squirrel picking a bouquet of walnut leaves and lugging it across the creek. In just a few days our question was answered and yes, there were baby squirrels over there. Two little heads were bobbing in and out of the hole in the tree. It was a big wide world out there and they were curious.

But were they really babies?

When they started exploring, and their first trips were short forays up the trunk of the tree, Gertie T. and I were amazed at how big they looked.

Though one was slightly larger than the other, they were both fat and sleek and such tails. Long, full, bushy — they were absolutely luxurious. Poor mother squirrel wasn't in such good shape, her coat had lost its shine and, on her frequent trips to the feeder, we often remarked that she looked haggard and completely worn out.

Each day the squirrels grew, gained confidence, improved their coordination and became more adventuresome. At first we saw them just in the afternoon — they were awkward and cautious on their little trips out of the nursery. And how they played, it was as if we were watching a couple of puppies the way they tumbled and pawed each other.

Usually, during these adventures into the outside world, mother squirrel was on our side of the creek. Her attention was on the youngsters, though, as she nibbled corn or sunflower seeds, she was keeping close track of what the kids were doing.

★

THEN CAME the great day when we saw the kids over here. They are dark squirrels, the guard hairs on their backs and faces are almost black and their fronts are a rich reddish tan. The smaller kid was not quite sure about "that funny green stuff."

Gingerly is perhaps the best way to describe how he walked, each step was made carefully. His feet were pulled high and his back legs spraddled far apart. At first we thought he did not like the tall grass, the yard was several days past cutting height, but maybe grass tickles because this character still pussy-foots unless something important is on his mind. Something important like running towards the fence for corn or tackling his brother.

To watch the young squirrels at play is such a joy. Usually one teases or nags the other into a free-for-all. They cuff each other around, they roll over and over, they jump, they chase. Being old enough to be out of the nest and yet still young enough to play with your brothers or sisters must be a good time in a squirrel's life.

★

THE YOUNG rabbits are growing up, they are not seen together so often now. The other day, however, after tiring of teasing Missie, they hopped into my window picture for a quick lunch.

One was munching weeds along the top of the creek bank while the other seemed happy to slurp up dandelion blossoms near the wren house pole. Both were apparently concentrating on eating and paying no attention to what the other was doing.

Suddenly the one on the creek bank stood up, looked around, and after taking a few quick swipes at his face with his little front paws, made a bee-line dash towards the other rabbit. He caught him completely unawares — the rabbit that was eating was off guard and went tumbling head over heels. You can imagine the wild and woolly chase that followed.

So it is that with young rabbits and squirrels around we are very busy these days laughing at the kids.

Children's Home Honor Herricks

A painting by Sister Arcadia of St. Joseph Home for Children marked the appreciation of Mr. and Mrs. Ray W. Herrick in their asistance at St. Joseph's. The home is located in Jackson on Porter St.

A new boys' dormitory and a new girls' dorm were named for Mr. and Mrs. Herrick.

The painting by Sister Arcadia is for the Herrick home. Other paintings were also created by the Felician Sisters who maintain St. Joseph's. These paintings will hang in the administration building at the Home.

The occasion for the presentation was a dinner to pre-dedicate new buildings in Jackson. A 41-voice choir sang at the dinner for the assemblage.

After the presentations the boys walked single file to the speaker's table. They each received a handshake from Mr. Herrick and a few words.

CLINTON — John E. Monaghan, marshal of the Village of Clinton, retired Saturday.

Marshal Monaghan was appointed marshal of the village in November, 1957. He previously had worked as acting marshal, having been appointed by George D. Bowman, village president, Oct. 14, 1955.

Mr. and Mrs. Monaghan have lived in Clinton for 29 years, at 212 Edgar St., where they will continue to live.

"Now we'll have to start thinking about taking a trip," Mrs. Monaghan told her husband — and his reply was the usual one, "I have to paint the house first!"

Garden Club Is Tickled Pink

Tecumseh's Little Garden Club is "in the pink" these days, result of the latest in a series of honors awarded the group.

Mrs. Owen Merrill, president, was at Traverse City recently to accept the Pink Placement Ribbon, awarded by the Federated Garden Clubs of Michigan at its state convention. The ribbon, which has only been given for two years, was in recognition of "beauty achieved through flowers in the home" in the highest scoring standard placement show.

A standard show is one which meets certain specific requirements of quality in both horticulture and flower arrangements, and a placement show is one which is held in homes, with the arrangements designed to enhance the home.

The Little Garden Club's public show last December 1, "Bells of Yuletide" was judged the best in the state in this difficult category. Hundreds of guests from the local area and from other parts of southeastern Michigan enjoyed the show.

L. WAYNE KILEY

Kiley Seeks House Seat

L. Wayne Kiley, Lenawee County's "around-the-world hitch hiking goodwill ambassador," has filed petitions for State Representative, 40th District.

Kiley joins Dan Bruggeman in opposing Robert Stites, incumbant, for the post at Lansing, in the Republican Primary, Aug. 6.

The Sand Creek High School graduate was discharged last November from the Navy Seabees and a tour in Vietnam. The veteran is a senior majoring in political science, at Michigan State University, and has attended the University of Hawaii and Ferris State.

The college-educated candidate is a life-long resident and farmer of Lenawee County and received considerable publicity about five years ago when he hitch hiked around the world.

He has established his headquarters at the Lenawee County Airport and has the backing of several well-known residents of the county.

In response to a question about today's social upheaval, Kiley says, "We must rely upon the legislative and electoral processes in bringing about changes rather than resorting to violent demonstrations."

The delegates attended many sessions dealing with the race relations, drug use and abuse, and definite goal in life.

Highlighting the week was a candlelighting ceremony Friday evening, given by the State Service Club. Saturday morning a Citizenship Ceremony was presented.

Tuesday, Susan Ries was initiated into the State 4-H Service Club.

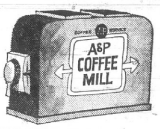
A&P It isn't easy to buy bean coffee!

Nowadays, very few stores offer you bean coffee.

Why does A&P still offer coffees in the bean?
Basically, because "We Care."
Specifically, because we know these facts:
The coffee bean is nature's seal that holds the flavor.
Once that seal is broken by grinding, flavor fades...
NO MATTER HOW IT'S PACKAGED.
The shorter the time between grinding the beans
and brewing your coffee, the greater the flavor.



So if you want the finest cup
of "The Think Drink" you've ever tasted,
buy and brew one of A&P's three Bean Coffee blends...
Eight O'Clock, Red Circle or Bokar.

Not every store can offer you custom-ground bean coffee.
A&P can and does.
Shouldn't A&P be your store?

OFF the TOP

I had a bit part in a "happening" last week, when I was a helper for one day at the Camp Fire Girls day camp on Lake Adrian.

And if you don't think running a day camp for 60 girls at the nine to 11 age level is a real swinging "happening", you should have been there!

Keeping that number of girls busy from 9 to 4 every day was a real challenge, but the camp director, Mrs. Laurie Talayco of Adrian, is a quiet-spoken young woman who really knows how to organize.

I took a car full of chattering girls over Wednesday morning, feeling very noble and "do-good-ish" because I had volunteered to help for one day and stay overnight. But I was soon brought down to earth when I realized that almost a dozen women from all corners of the county, most of whom had families to worry about, were giving up the entire week to this effort.

The camp counselors were all gals who were specialists in various fields, such as creative arts, nature, science, home arts, music and dramatic arts. They were assisted by three swinging junior counselors; teen-age girls selected for their special abilities and their genuine liking for children.

A camp nurse on duty all the time and a couple of "floating" helpers such as myself completed the staff.

Each day, after the girls arrived by car-pool (or bicycle, if they lived nearby) the roll call was taken and the opening flag-raising ceremony held outdoors. The first morning, the girls were divided into four groups, named the Willows, the Oaks, the Boxelders, and the Spruce. These four groups then attended classes in the various categories in staggered shifts, so that by the end of the day, all the girls had attended each class.

One brave soul, who really should receive a medal of some sort, was in charge of teaching the girls to make French bread. Every morning she would corral one of the groups, line the girls up around the tables in the cabin, and they would mix up flour and yeast, etc., to their heart's content. By the end of the week, every one of the 60 girls had made a loaf of bread to carry proudly home. They really loved mixing up the sticky dough — probably their mothers never let them mess up the kitchen at home!

Many of the activities were out-of-doors, including nature hikes and studies, where the girls learned to distinguish between various trees and plants, including poison ivy. As a special project, they planted marigolds all around the cabin. They also ate their lunch outdoors each day.

In music and dramatic arts classes, the girls learned a number of camp songs; also the basic steps of ballet, jazz and folk dances, as well as several skits.

They learned Japanese paper-folding and how to make pictures using unusual materials. But they weren't pusted around every minute from one thing to the next; they had free time, too, to just "fool around." This is when they really got acquainted.

The highlight of the week was the Wednesday night "overnight," when 56 of the girls, three junior counselors, and seven women stayed overnight at the cabin. Twenty-four of the girls and 3 counselors slept in tents, a new experience for most of them; twenty were bunked in the cabin, and the rest unrolled sleeping bags on the floor of the dining room of the cabin. I was lucky — I got a bunk!

To make it more exciting, a "splash party" was held that evening at the YMCA pool, from 9:30 to 10:30 p.m. The girls were all squealy and excited about journeying out in the dark to go swimming ,and what a laughing, splashy time they had in the big new pool. Within thirty seconds, the waves in the pool were a foot high with all the jumping and splashing! And I bet the water didn't calm down until midnight.

The theory was that the girls would tire themselves out swimming and be ready to settle down quickly for a good night's rest, but from the giggling and whispering that went on for a long time after lights out, and the sleepy-eyed girls who straggled in for breakfast in the morning, we have our doubts.

The tireless camp dirctor and the "bread lady" were up early to fix blueberry pancakes for everyone; then soon, it was time for the flag ceremony, and another busy day at camp was about to begin.

The girls were all tired by the time Friday afternoon arrived, (to say nothing of the counselors!) but they seemed reluctant to end the week of camping. The parents were invited to a colorful closing ceremony, when the four groups related their activities of the week in skits and demonstrations.

Then it was time to pack up and go home. It will be a long time before the girls forget the nature hikes, the hot dog roast, the splash party, telling ghost stories in the tent, the songs, the friendships formed, and the interest shown them by the counselors. And only through the many, many hours of unselfish volunteer service of the staff was the day camp possible for so many girls.

Anybody want to go back next year?

Father's Day Program Presented by Youths

BRITTON — The senior young people of the Bethel Baptist Church presented a special program Sunday evening for fathers.

Mark Goodacre as the Master of Ceremonies, introduced Byron Gall, Francis Bishop and David McNeil on the trumpets, accompanying a boys' chorus singing, "God Of Our Fathers".

"A Tie For Father," using a flannel board and six ties marked example, respect, encouragement, love, appreciation and obedience was presented by Barbara Kempf, Sandra McNeil, Gwen, Art and John Mann, and Dick Monk.

The fathers all stood and joined the young people in singing "Faith Of Our Fathers".

Pastor Duane McNeil used Proverbs 1: 7-19 for the scripture reading.

Sandra McNeil, at the piano, accompanied Tim Gall in a reading of "A Lost Son".

The group then asked three fathers in the congregation a question. The questions asked included "What a teenager could do to help his father be a better father"? "What was your proudest moment as a father"? and "What was your fondest memory of a most thrilling experience as a Christian father"?

The fathers who accepted the challenge included Art Mann, Lauren Gall and Alva Clark.

Early Breakfast Served Jaycees

Tecumseh Junior Chamber of Commerce and Auxiliary installation and awards banquet was held Saturday evening at the American Legion Hall.

The Richard Beemer Memorial Award was presented by Jaycees to Ronald Albert for outstanding efforts which included chairmanship of the Tecumseh Jaycee Follies.

Charles Robinson, immediate past vice-president, was awarded the Key Man award and the presidential award of honor.

The Outstanding Jaycette award was presented to Mrs. Kenneth Beevers.

Guest of honor was Bob Padget, president of the Michigan Jaycees. He spoke on the need for a general awareness of social responsibility for all citizens. His concept was that 100 students can completely paralyze an institution like Columbia University, or several thousand persons could paralyze a city of 1½ million persons, like Detroit.

"When the U.S. spends several billions to store surplus food, while 30,000 persons starve to death each day in the world, something has gone wrong with our balance of social responsibility," Mr. Padget concluded.

Both presidents' gavels stayed in the same families but changed gender of their owners, as the new officers were installed.

Jaycee officers include:
President — Dave Schoonover
Vice-president — Bruce Corley
Second V-P — Terry Haughn
Secretary — Arnold Saylor
Treasurer — John Wakeford
Directors — Darrell Staup, Kenneth Beevers, Larry Gerard and John Wakeford.
Chairman of the board — John Day.

★

Auxiliary officers are:
President — Mrs. John Day
Vice-president — Mrs. Darrell Staup
Secretary — Mrs. Kenneth Beevers
Treasurer — Mrs. Sidney Adams
Corresponding secretary — Mrs. Larry Gerard
Directors — Mrs. John Wakeford and Mrs. James Bashore
Parliamentarian — Mrs. Donald Escott
Past president — Mrs. Dave Schoonover.

At a brief business meeting, the next project was discussed, which will be a Gas-A-Rama, to be held all day June 29 at Ed's Standard Service Station.

The event will raise funds to replace those lost by the cancellation of the annual carnival.

Special guests who attended the banquet included the past president of the Hillsdale Jaycees, former Tecumsehite, Earl Nesbitt and his wife, Dawn, past vice-president of Michigan Jaycee Auxiliary; John Kirkendall and Gary O'Donnell, president and vice-president, respectively, of the Ypsilanti Jaycees; and Michigan vice-president, James Merillat and his wife, of Hudson.

A congratulatory telegram was received from Jim Antell, president of the United States Jaycees, notifying the local Chapter that Michigan had finished tenth in the National Parade of States ranking.

Much acclaim accrued to Mrs. John Wakeford's committee for outstanding decorations for the hall. Since the Jaycees are "busy as bees," a 10-ft. high bee hive was contrived with many bees wired about it.

The local Jaycees are recent recipients for the second year, of the Blue Chip award, symbol of excellence. Large blue-chip shaped programs were topped with the bee-hive motif.

Banquet committee chairmen were Mrs. Schoonover and Mr. Day, out-going presidents.

Four Exhausted Roosters, who have remained active associates, Dyke Helms, Ray Shelton, Fred Johnson and Walt Wonderly hosted a breakfast after the party at the Wonderly home for the entire membership.

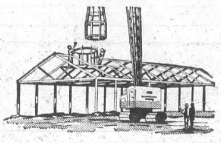
Who keeps the roof on . . . (when everyone is raising it?)



With all the theological ferment these days there is more unrest in our churches than we have known in many years. Issues divide the congregations and sometimes the whole debate seems endless. It would be easier to stay home in bed on Sunday mornings.

But through it all, the houses of God stand, because regular churchgoers know that men are inconstant, that they are subject to numerous temptations and influences. They also know that God is omnipotent, is omniscient. His care is constant. His creative spirit continually sustains the earth, and His love is always sensitive to the plight of man.

It is not easy to be a Christian; it never was. Houses of God stand because there are those who are willing to be channels of God's care—who assume responsibility for church schools, missions, social justice, and—oh yes—that roof.

THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

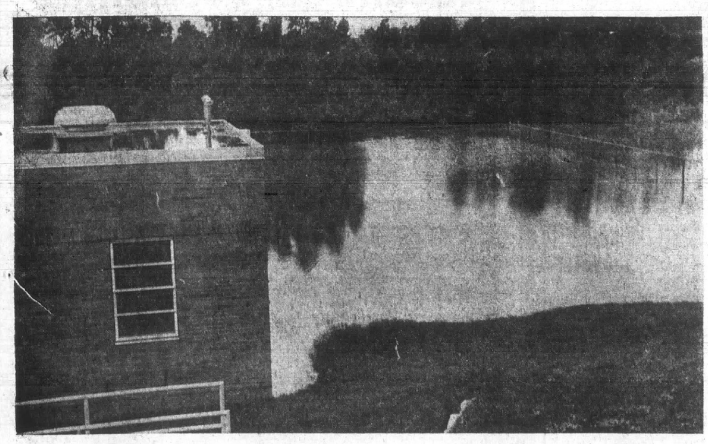
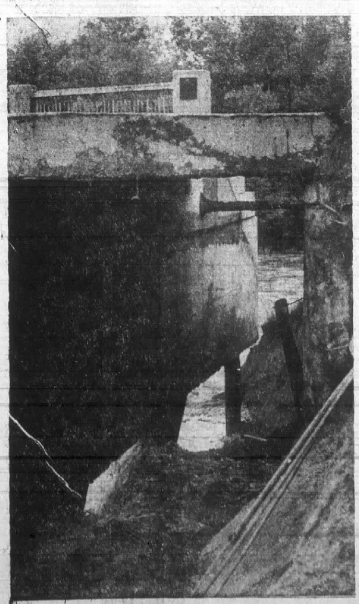
GLOBE MILL POND DAM GONE — Swollen River Raisin raged through Tecumseh Tuesday and early Wednesday and its first victim was the Globe Mill Pond dam, owned by Perry Satterthwaite. The dam vanished in the torrents sometime between 5 a.m. and 7 a.m. Shortly after this picture was taken, the strong current completely finished the remains of the dam, taking practically every portion of the dam still showing in this photo.





DISPOSAL PLANT SWAMPED — After the Globe Mill Pond dam gave way, water rose quickly around the facilities at the city's disposal plant. Workers had to sandbag around an electric inlet at this building which houses the plant's new pumps. Both river water and sewage passed through treatment operations as water hit an all-time high.

EVANS ST. BRIDGE AND DAM — Rushing water gorged out a portion here of the street's south approach to the bridge and dam. City officials attempted to fill the gap but gave up. The street will be closed at the bridge for at least a week, possibly much longer.

Swollen River Rips Out Dam, Weakens Bridge

Rain-swollen River Raisin swept away the Hayden Fuel dam on Globe Mill Pond Wednesday morning and a large portion of the south approach to the river's dam on E. Evans St.

Vehicle traffic over the Evans St. bridge was stopped about 8 a.m., and pedestrian traffic about one hour later.

Water from Red Mill Pond gorged out the earth-approach and poured through a large hole into the basin below. The Standish Mill dam, located below the Evans St., is still holding.

City employees attemptd to save the remaining portion of the approach, hauling chunks of concrete and rock from the dump. A crane, rushed from Adrian, was used to fill the gap with the concrete and rocks.

City Manager Cal Zorn says the street, Tecumseh's main route north, could be closed from one week till over a month, depending on the extent of damage to the dam itself.

"We could probably have the street open in about a week if there's no damage to the dam," explained Mr. Zorn, "but if there's damage to the dam or to its pilings, it could be a month or longer."

Workmen finally opened the gates to the dam, allowing some water to flow through. However, most of the water was racing through a huge hole underneath the pavement in the south approach.

The Globe Mill Pond dam, owned by Perry Satterthwaite, is believed to have vanished in the torrent about 6 a.m. According to an employee of Mr. Satterthwaite, police checked the dam about 5 a.m. and water then was just flowing over the dam's roadway.

Police, however, were notified of the dam's giving away about 7:30. The onrushing water nearly swamped the city's disposal plant, located just below the dam.

Allyn Ernst, plant superintendent, had workers put up sandbags around the city's new pumping building, although water already had reached it and was rising.

The rising river flowed into treatment facilities, forcing the plant to treat both sewage and river water. Some sewage was bypassed.

Drying beds and other facilities at the plant were under several feet of water, as acres and acres of lowland in the area were flooded.

According to the water gauge at the plant, Tecumseh received almost 4.25 inches of water Monday and Tuesday, with 3.74 inches falling Tuesday. Since last Friday, almost six inches of rain have fallen here.

Water flowing beneath the E. Chicago Blvd. bridge rose to within 18 inches of the bridge, but traffic was not stopped.

Portions of US-12 and many rural roads were flooded and blocked by the rain. In Saline a dam gave way there, flooding US-12 and closing the road to traffic.

Since N. Evans St. is now closed, law officers are re-routing traffic north out of Tecumseh on N. Union St. to Staib Rd., and then east to the Tecumseh-Clinton Rd.

Hundreds of spectators roamed Tecumseh, inspecting the two sites. Several older residents claim River Raisin reached its all-time high.

Extent of damages are unknown but could run into thousands of dollars if the Globe Mill Pond dam is replaced and the N. Evans St. dam is heavily damaged.

The Globe dam was used by Mr. Satterthwaite for his power plant there. He sold electricity to Consumers Power for local use. He said Wednesday that it will be several days before he decides about replacing or not replacing the dam.

The original dam was built in 1836 and rebuilt by Mr. Satterthwaite in 1925.

If the dam is not replaced, Globe Pond will become either a swamp or a narrow route for River Raisin.

Mr. Zorn estimated Globe Mill Pond to cover approximately 30 acres and was a favorite fishing spot. Red Mill Pond, which also may drain if workers are unable to close the [illegible] approach gap, covers 95 acres and adjoins the city's finest residential district.

Team Bows to Champs

"If one has to be beaten, it's best to be beaten by champions," was the remark Mrs. Wallace MacGeorge, Tecumseh Fire Chief's wife, made when queried about the state water ball contest at Alpena over the weekend.

Tecumseh Fire Department's water ball team was defeated Saturday by Cassapolis, the national champions. This is the fourth consecutive year that Cassapolis has been on top.

The champs beat Madison before the Tecumseh - Cassapolis bout.

Those from here on the team are Fire Chief Wallace MacGeorge, Lonal Bishop, Herbert Barnes, Mahlon Sebring and George Ruhl.

The men with their families enjoyed steak and champaigne after the competition.

Ambulance Runs Start Monday for Sheriff

The telephone number is 263-4684.

Effective next Monday, July 1, it will be necessary to call the above phone number — sheriff's office — for an ambulance.

Both Proctor and Dunn Funeral Homes are discontinuing ambulance service as of midnight Sunday. New state laws and government regulations now make it prohibitive for either mortuary to provide ambulance service.

Only the Niblack Home for Funerals in Britton will attempt to continue ambulance service by a private enterprise in this area.

As of July 1, the sheriff's department will have one ambulance and three station wagons —especially adapted to transport patients and the injured — for service. The station wagons will also act as cruisers, and one will operate continuously in the Tecumseh area.

Next spring, two more station wagons will be added in hopes that emergency service can be continued with service comparable to that provided by Doug Dunn and Les Proctor.

Both funeral directors here have expressed their regrets in being forced to give up the service. Since new laws and regulations were adopted, it proved impossible for either to even approach making ends meet.

Both Cal Zorn, city manager, and Murell Clark, police chief, request residents to call the sheriff's department direct, and not call city hall or the local police department.

Herald 7 Years Going to 'Hills'

For the seventh straight year, folks living in cottages on six lakes in the Irish Hills will receive copies each Thursday of The Herald.

The annual distribution of 1,000 papers in the lake area will start this Thursday morning, and will be made for the next 10 weeks, through the Labor Day weekend.

Purpose of the distribution is to enable cottagers to read the "Irish Hills News" section — two complete pages devoted to features, pictures and ads from popular resort attractions.

Many vacationers, living in other areas and from out-of-state, have reported to The Herald how much they appreciate receiving the paper.

Another purpose of the distribution is letting the vacationers know about Tecumseh and the merchandise and advantages which are offered by local businessmen.

Lakes included for coverage are Wamplers, Sand, Evans, Wolf, Killarney and Timber.

Drivers and six carriers will leave The Herald office about 7 a.m. each Thursday morning. Most vacationers have their paper before the town's folk do.

—HERALD PHOTO BY DAVID S. BUSH

OPEN HOUSE FRIDAY — Don and Mary Lou Sunderland will hold an open house Friday for their new insurance office in the Adrian Federal Savings and Loan Building. The new offices feature an extensive use of paneling and wall-to-wall carpeting.

Fire Damages Parked Car

Fire of unknown origin caused considerable damage to the interior of a 1960 Chevrolet, owned by Robert Elliott, 602 Stacy St.

The fire was discovered at 3 a.m., Saturday, while the car was parked at Bob's Standard Station on M-50 at the M-52 intersection.

Mr. Elliott, operator of the station, had left the station about 10 p.m., leaving the vehicle parked there.

Tecumseh Fire Department extinguished the blaze. Clinton State Police investigated.

Early Copy, Ads Are Scheduled for Next Week

Due to the Fourth of July falling on Thursday, The Herald will be published on Wednesday next week. It is therefore necessary that all copy and items of interest be in The Herald office by noon Saturday, if at all possible.

The papers will be in the Post Office Tuesday evening and distributed in the Irish Hills area Wednesday morning. All ads should be in the office by Monday noon.

BEHIND PAGE ONE

No one has claimed the white and black female Spaniel dog that **Mrs. Albert Caesar** found three or four weeks ago down by the river in Herrick Park. She's just O.K. and apparntly broke away because she had a collar with a ring attached around her neck. It would be so nice if the owner would claim her.

"Better late than never," 'tis said but we wonder. A package arrived June 10 at the **James Tonneberger** residence that was sent to **Jim** in Vietnam last November for Christmas by the **American Legion in** Detroit. Filled with unperishables, books, flavored drinks, tea, stationery, drugs, razor blades, etc., it has taken a little more than six months to catch up.

Sammy is back home. **Mr. and Mrs. Willis Davenport,** 1351 Taylor Rd., were elated to have the little yellow and white kitten back again after she crawled under the car and traveled to Tecumseh. A guard on the No. 4 gate at **Tecumseh Products Co.** called the Pet Watcher, **Mrs. Al Caesar,** and she in turn picked up the kitten and left it with **Sandra Poley's** other little cats until the owners were found.

"I'll never grow an herb garden," **Mrs. Cliff Cameron** remarked recently when the Health Study was "taking her pulse" and viewing the scratches she had gathered from crawling under her evergreens to get some persistent mint out. "It's the most prolific stuff I ever saw." One **Mrs. John Westgate** might ask, "More prolific than my cat factory?"

People just didn't drop papers, cigarette butts and junk around during the **Bavarian Festival** at **Frenkenmuth Mrs. Donald Beevers** said. She and her husband attended the event from Thursday until Sunday and were surprised at the small amount of litter in view of the many people attending.

"Please be seated," read the sign in **Dr. Walter Elwartowski's** office and the customer looked around mystified. Not one chair, divan or sofa was in sight. He didn't know about the Thursday closing hours and that the doctor was preparing for the new red carpet to be installed that day.

Parking violations cost 50c if paid the day received. **John Howell** placed 50c in the red envelope June 18 and went to deposit it in the receiving box at Logan and Ottawa to find it full to overflowing. Gathering up the excess, **John** drove to the police station and gave **Chief Clark** his find. Too many tickets Tuesday?

Solve a Mystery. Clayton Greenwald said Tuesday that something is chewing his golf balls out at the M-50 Tee. When they are picked up in the morning, from the range, many have been chewed and chewed by a fox, a coon or something. Guess it couldn't have been that hay chopper that chewed up Clay's billfold.

"We came out on top of the money end of it, anyway," said Mrs. Darrell Lowery Monday when asked about the alumni banquet. Attndance reached 198 for the annual event held in the high school. Several said that they had the best time they had enjoyed in years, so it appears that efforts of the class of 1958, hosting the affair, were appreciated.

50th Reunion For Class of 1918

Thirteen were present for the 50-year reunion of the class of 1918 of Tecumseh High School preceding the annual alumni banquet held June 22.

Mrs. Dewey Berry of Blissfield was the hostess, serving punch and cookies during the afternoon event. Mrs. Berry had invited the group to her home but they met at the high school rather than drive out of town.

Three former teachers of the class were present, Mildred Armstrong, Adrian; Gertrude Miller Long, Pontiac; and Bernard Goodrich of Jackson.

Others of the class present were:

Esther Raymond Moore, Berrien Springs.

Florence VanWinkle Gherity, Royal Oak.

Lillis Howard McLain, East Detroit.

Anna McKendry, Lathrup Village.

Albertine Mobbs Davis, Michigan Center.

Joseph Satterthwaite, Washington, D. C.

Wade Van Valkenburg, Kalamazoo.

Pearl Feller Brown, Adrian.

Irene Richards Riley, Onsted.

Eula Stephenson Pickford, Onsted.

Myrtle Steves Dowling, Onsted.

Mildred Lamkin Berry, Blissfield.

Marjorie Boyce, Tecumseh.

Letters from Lucile Camp Coover, Calif.; Leslie Johnson, Dayton, O.; Goldie Palman, Toledo, O.; Ruth Roberts Dewey, Mt. Pleasant and Ella McNeil, Ann Arbor, were read.

Mrs. Garland Gove, Mrs. Goodrich, James Gherity and daughter, Clarence McClure and Dewey Berry, were also guests.

Mary M. Boynton was graduated with honors from Michigan State University June 9. She will spend 10 weeks this summer as a councilor in a New York State camp sponsored by the Office of Economic Opportunity and the Community Chest. The Bradley-Brook Camp provides two weeks' camping experience for the inner city children of Syracuse. Miss Boynton has been accepted at MSU in a two-year training program in rehabilitation counseling, leading to a masters degree in social science.

Garden Club Hosts Chief Little Eagle

Anne Carson entertained 17 members of the Tecumseh Garden Club Friday when she and Mrs. Robert McCoy gave a report of the state convention they attended at Traverse City.

One of the speakers was Indian Chief Little Eagle who told of his life and the training of the children to be honest and brave.

He thanked the Garden Clubs of Michigan for contributions to scholarships to help Indian young people attend college.

Ice cream and wafers were served by the hostess, assisted by Mrs. John Thomas and Mrs. Loren Feight.

Members were reminded of the make it and take it auction to be held at the July meeting following the picnic at Miss Carson's residence.

Members toured the Carson gardens before leaving.

Marine Comes Home on Leave

Marine Pfc. Joseph P. Caterina is spending a 20-day leave at the home of his parents, Mr. and Mrs. Louis Caterina.

He has completed eight weeks of boot camp and eight weeks of intensive infantry training at Camp Pendleton, Calif.

After his leave, Pfc. Caterina will report to Staging Battalion at Camp Pendleton, July 12, for further training before assignment in Vietnam. He is a platoon guide.

Remington Clan Marks 128 Years

CLINTON — The Remington family has been getting together for 127 years and last Sunday they made it 128, with a reunion picnic at the United Methodist Church in Clinton.

Attending were 26 persons from Saline, Milan, Clinton, Bay City, E. Lansing and Toledo, O.

Mrs. Anna Knight Bailey of Adrian was chairman for the program which included the roll call of families, bringing up to date the news of each family's whereabouts.

Another reunion was set for next year at the same place.

Alabama Bound

Mr. and Mrs. Paul Gove of Charleston, S. C., arrived June 22 to spend a week with his parents, Mr. and Mrs. Gordon Gove, of Eccles Rd.

Paul has just completed six years' service in the Navy. He and his wife will return to Huntsville, Ala., where Paul will study at the University of Alabama.

The engagement of Rachel Joan Bryant to Jacob Cuevas is announced by her parents, Mr. and Mrs. Richard L. Bryant, 6716 Allen Rd. Frank Lasky Is Lone Candidate For New Office

As of noon Wednesday only one candidate has filed for the new post of district supervisor from Tecumseh City. He is Frank Lasky, a Democrat from District 6 in the northern half of the city.

In District 8, which is comprised of both Raisin and Tecumseh Townships, the only filer there is also a Democrat, Shirley A. VanSickle.

Ronald Brown has filed in District 2, Cambridge and Franklin Townships. M. M. Halley, Republican, has filed in District 1, Clinton and Macon.

Linda Greene Weds Wayne Ruhl

Linda (Cheryl) Greene and Wayne Philip Ruhl were united in marriage Saturday at noon at the Presbyterian Church by the Rev. Julian Gresham.

Ferns flanked the chancel entrance, vases of white gladioli were used on the altar and bouquets of gladioli and ferns marked the family pews along the carpeted aisle.

Parents of the couple are Mr. and Mrs. D. L. Greene, 503 Adrian St., and Mr. and Mrs. Lester Ruhl, Sr., of Britton.

Mrs. Fred Oberlin presented nuptial music at the organ.

The bride entered the sanctuary on the arm of her father. She wore a floor length A-line gown of nylon faile under a re-embroidered Alencon lace cage fashioned with square neckline with bell sleeves and accented with iridescent sequins. Her detachable train of lace was also touched with sequins.

A single rose of organza edged with crystals and pearls held her three-tiered bouffant veil of illusion in place and she carried an orchid centering an arrangement of glamellias and ivy.

Teresa Ann Warne of Milford was maid of honor in a celery green ribbed silk and cotton blend floor length gown, styled with bell sleeves, empire waist and with covered buttons from the back of the neck to a flat bow at the top of the mock train.

She wore a self bow on her hair and carried an imported basket filled with yellow glamellias, white pompons and cascades of ivy.

Sandra Alwood of Dearborn Heights was the bridesmaid and Beverly Homer, the flower girl.

Miss Alwood was dressed as the maid of honor and the flower girl wore a floor length gown of yellow crepe fashioned with empire waist highlighted with dark green grosgrain ribbon. She wore a crown of fresh daisies in her hair and carried a basket like the other attendants.

Leonard DeMoss served as best man and the 150 guests were seated by Mark Mandique and Cliff Jones.

A four-tiered wedding cake, made by Mrs. William Vollmer, was served by Mrs. Jack Murray, aunt of the bride. The luncheon reception was presided over by the Presbyterian Ladies' Club.

Mr. and Mrs. Lester Ruhl, Jr., were hosts. Gail Greene, sister of the bride, registered the guests and Curtis Greene and Steve Ruhl, brothers of the couple, assisted with the gifts.

The bride is employed at the Tecumseh Products Co. and has been a student at Eastern Michigan for two years. She will transfer to Michigan State University this fall where her husband is a senior.

Following a brief wedding trip, the couple are living in Ypsilanti.

The rehearsal dinner was given Friday evening at the Country House by the groom's parents.

VOICE of THE HERALD

Unfortunate Circumstance

Tecumseh and Clinton folks will have to endure an unfortunate circumstance come July 1, when local funeral homes discontinue their ambulance service.

Our idealistic legisiators have enacted laws and regulations which make it practically impossible for a funeral home to continue in the ambulance service business.

Whether the new laws were intentional or not as far as removing another private enterprise from business, they have proved effective in establishing another tax-supporting service.

These laws, such as the ones imposed on dumps and landfills, only incur greater taxes and little else as far as we can determine.

The new ambulance laws do not let the funeral homes operate the service with any degree of profit. Anyone in business knows that you have to make a profit or you're not in business.

We do not blame the Proctor and Dunn Funeral Homes for quitting. They had no other choice. When city officials and others investigated the business, they also wanted no part of it.

The entire Tecumseh - Clinton area should give both local funeral homes a big thanks for the service provided in the past. As to the future, we hope the sheriff's department can be equally efficient and prompt, and to do so with only a small degree of added cost.

'Andy' Retires Saturday

A familiar face at United Savings Bank will be missing after Saturday.

Andrew D. Woodward, vice president in charge of mortgages, has reached retirement age. His 65th birthday is next Thursday, July 4th.

Although "Andy" is outranked by a few here in seniority — he's been here with the bank since Jan. 15, 1952 — few outrank him in total years. He was associated with the State Savings of Clinton for 13 years, with the bank at Carleton for 18 years and briefly at Brooklyn, giving him approximately 47 years in the banking business.

Andy's outside activities include being a charter member of the Rotary Club at Clinton and is a former secretary of Rotary here. In 1957 he was president of the Lenawee County Bankers Association.

For many years, he was a Thursday afternoon "golfer-of-sorts" at the Tecumseh Country Club. One of his many hobbies is fishing and something he intends to do plenty of in the near future.

Andy and his wife, Marian, will start a trip next Thursday which will take them to California — where son Jerry is getting married — and then to Alaska.

The Woodwards plan to return to Tecumseh for a few weeks about October, and then renew traveling in their motor home to Florida for the winter.

Andy and Marian have six children: Robert, Harry and Jerry in California; Art, Colorado; Ken, Lansing; and their daughter, Diane, Port Huron.

Officers and staff of the Tecumseh bank feted Andy and his wife Wednesday afternoon at the Herrick Park Branch.

Franklin Township Hires Appraisors

Franklin Township residents will find that there will soon be more tax appraisals of their land. The township board has hired the professional appraisal firm of Allied Appraisals of Bowling Green, Ohio to make a parcel by parcel survey of the township.

According to officials of the company the initial phase of the survey will begin soon, within the next few days. It will take up to two months to finish.

The factors which the appraisers will use are repair and improvements to the dwellings, replacement value and other specifications.

The bare land will be appraised considering the tillable land, wasteland and woodland.

The manager of the local survey also stated that all people who will be making the appraisals and listing the property would carry a card identifying him as such and signed by John Braltin, county equalization director.

LANSING REPORT

By GIL BURSLEY

"All Lenawee County school districts would receive more dollars per pupil in state aid in 1968-69 than in 1967-68, if no change is made in property valuation figures. Local assessment changes, over which the state has no control, could alter these figures in some districts, however."

"When we worked out the new school aid formula — which provides over $60,000,00 of additional money from the state general fund—we worked with the 1967-68 figures and had to apply the new formula against these figures to estimate the amount of increased aid. It was the legislative intent to provide a relatively greater increase for the "proper" school districts with lower property valuation upon which to raise monies.

"In recent years the state has made major increases in its contributions to the public education system. Over 5% of the monies now come from the state. In Illinois, by contrast, the state only puts in 25% and local property taxes have a proportionately higher burden.

"During the forthcoming interim period before next year's Legislature a major review of public school financing will be made by the Senate Education Committee."

State aid to School Districts in Lenawee County is as follows:

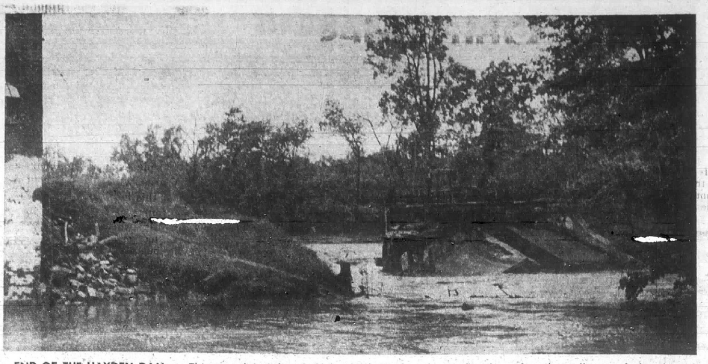
HERALD PHOTO BY BILL WHITING



END OF THE HAYDEN DAM — This was the sight on Globe Mill Pond early Wednesday after the collapse of the dam.

The Limits of Men

How could a man be so wrong
In a lot of people's eyes,
When to so many people
He was so very wise?

As I watched with humiliation
The tribute paid today
To one of the nation's great ones,
Whose life a sniper's bullet took away.

There is a question that came to mind
As I viewed the massive crowds,
Black, yellow, red and White—
Oh, wouldn't he be proud.

Many things have happened
In this 24-hour day;
If he were only here,
I know this is what he would say:

"Yes, I was very proud of brother Ted today,
As he paid tribute to me
In that great heroic way,

As he took the flag presented him
And sadly gave it to my wife;
May God bless and look over him,
And may he have a longer life.

I saw my wife and mother,
So burdened down by grief;
I wanted very much
These comforting words to speak—

To them I would have said:
"Hold your head up high;
Please don't grieve for me,
We shall meet again on high."

Could he appear again and speak,
I know he would have said these things,
As he is held a martyred man
By the crowds along the track and streets.

Yes, America is still a great land,
Of this we have no doubts,
But it could be better
If all prejudices were taken out.

I wonder what God would have said
When He sent His Son to walk among men;
If Jesus would have said, "I don't know you,
Look at the color of your skin."

Yes, Jesus died for the sins of all,
Regardless of the color of their skin,
So all of you who are judging today,
Don't forget 'You' will be judged by Him.

Many people did not like this man
Of whom this poem is written,
But let me remind you once again
Lest it should be forgotten,
That's what makes America so grand
Is this great democracy of ours,
Where a man has the right to choose
Whom he will put in power.

You Told Us

By DOROTHY GRIGG
Herald Society Editor

Water, water everywhere. Our sympathy goes out to the farm people especially. Their second planting of corn, in many cases, will be lost and it's pretty discouraging to try again at this late date. It couldn't come close to "knee high by the fourth of July" now.

Those with wheat have their problems, too. The wind whipped that into bunches, what it didn't flatten completely, and the hay—oh, my! If it isn't Orville Freeman, it's the elements to contend with.

√

Happy news — Twin girls were born June 19 to Mr. and Mrs. Hal Weakly in Bixby Hospital. The little girls, Allyson Renee, 4½ lbs., and Amy Lynn, 3 lbs. 15½ oz., arrived on their grandparents' 34th wedding anniversary. Mr. and Mrs. Harold Weakly think it's just wonderful to have such a lovely gift and their first grandchildren, too.

√

Mrs. James McClain returned home from Henry Ford Hospital Saturday. She is "feeling real well" right now. Surgery was not necessary at this time.

√

Mr. and Mrs. Ronald Johnston were surprised Sunday on their 34th wedding anniversary when their family planned a cookout in their honor at the home of Mr. and Mrs. Ernest Jeschke, on Moore Rd.

Thirty-four relatives and friends were hosted by the Jeschkes, Mr. and Mrs. Richard Johnston and Vicki Johnston.

Mrs. Rose Service baked a three-tiered decorated cake for her neighbors. Cards were played and a social time followed the cookout.

√

Mr. and Mrs. William Schooley and Diane drove to Tiffin, O., Sunday where Diane will spend this week visiting her uncle and aunt, Mr. and Mrs. Gerald Berry, and family.

√

Mrs. Edgar Buttolph, Mrs. Lillian Hoagland and Bertha LaPointe returned Sunday evening from a trip to the Scandinavian countries. They prepared for temperatures in the 50's and 60's and experienced much 90-degree weather. "The things we saw and the things we did," sighed Mrs. Hoagland, even though she was tired as a dish rag, she had such a marvelous time. Ruth Palmer and Ruth Callendar of Blissfield were also among the 41 persons on the tour.

Mrs. Anna Lowery entered Bixby Hospital Sunday to undergo surgery on her eyes Monday. Her room number is 141 Palmer Wing.

√

Mr. and Mrs. James Wolf and Melanie spent the weekend with his parents, Mr. and Mrs. C. H. Wolf, of Midland. Saturday they attended the 10th class reunion of the Class of 1958 of Midland High School.

√

Mrs. Ronald G. Sturgeon and son, Craig, left Saturday from Metropolitan Airport to join her husband in Topeka, Kan., where he is stationed with the Army.

√

Mr. and Mrs. Wayne Hundley and children of Riverside, Calif., spent last week with the Rev. and Mrs. Allen Ramsey and family in Trenton. Mr. and Mrs. George Green of Pentwater were here to spend the day with the Ramseys and the Hundleys at the home of Mrs. George Green, Sr. Friday. Mrs. Green, Sr., and the Hundley family went to Trenton until Monday when the Hundleys left for Texas to visit his relatives en route home.

√

Barry Seidel, son of Mrs. Richard Preston, left June 24 for Great Lakes Naval Training Center where he will undergo boot training.

√

Harvey Schmidt left Metropolitan Airport Friday for West Germany, where he will be an exchange student at the home of Bernard Volger. His address is 3351 Eimen, NK10 W. Germany. Mr. and Mrs. Herman Schmidt and family were at the airport to see their son off.

Auto Strikes Adrian Man

Jerry Eugene Beach, 23, 844 Dennis St., Adrian, was seriously injured Tuesday afternoon when he was struck by a car driven by Walter Ford, 41, 511 Brown St.

The accident occurred on Clinton-Manchester Rd., north of Clinton. Beach got out of the right side of a Goodwill Industries truck, and walked around in front of the truck, stepping into the path of the southbound vehicle driven by Mr. Ford.

Mr. Beach received a badly mangled left arm and was treated at Herrick Memorial Hospital and transferred to St. Joseph Hospital, Ann Arbor.

Mr. Ford and his wife, Leona, received bruises.

A Great Experience

By BILL WHITING

"It was a lot of fun!"

That's the typical answer given by most Boy Staters when asked how they liked the 31st annual conference. Superficially, that's about the best way to express it: "Boys' State 1968 was a great experience".

Starting out in the cool, early morning hours of June 12, the long 40 & 8 ride to the MSU campus made the excitement rise to a fever pitch. Shotgun shells heralded our arrival and we made sure everyone knew the Tecumseh delegation was there.

Our signing in at Brody Hall signaled an end to our commanderless; from then on we became residents of new cities, counties, and political parties. It was this new association that made us rivals, and it wasn't long before our loyalties were clearly defined.

The first few days were spent promoting our new causes. Campaigning for political office was fierce, and the campus soon became dotted with posters.

These were, perhaps, the most exciting days of Boys' State. Deals were in the making and rhetoric flourished.

For those who were not actively pursuing an office, softball, volleyball and swimming took up any extra time.

Sunday came as a welcome day of rest as the elections were over and visitors (especially female) were eagerly greetd.

Th remaining days were spent at various clinics and learning the ways of government by putting it to work. Mayors, judges, and policemen exercised the duties of their offices.

Many informed speakers addressed general assemblies, ranging from Rep. Gerald Ford to the president of Boys' Nation. Many views were presented and both sides of present national issues were viewed.

Out of all this was created the mythical 51st state of the Union. Indeed it gave a pretty fair view of America today. There were 1,250 boys that came to Boys' State, and of that number, a good many of them left as men.

America is not perfect, it follows then that Boys' State was not perfect, but it certainly achieved its purpose as a learning experience in that everyone came home thinking, knowing that it will be our generation that will decide America's course in the future. For this, we are grateful.

The following boys were elected to office at Boys' State.

Bill Whiting — National Convention delegate, state trooper.

Joel Baughey — City Council.

Jack B. Pence — State Representative.

Mark Travis — Probate Judge.

Darrell Beal — City Council.

A. Spencer Curtis—City Council.

Robert J. Moore — City Police.

William Weigle — City Council.

David Laidlaw — University of Michigan Board of Regents.

Steve Dalton — County Secretary.

James L. Hunt — Athletic Director.

Louis Wagner — County Board of Supervisors.

Washington Report

Did the murder of Dr. Martin Luther King, Jr., bring on the passage of the civil rights bill? Did the assassination of Senator Robert Kennedy hasten the enact-ment of an anti-crime bill which included controls on hand guns? The answer to both questions is no, but from what you read and hear you might believe otherwise. The truth is that, while these senseless acts may have added support for these bills, they were scheduled for consideration well before either assassination. Yet the coincidence of their passage immediately after these events would tend to reinforce the belief of some that Congress acted hurriedly in a time of great emotion.

While the anti-crime bill was not a result of the Kennedy assassination, a strong gun control bill may well be. Under serious consideration since the beginning of this decade, effective gun control legislation has been blocked each year.

It is unfortunate that it sometimes takes such a set of circumstances to get needed action but this has been the case with gun control legislation.

Prior to the assassination I had received few letters on this issue mainly from those who felt strongly one way or another. Now I am hearing from great numbers who have suddenly realized the need for some action.

Opposition to gun control comes from those who fear violation of constitutional rights to keep and bear arms and from those who fear burdensome restrictions on sportsmen and collectors. In my opinion, none of the legislation being seriously considered would substantiate these fears and none that did would receive my support.

I will support, however, legislation requiring registration of all guns and certain restrictions on their sale and transportation in interstate commerce. I cannot conceive of a reason why any law-abiding citizen would refuse to register his gun. Although there is good reason to believe that the criminal would not register his gun, law enforcement would be given another tool for criminal arrest and for tracing stolen weapons and apprehending their users. Strong restrictions on the purchase of guns by juveniles would end the free access youngsters now have to deadly weapons.

I am not one who believes that each American is responsible for the tragic events we have experienced this year. Foremost we need strict enforcement of existing laws by law enforcement officials and the courts. We need more responsible treatment of violence by our public media.

Gun control can only be considered the application of a band-aid to a large wound. Let's hope that the solutions to our root problems will receive the type of support which has been generated for this lone need.

Break For Summer

HOLLOWAY — The Ladies' Aid Society of the Raisin Presbyterian Church of Holloway met last Thursday for a dessert luncheon with Mrs. Kenneth Konke.

Plans were made to hold a public dinner Oct. 3.

Meetings will resume in September.

Celebrate Centennial

The Rev. Charles Kishpaugh, former pastor of the Springville United Methodist Church, will be a guest speaker this weekend during the Centennial Celebration there.

Special events are scheduled both Saturday and Sunday with a bazaar, bake sale, refreshments and games for all ages, beginning at 10 a.m. Saturday.

Proceeds will go into a building fund.

Sunday the worship service will begin as usual at 9 a.m., followed by church school and at 12:30, dinner will be served, followed by the Centennial program.

The Centennial committee is headed by Mrs. Ralph Spence with the assistance of John Bryan, the Rev. and Mrs. Ford Baker, Edwin Collver, Mr. and Mrs. Charles Emery, Barbara Larson, Pat Marks, Mrs. Roy Larson and Norman Pender.

About 1837, the first Methodist Episcopal class was formed at Springville. This meeting was held in the log house of Mr. and Mrs. John Stephenson. Fourteen names were recorded then.

Sunday services were held in various homes, barns and school houses.

In 1861, money was raised to guarantee the building of the church. On June 8, 1868, a deed was given by Calvin and Clarasa Edwards to one-half acre of land situated on Springville Highway just north of M-50.

The church was completed in the fall of 1868 and dedicated on December 26, of the same year.

Through the years the church was in various circuits, including Rome, Clinton, Tecumseh and later Norvell.

In 1957, the Lakeland Circuit was established which consisted of the Rollin Center, Devils Lake and Springville Methodist Churches. In 1962, this circuit was changed to include only Devils Lake and Springville Churches.

The Ladies' Society of the church was organized in 1884, with 12 charter members. It was first called the Foreign Missionary Society, but the name changed to Home Missionary Society, and the Ladies' Aid Society. This group was credited with many things such as purchasing pupit chairs, the first organ, carpeting the church twice, buying linoleum, helping pay for the bell and furnace, and assisting with salary pay for the pastor.

In March, 1954, the Ladies' Aid Society, with a membership of 40, was reorganized and named the Woman's Society for Christian Service.

On April 29, 1941, the church burned. Mr. and Mrs. Nathan Currie offered the use of the hall over their Springville Store and services were held there for a time. Later homes in the community and the Springville School were used until the present church was ready for occupancy.

On September 14, 1948, the former Methodist Protestant Church building, located in West Summerfield, was moved to Springville. The first service in the new church was held February 20, 1949, with Communion service conducted by Dr. Frank Fitch, the district superintendent. On July 10, 1949, this new church, free of indebtedness, was dedicated by Bishop Marshall Reed.

During the summer of 1956, on land donated by a member of the church, 15 acres of corn was planted and harvested. The following year this was planted to wheat. The proceeds from this project was put into a parsonage fund.

In July, 1961, a house in Onsted was purchased for a parsonage. Through the efforts of many, the house was remodeled and the pastor moved into the first parsonage owned by the Springville Methodist Church.

The Methodist Youth Fellowship has been an active group, supporting the church in many ways. They were the moving force which helped to furnish new pews within the past few years.

In 1965, three acres of land were purchased which adjoins the property, with plans for future expansion of the present facilities.

Mrs. Dolly Hand Richardson is the oldest living member of the church. On May 22, 1958, the women of the congregation held a tea honoring Mrs. Richardson for 50 years of membership.

Recreation News

By KATHY HALL

The opening week of Tecumseh's five playgrounds could easily be labeled a success, with attendance nearly reaching the 200 mark on Friday.

WEST BRANCH

Newly organized this year, the West Branch Playground, under the direction of Melissa Sage, saw twelve children participating in activities. Each child made and wore a name tag and various games were played throughout the week.

HERRICK PARK

Herrick Park Playground leaders Virginia Dollison and Linda Baaske report a very successful first week, with about forty children attending each day. It was a week of making new friends as well as making Indian rugs and other crafts. The boys are organizing a softball team and plan to challenge the other playgrounds. Friday everyone enjoyed a picnic.

SHADY LANE

Highlight of the week at Shady Lane was the 100-yard dash. Winners in the boys' division were Juan Banda, Glen Posky and Ino Banda, while Kim Ryan, Sandra Banda and Trina Opel led the girls. Other games included softball, kickball and tag. In addition to their sack lunches, Shady Laners on Friday enjoyed koolade and cupcakes furnished by playground leaders Linda Gray and Debbie Goldsberry.

TECUMSEH ACRES

Tecumseh Acres started the week rather slowly, but by Friday had increased attendance to thirty. Children enjoyed many playground games in addition to making crafts. Leaders Marta Puffer and Anne Sage would like to see more children participating.

PATTERSON

A treasure hunt was the highlight of the week, with approximately seventy children taking part. Candy was hidden on the playground and then children were turned loose to hunt for it. Those who found specially marked candy won circus passes. Winners were Jody Graham and Nancy Hamilton. Leaders JoAnn Biscupski and April Trickey are to be congratulated on inspiring such a large attendance.

Work was begun this week for the Playgrounds' entry in the float contest July 6.

Craft center will open Wednesday, July 3 at 10:00 a.m.

GIRLS' PEE WEE SOFTBALL

Approximately thirty girls have registered for Girls' Pee Wee Softball. Thursday they practiced and went over the rules and on Tuesday the newly organized teams scrimmaged.

The Pee Wees play each Tuesday and Thursday at 12:30 on Nelson Field. Any girls five to eight-years-old are invited to play.

GIRLS' JUNIOR SOFTBALL

The Girls' Junior League looks pretty tough this year judging from the first week's play. Thursday saw a scrimmage and Tuesday team practices were held.

The Girls' Junior League invites any girls over eight years of age to participate Tuesdays and Thursdays at 1:45 on Nelson Field.

TENNIS

There is a marked lack of interest in the tennis program this year. Less than ten have registered thus far. Lessons are scheduled to begin July 1, but unless more interest is shown, the program may have to be canceled. There is no age limit for this program and registration fee is $1, payable anytime at city hall.

MOMS' SOFTBALL

A meeting will be held Wednesday, July 3 at 7:00 p.m. at the athletic field for women interested in playing Moms' Softball. Minimum age is 18 and there is no maximum age.

BOYS' PEE WEES

Roger Young reports an excellent turnout for Boys' Pee Wees. They will play each Monday, Wednesday and Friday at 1:00 p.m. at Nelson Field.

SWIM CLUB

Swim Club got underway this week, reports Larry Merx, advisor. Meetings are scheduled for each Monday, Tuesday, Thursday and Friday at 5:00 p.m. at the pool. Plans for the entry in the float contest were discussed this week.

Four tentative meets, two of which are with Ypsi Lakeview, have been scheduled.

Hole-in-one

The second hole-in-one of the year was carded at Macon Golf Course June 22. Jack George of Tecumseh made it on the 165-yard ninth hole. He used a 9 iron for the shot.

He was playing in a foursome of Lee Wright, Mary Hollar and Steve Hollar.

It's All Fun in 'Share The Fun'

Seven talent acts were selected Tuesday evening at Madison School, at the Lenawee County 4-H Share the Fun Festival. Four of the winning groups are from the Tecumseh area.

In the small vocal area was Tom Schroeder of the Britton-Macon club. Tom's selection was "The Joy of Love."

Candie Miller of the N. Franklin Maidens club was selected for her piano solo.

In the large group dramatic novelty area the Tipton Jets took honors with their "Fashion Show." Participants included Randy Bacon, Darlene Daniels, Doug Feight, John Gebrowski, Jim Linger, Jim Ohlman, Bruce Smith, Greg Smith, Bill Spycher, David Whelan, Gordon Whelan.

A new area this year, the family musical group, was captured by the Bush family. Seven of the 14 participants are members of the Britton-Macon 4-H club.

The four talent acts will go on to district competition July 8 in Ann Arbor. At the district contest, winners will be selected to present their acts on the state level at state show, M.S.U., in August.

Two groups from the Tecumseh area attempted from the county talent festival. They are Susan Mull and Laura Purkey in the small dance area and the Tecumseh Topnotchers club group including Laura Baldwin, Sharon Ferguson, Christene Herrill, Andrea Ocamb, Kathy Ocamb, Susan Mull, Laura Purkey, Diane Spohr, Julie Tarros with their "Mock Fashion Show."

Also participating in the event were Kathy Rundee of the Britton-Macon club with her piano solo and a Tipton Jets group including Susan Platt, Dawn Daniels, Jan Feight, Jill Feight. These four presented a humorous skit, "But I Can Play Canasta."

4-H'ers TAKE HONORS — The Tipton Jets 4-H group took first place in the recent Share The Fun Festival at Madison. They presented a "Fashion Chow". Pictured from left to right, kneeling, Mike Feight, John Gebarowski, Randy Bacon and Bill Spycher. Standing, David Whelan, Doug Feight, Bruce Smith, Gordon Whelan, Greg Smith, Jim Ohlman, Jim Linger, Darlene Daniels and Martha Osburn.

Summer Plans For Methodists

The Official Board of the Tecumseh United Methodist Church will be held on June 26 at 8 p.m. Preceding this meeting the Finance Committee will meet at 7 p.m.

Sunday, June 30, has been set aside as Promotion Sunday for the nursery through high school classes. Harry Stanifer, Sunday School superintendent, also, has stated that this day will be the last Sunday until the first Sunday after Labor Day that classes will meet at the usual time. In July only the children and youth classes will meet during the worship service beginning at 10 a.m. NO classes will be held in the month of August or the first Sunday in September.

Business Women Meet at Lake

Sixteen members and guests of the Business and Professional Women's Club were present for the potluck dinner and social time at the Vineyard Lake home of Mr. and Mrs. Melvin Ruettinger Monday.

Members decided that Mrs. Ruettinger was a gracious hostess. The Club will not meet again until September.

Group Voices Opinion

Fourteen members of the Abi Evans Chapter, DAR discussed steps they could use to help in the defense of this country at their picnic meeting Flag Day at the home of Mrs. Fay Whelan.

It was the concensus of opinion of the group that members must take an interest in issues and keep their congressman informed as to their wishes — that parents must know the whereabouts of their children — that teachers should be given more authority or that parents spend more time at the schools. They also decided that the current peace talks are not helping much and that the United States should take a stand in Vietnam and carry it through.

Mrs. Joe Rice was the leader for the discussion.

'When the Livin' Is Easy'

"When the Livin' Is Easy," was the name of a mock flower show presented last week by the Little Garden Club of Tecumseh. The living was anything but easy for club members, who had to both prepare and judge their artistic arrangements and horticulture exhibits.

Displays were placed during the afternoon in the home of Mrs. Carlton Cook. When members gathered in the evening they were divided into groups of three, and each group conferred to decide how many points should be awarded to each entry.

The show committee of Mrs. J. J. Walper, Mrs. David Woods and Mrs. Charles Gross set up a schedule for members to follow in making their arrangements, and decided how the points were to be distributed. As with standard flower shows, points totaled 100 for a perfect entry. At least 90 points were needed for the awarding of a blue ribbon, 85 for a red ribbon and 75 for a yellow. A "Best of Show" award required at least 95 points.

For the arrangements, the points were divided into a maximum of 10 for color, 15 for distinction, 20 for originality, 15 for condition, or freshness of materials, and 40 for design, including line, form, pattern and texture.

Best of show was judged to be the entry from Mrs. Carson House Jr. for the class "One Big Splash", an arrangement done in a low container exposing water. She used a deep green glass container. Arching over it was a graceful sweet pea vine, pinned at the base by a single peony bloom in soft pink. This is a deceptively simple form of arrangement. It uses only two elements, the vine and the single bloom, but each must be chosen with careful attention to color, balance and texture.

This arrangement also took the blue ribbon in its class. The red ribbon went to Mrs. Wilbur Andrews and the yellow to Mrs. Laszlo Gero.

Other classes in the artistic division were:

"Golfing Brunch," a one-sided arrangement suitable for a buffet table — blue, Mrs. Cook; red, Mrs. Judson Miles.

"Midnight Barbecue," a four-sided table arrangement using artificial lighting — blue, Mrs. Gordon Comfort; red, Mrs. Morgan Ford.

"Those Lucky Dads," an arrangement using foliage only — blue, Mrs. Gross; red, Mrs. William Adams.

"Down by the Seashore," a miniature arrangement using shells, sand and/or stones — blue, Mrs. Donald Moffatt; red, Mrs. William Holmes.

"So Proudly We Hail," an arrangement using red, white and blue — yellow, Mrs. Robert Murray.

"Off to the Woods," an arrangement using wood and/or wild flowers — blue, Mrs. Richard Gobba; red, Mrs. Earl Baldwin; yellow, Mrs. Howard Furry.

"How Does Your Garden Grow," an arrangement using fruits and/or vegetables — blue, Mrs. Cook; red, Mrs. Walper.

"No More Lessons, No More Books," an arrangement portraying a child's summer activity — blue, Mrs. Robert Bagdon; red, Mrs. Woods; yellow, Mrs. Jerry Eggleston.

The horticulture division demonstrated the importance of growing healthy plants. All exhibits were grown by the members entering them. There were several instances where a really spectacular bloom, one that drew admiring comments from other members, did not win a top prize because of some mars on the foliage, or because it was beginning to wilt.

The 100 points were distributed with a maximum of 20 for the stem and foliage, 15 for size, 25 for form and substance, 25 for freshness and 15 for color of bloom and proper naming.

Best of show was won by Mrs. Comfort for an exhibit of coreopsis, which is a perennial plant with bright yellow blooms. The blossoms had a double row of petals, with one row flaring like a daisy and the other row curving upward to form a cup around the center.

Blue ribbon winners, in order of points awarded, were:

Mrs. Bagdon, peony

Mrs. Comfort, hybrid tea rose, Gaujard

Mrs. Cook, columbine

Mrs. Eggleston, bachelor buttons

Mrs. Gobba, hybrid tea rose, Miss All-American Beauty

Mrs. Woods, cotoneaster

Mrs. Gross, mock orange

Mrs. House, hybrid tea rose, Peace

Mrs. Holmes, gloriosa daisy

Red ribbons were won by:

Mrs. Moffatt, hybrid tea rose, Virgo

Mrs. Adams, sweet williams

Mrs. Walper, pelargonium

Mrs. Baldwin, bearded iris

Mrs. Furry, florabunda rose, Independence

A yellow ribbon was won by Mrs. Ford for a climbing rose.

Next meeting of the club will be July 16, when Mrs. Neil Pearson has invited the members to tour her garden and hear of her visits to English Gardens. Mrs. Stanley Cook, Mrs. Orrie Gilbert and Mrs. Gero will assist.

The Donald Youngs Will Cut Ribbon

The Donald Young family, 203 W. Brown St., were selected this week in a drawing at The Herald office as the ribbon-cutting family for the ceremonies at the Tecumseh Park dedication set for July 6. This family of eight was chosen from over one hundred season ticket holders — persons who have purchased the $25 pass which enables them to use the park facilities and the local pool. The Youngs will participate in the parade, also.

The parade, beginning at 10 a.m., now has 16 floats entered, with the Teen Club, the Little Garden Club and the Hitch-Up-and-Go floats being registered this week. The entrees will compete for a first prize of $50; a second prize of $30; and a third prize of $20, to be awarded by a panel of five judges. The judges, headed by Robert Moore, include Elmer Eberhardt, Mrs. William Flanders, Mrs. Harold Easton and Mrs. Harry Doehne, wife of the dedicatory speaker from Lansing.

The AOWAKIYAS, a marching unit of young baton twirlers, also, will participate in the parade.

Final plans for the dedication will be announced next week with information concerning the parachutists, the special JC concession stand, and the use of the WLEN remote broadcasting unit.

A Lifetime of Memories

A lifetime of memories were kaleidoscoped into June 16 afternoon for the Rev. and Mrs. O. E. Priest on their golden wedding day.

An open house at the Britton Congregational Church, was attended by 400 friends, relatives, and former parishioners, who came from Chicago, Coldwater, Grand Rapids, Detroit, Lansing, Flint, Marshall, Clinton, Tecumseh and Britton. The couple had served in Congregational pastorates at Old Mission, Gaylord, Britton and Clinton.

There were several of Mr. Priest's World War I buddies of Detroit, who served with him in the 310th Engineering Post.

Their five children and families were all present with the exception of one grandson-in-law. They are: Mrs. Lyle Austin of Howell; Mr. and Mrs. Douglas Priest of Tempe, Ariz.; Mr. and Mrs. Theodore McNamara of Holly; Mr. and Mrs. John Robison of Torrence, Calif.; and Mr. and Mrs. Alan Hay of Ann Arbor.

Other relatives present included their granddaughter and husband, Mr. and Mrs. Peter Reynolds of Hawthorne, Calif.; and Mrs. Priest's sister, Mrs. Edward Anderson of Manistee.

The afternoon reception was preceded by a prayer service for the immediate family, by the Rev. G. O. Hannevik.

The refreshments were served by the Baraca-Philathea Class of the church.

Several beautiful gift bouquets decorated the reception room, and a bouquet of golden flowers formed the centerpiece on the buffet table.

Eight brides at whose marriages the Rev. Priest had officiated in years past, poured the beverages. They are Mrs. Henry Lewis of Dearborn; Mrs. Loren Davis of Adrian; Mrs. Robert Mayfield of Ann Arbor; Mrs. Edwin Spohr, Mrs. Ned Brown and Mrs. Keith Swain, all of Britton, and Mrs. Murell Clark of Tecumseh.

Son, Douglas' gift was a most unique artist's composite painting of the honored couple's wedding picture, 50th anniversary picture, bride's home, the five children's portraits, and views of their favorite hobbies, complete with names and dates.

Also among the numerous, handsome anniversary gifts was a cleverly contrived, tiered wedding cake effect, created by circlets of bath towels, trimmed with golden ribbon.

The real anniversary cake was made by Mrs. Clyde W. Greenfield Jr., of Clinton. It was topped with silver-haired bride and groom figures.

Following the reception, a buffet dinner was served to 34 members of the family at Roumells in Clinton.

Attractive Bauer Manor Is Favorite Restaurant

For that "just perfect" evening out, Bauer Manor with its new Coach Room is the ideal place for dining, dancing, reminiscing and relaxing.

Mrs. Kenneth Van Doren "didn't spare the horses" when she designed a new room added at the rear of the Century-old Stagecoach Inn on US-12, just across from Evans Lake.

She and her husband, Ken, operate the Manor. He is an accountant at the Simplex Paper Corporation in Adrian and spends his leisure hours working at the bar, and doing other necessary work at the old and new inn.

Every modern convenience has been incorporated in the delightfully pleasant, carpeted dining area, surrounding the dance floor in the recently-completed Coach Room.

Though new, it already seems to be a part of the Manor, which was originally built in 1839 when overnight lodgings were a necessary facility for travelers along the Great Saulk Trail from Detroit to Chicago.

Built by Contractor Bob Horn, the new 42-ft. x 36-ft. room with 400 square feet of dance floor can be entirely closed off from the other dining rooms by louvred doors and shutters, at the original windows.

A brick-faced 12-foot fireplace, enhanced with memorabilia from yesteryear, is at the north end of the Coach Room, while the east side features a sparkling bar with a cedar shake overhang, extending over louvred doors leading to the rest rooms.

The entrance there is highlighted by an old, old horse-collar, encircling a red velvet-framed mirror.

Rough cedar is used on the walls and the ceilings are beamed, with rheostat lighting hidden in the valances to provide exactly the right amount of indirect light for any occasion.

Electricity is effectively used in the side lamps and behind the bar, to represent old gas lights. An in-the-door television set is available and also serves the Van Doren apartment at the rear of the Manor.

Walnut captain chairs and walnut tables made by Mr. Horn, encircle the dance floor where a live dance band holds forth on Saturday evenings. A music box with the dancable music of the 1930's is available other evenings. Wayne King, Tommy Dorsey and others of that era provide lilting strains to which many people enjoy listening as well as dancing.

Mrs. Van Doren and Mrs. Illa Cox made the gold print drapes. They match nicely the table cloths and other furnishings, even the wallpaper in the restrooms.

The innkeeper was thrilled recently when one of her

he Manor is a family project with the three Van Doren en practically reared on the premises.

Susan, Kay Lee and Butch helped as waitresses, bus boy or whatever Mom had for them to do since they were 14. They, along with a number of other young people, added to their college treasuries working through the summers.

Kay Lee has become the wife of William Flavin and is now with her husband at Ft. Sill, Okla., as co-ordinator of youth activities in the city of Lawton, Okla., with 7,000 people.

Susan is now Mrs. Mark Vaillancourt, and Butch is attending Western Michigan University and working as a ranger at Hayes State Park during the summer.

Mrs. Illa Cox makes sure that all the details have had a proper amount of attention, that the play pen is clean and ready for the occasional little tyke and that every single goblet and spoon is shining and ready.

Others on the staff this year are Pamela Craft, of Sand Lake, who will be married in October and Diane Johnson, Joyce Bakewell, Mrs. Doris Crosby, Richard Roesch, Chris Owens, April Alm, Sheila Ison, Bill Fowle, Iona Ousterhout, Blair Gibbs and Jean.

The historic stagecoach inn offers cocktails and Michelo and Lawrenbrau beer on tap as well as the finest in country dining.

We highly recommend that visitors to the Irish Hills make this a "must stop" on their list.

Our Readers Write

TO THE EDITOR:

Dedication Day for Tecumseh Park is fast approaching. Our committee has been working diligently to make July 6 a memorable day. We have been most impressed with the way the whole city of Tecumseh has responded to this Tecumseh Park project. The United Foundation has been most active as have civic clubs like the JC, and city officials. We believe it is this kind of enthusiasm that will help make Tecumseh Park a long-range success.

One thing that has helped make our job easier is the splendid cooperation we have received from your staff at The Herald. Mrs. Steele, our publicity chairman, and all of our committee are deeply appreciative of this help.

Sincerely,
Franklin H. Bock,
Chairman, Tecumseh United Foundation Advancement Committee.

Balancing a brimming pan of water between refrigerator and sink, "two-stepping" to avoid spillovers, and mopping up the messy drippings afterwards, is no life for a 20th century homemaker! So what if the old frost-builder does still work? Think about the racket it makes — and the freezer compartment with more ice than food — and the embarrassment of running out of ice cubes when you're entertaining, isn't it time you got rid of that round-shouldered relic and marched down to your electric appliance dealer store for a modern, frost-free refrigerator-freezer?

Cassie Williams, W. Stewart Niblack Jr. Marry

BRITTON — Cassie Diane Williams of Hudson and W. Stewart Niblack, Jr., 310 E. Chicago Blvd., Britton, exchanged nuptial vows in a double ring ceremony at the Clayton Methodist Church, Saturday.

The 7:30 p.m. ceremony was performed by the Rev. John McNaughton of the Cone and Azalia United Methodist Church and the Rev. R. A. Mitchinson of the South Lyon United Methodist Church.

MRS. STEWART NIBLACK

The bride is the daughter of Mr. and Mrs. Lawrence F. Williams, 117 Division St., Hudson, and the bridegroom is the son of Mr. and Mrs. William Niblack, E. Long Lake Rd., Harrison.

Mrs. Gerald Baker of Hudson, was the organist, and she accompanied the soloist, Lawrence Marks of Palmyra.

The pink motif was carried out in baskets of pink flowers at the altar. Candelabra and pink candles, backed by palms, pink pew bows and greens graced the pews and the aisle was covered with a pink runner.

Given in marriage by her parents, the bride wore a Chantilly lace gown. The naturally-waisted bodice was accented with a Sabrina neckline trimmed with seed pearls and rhinestones, and had long lace sleeves. The bouffant, tiered skirt ended in a chapel train.

The bride's only jewelry was a pearl and ruby broach that belonged to her late Grandmother Williams. A crown of seed pearls and crystals held the bride's veil of silk illusion.

The bridal bouquet was a cascade of white Alba lilies centered with a miniature Bible.

Pam Sanderson of Adrian was the maid of honor.

The bridesmaids were Lois Williams of Hudson, sister of the bride, Diane Sneaker of Clayton, and Rita Venable of Adrian.

The bride's attendants were attired alike in gowns that were a gift of the bride and made by the bride's mother. The gowns were empire styled with bodices of white bonded lace over pink taffeta. Necklines and sleeves were edged in scallops. The pink linen A-line skirts were accented with large bows in back with streamers to the hemline.

The bridesmaids wore matching circular headpieces of pink linen and tulle, and each carried a cascade of pink Rubrum lilies attached to lace fans.

Michelle Ballenberger of Clayton, niece of the bride, was the flower girl. She wore a short version of the bridesmaids' dresses, with a headpiece of daisies.

Randy Lidster of Britton, nephew of the groom, was the ring bearer.

The best man was Jack Leonard of Riga. The 220 guests were seated by James Gunter of Adrian, David Lorenz of Britton, and Charles Beach of Clarkston, nephew of the groom.

Mr. and Mrs. James Mitchell of Adrian, uncle and aunt of the bride, were hosts at a reception at the Sand Creek School, attended by 400 guests.

An eight-tiered wedding cake was flanked with double-tiered arrangements of pink flowers and candles.

The bride is a graduate of Hudson Area High School and is employed by Vine Street Flower Shop.

Mr. Niblack is a graduate of Britton High School and Eastern Michigan University. He is self-employed at Niblack's Home for Funerals.

OFF the TOP

"Four days isn't very long for a vacation," I wailed to hubby; "It's hardly worth all the packing."

"Take it or leave it," he replied; "That's all the time off I can take now."

I started packing.

* * *

The most difficult part about leaving home, even for a few days, is remembering to take everything we might conceivably need or want while away. We must have clothes for hot weather, clothes for cool weather, (Michigan being so unpredictable); camera, film, toothbrushes, sunglasses for everyone, curlers and hair dryer, (a wig would really be handy), maps, toys for the youngest, fishing tackle, first aid kit, etc., etc. We could go on a three-week safari on what we stow in the trunk of the car!

* * *

In a burst of permissiveness, I told Miss Ten she could order whatever she wanted from the menus on the trip. However, I had to retract after her third straight meal of French fries and a chocolate malt.

* * *

"All that stuff you brought, and no clean socks for me?" queried the man of the house. Sorry about that, Dad. I can't remember everything.

* * *

Eating out so often proved disastrous to my diet, too. Being relieved of meal planning and preparation for even a few days went to my head, and I couldn't seem to resist all the tempting goodies offered.

* * *

We hadn't even unpacked at the lodge, before daughter had to check out the swimming pool. One of our greatest investments has been her lessons at the Tecumseh pool — it has surely paid off in summertime enjoyment. But it did put an additional strain on Dad. On the return trip, he had to drive extra miles to find a motel with a pool, to keep peace in the family!

* * *

After spending a couple of days at the lodge, we picked up our son and journeyed on to Traverse City. A 10-year-old girl and a teen-age boy are not very compatible on a car trip, but they managed to call a truce of sorts for the duration. I only had to yell at them a dozen or so times.

One thing the whole family agreed on was the fun of the ride over the sand dunes in a "Dunesmobile". I wondered whether daughter might be frightened on the roller-coaster type ride, but needn't have worried; she loved it.

* * *

The only one who wouldn't climb out of the dunebuggy at the crest of the Sleeping Bear dune, 475 feet above Lake Michigan, was — guess who?? "Come on, Mom, don't be chicken!" But I preferred to view the expanse of sand and lake from the comparative safety of the dunebuggy.

* * *

Then, all too soon, we were back home, with the car full of dirty clothes, free folders, maps, souvenirs, gum wrappers and spilled popcorn. Now, back to work again!

Once you take a really close look at this '68 Impala Custom Coupe, chances are you won't care what other people's 1969's are going to look like. But we'll tell you anyway.

This particular model—with its formal "notchback" roof line—is the most popular one we build. Which means it's by far the most popular '68 anybody builds. Which means (and this is an open secret around Detroit these days) some other cars are going to look a lot like it in '69.

Frankly, we're kind of used to being borrowed from this way by now. Whether it's styling, riding comfort or just plain painstaking workmanship, we know that putting you first keeps us first. And we can't blame other carmakers for wanting to catch up.

But meantime the thing for you to do is drop down and have a talk with your Chevrolet dealer now. Great as our styling looks on this '68 Impala, we can't promise it's going to look so good on a '69 something else.

Happening now at your Chevrolet dealer's, a tremendous explosion of extra buying power. Only the leader could make it happen.

MRS. JOHN PFISTER

Julie Ann Mudgett and John Philip Pfister Wed

Julie Ann Mudgett and John Philip Pfister were married Saturday at high noon at St. Joseph's Catholic Church, Adrian by the Rev. Fr. Harold Wolf.

Parents of the couple are Mr. and Mrs. Ford Mudgett of Adrian, formerly of Tecumseh, and Mr. and Mrs. L. C. Pfister, also of Adrian.

The bride wore an Evel Dean original inspired of 15th century design, featuring imported Spanish lace on the bell sleeves and bodice of the coat diminishing to individual lace flowers at the hem of her train. The bolero cut away front exposed a princess line dress topped with lace bodice enhancing the classic jewel neckline.

Her shoulder length veil of silk cascaded from a small Hamlet period hat accented with tiny lemon blossoms at the crown, combined with rows of organza ruffles.

Mary Mudgett was her sister's maid of honor in a modern day version of the same period of Hamlet, also by Exclusives Evel Dean. The princess style dress of organza was embroidered with pink and yellow daisies and styled with short puff sleeves and a great box pleat giving a train effect, hung from a small "V" opening at the back. She wore a small organza bow with streamers flowing to the floor and held in place by clusters of fresh daisies on her head.

Irene Kay Mudgett was the bridesmaid and was attired as her sister, the maid of honor.

Garry Krouse served as best man and the guests were seated by Michael and Charles Mudgett, brothers of the bride, James Pfister, brother of the groom, and John Barsodi. Christopher Mudgett, also a brother of the bride, served as altar boy.

A buffet dinner was served to 175 guests at the Tecumseh Country Club.

The couple will spend two weeks in Puerto Rico and the Virgin Islands and the remainder of the summer at Devils Lake.

In September they will live in East Lansing where the bride will be a junior majoring in elementary education at Michigan State University and her husband will be a senior in pre-law.

The rehearsal dinner was given Friday evening by the groom's parents at the Lenawee Country Club.

MRS. CHARLES WILLIAMS

Phylis Schmidt Married To Charles Williams

The Emmanuel Lutheran Church, Britton, was the setting for the marriage of Phylis Schmidt and Charles Williams, June 15.

The parents of the couple are Mr. and Mrs. Theodore Schmidt of Dinius Rd. and Mr. and Mrs. Chester Williams of Willard, Ohio.

The double-ring ceremony was performed at 2:30 p.m. by the Rev. Edwin Mueckler. Bouquets of white gladioli and roses enhanced the altar.

Mrs. Wesley Gilmore was the soloist. Solos were sung by Martha Tiede and Thomas Schroeder.

Given in marriage by her father, the bride wore a Chantilly lace gown, styled with an over skirt, opening over tiers of ruffled lace in the front. French sequins trimmed the Sabrina neckline on the long-sleeved bodice.

A cabbage rose head-piece held the bride's fingertip length veil. She carried a white Bible with white roses and lily of the valley.

Yvonne Sweet was the matron of honor. She wore a pink floor-length gown, styled with an empire bodice of lace, and a nylon sheer overskirt over an A-line lace skirt. Her bouquet was of white carnations and pink gardenias.

The bridesmaids were gowned similarly to the matron of honor. They were Diane Barnett of Adrian, in pink, and Charlene Clark in yellow.

Flower girl, Jeanie Kempf, wore white eyelet over a yellow skirt.

Jerry Brown was the best man. Gary Schmidt, brother of the bride, and Ronald Brown were ushers.

Mark Jenkins was the ringbearer.

A reception held in the church parlors, and later a dinner at the home of the bride's parents, was attended by 200 guests.

Assisting at the reception were Diane Lickfelt, Karen Peters, Mrs. James Curry and Mrs. Guy Upell, godmother of the bride.

The bride is a 1968 graduate of Tecumseh High School. Mr. Williams attended Tecumseh High School and is employed at Tecumseh Products.

The couple will reside in Tecumseh upon their return from a wedding trip in Northern Michigan.

Martha Hoisington, Robert Fox Speak Vows

The Rev. Seth Hoisington, father of the bride, performed the ceremony. He and Mrs. Hoisington live in Adrian and the parents of the groom, Mr. and Mrs. [illegible] Fox, live in Britton.

Mr. and Mrs. Howard Powell were the soloists, accompanied by Mrs. Roger Richards.

The bride wore a floor length cage gown of candlelight Guipure lace over taffeta fashioned with long tapered sleeves and a scalloped neckline.

A matching Guipure lace headpiece held her floor length veil of illusion in place. She carried a cascade of white roses edged with ivy.

Rachel Hoisington was her sister's maid of honor in a floor length A-line gown of turquoise karah with self train and a matching headpiece of chiffon petals holding her brief veil.

She carried a cascade of white daisies.

Darlyne Young of Philadelphia, Pa., was the bridesmaid and JoAnne McMichael of Adrian, the flower girl.

Both were attired identically to the maid of honor. Miss McMichael carried a basket filled with daisies.

Randy Fergus of Oswego, Ill., served as best man with Harvey Warner, Jr., as groomsman and Master Barth Wolf as ring bearer.

The 250 guests were seated by David Tassenzahl and Ronald Fox, cousins of the bride and groom.

A reception was held at Holiday Inn where a large swan, carved in ice and highlighted by a multicolored spotlight centered the linen covered bride's table. Mrs. David Hassenzahl and Linda Richards cut the cake, Mrs. Earl Meska and Mrs. William Mason assisted with the serving.

Mrs. Harvey Warner, Jr., presided at the guest book and Mrs. Sherry Murdock assisted in recording the gifts.

The bride, a 1965 graduate of Adrian High School, has studied art for two years and will continue her studies at Michigan State University in the fall.

New School Site Being Discussed

School Board and a representative of a Lansing architectural firm discussed plans and site development for a new school north of the Methodist Church, along River Raisin.

A development sketch showed locations of building, parking areas, and areas which could be used for physical education classes.

Whether the Board decides on a middle school or a new high school will probably not be made for several months yet. The 42-acre site, owned by the Tecumseh Products, has not been purchased yet and according to school officials, there's some question whether it is big enough for a new high school.

Potluck Supper Marks the Finish

A week of evening sessions of daily vacation church school was recently completed with approximately 70 youngsters taking part.

The two-hour sessions were under the direction of Mrs. Norbert Sedelbauer, youth division superintendent, and Harry Stanifer, church school superintendent.

Assisting in the program were Robert Younglove, Donald Porteous, Jr., pianist, Mrs. James Dahlke, Mrs. Marion Ford, Cathy Shavalier, Mrs. Robert Schiller, Mrs. Ray Oliver, Calleen O'Brien, Mary A. Mead, Kathy Porteous, Kathy Mead, Mrs. Doug Sprague, Mrs. John Frazier, Miss Marvel Steinhoff, Mrs. Robert Younglove, Mrs. Robert Bristol, Mrs. William Goodrich, and Mrs. Wesley Macki.

The opening session included a wiener roast and the final session was a potluck supper for the children and their parents with 130 persons taking part.

Methodist Youth Will Bake Bread

Members of the Tecumseh United Methodist Youth Fellowship are planning a three day bread baking project July 1, 2, 3, in order to raise the final money needed by them to finance their "Go-See Caravan" trip to the Methodist Indian Missions in August.

Until just several weeks ago the youth and their leaders had detailed arrangements completed for a missionary work project in the same area. However, the headquarters there sent late word that these projects had been canceled.

Because the youth have worked hard in an effort to broaden their outlook on the mission needs in this area, the caravan project was adopted.

Anyone desiring to order bread from the youth may place orders with Mrs. Robert Meads, 423-3064, and the church office, 423-3814.

Makes Dean's List

Ray Larned, son of Mr. and Mrs. Gerald Larned, former residents of Tecumseh, now of Kalamazoo, was among the 135 students at Kent State University to be named to the dean's list for the spring quarter. He received a perfect academic average of 4.0.

LIFE HEALTH

Five Phases of Recovery

Restoration of Nerve Flow

An individual suffering from disease or bodily disorder goes to his chiropractor for trained competent care.

The chiropractor uses scientific equipment and his training in the function of the body's nervous system as it relates to the spine. He locates the cause of the disorder and determines the proper adjustment procedure to correct the cause of the disorder.

The chiropractor knows that impingement of one of the spinal nerves is the cause of the bodily disorder. The impingement, or pressure, on the nerve interferes with the flow of nerve energy to the affected part. Once the adjustment realigns the spine and removes the impingement, the vital nerve energy is restored to the body, and recovery begins almost at once.

The chiropractor says "the power that made the body is the power that heals the body," and restoring the efficient flow of nerve energy gives nature her power to heal. Another Health and Life Article from the Office of:

SCRATCH FEED, CORN AND ORANGES

They are big. They are flashy. They are faithful. They are red-headed woodpeckers. Two of these handsome birds are making our birdwatching most exciting. They have been around for weeks and they visit the feeding stations many, many times each and every day, but I honestly believe that they are as thrilling as they were on their first drop-in. These are gorgeous birds.

I am sure that our two red-heads are a pair — although both are marked about the same, one is noticeably smaller than the other. To say that their heads are red, their frontside white and their backs black is almost a sacrilege. Their heads are a bright, brilliant, lush red which blazes in bright sunlight. How can feathers look so soft, these head hoods are of the plushest velvet. Their white is a clean, snowy pure and their black so lustrous it sometimes looks blue.

When in flight, and they are marvelous flyers, there is a flash and blur of this black and white. The large white patches which decorate their wings and mark the base of their short tails form, when the wings are extended, a wide band of white which runs from wingtip to wingtip. As you might guess, we are rather fond of these birds.

★

IT IS THE unorthodox traits of the red-heads which please us so much. At this time of year they are quite vegetarian in their eating habits. This means they come to our free lunch counters readily. The near-the-window feeder offers scratch feed and corn. Instead of standing on the flat surface of the feeder and gobbling down scratch feed as most birds do, the red-heads cling to the side of the tray and stretch their heads up and over to get at the food.

Their strong bills are ideal for wood drilling but apparently not ideal for "picking up"; instead of pecking at the scratch, they cock their head to one side and sort of slide their bill through the scratch scooping it into the side of their mouth as it were.

These bills, by the way, are pretty — when they eat so close to the window we have good looks and they are an ivory color with almost a blueish cast which gradually darkens into a light black at the tip.

The corn eating is great to watch. After wrenching off a kernel, they are unable to grind it open in their bills as cardinals do or swallow it whole as can the bluejays. No problem, though, they merely take the corn to the flat top of the fence post, securely wedge it in a crack and, with a few quick downward jabs, that beautiful bill chisels it into bite size pieces. You should see the top of the post, though — it is jagged and riddled, but who cares.

★

THE GENERAL and His Lady have a red-bellied woodpecker who does the same thing. He uses the rough bark of a special tree to hold the kernels and, after spying on the operation through binoculars, they claim he usually makes four bites out of each corn nubbin. When our red-head leaves the ear of corn and darts toward the walnut tree, I imagine he is about to use its rough bark for kernel-holding.

It is out of my sight, though, and thus I shall not vouch for his bite-size preference. Who knows, red-heads may be dainty and divide one kernel of corn into four bites, perhaps they go to the other extreme and gulp it down in only three.

So it is that — opps, Marda, space is running out, such things as Mrs. Woodpecker's necklace and the orange-eating must wait until next week.

NEXT WEEK:
"Scratch Feed, Corn and Oranges" continued

Stites Placed On Two Committees

State Representative Robert C. Stites (R—Manitou Beach) has been appointed to a pair of special House study committees by House Speaker Robert E. Waldron (R—Grosse Pointe).

One committee will study methods for identifying lost and stolen motor vehicles, while the other one will look into private driver training schools.

"The study of means of identifying stolen vehicles grew out of concern of rising insurance rates, which are pushed up by the ever-increasing number of stolen cars," Stites said. "In our study of private driver education schools we will be trying to determine whether licensing and standards are necessary for such schools."

Frank Patton Attends Forum

Frank Patton, 4901 US-12, Tipton, was in Hillsdale over the weekend to attend the educational Bible forum sponsored by the Watchtower Bible Society of New York. The event was held at the Hillsdale High School and featured a lecture by tri-state district director of Jehovah's Witnesses, Marvin L. Holien. The subject was "Why Does God Permit Wickedness?"

Cub Scout Pack 32 Travel Rifle River

"Land of Hiawatha" . . . is the way brochures describe the quiet and beautiful seclusion of the Rifle River and the 27 members of Birdsall's Troop 32 found it to be very true as they traveled down the river from Selkirk, in Ogemaw County last Friday morning.

The 11 men and 16 boys under the direction of Scoutmaster Dick James had as their guest former scoutmaster, Veryl Stephenson.

A retired Tecumseh Products worker, now a resident of Florida, Mr. Stephenson is staying with friends and relatives in the area and his wife will join him here in late June.

Bordered with high, almost cliff-like banks, at times and flat, sandy stretches at others and the forest growing down to the edge, the Rifle River contained many boulders, and rapids to provide a challenging and interesting trip for both the experienced and the new members of the group.

Muskrat, beaver and ducks were a part of the wildlife the boys enjoyed on the river.

Although recent rains deepened the normally shallow river, the traveling time was slower than anticipated when the five mothers joined the group for the last day. They met at Moffat Bridge and made camp. The voyage continued with the boys taking their mothers in their canoes to a takeout point near Sterling, in Arenac County. They had originally planned to go to Saginaw Bay.

Father's Day was celebrated with a picnic lunch on the banks of the river and appropriately decorated cakes brought by the Scout Moms were served with ice cream thoughtfully furnished by Bob Cissney.

During the times of rest and relaxation provided after camp was made for the day, fishing and swimming was enjoyed and several of the men and boys caught and cooked trout.

The loss of the Scoutmaster's movie camera during a canoe mishap was replaced by the generosity of Bill Hiser of Adrian Camera Shop and Bob Cissney of Bob's Mobile Homes, who appreciate the efforts and activities Mr. James provides for the boys. Some of the men met with Don Hostetler of the Conservation League for the radio program "Sportsmen of the Air" and told of their trip.

The boys who have worked in the bean fields to earn money for the troop's expenses, were taken to Cedar Point Monday, June 24, for a day's fun on the rides, free of charge.

In May of this year this busy troop had 45 mothers, fathers and boys attend a family campout on private land jutting out in Bean Creek. Canoeing, baseball, and swimming were enjoyed during the day, with songs, campfire and skits after dark.

INTERNATIONAL GLIDING CHAMP — Architect Jim Smith picked up some more laurels last week, winning in international competition in Poland.

Jim Smith Is New Champ

Jim Smith soared in silent flight to the world's championship of soaring. There are two classes to the championship. Tecumseh's glider pilot competed in the standard class. The contest was held in Lesceno, Poland, last week.

Bad weather hindered the distances of the flight. Weather also limited the pilots to only fly on eight of the 13 days of competition.

There were 60 pilots from 30 different nations, represented in the event.

Mr. Smith was seeded by the United States team to compete in the standard class although he competes in the National Championships in the open class. He is the nation's champion at present, gaining his automatic berth on the U. S. team.

Soaring in the standard class called for him to use a plane different from that which he won the U. S. meet with. He purchased an Elfe glider, designed and built in Switzerland. The glider was returned to Switzerland following the event for re-conditioning and will be brought to the States in two or three months.

Mr. Smith called it a "very, very good machine," and was enthused about its performance.

He compiled nearly 5,600 points in claiming the championship. The routes which the pilots take are triangular. The basis of points is the speed with which a pilot and his craft complete the designated route.

4 Accidents Investigated

Four traffic accidents were checked by Tecumseh police during the past week but none involved injury to drivers or passengers. Only one driver received a citation.

A resume is:

June 25 — Carol Kohler, 18, 203 Iroquois St., and Neil W. Barber, 66, Adrian, bumped at the intersection of Chicago Blvd. and Evans St. Miss Kohler, who reported the mishap, claimed Barber went through a red light. Barber said he had a green light.

June 26—Mary M. Gritzmaker, 67, 8712 Holloway Rd., was cited for failure to yield the right of way after an accident with Warren L. Peck, 45, 509 W. Chicago Blvd. Mishap occurred at W. Chicago and Maiden Lane.

June 26 — Patrolman Roy Hella damaged slightly a patrol car in the Presbyterian Church parking lot. Officer Hella had gone to the church to summon a physician, and upon leaving the cruiser, it rolled back and incurred minor damage on an auto owned by Carson House, 708 Outer Dr.

June 28 — Two brothers were involved in an accident on W. Chicago at Union. Donald M. Raymond, 41, 3008 Whelan Rd., ran into the rear of a car driven by Charles F. Raymond, 36, of 10878 Wisner Rd.

Parade, Dedication for Park Saturday

The Tecumseh Park, formerly known as the Pit, will be officially dedicated this Saturday following an old-fashioned float-filled parade.

Residents of the area who have not visited the Park recently will find that this community can have much pride in the new limestone building and the newly landscaped area surrounding it. There are many changes that even the long time resident will find worthwhile for all ages.

The new building includes a change-clothes area, rest rooms, a snack bar facility, and lobby. A loud speaker system will make public announcements to the Park users more efficient.

Fence has been added to some of the area; new picnic tables will provide more space for families wishing to spend the day there. Grading and sod have also added to the transformation of the old "Pit" into a Park which will grow in usefulness to members of the community.

The Tecumseh United Foundation, through funds contributed by the residents of the city during last year's drive, provided $12,500 toward the construction of the building. $17,500 was received in aid from the state.

The parade, starting at 10 a.m. at the City Hall and proceeding to the Park, will have 18 floats with the 4-Hers and Boy Scout Troop 4 being added to the growing list.

The parade promised to be reminiscent of the old-time parades with the emphasis on fun and recreation. Few autos will be entered, only those carrying specially invited guests and city officials will be driven with the bulk of the parade to be marching units and musical units.

As the parade passes Easton's Service Station a panel of five judges will view the floats before deciding the winners of the three prizes ranging in value from $50 to $20 to be awarded at the close of ceremonies at the Park.

At the Park the dedicatory remarks will be given by Harry Doehne, land and water administrator, from Lansing, who will arrive in the city early that day with his family. Mr. Doehne remarked that he and his family expect to "field-test" the facilities in the afternoon.

The Donald Young family, a Tecumseh family of eight, will cut the ribbon opening the new building officially. They were selected from 100 season ticket holders.

In the afternoon three expert skydivers will test their skills by jumping into the water at the Park. During the afternoon also WLEN from Adrian expects to bring its remote broadcasting facilities to the area to talk to those using the Park that day.

Earlier they will tape the dedication ceremonies for use on Betty Flander's Show later the following week.

During the dedication, which will be held rain or shine, no parking will be allowed in the Park itself. The local police will encourage spectators to park on one side of Adrian Street and adjoining streets and walk into the Park so that there will be adequate space for all to witness the events.

The local Jaycees will operate a concession stand with hotdogs, cotton candy, snow cones, and soft drinks from 8 a.m. till 8 p.m. that day.

Owner Acquires Property Strip

Not knowing whether a strip of land adjoining E. Shawnee St. belonged to the city or to property owners there, Council Monday night authorized a quit claim to Robert Camburn, property owner at the intersection at Shawnee and N. Oneida St.

Irving Shaw, Mr. Camburn's attorney, and James Beardsley, city lawyer, agreed that it was questionable who owned the property.

GROUND-BREAKING SUNDAY — Friends Church will conduct ground-breaking services Sunday for a new church, sketched above. Raynor Van Valkenburg, Joseph Hayden and Ben Ross are in charge of the ceremony, to be held after abbreviated morning worship services. New Modern Dam for Globe Pond?

Although there are hopes that the dam will be replaced at Globe Mill Pond, Perry Satterthwaite, president of Hayden Fuels and Supply, says a decision will probably not be made for another week or so.

He says contracting engineers from Ann Arbor will inspect the site this weekend and expects to have estimates for a new dam shortly afterwards.

Mr. Satterthwaite plans to dike across the mill race this weekend, closing water from River Raisin running into the pond. Evans Creek, however, will continue to provide some flow of water into the pond and through the 45-foot gap where the dam was ripped out.

If a new dam is constructed, it will be a more modern and better type. The bottom portion of the washed-out dlam was built by Judge Blanchard and associates in 1836. About 1925, Mr. Satterthwaite rebuilt the upper portion.

Hayden Fuel owns the water rights on Globe Mill Pond and provided power locally for Consumers Power. Ownership also includes the pond property, Standish Pond and some adjoining land.

Fireworks July 4th

Tecumseh's annual fireworks display will be held July 4th, Thursday evening, with the display scheduled to start about 9:15 or 9:30, at the high school athletic field.

Sky-divers will kick off the night's festivities with jumps into the football field. They're scheduled to land about 8:45.

In case of rain, the fireworks display will be held Saturday evening, according to Don Moffatt, Tecumseh's Recreation Director and secretary of the Chamber of Commerce, sponsoring organization.

Jim Fielder will be in charge of the display.

Many Donate Help at Plant

Swollen River Raisin crested about 2 p.m., Wednesday of last week around Tecumseh's sewage disposal plant.

Tecumseh Products rushed about 50 men to the plant to help fill sand bags. Although local firemen assisted, additional help and equipment came from Raisin, Madison and Fairfield Townships.

Elevators contributed bags, and Richardson Sand & Gravel hauled in two truckloads of sand. Consumers Power stood by in case it was necesary to cut off power. Many individuals also helped.

After the water crested, work stopped. City officials kept watch, however, throughout the night.

City Manager Cal Zorn estimates cleaup costs at and around the plant could run as high as $2,000.

C. P. Works Long for Gas Service

Consumers Power workmen labored into the dark hours Wednesday night of last week to continue gas service to 137 patrons, north of the River Raisin bridge on N. Evans St.

The company cut its gas line at Water St., hooked up a temporary line, ran it across the bridge, and then hooked into the underground line without interrupting service.

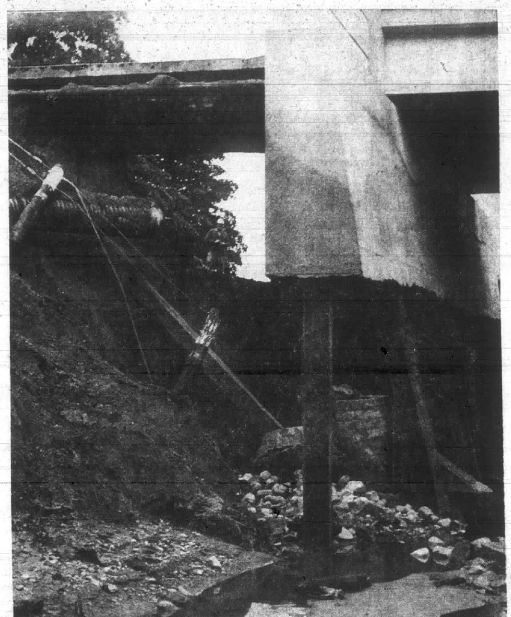
Four men from Tecumseh and six from Jackson were involved in the work. They as well as other workers, have expressed appreciation for food and coffee brought to them by local women Wednesday night.

M-50 and M-52 Mishap Again

The intersection of M-50 and M-52 was the scene of another collision at 5:20 p.m. Sunday, when a driver failed to observe proper caution after stopping for the blinker light.

Sister Alma Marie of St. Kevin School, Inkster, was given a summons for failure to yield the right of way when she stopped at the intersection then drove into the path of a westbound vehicle driven by Beryl Trumbull, 40, of Toledo.

Trumbull received bruises and a son, Michael, 12, one of five passengers, was more seriously injured, requiring treatment at Herrick Memorial Hospital.



GAP CLOSED — This mammoth hole, created last week by a swollen River Raisin, was completely closed by workmen and readied for traffic Monday. Although engineers could find no damage to the bridge, city costs are expected to top $20,000.

River Raisin Bridge Open; Costs $20,000

Closed for over five days, Tecumseh's N. Evans St. bridge over River Raisin was opened to traffic Monday afternoon when workers completed filling a big gap left by last week's flood.

Officials had earlier predicted the bridge would be closed for a week, hoping to open for the July 4 traffic. The city's main route north would have been closed for months if water had damaged the bridge.

City Manager Cal Zorn told Council Monday night that the estimated cost to repair the bridge's approach was $20,000. He also told officials that it would be probably another three months before all work is completed, including new pavement.

Monday afternoon, workmen packed stone for a surface and then expected to seal coat for a temporary surface Tuesday.

Discussion as to why the river washed out the bridge's south approach was held at the Council session. The city manager said, "we could have saved this mess if the gates to the dam had been opened." This was in response to a question from Councilman Carlton Cook.

James Beardsley, city attorney, stated the Tecumseh Products, owner of the dam, definitely has a liability. Mr. Zorn said the bridge is on a city street and belongs to the city and is the city's responsibility.

He told officials that he had met with Kenneth Herrick, TP president, and was asked if the city would like to take over controlling the dam and its gates.

A couple councilmen wondered if this also meant maintaining and repairing the dam and its gates. Although no value was placed on the dam itself, Mr. Zorn said $125,000 would not replace the present bridge.

City officials hope to meet again with company officers and reach some agreement as to controlling the gates.

Last Wednesday after nearly four inches of rain fell in the area, River Raisin ripped out the south approach to the bridge. Gates to the dam were locked and officials had to cut the locks off.

In the meantime, rushing water widened the gap under the approach, forcing closing of the bridge and street.

The Lenawee County Road Department joined city workmen at the scene and shortly afterwards by Ayling-Cunningham and Art Brady's men and equipment.

Late Wednesday afternoon, officials shoved four, old wrecked cars, stumps, and other debris into the gap, to slow down the torrent of water. Gravel was then hauled in to completely close the opening.

Thursday, Friday and Saturday, construction gangs hauled gravel, packed it underneath the road and around the dam and spillway. At one time, a cave-in tipped a bulldozer against an abutment, but the driver escaped injury.

Some time Friday night or early Saturday morning, a large portion of the pavement fell into the hole. Workmen discovered it Saturday morning, and then had to break it up with a crane and large ball. At that time, it was hoped to have the bridge open the Wednesday before the 4th.

Work progresed rapidly during Saturday, and it was evident Monday that the bridge would be opened soon for traffic.

Assistance Appreciated

Assistance poured into Tecumseh last week when River Raisin closed the bridge on N. Evans St., and knocked out the Globe Mill Pond dam.

Cal Zorn, city manager, cited the different organizations and individuals at Council Monday night. He said there were probably others who assisted, but were unknown to him.

- He asked that letters of appreciation be sent to:
- Lenawee County Road Commission and William Burchfield.
- Tecumseh Products.
- Jaycees and Auxiliary.
- Lenawee Emergency Volunteers.
- State Police.
- Sheriff's Department.
- Consumers Power.

Do you like juicy, barbecued chicken and plenty of it? Then you're invited. Come to the Lenawee County Fairgrounds from 11:30 a.m. to 3:30 p.m. Thursday, July 4. The Illinois Exchange trip delegates and the 4-H Project Mothers (this includes many local people) will serve barbecued chicken following the 4th of July parade. SSS-SS-ss-s-s BOOM!! **Jim Fielder** is going to do it again. He has volunteered to light the fuses for the Fourth of July fireworks, furnished by the Tecumseh Chamber of Commerce for all Tecumsehites.

Two busloads of happy **THS Senior Bandsmen** went on a field trip Saturday, June 29, to Cedar Point. They were accompanied by **Band Director Donald Johnson** and **Assistant Director Gerald Bach.** The band played several numbers in the park there, and had a day packed full of fun.

Band records are still available at **Flanders' Music Store,** for $2.75. All proceeds go to the band for new arrangements and additional uniforms.

Who says time change? **Touch of the Past** has a timely item from 1878 in reference to the bridge at Brownville.

"Taste pretty good?" "Yeah, it did, I didn't have anything to eat after I got out of work at 6 p.m." This was the line of conversation concerning the food dispensed to the workmen last Wednesday evening as they worked on, trying to keep the North Evans St. bridge intact. **Mrs. Wallace MacGeorge and Mrs. Mahlon Sebring** served chili, sandwiches, cookies, doughnuts and coffee about 10 p.m. from the rear of the emergency wagon. Much of it was furnished by townspeople. Good ol' Tecumseh. There's some places people don't care.

Everyone is disappointed when the newspaper is unable to use the picture of the bride and it happens time and time again. Those people who wish to use polaroid or instamatic cameras to take the bride's photo would do well to stand within a five-foot distance of the subject. Let's get close. She is always radiant and lovely to cuddle.

Keep an eye out for flowering litter containers. We hear that there is a surprise in store for everyone on the **Little Garden Club's** dedication parade float.

A quote which applies for the **Fourth of July** or any other time for men with minds and determination is **Milton's** "Give me liberty to know, to think, to believe, and to utter freely according to conscience, above all other liberties."

Clara Waldron is flattered by the numerous phone calls she has been receiving but she isn't handling the sale of her book. Notice will be printed in The Herald as soon as the books are available.

"We learned to keep house," **Mrs. Percy Cadmus** chuckled as she told of the Homemakers Conference last week on the Michigan State University campus that she and **Mrs. Clay Croll** attended.

YOU TOLD US

By DOROTHY GRIGG

Thursday we will celebrate the birth of this nation. A short time ago we observed Memorial Day in memory of those who paid the price to keep it alive and free. In these violent times, in which we live, we must all re-examine our souls and our loyalties, lest this great nation either perish or sink into anarchy.

This bit is lifted from the summer publication of the International Institute of Toledo and seems to have meaning for us on this July 4.

Certainly it is the responsibility of every citizen to do his or her utmost to maintain the freedoms of this country as designated in the "Declaration of Independence" signed by those great men of vision on July 4, 1776.

David Porteous in Africa Operation

David Porteous, son of the Rev. and Mrs. Donald Porteous of the Tecumseh United Methodist Church, left June 22 for a summer in Africa as a member of the Operation Crossroad program.

DAVID PORTEOUS

Students from 100 colleges and universities engage in this educational and worthwhile program and come from the United States, Canada, and Latin America. This year 3500 students applied with 226 being selected. James H. Robinson is executive director of the privately financed national program.

David had his orientation of five days at Westminster College of the University of Western Ontario. On June 29 he left Canada via London and Cairo for Tanzania. The cost for the summer program is $1,925 with $800 being financed by the Crossroads organization and the balance being raised by the individual student.

Joining David in his group will be eight other students who all fly to Nairobi, Kenya, and then take a train to Dar Es Salam, capital of Tanzania. This country is of special interest to David since he did considerable research on it for a college term paper.

Having completed his junior year at Albion College, David says that the group will be working on community development projects in villages in the vicinity of Morogoro Teachers College, located about 200 miles east of the capital city. When the students are not working they will have the opportunity to travel around the country seeing the highlights of the geography such as Mt. Kilimanjaro, Lake Victoria, and the Seregeti Game Reserve.

David believes that all of the participants will return having gained a clearer understanding of the social, economic, and political situations in Tanzania due to being able to see first hand the developments in agriculture and industry and to meet leaders in various aspects of political life.

Robinson, director of this pick-and-shovel Samaritan group, tells his recruiters, "Make it plain that Crossroads is neither a tourist joyride nor a safari, and that only the tough-minded, serious and dedicated need apply."

Before leaving David summed up his coming adventure in this way, "Sounds like I'll be busy."

This broad program with a formula for dissipated discord between blacks and whites is explained in interesting detail in the July 1968 issue of the Reader's Digest in an article entitled "Operation Crossroads Gets to the Heart of Africa."

VFW and Eagles Play Extra Innings

In Pony League play Monday the VFW downed the Eagles in extra innings, 5-4. Tom Prichard picked up the win in relief of the starter, Richard Smith.

The Eagles scored three runs in the top of the seventh inning on a walk to Louie Rebottaro, Roger Ashenfelder reached first safely on an error, Sam Whitney flexed his muscles and drilled a triple to score both runners. Don Cox then came through with a single to score Whitney and the Eagles led, 4-1.

The VFW battled back in their half of the frame to knot the score at four-all. Tom Prichard walked, Joe Bailey was safe on a play to the plate when Prichard scored. A walk to Mike Murphy and a wild pitch put Bailey and Murphy in scoring position. Steve Hallenbeck then hit a two-run double to force the game into extra innings.

In the ninth, for VFW, Tom Prichard reached base safely on an error, Kim Beard walked and Hallenbeck again came through with a run-scoring single that broke the tie and eventually won the game.

This is his 2nd meet of the year, in his first meet, he placed 4th in the District A.A.U. held at Balboa Stadium in San Diego.

Having attracted athletic scouts from San Jose State, Stanford, he feels very strongly about his future in sports.

Thomas is the son of Mrs. Charles Thomas of Moscow, Mich. He is attached to Fleet Composite Squadron Three (VC-3), NAS North Island, San Diego, Calif.

Prior graduating from Tecumseh High School and attending Abilene Christian College, Abilene, Tex., Thomas entered the United States Navy on Sept. 1, 1966, at Adrian.

The VFW jumped off to a 3-0 lead in the top of the second. The Eagles came back with a single run in the bottom of the frame. Lone runs were scored in the third and fifth for the VFW to give them a 5-1 lead going into the seventh stanza.

In the 10th inning, walks to Mike Steele and Mike Tilton, a double by Steve Hallenback and a two-run single by Kim Beard put the game away for the VFW.

Tom Prichard picked up the win and Mark Murphy took the loss. Steve Hallenback singled and doubled for the winners, to take hitting honors.

Brad Sisson picked up the win, striking out 10 and giving up four hits. Dave Williams struck out eight.

The Tigers threatened in the top of the sixth, but Mike Moffatt speared a line drive and turned it into a double play to end the game.

It was a clean contest in the field as well as a well-pitched ball game, the three errors by the Tigers in the fourth were their only ones for the night. The Red Sox committed one miscue.

26 Runs In Gals' Big Win

The local gals started the game with a walk to Loretta Vogel, a single by Wendy Ehlert and a home run by Emily Manwaring to give Tecumseh three big runs.

Clinton wasn't to be denied however and came back with seven unearned runs after two were out in the second. Tecumseh scored four runs in the second inning to make the score 8-7 in Clinton's favor. The big hit was a triple by Loretta Vogel.

Clinton scored one run in the third and sent eight batters to the plate to score three more runs in the fourth.

This ended Clinton's scoring for the evening as winning hurler Jackie Rodgers substituted for starting pitcher Vivian Williams in the fifth.

Linda Young and Loretta Vogel walked to start the fifth for Tecumseh and Peggy Martinus singled them home to give Tecumseh a 12-12 lead. Jackie Rodgers doubled, Brenda Watson singled her home in the sixth to end the scoring for Tecumseh.

Emily Manwaring led the Indian attack getting 4 for 4. Mary McDermott got 3 for 4 for Clinton.

VOICE of THE HERALD

We Won't Forget

Wednesday of last week Tecumseh was in trouble.

It was in danger of losing a main bridge over River Raisin, had seen one dam go and Globe Mill Pond vanish with it, and rising water was threatening the sewage disposal plant. River Raisin was on a rampage.

Calls for help went out and help came. Our friends responded, and if anyone was more appreciative, it was our local government.

Bill Burchfield and the Lenawee County Road Department with equipment, manpower and advice were among the first on the scene, as were Art Brady and his gang and trucks, Dean Cunningham and help from Ayling-Cunningham. City of Adrian arrived later and had ttrucks running. Consumers Power cut a gas line, and then installed a temporary line for folks north of the river.

Raisin Township — once considered at odds with Tecumseh — brought pumps and help to battle rising water at the disposal plant. Madison and Fairfield Townships also pitched in. Others, including Dundee, Clinton, and Milan offered assistance.

The men worked hard and long. Tecumseh's Jaycee Auxiliary and other ladies in the community kept them going with sandwiches and coffee.

Local police received assistance from the State Police, Dick Germond's sheriff department, and the Lenawee Emergency Volunteers.

June 26 will be a day to remember for Tecumseh. It was tough and costly, some $20,000 to $30,000.

But, perhaps, there was some good. Folks here learned quickly that Tecumseh has a lot of friends — and don't think they will forget it.

The community, from City Manager Cal Zorn and Police Chief Murell Clark to all the citizens, extends a vote of thanks to all of those who helped and offered to help.

We in Tecumseh can also pat our own officials on the back for a job well done.

Pastorate Exchange

The Rev. Frank Hawthorne of St. Peter's Episcopal Church and the Rev. Francis H. Outram of Battle parish, Sussex, England, are planning an exchange of parishes for the year beginning the first week of October.

The Rev. Outram and his wife will come here in the fall to officiate and serve in this diocese as the Hawthornes go to England.

A son and daughter of the Outrams will remain in college in England but the Hawthornes are planning to take their children with them for the year.

Russell Cooper will assist the Rev. Outram and the Rev. Charles Sturm of Clinton and the Rev. Jack Warner of the Christ Episcopal Church, Adrian, have also promised to assist with emergencies when the local clergy is not available.

'Barefoot' Opening

Neil Simon's smash Broadway success, Barefoot in the Park will open the 1968 summer season at the Croswell Opera House in Adrian on July 4.

Simon's mastery at comedy is amply displayed by a community as well as professional core company of actors that includes in the cast of Barefoot, Sue Wentz, Mike Metzel, Jeff Wagner, Guy Miller, Judy Vanzo and Bill Sanford.

The show will be performed on July 4, 5, 6, 7. The season at the Croswell is a modified repertory and therefore the Simon comedy will be repeated on July 14. The second play in the series will be Tennessee Williams' poignant drama of a spinster's thwarted love for a wild and adventurous doctor. Summer and Smoke, the third offering, will be Lionel Bart's musical adaptation of Charles Dickins' Oliver, the little boy all Broadway fell in love with during the 1963 season.

The final play to be performed will be Once More with Feeling.

Dates for Summer and Smoke are July 11, 12, 13, August 2 and 4. Oliver will be offered on July 18, 19, 20 and August 1, 3, 10 and 11. Once More will be done on July 25, 26, 27, 28 and August 8 and 9.

Judy Vanzo, who is cast in Barefoot, has appeared often with the Tecumseh Players. Our Readers Write

TO THE EDITOR:

I am sending you a copy of a letter being sent to the Detroit Federation of Musicians, which is a union that many teen-age bands belong to, in hopes that you will print it in your "letters to the editor", and thereby letting the people of Tecumseh know that the band that played for our Teen Club recently was an exception.

I hope we can stop them from doing anything similar to anyone else in the future.

"Detroit Federation of Musicians
"7451 3rd Street
Detroit, Michigan 48200
"Attention: Mr. Fred Crissey,
Secretary
"Gentlemen:

"For the past 2½ years, I have been the advisor for the Teen Club in Tecumseh, Michigan. The Teen Club consists of boys and girls who are between the ages of 13 to 18 (approximately). They become eligible for membership immediately after graduation from the 8th grade.

"It is a non-profit organization whose purpose is to provide the teen-agers with a place to go for a good, clean, enjoyable evening of fun.

"Some time ago, we started hiring bands for our dances through a couple of different agents, one of which is the Mike Quatro, Inc., of Grosse Pointe Farms. In the past, we have been well satisfied, however, we recently had an experience which I feel should not go by without mention.

"We notified the Quatro Agency that we were in need of a band for a dance on Wednesday, June 19, 1968, and asked for their assistance in securing a group. It was through the usual procedure that we hired the 'MC-5'.

"On the night mentioned, the band arrived as scheduled and proceeded to set-up in the usual manner. Everything went smoothly until after the first break.

"Shortly after they resumed playing, the lead guitar player concluded a number by lifting his guitar into the air, exposing not only a rip in his pants, but, the fact that he was not wearing any shorts and, thus, the exposure of his 'personal self'.

"An accident!? Undoubtedly, this could happen to any band member who wore extremely tight pants — but — it seemed that even the lead singer played it up too much. His comment, at this time, was to the effect — we'll have to wait, the guitar player has ripped his pants and will have to change.

"If this had been the end of it, I wouldn't have thought any more about it, but this happened at least two more times during the evening, to the same man, and each time with a different pair of pants. Coincidence?

"With school just out, many of the attendants were 8th grade graduates who were attending their first Teen Club Dance. If they went home and told their parents of this 'display', what are the parents thinking? What would you think? I'm the advisor and hire the bands; will they blame me and think I approve of this type of thing? How many others in my position have been or will be blamed innocently?

"I will never allow this group to play for us again, but, that doesn't stop them from playing in front of hundreds of other teen-agers. I can't help but feel that this type of sensationalism is going much too far.

"The teen-agers, themselves, did not approve of this action and said it was in bad taste. Many of them were very much upset by it.

"We paid $180.00 (hard earned dollars) for this group and in our opinion, for that price, we sure got 'CHEAP' entertainment.

"What can be done? We've gone this far, now it's in your hands.

"Very truly yours,
"Tecumseh Teen Club
"(Mrs.) Darlene L. Moore,
Advisor."

TO THE EDITOR:

Tecumseh private ambulance service ceased at midnight Sunday, June 30. It is with mixed feelings that we discontinued ambulance service. This also includes the Clinton ambulance, too.

We wish to express sincere thanks to all the doctors, Herrick Hospital, the Tecumseh Police, Michigan State Police, sheriff's department and fire departments. All have been very considerate for the many years we have operated in this area.

For 17 years, three and one-half months, we have been on duty 24 hours a day, seven days a week, 52 weeks a year, to give our areas a full and knowledgable service of which we have been proud. With the new laws and government regulations on ambulances and labor, it is no longer sensible to continue.

Again we say, thanks to all, and we hope the incoming ambulance will serve the area with sincere interest for all the people.

Proctor Funeral Homes,
Lester D. Proctor, Owner.

TO THE EDITOR:

Exactly 10 years ago I purchased the Green Funeral Home. During the last 10 years society has seen many drastic changes, and among these has been the ambulance situation. Whether one agrees with these changes or not, a successful business or profession must abide and change with them.

I am proud that during these years we have provided the same ambulance service to rich or poor, day or night and in all kinds of weather.

As I discontinue this service to the community, I only hope that the service we receive will be of the highest quality.

Many, many thanks,
Dunn Funeral Home
Douglas E. Dunn.

TO THE EDITOR:

I am sending a check for renewal of the paper, which we look for every week.

We had 115 degree temperatures four days last week. It is a bit cooler now. 107 days and no rain yet.

We were so glad to have Faye and Florence Van Valkenburg out here last winter. Also Al, Doris and Richard Bagshaw. We will be glad to see them this winter again.

Have grown watermelons muskmelons, white grapes and apricots are on the markets now.

Vern set out tomato plants in November and we had our last tomatoes a week ago.

We will leave here first week in July to visit our son and family in Worthington, O., and then to Michigan.

Sincerely,

And See the Rivers How They Run, Thru Woods and Meads

By BILL SANFORD

This writer and a photographer started out last Friday on a safari in Tecumseh. Without leaving the city limits we encountered a jungle of the first magnitude.

We left the office not looking as two characters from a Hemingway novel might look, but more like two misplaced G. I.'s from the saga of Willie and Joe.

Our destination was this island. To go back into time, last Wednesday the dam broke on the Globe Mill Pond and it drained not only that, the bridge to the island was attached to the dam and was no more. Information reached the office that this man was stranded on the island. So, being diligent members of the press, you can't let the story of the year or perhaps the picture of the year elude you without a battle cry of "This should be interesting".

It was easy to get there — we went west to Union St., north to Staib Rd., east on Staib Rd., and then south on the Tecumseh-Clinton Rd., then back east on Burt St., to the dam just off Burt St. An hour out of town and we had to refuel.

We left our transportation at camp one, just above the dam. There was a logical reason: when scared, I can outrun any Ford Motor product, and I was scared.

Soon after we waved a last farewell to civilization, we came upon a cheering throng of mosquitoes. Three or four near-sighted ones even attacked our cameras. We gave them the name of a good optometrist and put them back in the bushes to heal their stingers.

It wasn't long before they became thicker and we began to realize that we had come upon the insect version of Resurrection City. These deprived mosquitoes and such, were long without human company. Walking on the dike, which separates the island, we came upon a wider river even these poor insects were afraid to fly across.

The photographer, as we reached camp two, suggested that we use a boat, the banks were lined with them. However, there was a mosquito in the ointment, the boats were on the other side of the river. Both of us were experts in the fine art of drowning, or at least felt as such.

At camp three we met upon a hardy soul cutting a path through the wilderness. Oliver Blum had driven over to the island on Tuesday night just before the rains came. With the collapsing of the dam Mr. Blum was stranded on the island, with a pickup truck equipped with a camper.

His welcome was warm and congenial. He took us on a tour of Devil's Island.

Mr. Blum likes the island, he has been going there since 1917. Henry Ford owned the farm at that time and about 10 years later the Blums built a cabin on the land. None of the owners through the years have expressed any wish to sell the land, so the Blums have owned the cabin and leased the ground.

The 68-year-old veteran of WW II viewed his plight with a kind of humor that you find lacking in this day and age. He shrugged it off with "I came over here of my own accord, no one told me I had to come over here, so why worry about it. You fellows got in here so maybe now they'll come after me".

Mr. Blum offered coffee and freshly-baked peach pie to his two weary, stung adventurers. Sitting in the cabin at the dining room table, with a good memory, you could hear the waves lapping up against the beach.

Mr. Blum likened his present state to that of one he found himself in during the war. He was on a troop train going over the Utah salt flats and didn't have one drop of seasoning for his boiled eggs. He said, "I have a problem with water. There are hundreds of gallons going by but not a drop to drink. I was going to wash some clothes but then I thought there isn't any water except that going by out there and I have to make coffee and shave. Oh, well, I'll walk up to Burt Street maybee . . . . . "

After we had been fortified with calories we decided to make our departure. The photographer had to be back for a picture on a passport, then the thought struck me: here we are and no American Embassy to call upon if that cheering throng of mosquitoes were to deny us exit from Tecumseh's Island of No Return.

There is a story in America that some Hollander bought an island for a fistful of beads, well there is this island and who knows, maybe they'll write a song about it. Neither one of us being the psychedelic Mr. Stuyvestant, did not purchase the island.

Before our departure we rearmed ourselves with Raid and film. The photographer, who is young and inexperienced at cowardice, remarked, "Hey, save one shot in case we run across a rattlesnake of a moccasin".

If he thought I was going to take a picture of a rattlesnake he was mistaken. Who would walk up to a deadly beast and utter, "Hey, buddy, bite me, there's this nut who wants to win the Pulitzer Prize with a picture of me dying".

There was something good on that island. In this modern day and age we ran across a bit of privacy and aloneness and contentment within. Mr. Blum's outlook on his situation was refreshing. Too often we take little crisis in our lives too seriously. His was something serious.

For one thing, next week he was hoping to le[illegible]'ska. Due to the conditions on the road he is cutting through the island to the dam off Burt St., it may be a week before he is able to be pulled through some of the rough spots.

'Oh, well, if I don't make it, I don't make it." On the trail which he was working on, he grinned a pleasant grin and shrugged his shoulders, [illegible]

When we were nearing camp three on our return, we ran across Mr. Blum's brother who was coming to aid in the recovery. Both were unannoyed and viewed the conditions with a wry humor. It was a good feeling to know someone who can still laugh in the face of adversity.

They waved goodbye at us as [illegible] our way through the jungle. "Come back over when you get the chance," they called. Ah, yes, ah, yes.

Mr. Blum, when you go to Alaska, now there's this thing about icebergs and, oh well, maybe our young photographer can take a picture of an iceberg with a grown man crying. And goodnight Joseph Pulitzer and Mr. Blum, wherever [illegible]

—HERALD PHOTO BY BILL SANFORD

WITH SAW IN HAND OLIVER BLUM PONDERS THE OTHER WAY OUT.

TWO HEADS ARE BETTER THAN ONE — Mr. Blum's brother came to his aid in attempting to carve a way through the island underbrush to the bridge. With a grin they invite their visitors back for a visit.

QUESTION:
"Why do funeral directors object to having families give consent for an autopsy?"

ANSWER:
The great majority of funeral directors cooperate fully with hospitals and physicians regarding the value of autopsies, when death resulted from unusual or questionable causes. Many funeral directors do object to unnecessary autopsies.

Recovery of Normal Vitality

Once the cause of a bodily disorder has been determined the adjustments have been made to correct the cause and the healing forces of nature have started to work, it is necessary to restore the body to its normal vitality.

Tissues which have been starved for months, or even years, may require months or years to recover that which has been lost to the demands of normal daily activity. Besides restoring the body itself to normal vitality, the proper mental outlook likewise may have to be restored. Long periods of ill health may produce a dim, negative outlook which must be overcome.

Good, positive reactions to competent chiropractic adjustments coupled with bright, positive outlook for the future combine to make the recovery period more pleasant and recovery more rapid.

At the same time, it is the individual's responsibility to maintain and protect the body from harmful pressures and impingements which could retard the recovery capacity and the recovery process. Another Health and Life Article from the Office of:

Through My Window

SCRATCH FEED, CORN AND ORANGES, cont'd.

Well, let's see, last week we were trying to share a bit of our red-headed woodpecker fun with you. They are still performing nicely and, we couldn't be happier.

According to the book, both the male and female red-heads dress alike. Theoretically, yes, but in actual practice, there is a difference. At least with ours' there is a difference.

I will admit that at a distance both are white of stomach, black of back and oh, that beautiful red head. Incidentally, this is our only woodpecker who has a completely red head, others have patches or crests but these fellows pull their red hoods completely over heads, throats and way down to their shoulders.

It is when Mrs. Red-head visits the near-the-window feeder that we see the subtle difference in her coloring. Her mate's red head meets his white breast in a sharp, definite change from scarlet to white. She, however, wears a delicate necklace of black to separate the two colors.

A year ago we could have talked about her showing a lady-like interest in jewelry but with the beads and pendants looking so good on those attractive turtlenecks — well, jewelry is no longer a prerogative we girls can exclusively enjoy.

★

THIS CLOSE-UP dining they do has also afforded some interesting looks at those most woodpeckerish tails. They are short, very stiff and the two longer feathers end in bare tips which are almost spike-like. What could be more perfect as a prop or brace to lean against when clinging to the side of a tree and banging away "for all you are worth" to capture a bark grub or beetle.

As mentioned before, I am almost sure that our two red-heads are a pair. A happily married pair, I hope. There are many skeletons of once proud and beautiful elm trees across the creek and it is fair to assume that one of them is "home-sweet-home".

High on one of the by now almost barkless trunks they could have chiseled a nest cavity. A few carefully arranged wood chips on the floor of the nest would serve as a soft (?) cushion for the usual clutch of five pure-white eggs. We did not see the construction work but our fingers are crossed that it actually happened.

Wouldn't it be nice to have some brown-headed red-headed woodpecker youngsters join their parents at our free lunch counter?

The kids really do have brown heads and, according to Mac, they are hardly recognizable as belonging to their parents. Is it only wishful thinking — no, just lately the two big birds are acting as if they were feeding babies.

They make repeated trips to the feeders, scoop up bills full of scratch feed or twist off kernels of corn and zoom away.

They usually go across the creek but to what exact tree we do not know. Mom spent part of one afternoon on the porch trying to spy on them — they are experts at outwitting people, though: one time they would fly north and another time south. She never did see them take a direct route.

★

LORD AND LADY Baltimore Oriole are apparently busy with family raising chores and no longer have time for any orange eating.

Our supply of Florida's finest, or are they from California this time of year?, anyway the oranges are not wanting for nibblers. The red-headed woodpeckers took over when the orioles quit.

So it is that it may sound like a rather peculiar diet to us but we are most happy that the beautiful red-headed woodpeckers seem to enjoy our offerings of scratch feed, corn and oranges.

Waldman Amusements Has Something For Everyone

Fun for the family is provided by Waldman Amusements in three areas — on US-12 in the Irish Hills, at Devils Lake and on Monroe St., in Toledo, only a half hour's drive from Tecumseh and less than an hour from the lake area.

The Wee Tee Golf course in the Irish Hills is located at the entrance to Hayes State Park. The setting for the miniature course covers nearly an acre of prettily-wooded land. Playing time is about an hour..

Mike Jonas, the manager, has been there for nine years.

The Devils Lake public golf course is one of the toughest in the area, located on US-22 at the north end of Devils Lake. It is regarded as one of the finest in the county, measuring 3,100 yards in distance and has a par of 36.

It has two par five holes, two par three and five par four holes. The greens fee is $2 for week days and $2.50 Saturdays, Sundays and holidays. This is an all-day rate, one can play as many holes as he wishes at no extra charge.

After 6 p.m. every day the greens fee is $1.50. Electric cars and rental clubs are available. The finest golf equipment is on sale at all times. Hagen, Ultra, Wilson Staff and Spaulding Executive with the new aluminum shafts are in stock.

Ed Waldman is pro and Jim Massey is the assistant.

Next to the big golf course, a Wee Tee Miniature course is located as well as Dodgem Bumper cars, Flying Cages, Ferris Wheels and many other rides.

Waldman Amusements has a complete kiddieland in Toledo on Monroe St., as well as adult rides and three super 18-hole miniature golf courses, among the finest anywhere in the country.

Every Wednesday from 3 p.m. until closing, all kiddieland rides are 10c and Saturdays from 3 p.m. on, there is a special which permits the children to ride as much as they like for $1.

The Amusement Park location is easily found by traveling southeast on US-223, only a few minutes from Sylvania watch for the Giant Ferris Wheel.

Certainly any vacationing family would find much of interest at any of the three places of entertainment provided by Waldman Amusements.

FROM SEA TO SHINING SEA

THE CHURCH FOR ALL . . .
. . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Fourth of July, and, from sea to shining sea, our flag flies proudly. Across the nation, school bands parade, fireworks splinter, and hometown newspapers carry full-page dissertations on what it means to be an American.

And I wonder. In these troubled days of dissension and White House pickets, what *does* it mean? Does it mean free speech without responsibility? Does it mean moral freedom that lacks integrity?

To be sure, an American today is a citizen in a changing world; but the things that count have not changed. Inalienable rights still require us to account for our deeds.

As our ancestors migrated across this vast continent, the Church moved with them. It taught integrity, responsibility, and a calm strength in the face of danger.

In today's world of unrest and contention, the Church remains steadfast. The principles it teaches still point the way for us to be a "nation with liberty and justice for all."

Frost Never Forms in a Frost-Free Refrigerator

Waiting for the ice to melt so you can mop up the drippings? Well, put that mop and pan away! Don't wait another day to end the chop, slop and mop of defrosting! Replace your old frost-builder with a modern refrigerator-freezer that's completely frost-free in *both sections*. Once you see the new refrigerator-freezer with its sleek good looks, wonderful "supermarket" capacity, storage bin that's automatically kept full of ice cubes, and the *no defrosting ever* feature — bet you'll say good-bye forever to mopping and start shopping for a new, frost-free refrigerator-freezer!
